State Initiative:* Workforce

Is this a Large IT project? No

Is this request for a new program or service? No

Request explanation and justification (include any statutory authority)*: "The North Dakota University System is facing tough financial decisions for each institution. The proposed 3% budget reduction would lead to staff and faculty layoffs alongside cuts to academic programs. Reducing staff, faculty, and academic programs would diminish our core mission and ability to provide the needed workforce for North Dakota.

242 Valley City State University

Agency 242

Our institutions rely on the funding formula to plan and make strategic decisions for future academic programs and operations. Implementing an additional 3% reduction alters the ability to plan and make adjustments. Currently there are seven institutions who will experience general fund reduction, approximately \$11.3 million, due to decreased credit production in the funding formula. Those institutions are in the process of planning for the \$11.3 million in general fund reductions.

Our System has dedicated faculty and staff, whose expertise and commitment provide success in our academic excellence. Reducing FTE numbers would diminish our capacity to deliver quality education and erode morale. Cutting academic programs would limit opportunities for our students, diminish our competitiveness, and undermine our ability to attract and retain top talent."

Necessary resources for implementation (including FTE's)*: N/A

Are resources being redirected or are they new or additional (including FTE's)*: N/A

Who is served and impact of not funding*: N/A

Inflation Factor Increase (Priority: 02)

State Initiative:* State Facility Investment

Start Date (MM/DD/YYYY): 7/1/2025

End Date (MM/DD/YYYY): 6/30/2026

Description: As the focal point of main campus, McFarland Hall houses the majority of the administrative offices, several academic departments, and many classroom spaces. This project would be a full HVAC removal and replacement, roof repairs, tuck pointing, and window replacement to make the building more energy efficient.

Statutory Authority

ND Constitution Article XIX, Section 216

Agency Description

A referendum in 1894 stated that a school of forestry should be located in Bottineau, North Dakota, to provide, in addition to forestry, comprehensive community college curricula. The North Dakota Century Code also identified the role of Dakota College at Bottineau as offering programs in agriculture, forestry, and horticulture. Since then, the college has expanded its natural resources programming, and has also added programs in other areas that serve the needs of its constituents. For example, business, information technology, allied health, and general education/liberal arts courses now comprise a majority of the college’s inventory of program offerings for students enrolled in transfer, career and technical curriculums. For over 100 years, as the North Dakota School of Forestry, NDSU-Bottineau, MSU Bottineau, and Dakota College at Bottineau, the institution has prepared men and women to become contributing members of society.

An institutional name change from Minot State University-Bottineau to Dakota College at Bottineau did not change the college’s affiliation with Minot State University. That affiliation continues to grow even stronger.

Agency Mission Statement

Dakota College at Bottineau provides a quality education in a caring environment.

Major Accomplishments

-
- 1 Through numerous partnerships and with a combination of federal and local funding, DCB recently renovated and opened an educational facility in downtown Minot. Dakota College Downtown will house a variety of career and technical education programs in the coming years.

 - 2 The DCB Dental Assisting program achieved initial program accreditation through the Commission on Dental Accreditation (CODA) and began admitting students during the Fall 2024 term.

 - 3 The DCB Dental Hygiene program is under development, with an anticipated opening date of Fall 2025. The program has been approved by the Higher Learning Commission (HLC) and will be reviewed by the Commission on Dental Accreditation (CODA) this fall. Preparations are underway.

 - 4 DCB supports three sites within the Dakota Nursing Program consortium – Bottineau, Minot, and Valley City. Graduates of the program are highly successful, evidenced by the recent 100% pass rate achieved on the National Council Licensure Examination (NCLEX).

 - 5 Renovation of Old Main on the Bottineau campus has progressed smoothly. The project should finish on time and on budget, with final occupancy anticipated early in the Fall 2024 term.

 - 6 Financial ratios at DCB remain solid. The Composite Financial Index (CFI) was 4.40 for FY24, compared to 3.21 for FY23.

 - 7 Enrollment in terms of both headcount (HC) and full-time equivalency (FTE) remains stable. HC rose from 1,080 in Fall 2022 to 1,180 in Fall 2023 and FTE moved from 550 to 575 during that same timeframe.

 - 8 An accreditation review conducted during Spring 2024 through the Higher Learning Commission (HLC) resulted in no findings. The institution successfully mitigated all previous concerns noted in the Spring 2020 review.

Critical Issues

- 1 Growth in deferred maintenance backlogs continues to be of concern. Recent renovations supported at DCB have mitigated the issue for some buildings, but other buildings continue to demand attention.
- 2 The three residence halls at DCB must be replaced soon. Mechanical systems within the buildings are at end-of-life and living spaces are outdated and undesirable.
- 3 More support for workforce training in Minot is needed. DCB provides credit programming for students but must begin offering noncredit options for local businesses. This has traditionally been left to TrainND in the past, but services in Minot are not adequate.
- 4 Salaries for employees have been adjusted but remain low. This negatively impacts the ability of DCB to attract and retain talent.
- 5 Dual credit programs are a vital component of the community college mission. Potential changes within funding and support structures have far-reaching consequences, warranting careful study prior to adjustment.
- 6 Fundraising for small institutions in rural areas can be challenging, so continued consideration of that issue within matching programs is appreciated.

Performance Measures

NDUS has adopted several data systems that help incorporate accountability measures and transparent reporting in accordance with the Board's vision and strategic plan. These data systems, including Dashboards, Predictive Analytic Reporting, Strategic Planning Online, and the State Longitudinal Data System, provide public reports on completion and retention rates, semester-by-semester enrollment, peer comparisons, financial aid and tuition, and much more. Additionally, the publicly-available data available throughout the systems provides real time data to researchers and decision-makers. These analytical tools complement the system's biennial report on its strategic plan, which incorporates the "flexibility with accountability" expectations created in Senate Bill 2003 passed by the 2001 Legislative Assembly.

Program Statistical Data

FACULTY AND STAFF (FY2025 annual budget)

- 36 FTE faculty employees from all sources of funds
- 40 FTE staff employees from all sources of funds
- Average full time faculty salary is \$ 57,052
- 86 % of all FTE employees are paid from general fund and tuition dollars

FACILITIES

- Campus is situated on 35 acres of land
- 21 buildings totaling 230,862 sq. ft. of floor space
- Building replacement value is approximately \$ 25 million
- Infrastructure value is approximately \$2.6 million

243 Dakota College at Bottineau

Agency 243

- Deferred maintenance is approximately \$ 972,000 (\$ 530,608 on general fund buildings).

However this figure is estimated to be considerably lower than actual. A current physical plant review is being conducted by an architectural and engineering firm as part of the master plan update, with revised numbers expected in the fall of 2022

STUDENTS

Full time enrollment

Fall 2023 – 306

Spring 2024 – 283

Summer 2024 - 10

Fall 2024 (as of 8/18/2024) - 239 (8/19/2024)

Headcount

Fall 2023 – 1,180

Spring 2024 – 1,148

Summer 2024 - 202

Fall 2024 (as of 8/18/2024) – 588 (8/19/2024)

Explanation of Program Costs

The program costs of DCB include expenses associated with instructional support and the delivery of instructional services, physical plant (facilities upkeep and maintenance) operational expenditures, and the academic, institutional and student support systems needed to operate a comprehensive community college.

Program Goals and Objectives

Goals and Priorities

1. Student Success
2. Community Commitment
3. Institutional Improvement

243 Dakota College at Bottineau

Agency 243

Core Values

1. Integrity
2. Engagement
3. Inclusion
4. Passion

Vision

Dakota College at Bottineau adapts to the changing educational landscape to empower students and impact communities.

State Initiative:* Workforce

Is this a Large IT project? No

Is this request for a new program or service? No

Request explanation and justification (include any statutory authority)*: The North Dakota University System is facing tough financial decisions for each institution. The proposed 3% budget reduction would lead to staff and faculty layoffs alongside cuts to academic programs. Reducing staff, faculty, and academic programs would diminish our core mission and ability to provide the needed workforce for North Dakota.

Our institutions rely on the funding formula to plan and make strategic decisions for future academic programs and operations. Implementing an additional 3% reduction alters the ability to plan and make adjustments. Currently there are seven institutions who will experience general fund reduction, approximately \$11.3 million, due to decreased credit production in the funding formula. Those institutions are in the process of planning for the \$11.3 million in general fund reductions.

Our System has dedicated faculty and staff, whose expertise and commitment provide success in our academic excellence. Reducing FTE numbers would diminish our capacity to deliver quality education and erode morale. Cutting academic programs would limit opportunities for our students, diminish our competitiveness, and undermine our ability to attract and retain top talent.

Necessary resources for implementation (including FTE's)*: N/A

Are resources being redirected or are they new or additional (including FTE's)*: N/A

Who is served and impact of not funding*: N/A

State Initiative:* Other

Is this a Large IT project? No

Is this request for a new program or service? No

Request explanation and justification (include any statutory authority)*: For residential students, the on-campus living experience is a critical component of the overall college experience. Recruitment and retention are impacted by the quality of on-campus housing and access to student life programming and other amenities contribute to student satisfaction. This proposal seeks to modernize the on-campus housing facilities utilized by students.

243 Dakota College at Bottineau

Agency 243

The residence halls are currently operating at less than full capacity. Students could be consolidated into two halls with minimal impact. Milligan Hall could then be demolished, leaving on-campus housing for 74 females and 112 males in Gross Hall and Mead Hall. Asbestos abatement could begin as soon as the facility is taken off-line due to an existing grant through the Environmental Protection Agency. This location is near the new dining center, so that a new residence hall built on the footprint of the former Milligan Hall would have easy access to food service and the adjoining student center.

Further demolition and renovation projects are beyond the scope of this proposal but would follow in sequence as time and money allow.

Necessary resources for implementation (including FTE's)*: N/A

Are resources being redirected or are they new or additional (including FTE's)*: N/A

Who is served and impact of not funding*: Students of DCB

Statutory Authority

North Dakota Constitution, Article VIII, Section 6. North Dakota Century Code 4.1-21,18-02, 18-14 and 57-57.

Agency Description

The State Forester has the statutory authority and responsibility to meet the forestry needs in North Dakota. The North Dakota Forest Service administers forestry programs statewide. The agency operates a conservation tree nursery at Towner. Technical and financial assistance for management of private forest lands, state forest lands, urban and community forests, tree planting and wildland fire protection are provided. The North Dakota Forest Service owns and manages approximately 13,945 acres of state forest lands.

Agency Mission Statement

The mission of the North Dakota Forest Service is to care for, protect and improve forest and natural resources to enhance the quality of life for future generations.

Major Accomplishments

- 1 **Windbreak Renovation Initiative** The removal of deteriorating field and farmstead windbreaks is taking place on farms and ranches across the North Dakota landscape. Rural tree plantings, including field and farmstead windbreaks, provide important public benefits. Unfortunately, many of these plantings have deteriorated due to age, disease or lack of management, and are no longer fully functional. A windbreak inventory in the northern Great Plains indicates 62% of the 145,177 miles of windbreaks in the four-state area are in fair to poor condition. The North Dakota Forest Service has utilized two North Dakota Outdoor Heritage Fund grants to assist landowners with renovation of declining farmstead and field windbreaks. Through this effort, 38 landowners have received \$476,211 in cost-share for windbreak renovation.
- 2 **Community Forestry** There are 53 Tree City USA (TCUSA) Communities in North Dakota including two communities that have been part of the program since it was initiated in 1976 – Mandan and Grand Forks. Nearly 70% of North Dakota’s population lives in a TCUSA Community. Together they spend over \$7,944,479 on forestry management to create functional, inviting and safe community forestry resources. In addition, four North Dakota institutions of higher learning have achieved Tree Campus Higher Education status - NDSU, UND, DCB and UTTC. Community Forestry staff provide grants for tree planting and development projects and also technical assistance for tree planting and tree management plans, pest surveys and tree care workshops. The agency granted \$367,546 to communities for forestry projects.
- 3 **Fire Management** On the average, North Dakota experiences over 440 human caused wildfires that burn in excess of 30,000 acres. Today’s wildfires follow cycles, with larger fires frequently coinciding with drier years. For example, in 2006, North Dakota experienced 1,077 wildfires which burned 68,122 acres. When wetter conditions prevailed in 2012, there were 376 fires which burned 31,293 acres. Fire season in North Dakota, as in many other western states, is now considered year-round, with fire starts documented in every month. The year 2021 was unprecedented, with 2,199 cumulative fires, 122,300 acres burned, 3 incidents with injury, 6 total injuries and 49 damaged structures. Fire Management staff trained 381 firefighters and 183 fire departments to enhance firefighter and public safety.
- 4 **Towner State Nursery** Since 1951, Towner State Nursery has sold over 80 million conservation tree seedlings. Towner State Nursery staff select seed sources and species adapted to the state’s challenging environment, they produce 31 stock types and 17 different ND-adapted species. In 2023, the Nursery sold 702,118 conservation trees to customers.

Critical Issues

- 1 Invasive Pests Invasive insects and pathogens are some of the greatest threats to native forests, conservation tree plantings and community forests in North Dakota. Emerald ash borer is a highly invasive exotic insect that attacks and kills all species of North American ash trees. Since its introduction in Michigan in 2002, emerald ash borer has killed hundreds of millions of ash trees in 36 states and 5 Canadian provinces. Across the United States, hundreds of millions more ash trees are at risk. The infestation has prompted state, federal and university personnel in North Dakota to implement contingency planning efforts for prevention, detection and response. State Foresters in Kansas, Nebraska, North Dakota and South Dakota engaged in a regional initiative to prepare for the arrival of invasive pests such as emerald ash borer that threaten tree resources in the northern plains. The Great Plains Tree and Forest Invasives Initiative enabled collaboration among state forestry agencies to create public awareness, promote species diversity, assess the region's tree resources and determine the potential social, economic and environmental impacts of invasive species. Early prevention and detection can reduce the overall cost to communities, nursery industry, and landowners by either preventing pest establishment or managing infestations. With emerald ash borer now found in neighboring province of Manitoba and states of Minnesota and South Dakota, it is likely to arrive somewhere in North Dakota in the next few years.
- 2 Health, Safety and Economy The Forest Service 2025-27 budget supports the state's health, safety and economy by conserving, protecting and enhancing priority forest landscapes including upland forests, riparian (streamside) forests, rural tree plantings and community forests by sustaining the agency's emphasis on providing technical, financial and education assistance to communities, rural landowners, fire departments, soil conservation districts, schools and citizens of North Dakota.

Performance Measures

1. Outreach and Education focused on 7,003 PreK-12 students and 379 teachers, helping them to make wise decisions about the conservation of trees, forests, and natural resources.
2. Community Forestry assistance for tree planting and forestry projects in North Dakota's cities and towns. Nearly 70% of North Dakota residents live in a Tree City USA community.
3. Forest Health protection including insect and disease surveys and training to minimize the threat of invasive species like emerald ash borer. North Dakota has 90 million ash trees threatened by emerald ash borer. The pest has now been confirmed less than 5 miles east of our border.
4. Forest Stewardship assistance for rural landowners to manage, protect and utilize their native and planted forest resources. Outdoor Heritage Fund Windbreak Renovation Initiative projects are underway with 392 projects that renovate declining field and farmstead windbreaks.
5. Fire Management for the protection of lives, property and natural resources through training, organizing and equipping North Dakota's 378 rural volunteer fire departments. An average of 440 human caused wildfires burn over 30,000 acres each year. The year 2021 was unprecedented, with 2,199 fires, 122,300 acres burned, 3 incidents with 6 total injuries and 49 damaged structures.
6. Towner State Nursery for the annual production of up to 1 million conservation tree seedlings for field and farmstead windbreaks, living snow fences, wildlife and other conservation plantings. A total of 1,552,305 conservation seedlings were produced and sold to soil conservation districts, farmers, ranchers, landowners, and other conservation entities last biennium.
7. State Forests to provide wildlife habitat, clean air and water, recreational opportunities and forest products. The Forest Service manages 13,945 acres that includes trails, campgrounds, and recreation areas which support the economic well-being and community health of rural communities by providing opportunities for hunters, hikers, campers, skiers, snowmobilers, tourists and other outdoor enthusiasts. The program's 42 miles of trail and 5 campgrounds and recreation areas served 9,699 trail users and 3,363 campers last biennium.

Program Statistical Data

The North Dakota Forest Service provided technical, financial and educational assistance to 53 counties, 183 fire departments, 91 communities, 129 landowners, 379 teachers and 7,003 students. Program highlights include:

The agency awarded \$367,546 in community forestry grant funds for tree planting and other forestry development projects; \$476,211 for windbreak renovation projects, enrolled 21,272 acres in the Forest Stewardship Tax Law; and provided training for 381 firefighters to enhance rural fire department capacity.

The Forest Service reached 379 teachers and 7,003 students through educational workshops, poster contests, eco-education camps, conservation days, school presentations and the high school Envirothon program.

Towner Nursery produced and marketed 1,552,305 high quality tree seedlings last biennium to North Dakota customers for conservation plantings. The trees included 31 stock types and 17 species. Tree orders are shipped to soil conservation districts, natural resource agencies and private landowners each year. State Forests maintained 42 miles of trails and 5 recreational areas serving 9,699 trail users and 3,363 campers.

Explanation of Program Costs

The Forest Service 2025-2027 base budget request for Operations is \$25,015,611. The general fund request for Operations is \$5,856,668. Estimated income will be \$19,158,943. The general fund appropriation supports salaries, fringes and operating expenses for 28.0 general fund FTE, 6.0 FTE Special Fund and 45 seasonal positions that provide essential public forestry services. This investment combined with the collaborative efforts of the Forest Service's dedicated staff leverages over \$15 million in external grants and contracts for voluntary, educational and incentives-based forestry programs to address natural resource issues and customer needs identified in the North Dakota Forest Action Plan. The 2025-27 budget request supports the Governor's Main Street Initiative by contributing to the health, safety and the economy of North Dakota through essential public services. See performance measures below.

Operations fund public forestry services provided by the North Dakota Forest Service through field offices at Bismarck, Bottineau, Fargo, Lisbon, Towner and Walhalla. Expenditures include salaries, travel, motor pool, supplies, and telephone costs associated with servicing field forestry requests statewide each year from rural landowners, communities, schools and citizens. Operations fund emergency wildland fire fighters who protect lives, property and natural resources threatened

by an average of 440 human caused wildfires that burn over 30,000 acres each year. Expenditures include salaries, travel, motor pool, supplies, repairs and sub-contracts for training, organizing and equipping rural fire districts, as well as support for a Forest Service strike team of four type 6 and one Type 3 wildland engines. Operations fund tree production at Towner State Nursery. Expenditures include salaries, utilities, repairs and supplies for seeding, weeding, irrigating,

fertilizing, lifting, packing and shipping operations associated with both bare-root seedling and containerized tree production. Towner State Nursery provides seedlings for conservation and forestry plantings in every county of North Dakota.

The Forest Service 2025-27 base budget does not yet include NDSBHE supported annual salary increases for each year of the biennium. The 2023 Legislative Assembly funded 6%/4% salary increases for the 2023-25 biennium and provided a market pool to the agency. The 2021 Legislative Assembly funded 1.5%/2% salary increases for the 2021-23 biennium. The 2025-27 special funds request includes \$900,000 for Trees for North Dakota Trust Fund grants. The Trees for North Dakota Trust Fund provides tree planting grants and supports promotional, educational and fund raising projects associated with strengthening the tradition of tree planting and management in North Dakota. The special funds request also includes \$1,200,000 in revenue generated from tree sales at Towner State Nursery.

244 Forest Service

Agency 244

An inflation factor increase of \$175,700 in state appropriated general funds has been included. With the optional package added, the budget request for Operations is \$25,191,311 of which \$6,032,368 is state appropriated general funds. This additional funding is meant to assist with increasing costs for utilities at agency owned facilities, IT purchases, vendor contracts for maintenance and services, temporary staff salary increases to assist with program delivery, and other costs to deliver services to citizens of ND. No new FTE is linked to this request.

Program Goals and Objectives

Administer forestry programs statewide by providing leadership, direction and coordination of agency operations to improve public service and assure compliance with statutory responsibilities. Provide technical forestry services relating to the management of private forest lands, state forest lands, urban and community forests, tree planting and wildland fire protection. Produce high quality acclimated tree nursery stock at the lowest possible cost to meet landowners' demand for conservation, forestry and wildlife tree plantings.

Statutory Authority

North Dakota Century Code Chapter 54-24

Agency Description

The North Dakota State Library provides statewide leadership, advocacy and community development to academic, public, school and special libraries. The State Library provides comprehensive informational resources for all libraries and citizens in the state. Developmental and technical services are provided including training librarians in all aspects of librarianship and management, collecting, organizing, and cataloging state documents to preserve the history of the state; promoting the statewide online library catalog; technical assistance; facilitating interlibrary loan for all libraries and citizens statewide; providing talking book services to vision impaired citizens; digitization coordination and development services; distributing grants on a competitive basis to school, public, and academic libraries; and coordinating and providing Online Library Resources for libraries and citizens. State Library staff provide technical assistance and library development services to academic, public, school and special libraries statewide.

The State Library collaborates with public and private agencies and organizations to develop and coordinate statewide services and enrich information services for citizens in local communities through public and school librarians.

Agency Mission Statement

Providing pathways to information and innovations for North Dakota’s libraries, state government and residents.

Major Accomplishments

-
- 1 The State Library awarded 81 Library Vision grants to 75 libraries.

 - 2 The State Library purchased 10 book vending machines to place in communities around the state that don’t have access to local public libraries. We are the first state to deploy book vending machines on the state level.

 - 3 The State Library visited over 50 libraries to provide on-site support.

 - 4 250 state documents were digitized. NDSL’s digital collection, Digital Horizons, had over 2 million views

 - 5 NDSL added 13,950 items to the shared e-materials collection while the remaining consortia members added 22,750 for a total increase of 36,700 items. All North Dakota citizens have access to these materials through either the State Library or a local participating public library.

Critical Issues

-
- 1 Library Vision: the Library Vision grants support libraries to meet the basic needs of their communities while also allowing libraries to continue to adapt, innovate, and meet the evolving needs of the community. The Governor appointed Library Coordinating Council and the State Library create the grant guidelines and the Council selects the applications that are approved. Without continued grant funding, libraries would face significant challenges in fulfilling their essential role in the community.

 - 2 Maintenance of Effort: our federal grant program, the Library Services and Technology Act (LSTA) Grants to States program provides 28% of the agency budget. We are required to provide a Maintenance of Effort and match dollars. Any reduction in our state dollars will result in a reduction in the federal dollars that our agency receives. LSTA dollars provide direct support to the library community, state agencies and North Dakota citizens.

Critical Issues

-
- 3 State Aid for Public Libraries: Libraries serve as essential community anchors, providing a multitude of services that directly benefit residents of all ages and backgrounds. The State Aid to Public Libraries grant provides funding to assist public libraries in the meeting the informational and personal enrichments needs of their communities, directly impacting North Dakota citizens.
-
- 4 Salaries: the State Library is committed to providing essential services to the libraries, state agencies and citizens of our state. While we acknowledge and appreciate the salary adjustments made in the previous fiscal year, which addressed some equity concerns, the agency remains the second lowest-paying state agency. This disparity in compensation presents significant challenges to recruitment and retention
-

Performance Measures

1. To annually award Library Vision grants to librarians statewide and LSTA training grant funds according to state and federal guidelines, North Dakota legislative intent, and guidelines set by the North Dakota Library Coordinating Council (NDLCC).
2. To sponsor focus groups to gather information from librarians, trustees, and citizens of North Dakota to be used in statewide library planning efforts.
3. To measure impact on community activities and economic development of programs that are awarded grants through the use of reports and NDLC site visits.
4. To inform citizens statewide of all types of library services by sponsoring booths at annual conferences and association meetings; preparing timely press releases and public service announcements, by publishing the Flickertale newsletter monthly in an electronic format; and through the use of all types of social media.
5. To provide library and information services statewide by responding to requests and sending materials within two days.
6. To promote the state network of linked library networks for the provision of library services.
7. To provide technical assistance and library development services to 80 public libraries through a minimum of one contact annually.
8. To provide three statewide workshops/conferences annually for training and continuing education to librarians; to provide on-site and online database and electronic catalog training on an ongoing basis.

Program Statistical Data

32,292 Biennial interlibrary loan requests processed: from public libraries, school libraries, individual citizens, and from state government and academic libraries. Materials are drawn from the State Library collection and from the established network which includes all types of libraries statewide.

76,126 Items checked out from the State Library collections

360,952 Items in the State Library collection.

Explanation of Program Costs

RESOURCE AND REFERENCE MATERIALS and ONLINE LIBRARY RESOURCE DATABASES. Resource Materials include magazine subscriptions, serials, indexes, books, including material about North Dakota and by North Dakotans in both physical and electronic format. All books and materials are made available to every North Dakota citizen through the extensive statewide interlibrary loan system organized and managed by the State Library.

ONLINE LIBRARY RESOURCES - The State Library purchases Online Library Resources that provide access to full-text online magazines and research and reference materials, continuing education and personal enrichment learning. Online Library Resources are accessible to all North Dakota citizens, students, educators, and libraries that have Internet access.

POSTAGE: Includes all mailing activity to school, public, special and academic libraries and North Dakota citizens statewide, sending informational materials from the State Library's collection and other libraries. The agency batch mailed materials when possible to reduce costs and create efficiencies in the mailing process. The agency promotes the use of online resources, which are printable at the borrower's location, to reduce postage costs.

PRINTING / SUPPLIES / SOFTWARE - Funding for packaging supplies to mail library materials to libraries and citizens statewide; photocopier and computer paper, and related supplies; and office supplies. Updating software for functionality and to legally operate. Printing materials, brochures and information to educate and inform libraries and citizens of the State Library services.

We utilize software that facilitates the collection of public library statistics and data for reporting to the federal government and for use by the Library Development staff.

TRAVEL - Professional staff travel to provide technical assistance statewide to 83 public libraries, 433 school libraries, 19 academic libraries and 11 special libraries including local on-site training, training programs to librarians, presenting at booths, and workshops for librarians throughout the state; travel for the State Librarian and professional librarians for state, regional and national committee work and professional development.

NDIT - Funding for State Library data processing and Internet connectivity. Connectivity and filtering services for public libraries who participate in the E- rate service through the state's Information Technology Department. Telecommunications for the State Library.

RENT to FACILITY MANAGEMENT

EQUIPMENT - Computer equipment for agency workload on a four-year replacement basis; other equipment necessary to support agency services.

CONTINUING EDUCATION / PROFESSIONAL DEVELOPMENT Workshops, conferences and training is delivered to librarians, trustees, students, educators, and the public in the use of online library resources, databases and the statewide library catalog; librarians receive training on library skills, new library director orientation, strategic planning; library management; funding and mill levy issues.

Program Goals and Objectives

Provide direct informational and library services to citizens and librarians who have inadequate or no local library services and facilities. Coordinate an interlibrary loan referral service for all North Dakota libraries and citizens. Provide reference services to patrons statewide and to patrons in their capacity as state employees.

Develop and manage the State Document Depository program, which preserves state agency history and facilitates access to publications done by state agencies for all citizens of the state.

Provide talking (audio) and large print books to vision impaired North Dakotans or North Dakotans who cannot hold a book due to a physical disability.

Coordinate, purchase, and provide Online Library Resources (OLR) to all citizens and libraries throughout the state which are accessible from a device that has access to the Internet. Coordinated purchasing of OLR databases saves local libraries 70% - 90% over the cost of their individual purchases.

250 State Library

Agency 250

Provide statewide coordination and development for 65 school and public libraries of the state's online library catalog which makes library materials available locally and to all North Dakotans .

To develop, train and support school and public librarians and library services statewide; to provide technical assistance in all areas of library services.

State Initiative:* Workforce

Is this a Large IT project? No

Is this request for a new program or service? No

Request explanation and justification (include any statutory authority)*: In the 21-23 biennium NDSL had a 46% turn rate major impact was within our entry level positions. Our agency is the second lowest ranked agency for compensation. NDSL is competing with retail and fast food establishments who are able to offer higher rates. This request is for 8 employees who are within the 102 classification at less than 95% of the MPP.

Necessary resources for implementation (including FTE's)*: Funding

Are resources being redirected or are they new or additional (including FTE's)*: This would be additional funding.

Who is served and impact of not funding*: NDSL employees are the direct impact for this request. The impact of not funding is continued turnover, loss of agency knowledge, diverting resources to training multiple employees.

250 State Library

NDPERS (Priority: 03)

	2023-25 Agency Request				2023-25 Executive Recommendation			
	Ongoing	One-Time	Total	FTE	Ongoing	One-Time	Total	FTE
Federal	-	-	-	0.00	-	-	-	0.00
General	-	46,662	46,662	0.00	-	-	-	0.00
Special	-	-	-	0.00	-	-	-	0.00
Total	-	46,662	46,662	0.00	-	-	-	0.00

State Initiative:* Workforce

Is this a Large IT project? No

Is this request for a new program or service? No

Request explanation and justification (include any statutory authority)*: NDSL has 10 employees with less than 5 years of service making them eligible to receive the incentive to transition to the new NDPERS defined contribution retirement plan. NDSL is seeking funding to support the legislative requirement of providing staff an annual amount of \$3,333 for transitioning to the new plan.

At this time, 7 staff do not have a firm decision if they will transition.

Necessary resources for implementation (including FTE's)*: Funding to support the required expenses.

Are resources being redirected or are they new or additional (including FTE's)*: This would new funding.

Who is served and impact of not funding*: State employees are the direct beneficiaries. The impact of not funding would be the inability to pay the legislatively mandated transition costs or overspending authority.

Total	450,000	-	450,000	0.00	450,000	-	450,000	0.00

State Initiative:* Smart, Efficient Infrastructure

Is this a Large IT project? Yes

Is this request for a new program or service? Yes

Request explanation and justification (include any statutory authority)*: An Interlibrary Loan (ILL) Bridge will foster collaboration among libraries, promoting resource sharing and reducing overall costs. It will serve as a vital conduit, connecting North Dakota library patrons to a vast array of materials not held within the local collection. By facilitating the borrowing of resources from other libraries, the ILL bridge expands access to information, supports research, and enhances the overall patron experience. By providing access to specialized materials, the ILL bridge empowers students, faculty, and community members to conduct in-depth research and achieve academic success.

Necessary resources for implementation (including FTE's)*: Funding

Are resources being redirected or are they new or additional (including FTE's)*: Yes, NDSL is redirecting \$232,000 of federal funding to support the initiative.

Who is served and impact of not funding*: The bridge will make it easier to borrow and loan materials within North Dakota, connecting the university libraries with public, school and special libraries. It will decrease the need to borrow materials from other states while broadening the access to materials especially for our small and rural libraries. If the bridge is not funded, the smallest libraries will continue to limit patrons access to materials to their limited local collection. The State Library and the academic libraries will continue to borrow materials from other states that may be easily available within the state but there is no access to the local collection of the non-ODIN libraries to know the materials are available.

Start Date (MM/DD/YYYY):

End Date (MM/DD/YYYY):

Replace existing application? No

Upgrade existing application? No

Development of new application? Yes

Anticipated Benefits:* Students, faculty, and researchers can conduct more comprehensive and in-depth research, leading to improved academic outcomes and scholarly contributions. By sharing resources with other libraries, the library can reduce expenditures on purchasing materials and maximize the value of its collection. Libraries will be able to stretch their limited collection development dollars further because they will not need to duplicate the materials available at other libraries. Academic libraries will have easier access to personal enrichment materials for students while sharing their research materials more easily with other North Dakota libraries.

Project Risk:* The ILL bridge will be hosted by the vendor with procurement, installation, training, and ongoing support provided by Online Dakota Information Network (ODIN), a subdivision of the North Dakota University System - Core Technology Services (Collectively, "NDUS"), an entity governed by the North Dakota State Board of Higher Education (SBHE).

There are minimal risks associated with an ILL bridge, but a few that fall under this definition include:

Compatibility limitations. Solutions vary in level of compatibility with library management software solutions so there is some risk that not all library systems used can be fully supported. This risk can be mitigated by selecting a system that has limited functionalities for all libraries and full functionality for supported systems.

Service Disruptions. As with any software solution, outages and disruptions can and do happen. This risk can be mitigated by selecting a solution that has higher uptime, better infrastructure, and offline functionality.

Library Limitations. An ILL bridge would help reduce the burdens of processing and managing ILL requests by improving existing workflows, but no system can fully mitigate the costs and time associated with this service. Expected adoption of the solution may be reduced by other factors beyond the scope of the software such as staffing and shipping costs.

An ILL bridge solution has minimal risks. What risks associated are mostly mitigated by a through RFP and vetting process during the selection process.

Issue/Solution:* Libraries have finite budgets and storage space. An ILL bridge expands access to materials beyond the local collection, solving the issue of insufficient resources. Researchers often require specialized or rare materials not available in local collections. ILL bridges provide a solution by connecting patrons to a wider pool of resources. ILL bridges can expedite access to materials that are not immediately available, solving the issue of delayed information delivery. Having to rely on obtaining materials from out-of-state adds considerable time to the process and sometimes libraries are unable to get the materials quickly enough to meet the patrons needs.

Statutory Authority

ND Constitution Article IX, Section 12; North Dakota Century Code Chapter 25-07.

Agency Description

North Dakota School for the Deaf Resource Center provides education to persons of all ages who are deaf/ hard of hearing.

NDSD/Resource Center is fully accredited and specializes in speech and language and auditory development for students who are deaf or hard of hearing. Children birth to 3 years of age are served through the Parent/Infant program (specialized instruction in the homes). Elementary and middle school students are served through the Day Residential School programming at NDSD or by outreach specialists in their home schools. Educational services for grade 9 through graduation are provided in partnership with the district of residence and outreach specialists in their home school or Devils Lake Public Schools (if living at NDSD). Adults ages 18 to senior citizen are served through the Adult Outreach Program.

In addition to the school's traditional role as an educational institution, NDSD has become a state resource center for deafness. Through collaborative ventures with other agencies, NDSD outreach programs have increased delivery of services including assessments, evaluations, consultations, instruction and in-service training specific to the hearing loss.

Agency Mission Statement

Our Vision:

To support individuals with hearing differences in achieving their dreams.

Our Mission:

To educate and serve all individuals with hearing differences from birth through senior citizenship.

Our Purpose:

To serve as a statewide education and resource center to provide advocacy, leadership, and expertise in the field of Deaf Education and those with hearing loss.

Major Accomplishments

-
- 1 Staff Recruitment - hired the following eight positions: 2 Dormitory Counselors (classified) 1 Director of Student Life (classified) 1 Librarian III (classified) 1 Paraeducator (classified, new position authorized by legislators) 3 Drivers (temporary) Also, Deaf Mentors hired and working with families.

 - 2 Education Department: Increased student population by 3 students. Achieved Cognia Accreditation. Completed Conscious Discipline training for Education, Residential, and PIP/K-12 Outreach staff.

 - 3 Outreach Department: Established Adult Hearing Outreach office in Turtle Lake to serve western North Dakota

 - 4 Plant-Buildings & Grounds: Completed Resource Center HVAC and roofing project.

Critical Issues

1	Vacant positions with no applicants (Teacher of the Deaf, Dormitory Counselors, Paraeducators, Drivers)
2	Students who need direct instruction in sign language have limited access to their education across the state.
3	Staff absenteeism.
4	Student travel during winter months.
5	Lack of qualified ASL Interpreters across the state to serve deaf individuals.

Performance Measures

Performance measures and results are reported are implemented through the Strategy Review with specific goals, objectives, as well as delineation of time-lines. Timelines are indicated for each goal and persons (departments) responsible for achieving the goals and objectives are also responsible for documenting progress as well as data to show how many individuals have been served.

Strategy Review Objectives are

1. The NDSD Resource Center will be the first point of contact to gain information about hearing loss.
2. All deaf/hard of hearing children in ND receive quality education in their preferred mode of communication (Residential School and Outreach).
3. All deaf/hard of hearing adults will have access to needed services.
4. The NDSD Resource Center will address the problem of recruiting and retaining quality staff.

Explanation of Program Costs

2025- 2027 Explanation of Program Costs

Program Costs: Our mission of birth to death, face to face, tailored service to each deaf and hard of hearing individual in North Dakota

Programs: Our evolving programs are Parent Infant Program, School Age Outreach, Communications, Model Residential School, and Adult Outreach.

Special Funds:

Base Budget: The base budget anticipates special fund collections from the ND Department of Trust Lands, Head Start lease and meal revenue, and several office leases.

Decision Packages and Forms:

Decision packages and forms include inflation, two staff positions, the 2025-2027 teacher composite schedule, extraordinary repairs, and may include equipment requests and an equity wage request for classified employees.

Staffing: 45.36 FTE's

Superintendent: 1.0 FTE provides agency administrative and principal duties to the agency.

Business Administration: 3.0 FTE business manager and administrative assistant positions provides support to all NDSD programs.

Plant and Custodial Services: 4.0 FTE plant and custodial 3.0 FTE provides complete support to NDSD programs and tenants.

Food Services: 3.25 FTE provide meals for NDSD and Head Start Program

Resident Living: 5.50 FTE Provide after hour academic and social education as part of our educational dorm curriculum.

Health Services: 1.67 FTE Day and evening shift professional nursing to campus.

Information Technology 1.0 FTE:

1.0 FTE provides information technology support to all NDSD programs and Head Start.

Academic and Library Services: 7.75 FTE

Professional staff provide center -based instruction addressing each student's Individual Education Program (IEP) in preschool, kindergarten, and grades 1-8. Library services are available to resident students and on a state-wide basis.

Communications/Interpreter Services: 5.62 FTE

252 School for the Deaf

Agency 252

The communications department with three positions in Bismarck and four on campus provide a variety of interpreter services in support of all NDSD programs.

Adult Outreach Services: 3.67 FTE

The adult services department advocates on behalf of people who are deaf and hard of hearing adults in the state.

Parent Infant Program 5.90 FTE

Facilitates infant and youth deaf and hard of hearing communications services throughout North Dakota. Services include home visits, outreach to school age students, consulting to Early childhood tracking teams, Infant Development programs, Head Start Programs, Day Care settings, and medical facilities.

Temporary Salary: Funds temporary positions for drivers, lifeguards, dorm staff, teachers, technicians, interpreters, curriculum, and summer camp.

Is this a Large IT project? No

Is this request for a new program or service? No

252 School for the Deaf

Agency 252

Request explanation and justification (include any statutory authority)*: Implementation of an update to Teacher Composite Scale based upon the HRMS 2025-2027 recommendation is a critical factor in pursuit of competitive wages for our special education teacher of the deaf specialists.

Necessary resources for implementation (including FTE's)*: Use existing resources to continue reaching out to deaf and hard of hearing in the State of North Dakota.

Are resources being redirected or are they new or additional (including FTE's)*: Continuation of existing services is key here.

Who is served and impact of not funding*: Replacement and potential loss of key staff are critical mission enabling factors.

Inflationary Increases by Operating Expense Line (Priority: 02)

	2023-25 Agency Request				2023-25 Executive Recommendation			
	Ongoing	One-Time	Total	FTE	Ongoing	One-Time	Total	FTE
Federal	-	-	-	0.00	-	-	-	0.00
General	122,880	-	122,880	0.00	122,880	-	122,880	0.00
Special	-	-	-	0.00	-	-	-	0.00
Total	122,880	-	122,880	0.00	122,880	-	122,880	0.00

State Initiative*: Smart, Efficient Infrastructure

Is this a Large IT project? No

Is this request for a new program or service? No

Request explanation and justification (include any statutory authority)*: NDSD as an agency is requesting funding consideration by operating line to offset anticipated inflation or budget proposals provided by OMB, other state agencies and others. An aggregate increase of approximately 7% of total operating expenses or \$122,880 is included in a decision package

Travel and food costs are examples of current biennium first year costs that appear low when compared to the budget forecast. However, we believe that requests for an inflationary increase to the budget value is warranted due to abnormal market circumstances.

Necessary resources for implementation (including FTE's)*: Costs for travel and food has continued to increase since Covid-19. As the agency is a school and provides residential services, these costs must be covered.

Are resources being redirected or are they new or additional (including FTE's)*: Financial resources have been redirected to cover current inflationary costs.

Who is served and impact of not funding*: North Dakotans from birth through senior citizenship are served. Continued increased and inflationary costs could result in less travel for staff which would mean reduction in services.

252 School for the Deaf

Agency 252

Request for Paraprofessional and Dormitory Counselor positions (Priority: 03)

	2023-25 Agency Request				2023-25 Executive Recommendation			
	Ongoing	One-Time	Total	FTE	Ongoing	One-Time	Total	FTE
Federal	-	-	-	0.00	-	-	-	0.00
General	224,590	-	224,590	1.50	247,326	-	247,326	1.50
Special	-	-	-	0.00	-	-	-	0.00
Total	224,590	-	224,590	1.50	247,326	-	247,326	1.50

State Initiative:* Workforce

Is this a Large IT project? No

Is this request for a new program or service? No

Request explanation and justification (include any statutory authority)*: As part of NDSO ongoing strategy evolution we implemented a new school focus to bring 3-year-old preschool age students to campus. This program modification began on a part time basis for 3-4 students. The response by students and approval of recognized progress by parents has been encouraging. Staffing for this age of student and the specialized paraprofessional training and Dormitory Counselor was initially addressed with temporary salary with payment of health benefits.

Necessary resources for implementation (including FTE's)*: Since we continue to increase the number of preschoolers the need for an additional Paraprofessional (.75 FTE) and Dormitory Counselor (.75 FTE) positions are warranted.

In some cases, time required per student is close to one on one with the teacher, interpreter, and/or signing paraprofessional.

Are resources being redirected or are they new or additional (including FTE's)*: The requested increase is part of the overall resource dedicated to focus on language development for preschool at the NDSO campus. Redirection of existing resource is clearly a portion of the school history since the concept was implemented.

Who is served and impact of not funding*: Common to education is that it is for the student, family, and the community.

ASD Online Courses (Priority: 04)

	2023-25 Agency Request				2023-25 Executive Recommendation			
	Ongoing	One-Time	Total	FTE	Ongoing	One-Time	Total	FTE

Total	70,000	-	70,000	0.00	-	-	-	0.00

State Initiative:* Transforming Education

252 School for the Deaf

Agency 252

Is this a Large IT project? No

Is this request for a new program or service? No

Request explanation and justification (include any statutory authority)*: ND Century Code mandates NDSB to provide services to deaf and hard of hearing individuals from birth to senior citizenship. NDSB does not have a high school program (closed 2010) and partners with Devils Lake Public Schools to provide special education services to deaf and hard of hearing students. NDSB is working with the American School for the Deaf Online Academy located in West Hartford, Connecticut and they will provide Teachers of the Deaf that will teach two online classes to the deaf and hard of hearing high school students. This funding will cover administrative fees and the four semesters of classes for the 25-26 and 26-27 school years.

Necessary resources for implementation (including FTE's)*: Many deaf and hard of hearing students require specially designed instruction using sign language. This option does not exist in ND. Many parents are reluctant to send their child away to another state that offers direct instruction using sign language. This means those students receive their instruction through sign language facilitators and interpreters.

Are resources being redirected or are they new or additional (including FTE's)*: The American School for the Deaf's (ASD) Online Academy offers virtual instruction with ND certified teachers of the Deaf who are fluent in sign language. These teachers live across the country and contract with ASD Online Academy. This is a new resource.

Who is served and impact of not funding*: Deaf and hard of hearing high school students are being served. Their educational needs are being met to the extent NDSB and DLPS can provide. However, this service would better their educational needs and keep them in the state of ND nearer to their families.

Total					-	-	-	-	45,000	-	45,000	-	45,000

State Initiative:* Other

Justification: Equipment items that exceed \$5,000 each typically need replacement on short notice when repair cannot be initiated. Kitchen, grounds maintenance, and audiology are campus areas with equipment that fall into category. The probability of replacement in 2025-2027 is anticipated in the kitchen and audiology department.

Statutory Authority

ND Constitution, Article IX, Section 12; NDCC Chapter 25-06.

Agency Description

North Dakota Vision Services/School for the Blind (NDVS/SB) is a statewide comprehensive resource that works cooperatively with related agencies in providing a full range of services to persons of all ages who are blind or visually impaired, including those with additional disabilities. Services include evaluation, consultation, and instruction in the vision specific related areas (i.e. orientation and mobility, braille, daily living skills, technology, career/vocational, recreation/leisure and functional vision). Infants, preschool children, students, and adults with visual impairment are all eligible for consultative service and direct instruction through regional outreach as well as at our facility in Grand Forks. Services provided via the Vision Resource Center include adaptive materials and equipment, braille productions, the vision services "store," descriptive videos, and the professional and consumer library. Additional services include support to parents and families, summer camp and in-service training.

Agency Mission Statement

We are educators and advocates partnering with related agencies to provide individualized services and resources to infants, children and adults with visual impairment to empower them in achieving their goals.

Major Accomplishments

- 1 The premier event for NDVS/SB every year is simply called Family Weekend. The 2024 event was held in Grand Forks on April 26th and 27th and was a resounding success. 14 families participated and were highly impacted. Successful recruitment of numerous key positions was a major accomplishment. Replacing a veteran business manager with another experienced state employee with both human relations and budget management skills was very advantageous. The first and only community open house for NDVS/SB was an effort to bring awareness to our agency in the Grand Forks area. Over 100 people gained first-hand knowledge of our services on May 21st, 2024. Local citizens, legislators, Lions members and other constituents participated. We are always most proud of the essential direct services provided to the citizens of the state. The 500 plus children and adults that receive assistance with technology and mobility and other critical life skills are what we are all about. Each of those people is a major accomplishment when we are able help them.
-

Critical Issues

- 1 As in all areas of education one of our greatest concerns is recruitment of highly qualified teachers when retirements occur. Even a single unfilled position in one of the eight regions of the state would result in dozens of children and/or adults getting either greatly reduced or no service. Qualified vision and blindness specialists are literally NOT present in most areas of the state. North Dakota is experiencing population growth. Current staffing levels will not likely meet the overall citizen need in the coming years. In spite of advances in access technology, it remains very challenging for the majority of the working age population of people with visual impairment to find and maintain work that will sustain their needs. The type of specialized training and resources to prepare these citizens for competitive employment will continue to change.
-

Performance Measures

1. Student performance in the areas of Expanded Core Curriculum (special life skills) are measured on an ongoing basis to target areas of needed instruction.

2. Adults participating in instruction are continually assessed in several categories to demonstrate skill acquisition. In addition, phone interviews are conducted to receive feedback on outcomes and level of satisfaction.

3. NDVS/SB staff participation is a statewide Gallup survey yielded very high job satisfaction which does correlate to positive outcomes for students and clients.

Explanation of Program Costs

North Dakota Vision Services/School for the Blind provides service to students and adults with vision loss throughout the state. The building where short-term programs are conducted is adjacent to the University of North Dakota on 10 acres of land and 50,000 square feet of building. Services are provided at NDVS/SB, in public schools, in homes and in other community-based environments. There are 5 Outreach offices located in the communities of Fargo, Bismarck, Dickinson, Minot and Jamestown. There is a total of 27.75 FTE's. 20.75 FTE's are located in Grand Forks and the remaining 7 are located in regional communities.

Major program costs include Salaries support instruction for students and adult learners including the support staff costs associated with this instruction, building maintenance, data processing, etc. Travel expenses to conduct outreach-based service are a high percentage of the overall budget. Information technology costs, professional development and materials, educational supplies and other office related equipment are other areas. Rental of three regional office space is also a cost associated with providing statewide services in an equitable manner.

Program Goals and Objectives

1. Our primary goal is to provide a wide range of high-quality services when requested by citizens of all ages in a timely manner so that these individuals can achieve their immediate and long-term goals in life.
2. In order to accomplish our primary goal, we place a high emphasis on recruitment and retention of highly qualified staff and provide support and professional development. We also invest time and monetary resources to be a leader in information technology.

State Initiative:* Other

Is this a Large IT project? No

Is this request for a new program or service? No

Request explanation and justification (include any statutory authority)*: This is to place teachers on the Composite Salary Schedule developed by HRMS for 2025-27. This includes wages, retirement, and payroll taxes. They are not classified employees.

253 School for the Blind

Agency 253

Necessary resources for implementation (including FTE's)*: To keep our teachers on the composite salary schedule, we would like to have \$108,950 of funding. Our teachers are not classified employees and are necessary to our business.

Are resources being redirected or are they new or additional (including FTE's)*:

Who is served and impact of not funding*:

Replace Fire Alarm System (Priority: 02)

	2023-25 Agency Request				2023-25 Executive Recommendation			
	Ongoing	One-Time	Total	FTE	Ongoing	One-Time	Total	FTE

State Initiative:* Other

Is this a Large IT project? No

Is this request for a new program or service? No

Request explanation and justification (include any statutory authority)*: During April 2022, SiteLogig inspected our fire alarm system. The old fire alarm system is approaching 45 years old and needs to be replaced as it will not be able to be updated.

Necessary resources for implementation (including FTE's)*: We would like \$300,000 in funding to replace the fire alarm system in our east wing. This system is old and antiquated.

Are resources being redirected or are they new or additional (including FTE's)*:

Who is served and impact of not funding*:

Additional Operating (Priority: 03)

State Initiative:* Other

Is this a Large IT project? No

Is this request for a new program or service? No

Request explanation and justification (include any statutory authority)*: This request includes: 6,000 for programming purposes for an event called Family Weekend. This program is growing, and we want to be able to provide quality education to families about their child’s vision loss. 40,000 for anticipated utility increases. 13,000 for inflationary increases for outreach services to students/adults. Our property is on 10 acres of land, and we hire someone to apply chemical application to control weeds, 5,500. We would like to add billboards to increase the number of adults/students we serve: 40,000 (10,000 for six months). 38,000 for lost revenue from Mayville State CDP

Necessary resources for implementation (including FTE’s)*: We would like \$142,500 in funding for lost revenue, inflationary increases, growth and education, control of weeds, and billboards.

Are resources being redirected or are they new or additional (including FTE’s)*:

Who is served and impact of not funding*:

Equipment Under \$5000 (Priority: 04)

	2023-25 Agency Request				2023-25 Executive Recommendation

State Initiative:* Other

Is this a Large IT project? No

Is this request for a new program or service? No

253 School for the Blind

Agency 253

Request explanation and justification (include any statutory authority)*: This includes 13,000 for adaptive technology equipment. NDVS/SB needs to be the leader in adaptive technology in ND. This will allow us to demonstrate new products. This also includes 10,000 (2 new bottled water fountain fillers) These fountains are both used frequently. 5,000 New lawnmower (zero turn) as the one we currently have will be over 6 years old.

Necessary resources for implementation (including FTE's)*: We would like \$28,000 in funding to complete these items. The technology items will help with the growth of students; the water fountains will help with ease of use for students and staff; the lawn mower is needed to mow our grounds efficiently.

Are resources being redirected or are they new or additional (including FTE's)*:

Who is served and impact of not funding*:

Additional IT Costs (Priority: 05)

	2023-25 Agency Request				2023-25 Executive Recommendation			
	Ongoing	One-Time	Total	FTE	Ongoing	One-Time	Total	FTE
Federal	-	-	-	0.00	-	-	-	0.00
General	-	-	-	0.00	-	-	-	0.00
Special	20,000	-	20,000	0.00	20,000	-	20,000	0.00
Total	20,000	-	20,000	0.00	20,000	-	20,000	0.00

State Initiative:* Other

Is this a Large IT project? No

Is this request for a new program or service? No

Request explanation and justification (include any statutory authority)*: This will allow NDVS to maintain the database, Dataverse. Our lead IT team member has been working with NDIT on this project for over a year and suggest this for the most positive citizen outcome. This would allow us to purchase a Smartboard which is on wheels to provide training to students/adults.

Necessary resources for implementation (including FTE's)*: We would like \$20,000 in funding to purchase new equipment and maintain our current database.

Are resources being redirected or are they new or additional (including FTE's)*:

Who is served and impact of not funding*:

253 School for the Blind

State Initiative:* Other

Is this a Large IT project? No

Is this request for a new program or service? No

Request explanation and justification (include any statutory authority)*: This request is to increase houseparent wages to \$16-18 per hour. We are anticipating 20% of staff to retire in next 5 years. This will allow a cushion to hire temporary staff as vision professionals are in high demand and short supply.

Necessary resources for implementation (including FTE's)*: We would like \$50,000 in funding to increase wages for temporary employees and give us a cushion to hire new employees upon the retirement of tenured staff.

Are resources being redirected or are they new or additional (including FTE's)*:

Who is served and impact of not funding*:

New South Parking Lot (Priority: 07)

Statutory Authority

NDCC - 15-20.1 - Career and Technical Education

NDCC - 15-20.2 - Area Career and Technology Centers

NDCC - 15-20.4 - Postsecondary Educational Institutions

Agency Description

The Department of Career and Technical Education provides funding, technical assistance and professional development for Career and Technical Education programs across the state. CTE Staff also provide leadership for the various Career Technical Student Organizations.

Agency Mission Statement

The mission of the State Board for Career and Technical Education is to work with others to provide all North Dakota citizens with the technical skills, knowledge, and attitudes necessary for successful performance in a globally competitive workplace.

Major Accomplishments

-
- 1 Integrated the Virtual Reality Career Exploration Experience, CareerViewXR in September 2023. All middle school and high school students have access to the platform.

 - 1 NDCTE has successfully launched it's WBL work. The following has been completed. - Work-based Learning guidance has been provided for both educators and industry. - In partnership with ESPB, NDCTE has developed a WBL Coordinator Endorsement - Over 50 individuals have received WBL Coordinator Training - in the 2023-24 School year, thirteen individuals were employed as WBL Coordinators - Launched the Compass platform, that serves as the WBL tracking platform.

 - 1 The Department of Career and Technical Education has granted thirteen grants from the CTE Capital Projects Program. Of the thirteen projects, three have completed their projects, four will be complete the fall of 2024, with the remaining projects being completed in fall 2025.

Critical Issues

-
- 1 NDCTE has the critical issue of NDCTE Staff capacity. Career and Technical Education is expanding at a large rate, which is great, yet with the expansion comes additional workload, including assisting new teachers, standing up additional career and technical student organization chapters and assisting administrators develop new programs.

 - 1 The greatest concern for career and technical education is the teacher shortage. Fewer students are pursuing a career in education, and career and technical education is no different. Many CTE instructors are alternate certified, which provides many challenges. Challenges include unqualified teachers, limited resources to support new teachers and the large difference in compensation between industry and education.

Performance Measures

CTE Secondary Concentrators

270 Career and Technical Education

Agency 270

- Four- Year Graduation Rate
- Academic Proficiency in Reading Language Arts
- Academic Proficiency in Math
- Academic Proficiency in Science
- Post-Program Placement
- Non-Traditional Program Concentration
- Program Quality - WBL Participation

CTE Post-Secondary Concentrators

- Post-Program Placement
- Earned Recognized Postsecondary Credential
- Non-traditional program concentration

Program Statistical Data

2022-23 Data

- 597 active secondary CTE programs
- 25,388 secondary students enrolled in at least once CTE Course
- 9657 secondary CTE Concentrators
- 8,392 Post-Secondary students enrolled in a CTE course
- 4,696 Post Secondary concentrators
- 1710 employers served by TrainND
- 574 Producers served by Farm Management Education

Explanation of Program Costs

NDCTE uses its appropriations for the following purposes:

270 Career and Technical Education

Agency 270

- 1) Reimbursement of operating costs for CTE programs at Public Schools and Career and Technology Centers
- 2) Fund STEM Initiatives at our schools
- 3) Provide dollars for workforce development and training through TrainND
- 4) Reimburse operating expenses for Farm Management Education programs
- 5) Support Youth Entrepreneurship through Marketplace for Kids
- 6) Funding for the operating costs for the Center for Distance Education, including curriculum and instructional costs
- 7) Provide technical assistance and professional development to CTE Educators

Program Goals and Objectives

- 1) Expand Capacity of CTE programs through the development of new and expanding programs and quality virtual education opportunities.
- 2) Increase the number of students enrolling in CTE Programs
- 3) Continue to maintain and improve the quality of CTE programs
- 4) Develop programming to recruit and retain quality secondary and post-secondary teachers, counselors, advisors and administrators
- 5) Support post-secondary and incumbent workforce training

270 Career and Technical Education

Agency 270

State Initiative:* Workforce

Is this a Large IT project? No

Is this request for a new program or service? Yes

Request explanation and justification (include any statutory authority)*: This funding would be instrumental in supporting the development of new teachers. This would be a combination of assigning mentors for first-year and second-year educators and support the tuition costs for individuals transitioning into the career and technical education field.

Necessary resources for implementation (including FTE's)*: No additional resources would be needed. NDCTE has the internal resources to develop a database of interested and qualified mentors. Our current budget process has the capability to reimburse mentors and tuition costs.

Are resources being redirected or are they new or additional (including FTE's)*: NDCTE has adequate staff to manage this programming. This will be included in work the fiscal office and program supervisors already complete. A portion of one FTE may be allocated to be the point of contact for.

Who is served and impact of not funding*: Without an additional level of support, new CTE educators, especially those that are alternate certified may not be retained as educators. Ultimately, the students of North Dakota would be negatively impacted without qualified teachers.

Virtual Reality Career Exploration (Priority: 07)

	2023-25 Agency Request				2023-25 Executive Recommendation			
	Ongoing	One-Time	Total	FTE	Ongoing	One-Time	Total	FTE
Federal	-	-	-	0.00	-	-	-	0.00
General	2,000,000	-	2,000,000	0.00	-	-	-	0.00
Special	-	-	-	0.00	-	-	-	0.00
Total	2,000,000	-	2,000,000	0.00	-	-	-	0.00

State Initiative:* Transforming Education

Is this a Large IT project? No

Is this request for a new program or service? No

Request explanation and justification (include any statutory authority)*: This funding request is to continue to provide and evolve immersive media opportunities for career exploration and awareness across career and technical education. This can include hardware, software, and/or immersive spaces

Necessary resources for implementation (including FTE's)*: No additional resources would be needed.

Are resources being redirected or are they new or additional (including FTE's)*: No resources will need to be redirected.

270 Career and Technical Education

Agency 270

Who is served and impact of not funding*: Elementary and middle school students would no longer have access to the virtual career exploration experiences this funding would provide.

Additional FTEs (Priority: 11)

	2023-25 Agency Request				2023-25 Executive Recommendation			
	Ongoing	One-Time	Total	FTE	Ongoing	One-Time	Total	FTE
Federal	-	-	-	0.00	-	-	-	0.00
General	506,860	-	506,860	2.00	-	-	-	0.00
Special	-	-	-	0.00	-	-	-	0.00
Total	506,860	-	506,860	2.00	-	-	-	0.00

State Initiative*: Reinventing Government

Is this a Large IT project? No

Is this request for a new program or service? Yes

Request explanation and justification (include any statutory authority)*: Two additional FTEs are requested to provide outreach and support for the ND Office of Apprenticeship. These staff will provide outreach and awareness to employers, educators, and students on the value of apprenticeship programs. A focus would be to develop youth and pre-apprenticeship opportunities and to further assist in developing workforce pipelines.

Necessary resources for implementation (including FTE's)*: The additional recourses that would be necessary, is included in the change package, but includes the following operating expenses:

- Office space rent
- Travel expenses
- General office needs
- IT support

Are resources being redirected or are they new or additional (including FTE's)*: No

Who is served and impact of not funding*: Employers interested in expanding or developing apprenticeship programs will be served and impacted if this change package is not funded. The intent of these FTEs is to continue to connect education and industry.

Secondary Grants (Priority:)

Description	Fund	BU-Dept	Fin Class	2023-25 Base Budget	2023-25 Optional Request		2023-25 Total Budget Request		2023-25 Executive Recommendation	
					Ongoing	One-Time	Ongoing	One-Time	Ongoing	One-Time
	001	270-2200	27062	-	4,000,000	-	4,000,000	-	4,000,000	-
Total				-	4,000,000	-	4,000,000	-	4,000,000	-

State Initiative:* Transforming Education

Explanation / Justification: Cost-to-Continue. Currently, high school career and technical education programs are reimbursed at our comprehensive high schools at 27% and 40% at the area career and technology centers. To account for cost increases and maintain reimbursement rates, the Department requests \$4 million for cost-to-continue. The Department is currently drafting a revised funding policy based on outcomes instead of costs which will incentivize high-quality programs and reduce the red tape the current funding policy requires.

Work-Based Learning Coordinators (Priority:)

Description	Fund	BU-Dept	Fin Class	2023-25 Base Budget	2023-25 Optional Request		2023-25 Total Budget Request		2023-25 Executive Recommendation	
					Ongoing	One-Time	Ongoing	One-Time	Ongoing	One-Time
	001	270-2200	27062	-	1,500,000	-	1,500,000	-	500,000	-
Total				-	1,500,000	-	1,500,000	-	500,000	-

State Initiative:* Transforming Education

Explanation / Justification: To continue expanding work-based learning opportunities, the Department requests \$1.5 million to continue to increase access to work-based learning coordinators to be located throughout the state, primarily housed at area career and technology centers. These positions would be the conduit between education and business, developing work-based learning opportunities as well as support the Learn Everywhere Initiative, as passed by the 67th Legislative Assembly. This total grant allocation will be \$3 million.

Secondary Grants (Priority:)

Description	Fund	BU-Dept	Fin Class	2023-25 Base Budget	2023-25 Optional Request		2023-25 Total Budget Request		2023-25 Executive Recommendation	
					Ongoing	One-Time	Ongoing	One-Time	Ongoing	One-Time
	001	270-2200	27062	-	22,000,000	-	22,000,000	-	3,000,000	-
Total				-	22,000,000	-	22,000,000	-	3,000,000	-

270 Career and Technical Education

Agency 270

State Initiative:* Transforming Education

Explanation / Justification: Every year new CTE programs are introduced and make substantial expansions. To support these programs, not at the expense of reimbursement of existing programs, the Department requests \$22 million. This will include providing funding for new programs at comprehensive high schools, and existing and new area career and technology centers. The new centers were funded with CTE Capital Project Grants in the 21-23 biennium and will begin operation in the 23-25 or 25-27 biennium. This funding will continue to provide more equitable access to diverse and quality CTE programs to more students in more areas of the state. New programs must align with in-demand occupations as identified by the ND Workforce Development Council.

Workforce Training (Priority:)

Description	Fund	BU-Dept	Fin Class	2023-25 Base Budget	2023-25 Optional Request		2023-25 Total Budget Request		2023-25 Executive Recommendation	
					Ongoing	One-Time	Ongoing	One-Time	Ongoing	One-Time
	001	270- 2500	27073	-	-	1,600,000	-	1,600,000	-	-
Total				-	-	1,600,000	-	1,600,000	-	-

State Initiative:* Workforce

Explanation / Justification: TrainND requests base funding of \$2.5 million and an additional \$1.6 million for an FY26-27 pilot program to expand outreach initiatives into regional areas of opportunity and further drive workforce education and training numbers higher throughout the state. The pilot program would add one sales-focused FTE per region, strategically locating the FTE person within each region to maximize efficiency and expansion opportunities.

Marketplace for Kids (Priority:)

Description	Fund	BU-Dept	Fin Class	2023-25 Base Budget	2023-25 Optional Request		2023-25 Total Budget Request		2023-25 Executive Recommendation	
					Ongoing	One-Time	Ongoing	One-Time	Ongoing	One-Time
	001	270- 2600	27074	-	150,000	-	150,000	-	100,000	-
Total				-	150,000	-	150,000	-	100,000	-

State Initiative:* Transforming Education

Explanation / Justification: Marketplace for Kids requests an additional \$150,000 bringing their total allocation to \$450,000. This is the first increase requested since 2012. The request is to support Native American-focused programming, address a reduction in community and sponsorship funding, and to address general increases in costs.

270 Career and Technical Education

Agency 270

Grants-STEM (Priority:)

Description	Fund	BU-Dept	Fin Class	2023-25 Base Budget	2023-25 Optional Request		2023-25 Total Budget Request		2023-25 Executive Recommendation	
					Ongoing	One-Time	Ongoing	One-Time	Ongoing	One-Time
	001	270- 2700	27063	-	250,000	-	250,000	-	-	-
Total				-	250,000	-	250,000	-	-	-

State Initiative:* Transforming Education

Explanation / Justification: Funding is to support the hiring of staff for the STEM Ecosystem, to better manage the activities of the Ecosystem, secure private dollars to support STEM education, and to manage any grants that may be created with private funds.

Initiative Grant Program (Priority:)

Description	Fund	BU-Dept	Fin Class	2023-25 Base Budget	2023-25 Optional Request		2023-25 Total Budget Request		2023-25 Executive Recommendation	
					Ongoing	One-Time	Ongoing	One-Time	Ongoing	One-Time
	001	270- 2125	27064	-	-	56,000,000	-	56,000,000	-	-
Total				-	-	56,000,000	-	56,000,000	-	-

State Initiative:* Transforming Education

Explanation / Justification: Although 13 different projects were funded across the state during the 21-23 biennium, there are still gaps in the state where area career and technical education centers are not serving. This funding is to continue the initiative started in the 2021 Legislative session, to close the gaps on access to quality, and diverse CTE programming. Current CTE centers would also be able to tap into this funding to continue to expand their program offerings.

Grants - Federal (Priority:)

Description	Fund	BU-Dept	Fin Class	2023-25 Base Budget	2023-25 Optional Request		2023-25 Total Budget Request		2023-25 Executive Recommendation	
					Ongoing	One-Time	Ongoing	One-Time	Ongoing	One-Time
	10715	270- 2100	27060	-	2,000,000	-	2,000,000	-	2,000,000	-
Total				-	2,000,000	-	2,000,000	-	2,000,000	-

State Initiative:* Transforming Education

270 Career and Technical Education

Agency 270

Explanation / Justification: Request additional \$2 Million in authority to accommodate expected Increase in Federal Funding for Secondary and Postsecondary Education.

Adult Farm Management (Priority:)

Description	Fund	BU-Dept	Fin Class	2023-25 Base Budget	2023-25 Optional Request		2023-25 Total Budget Request		2023-25 Executive Recommendation	
					Ongoing	One-Time	Ongoing	One-Time	Ongoing	One-Time
	001	270- 2400	27071	-	309,385	-	309,385	-	309,385	-
Total				-	309,385	-	309,385	-	309,385	-

State Initiative:* Workforce

Explanation / Justification: This request is to reinstate the reduction to the Farm Management program. Farm Management Instructors work with farmers and producers across the state to become more profitable, therefore strengthening rural North Dakota communities. A reduction in funding to this program may not allow for future expansion of the program.

Statutory Authority

North Dakota Century Code Titles 23.1, and 61.

Agency Description

The North Dakota Department of Environmental Quality works closely with federal, state, and local governments along with private industry and agriculture to safeguard the quality of North Dakota's air, land, and water resources through permitting, inspecting, sampling, analytical services and monitoring activities.

Agency Mission Statement

To conserve and protect the quality of North Dakota's air, land and water resources following science and the law.

Values of the North Dakota Department of Environmental Quality:

- Public servants dedicated to public health and a high-quality environment.
- Committed to using sound science and applicable law.
- Believe economic development can be compatible with the protection of public health and the environment.
- Strive to be friendly, courteous, fair and compassionate in all our interactions with the public, other agencies, organizations and our coworkers.
- Accessible and provide timely responses to the public.
- Prioritize transparency in our actions, accountability for our decisions, consideration of all concerns and clear and consistent communication.
- Focus on collaboration with stakeholders.
- Strive to enhance the economic and social well-being of our citizens.
- Promote the conservation and recycling of our limited resources.
- Strive to find the optimum solution to any challenge.

Major Accomplishments

- 1 North Dakota consistently ranks high among states in environmental quality measures.
 - Air Quality Management: The NDDEQ has made significant strides in maintaining and improving air quality in North Dakota. The Division of Air Quality monitors air pollutants, enforces air quality standards, and provides public information on air quality. North Dakota is one of few states that achieved all ambient air quality standards.
 - Water Quality Improvement: The NDDEQ has worked on improving the quality of surface and groundwater in North Dakota. The Division of Water Quality regulates wastewater discharges, manages stormwater, and monitors the quality of rivers, lakes, and other water bodies. The department also conducts watershed management and restoration projects. In fiscal year 2024 the division maintained a compliance rate over 93% which is well above the national average.
 - Hazardous & Solid Waste Management: The Division of Waste Management ensures that facilities handling hazardous and solid waste comply with state and federal regulations. The division conducted over 57 hazardous waste inspections and over 630 solid waste facility inspections.
 - Safe Drinking Water Programs: The Division of Municipal Facilities ensures that public water systems comply with state and federal drinking water standards. They conduct regular testing and inspections of water supplies to protect public health. North Dakota has one of the nation's highest drinking water compliance rates, with 99% of public water systems meeting all health-based standards.
- 2 High Compliance and Industry Oversight
 - Regulation and Monitoring: North Dakota is a major oil-producing state, and the NDDEQ plays a crucial role in regulating and monitoring the environmental impacts of oil and gas activities. This includes managing spills, overseeing waste disposal, and minimizing emissions from oil and gas operations.
 - Spill Response and Remediation: The NDDEQ has been instrumental in responding to environmental spills. The department has a spill response team that works to contain and clean up spills, as well as ensure the responsible parties are held accountable for remediation efforts. The Spill Response team conducted field inspections on over 550 new spills.
- 3 Public Health, Environmental Education and Safety Initiatives
 - Radon and Indoor Air Quality Programs: The NDDEQ runs programs to increase public awareness of radon, a naturally occurring radioactive gas that can pose health risks. The department provides resources and support for radon testing and mitigation in homes and public buildings. The department was recently awarded an Environmental Government to Government competitive grant. This grant will promote radon education and outreach. This grant also provides funds to install up to 25 mitigation systems in homes with elevated radon levels.
 - Climate Pollution Reduction Grant: The NDDEQ was recently awarded the Climate Pollution Reduction Grant (CPRG) to develop a North Dakota Priority Climate Action Plan (PCAP) and Comprehensive Climate Action Plan (CCAP) in collaboration with municipalities and communities across the state. The NDDEQ conducted meaningful public engagement, focusing on the state's concerns and impacts on low-income and disadvantaged communities. The NDDEQ recently completed and PCAP and now are working on the CCAP.

Critical Issues

- 1 The North Dakota Department of Environmental Quality is currently facing significant challenges due to reduced federal funding, coupled with increasing operational and compliance costs. This financial strain could hinder our ability to effectively carry out essential environmental protection programs, enforce regulations, and address emerging environmental threats. The department is committed to maintaining high standards of environmental stewardship; however, the ongoing budgetary constraints may limit our capacity to fulfill these responsibilities fully and could impact the long-term sustainability of our initiatives.
- 2 The North Dakota Department of Environmental Quality is facing an demand for costs and demand for new technologies to manage and analyze environmental data. The growing complexity and volume of environmental data, driven by new regulatory requirements and public demand for transparency, necessitate significant investments in modern data management and file storage solutions. Current systems are becoming increasingly strained, which may hinder our ability to efficiently collect, process, and disseminate critical environmental information. Addressing this issue is essential to ensuring that the department can continue to provide accurate and timely data to inform decision-making and public policy.

Critical Issues

-
- 3 The North Dakota Department of Environmental Quality is navigating significant challenges due to the implementation of new federal regulations and heightened oversight from the Environmental Protection Agency (EPA). These developments require us to quickly adapt our procedures, increase compliance efforts, and ensure that our regulatory frameworks align with evolving federal standards. While we are committed to maintaining high environmental protection standards, the additional demands placed on our resources and staff may strain our capacity to respond effectively. This heightened oversight underscores the need for continued support and flexibility to meet these new regulatory expectations without compromising our mission.
-
- 4 The North Dakota Department of Environmental Quality is committed to addressing the complex environmental challenges faced by oil-impacted counties, particularly in the areas of water quality, waste management, air pollution, and wastewater treatment. Significant pressure on local infrastructure and natural resources, has lead to increased concerns over contamination, waste disposal, and air quality degradation. To effectively manage these issues, it is crucial that we continue to enhance our monitoring, regulatory, and remediation efforts. However, the growing demands in these regions require sustained investment and resources to ensure that we can protect public health and the environment while supporting the economic vitality of these communities.
-
- 5 The North Dakota Department of Environmental Quality is facing a growing challenge in evaluating permits for increasingly complex and extensive development projects. Many of these projects are located in areas where the environment's natural capacity to absorb and recover from pollution is becoming limited. As these pressures intensify, our permitting process must become more rigorous, requiring in-depth environmental impact assessments and stronger mitigation strategies. Ensuring that our regulatory framework can adequately address these challenges is crucial to protecting vulnerable ecosystems while accommodating responsible development.
-
- 6 The North Dakota Department of Environmental Quality is facing a critical challenge in workforce development, as we strive to maintain and advance the technical competency of our current and future staff. The increasing complexity of regulatory requirements and environmental challenges demands a highly skilled and knowledgeable workforce. To effectively address these evolving demands, we must invest in ongoing training, professional development, and recruitment efforts to ensure that our team is equipped with the expertise necessary to navigate and implement complex regulations. Without a strategic focus on workforce development, our capacity to meet regulatory challenges.
-

Performance Measures

- Annually strive to maintain the percentage of sources meeting all permit conditions and air quality standards at or above 99%.
- Annually strive to maintain or increase the percentage of community water systems meeting all applicable health-based drinking water standards under the Safe Water Drinking Act above 90%.
- Annually strive to maintain or increase the percentage of public water systems that meet operator certification requirements for water treatment above 85%.
- Annually strive to maintain the percentage of public water systems that meet operator certification requirements for water distribution to above 85%.
- Annually strive to maintain compliance with National Discharge Pollution Elimination System based on technical review criteria established by the US EPA permit compliance system above 90%.
- Annually strive to maintain the state's percentage of permitted facilities with a National Pollution Discharge Elimination System above 98%.

Program Statistical Data

The Department of Environmental Quality (DEQ) includes the Director's Office and six divisions: Accounting, Air Quality, the Chemistry Laboratory, Municipal Facilities, Waste Management, and Water Quality. The statistics do not represent the entire scope of activities completed by the DEQ but give a general representation of some of the activities conducted.

Director's Office and Accounting Division

Petroleum Tank Release Compensation Program

- Issued Petroleum Tank Release Compensation Fund Certificates to over 2,000 Sites.
- For State Fiscal Year 2023 the fund issued a total of 22 claim payments for total payments of \$454,688 and for Fiscal Year 2024 the fund issued 18 claim payments for total payments of \$234,993.

Accounting

- In Fiscal Year 2024 the Division of Accounting tracked and issued over 60 purchase of service contracts totaling over \$2.4 million and over 230 subawards/Amendments totaling over \$35 million.
- In Fiscal Year 2024 processed over \$23 million in revenue transactions and over \$30 million in expenditures.

Boiler Program

- The state boiler inspectors conducted over 2,500 boiler inspections and oversaw over 3,300 insurance company performed inspections.
- The program issued over 4,600 boiler certificates, some of which are three-year certificates, two-year certificates, and one-year certificates.

Division of Air Quality

Ambient Air Quality and Permitting and Compliance

- Issued air pollution control operating permit renewal notifications while managing approximately 1,100 air pollution control operating and construction permits.
- Completed air quality impact reviews for various proposed sources. Public meetings were held when necessary; permits were issued when compliance with air pollution control rules was demonstrated.
- Conducted over 100 air pollution control inspections annually at various industrial sources such as refineries, power plants, etc.
- Conducted over 600 oil and gas site inspections.
- Evaluated over 100 emission tests annually conducted at various industrial sources.

303 Environmental Quality

Agency 303

- Worked to resolve a broad variety of complaints from the public.
- Tracked ambient air quality during wildfire impacts and worked with the public and the media on the resulting air quality issues.
- Processed approximately 450 oil well registrations.
- Certified 58 odor inspectors.
- Certified 267 visible emission observers.
- Issued twenty-seven Notices of Violation (NOVs).
- Issued twenty-five Administrative Consent Agreements (ACA).
- In early 2015, the Air Quality Division commenced using a FLIR camera. The camera allows inspectors to see otherwise unseen leaking gas streams at well sites. Since recently adopting the federal OOOO/OOOOa regulation, three additional FLIR cameras were obtained as a critical tool to assess leaks. The FLIR cameras and inspections continues to allow us to work closely with the industry to find solutions to minimize uncontrolled emissions.
- Have developed expertise to accurately utilize optical gas imaging on a variety of air pollution inspections including oil wells, compressor stations and gas plants.
- Approximately \$2,625,000 was awarded for 27 environmentally beneficial projects through the Volkswagen Settlement Agreement.
- Completed extensive work on the development and submittal of the State Implementation Plan for the second round of the Regional Haze Program.
- Maintained a new electronic emissions inventory reporting system (the State and Local Emissions Inventory System, aka SLEIS), which makes it easier for the regulated community to meet air emission reporting requirements through the digital transformation from paper reports to electronic submittal.
- Transitioned to and maintained a new electronic regulatory reporting, inspection, and permit system (the Combined Environmental Regulatory Information System – North Dakota aka CERIS-ND) implemented in November 2020, which makes it easier for the regulated community to meet their air permitting and reporting requirements while also providing a digital transformation and more efficient workflow. This software facilitates the submission and review of Oil and Gas industry reporting from over 10,000 facilities that are regulated under the federal NSPS OOOO/OOOOa requirements, which have monitoring, recordkeeping and reporting obligations.

Chemistry Laboratory Division

The Chemistry Laboratory received 11,855 samples for analysis from July 1, 2022, through June 30, 2023, representing approximately 225,245 analytical tests.

Highlights for the Chemistry Laboratory include:

- Analyzed 3,730 samples in support of approximately 30 DEQ Watershed Management monitoring projects.

303 Environmental Quality

Agency 303

- Analyzed 1,348 samples from municipalities for lead and copper. The DEQ Division of Municipal Facilities administers this program as required by the EPA's Lead and Copper Rule. An additional 180 samples from North Dakota tribal systems were analyzed in conjunction with EPA Region 8 off

Explanation of Program Costs

Major program costs include the salaries and wages and associated operating expenses to protect the state's air, land, and water resources. In addition, a significant amount of research, assessment and plan implementation activities are accomplished through contractual agreements. The state has received delegation and primacy from the Environmental Protection Agency (EPA) for many environmental protection programs that can be delegated to the states.

The program continues to experience increased costs in all media programs. Significant areas of concern are regulation of greenhouse gases and regional haze, addressing environmental impacts of oil exploration/development/production activities and maintaining high compliance rates in all environmental programs.

Program Goals and Objectives

Goal: To preserve and improve the quality of North Dakota's environment to benefit public and environmental health and allow for the sustained use and enjoyment of the state's natural resources.

Objectives:

- To preserve and improve the air, water, and land quality in the state through monitoring, technical assistance and enforcement of state and federal environmental protection laws.
- To ensure safe public drinking water through monitoring, technical assistance and enforcement of state and federal drinking water laws.
- To promote environmental protection, restoration and stewardship programs through public education and funding of local programs.
- To provide accurate and precise laboratory results from which environmental decisions can be based.

State Initiative:* Other

Is this a Large IT project? No

Is this request for a new program or service? No

Request explanation and justification (include any statutory authority)*: The DEQ was anticipating several increases in the 2025-27 budget however due to the base budget reductions for general and special funds we weren't able to budget the anticipated increases for Rent, IT Maintenance, and Grants in the base budget. We are requesting general and special funds to fully fund base budget anticipated increases.

In addition, the DEQ is requesting general funds for on-going maintenance cost for the Water Quality Ambient IT System and Pollution Discharge Elimination IT System. Both systems were funded in the 2023-25 biennium as part of the IT infrastructure decision package but only had one year of maintenance in 2023-25 budget. Requesting general funds for the anticipated on-going cost for two years of maintenance as requested in the 2023-25 budget decision package.

Finally, we are requesting general funds for projected increases for NDIT Data processing. The DEQ is projecting only a minimal increase of on-going federal and special funds for operating costs. The NDIT Data Processing cost were close to 57 percent in some areas and couldn't be funded in base budget.

Necessary resources for implementation (including FTE's)*: We are requesting restoration of the general and special funds base budget reductions to support cost to continue operations. We are also requesting additional general funds to pay for anticipated and requested on-going costs funded in 2023-25 IT Infrastructure Decision Package. Finally, we are requesting additional general funds to pay for projected NDIT increases.

Are resources being redirected or are they new or additional (including FTE's)*: We are requesting restoration of the General and Special funds reductions to support cost to continue operations. We are also requesting additional General funds to pay for anticipated and requested on-going costs funded in 2023-25 IT Infrastructure Decision Package. Finally, we are requesting additional General funds to pay for project NDIT increases.

Who is served and impact of not funding*: If not funded the DEQ may need to cut core services or programs. This decision package is crucial for continued operation of the department.

303 Environmental Quality

Chemistry Laboratory Moving (Priority: 02)

	2023-25 Agency Request				2023-25 Executive Recommendation			
	Ongoing	One-Time	Total	FTE	Ongoing	One-Time	Total	FTE

Total	-	1,500,000	1,500,000	0.00	-	1,500,000	1,500,000	0.00

State Initiative:* Smart, Efficient Infrastructure

Is this a Large IT project? No

Is this request for a new program or service? No

Request explanation and justification (include any statutory authority)*: The cost to move the Chemistry Laboratories to our new building is estimated at \$1.5 million. Equipment must be moved by the manufacturer, vendor, or other qualified entity to maintain warranties and/or service contracts. Some individual items may cost as much as \$50,000 to move.

Necessary resources for implementation (including FTE's)*: Requesting \$1,500,000 in general funds for the moving of about 100 pieces of equipment.

Are resources being redirected or are they new or additional (including FTE's)*: Resources are new and one time only. No FTE's are necessary.

Who is served and impact of not funding*: If this decision package is not funded, 45.8% of the laboratory space (about 40,373 square feet) in the new building will be vacant.

Chemistry Laboratory New Lab One-Time & On-Going Costs (Priority: 03)

	2023-25 Agency Request				2023-25 Executive Recommendation			
	Ongoing	One-Time	Total	FTE	Ongoing	One-Time	Total	FTE
Federal	-	-	-	0.00	-	-	-	0.00

State Initiative:* Smart, Efficient Infrastructure

Is this a Large IT project? No

Is this request for a new program or service? No

303 Environmental Quality

Agency 303

Request explanation and justification (include any statutory authority)*: The DEQ Chemistry Laboratory (Lab) was included in the plan to build a new state-of-the-art State Laboratory which will be located on the State Capitol grounds. It is anticipated that the new Lab will be available for occupancy by February 2026. Projected funds requested in this decision package are to facilitate the transition to the new Lab. During the move, we are anticipating having operating cost for both the current Lab and the new Lab for approximately 12-13 months. We are also budgeting for the one-time payment to pay the balance of the UNESCO contract. Also budgeted in this decision package are one-time costs for additional equipment, services, and supplies needed for the new Lab.

In addition to one-time costs, the new Lab will require additional on-going funding for IT Data Processing which includes charges for door access readers, IT Contractual, and rent which is above the current operating costs.

Necessary resources for implementation (including FTE's)*: The necessary resources for implementation are general funds for one-time and on-going cost for the Chemistry Laboratory. No additional FTE's are requested.

Are resources being redirected or are they new or additional (including FTE's)*: The resources requested are new. No additional FTE's are being requested.

Who is served and impact of not funding*: If not funded, the DEQ will not be able to support the laboratory and may need to cut the services they provide. The Chemistry Laboratory provided services for DEQ programs, private citizens, state agencies, and federal agencies.

Water Operator Certification Testing - Third Party (Priority: 04)

	2023-25 Agency Request				2023-25 Executive Recommendation			
	Ongoing	One-Time	Total	FTE	Ongoing	One-Time	Total	FTE
Federal	-	-	-	0.00	-	-	-	0.00
General	-	-	-	0.00	-	-	-	0.00
Special	67,000	5,000	72,000	0.00	67,000	5,000	72,000	0.00
Total	67,000	5,000	72,000	0.00	67,000	5,000	72,000	0.00

State Initiative*: Reinventing Government

Is this a Large IT project? No

Is this request for a new program or service? No

Request explanation and justification (include any statutory authority)*: Recent conversations with operators/stakeholder have lead to requests for updates to the drinking water/wastewater operator certification program. The requests for larger number of exams, exams given at proctored sites, and ability to review exams falls within the scope of third party testing services. The use of proctoring services is extremely desirable for small system operators who will now be able to take an exam at a proctored site at a time of their choosing instead of being limited to the monthly testing day. This also follows the national trend as North Dakota is one of only a handful of states to not use a third party testing service.

Necessary resources for implementation (including FTE's)*: An increase of \$67,000 in special funds. This only covers the increased costs of using a third party testing service.

303 Environmental Quality

Agency 303

Are resources being redirected or are they new or additional (including FTE's)*: This is an increase to the existing fee structure.

Who is served and impact of not funding*: All public drinking water and wastewater system operators will be served by this system. The impact of not funding this will result in the operator certification exams to continue to be given with the current system.

Chem Lab Per- and Polyfluoroalkyl Substances (PFAS) Testing (Priority: 05)

	2023-25 Agency Request				2023-25 Executive Recommendation			
	Ongoing	One-Time	Total	FTE	Ongoing	One-Time	Total	FTE
Federal	-	-	-	0.00	-	-	-	0.00
General	-	-	-	0.00	-	-	-	0.00
Special	605,104	946,400	1,551,504	2.00	370,423	943,200	1,313,623	1.00
Total	605,104	946,400	1,551,504	2.00	370,423	943,200	1,313,623	1.00

State Initiative*: Health, Vibrant Communities

Is this a Large IT project? No

Is this request for a new program or service? No

Request explanation and justification (include any statutory authority)*: Per- and Polyfluoroalkyl Substances (PFAS) are emerging contaminants with the potential to be regulated by the Environmental Protection Agency. Laboratories must meet stringent requirements to successfully determines PFAS. Our new laboratory will meet these requirements. The DEQ established a goal of becoming a regional testing lab for PFAS by 2030. Samples could come from North Dakota, the upper midwest, and potentially from anywhere in the United States. This could become a revenue source for the lab and the DEQ.

Necessary resources for implementation (including FTE's)*: Two liquid chromatography quadrupole mass spectrometers at an estimated \$410,000 each. Two sample extraction systems an an estimated \$60,000 each. Total equipment costs estimated to be \$940,000. Two new FTE would be needed to start this program. They would need to be at a Grade 106 level or higher. This equipment would be installed directly into the new building.

Are resources being redirected or are they new or additional (including FTE's)*: Equipment expenses are new and would be a one time expense. Service agreements for the instrumentation would be expected to add about \$50,000 per year after warranties expire.

Who is served and impact of not funding*: Anyone who drinks water in North Dakota, the upper midwest, and beyond.

Risk Based Corrective Action Program (RBCA) (Priority: 07)

	2023-25 Agency Request				2023-25 Executive Recommendation			
	Ongoing	One-Time	Total	FTE	Ongoing	One-Time	Total	FTE
Federal	-	-	-	0.00	-	-	-	0.00
General	-	-	-	0.00	-	-	-	0.00

	2023-25 Agency Request				2023-25 Executive Recommendation			
	Ongoing	One-Time	Total	FTE	Ongoing	One-Time	Total	FTE
Special	543,224	100,000	643,224	2.00	-	-	-	0.00
Total	543,224	100,000	643,224	2.00	-	-	-	0.00

State Initiative:* Economic Development/Diversification

Is this a Large IT project? No

Is this request for a new program or service? No

Request explanation and justification (include any statutory authority)*: Establishment of a NDDEQ Remediation Program that would review and approve remediation workplans, long-term control plans, and applications for voluntary response actions. Additionally, they would maintain policy, standards, and data systems, and provide education to the public and regulated community. This program is needed due to the significant increase in the number of development projects within ND that involve some level of environmental remediation. Over the last 3 years, there have been 27 voluntary response action applications where the requestor proposes some level of remediation in exchange for a certain level of liability protection. These numbers are anticipated to continue to grow. Liability protection is often required for re-development or property sale. Much of the activities proposed for this program are currently being conducted under existing NDDEQ statutory authority, and this would not change. The new program would accommodate the current and future anticipated growth in workload, as well as consolidate efforts that are currently spread amongst many different program areas. This would introduce efficiencies and free up existing staff to re-focus on other federally delegated program areas.

Necessary resources for implementation (including FTE's)*: Resources required include two FTE and all costs associated with their support. Additionally, it is anticipated that the program would have a \$100,000 one-time cost to establish a tracking database system. An additional \$50,000 per year are expected for ongoing database maintenance costs.

Are resources being redirected or are they new or additional (including FTE's)*: FTEs are new resources. There are several avenues for potential funding sources that could be used to support the program operations, including the Environmental Quality Restoration Fund (special funds) and the Brownfields Grant (federal funds). Special funds from the EQRF would need to be allocated to the program, but currently exist. Federal Brownfield Grant funds are subject to the grant award and approval process.

Who is served and impact of not funding*: The public is served as valuable property is seen as economically viable for environmental remediation, resulting in clean, livable land. Landowners/purchasers and developers are served by quick processing of remediation plans and requests for liability protection. Consulting firms and the public are served by having a source for remediation education and outreach. The public is also served by having easy access to records on properties, their historical contamination, cleanup efforts, and long-term control plans. Not funding would result in competition with other priorities within a framework of limited staffing resources. This could result in delays seen as detrimental to remediation projects which aim to make contaminated properties useful again.

Contracts and Grants Officer for IJJA DWSRF Lead Capitalization Grant (Priority: 08)

	2023-25 Agency Request				2023-25 Executive Recommendation			
	Ongoing	One-Time	Total	FTE	Ongoing	One-Time	Total	FTE
Federal	252,108	-	252,108	1.00	-	-	-	0.00

303 Environmental Quality

Agency 303

Special	-	-	-	0.00	-	-	-	0.00
Total	252,108	-	252,108	1.00	-	-	-	0.00

State Initiative:* Health, Vibrant Communities

Is this a Large IT project? No

Is this request for a new program or service? No

Request explanation and justification (include any statutory authority)*: The federal Infrastructure Investment and Jobs Act funding was passed in 2022. This has significantly increased the work load on staff to properly track the increase in projects. This federal legislation also increased implementation load by including items such as the Buy America, Build America requirements. This position is currently a temporary position but train-up for the position is such that it is desirable to maintain one individual until at least 2031 when the last grant ends. Otherwise it is anticipated that there will be turn-over of staff in this position which reduces productivity by needing to train new staff plus the increased chance of errors during transitions.

Necessary resources for implementation (including FTE's)*: Funding for 1 FTE including overhead costs.

Are resources being redirected or are they new or additional (including FTE's)*: The position is currently funded as a temporary position with 100% federal funding. Funding will remain as federal funding.

Who is served and impact of not funding*: All recipients of lead inventory and replacement loans/grants are served by this position. At this time, 310 North Dakota communities are eligible for this federal funding. The impact of not funding is periodic slow-down of funding reimbursements during staff turnovers. In particular, a slow down of funding is anticipated to impact smaller communities/systems with the most impact on the smallest of communities.

Litigation Pool Funding (Priority: 09)

	2023-25 Agency Request				2023-25 Executive Recommendation			
	Ongoing	One-Time	Total	FTE	Ongoing	One-Time	Total	FTE
Federal	-	-	-	0.00	-	-	-	0.00
General	-	1,000,000	1,000,000	0.00	-	-	-	0.00
Special	-	-	-	0.00	-	-	-	0.00
Total	-	1,000,000	1,000,000	0.00	-	-	-	0.00

State Initiative:* Other

Is this a Large IT project? No

303 Environmental Quality

Is this request for a new program or service? No

Request explanation and justification (include any statutory authority)*: The Department is requesting access to the Litigation Funding Pool. The DEQ may need to pursue legal action to defend the Department’s stance on environmental regulations. The Department would seek reimbursement for litigation costs such as expert witness fees, depositions, and legal fees incurred with special assistant attorneys general appointed by the Attorney General.

Necessary resources for implementation (including FTE’s)*: The Department would seek reimbursement for litigation costs such as expert witness fees, depositions, and legal fees incurred with special assistant attorneys general appointed by the Attorney General.

Are resources being redirected or are they new or additional (including FTE’s)*: This would be additional resources for litigation costs such as expert witness fees, depositions, and legal fees incurred with special assistant attorneys general appointed by the Attorney General.

Who is served and impact of not funding*: If not funded, the state maybe subject to federal environmental regulations that conflict interest of the state. This would impact the industry we permit and regulate.

PFAS Sampling Water Quality (Priority: 10)

	2023-25 Agency Request				2023-25 Executive Recommendation			
	Ongoing	One-Time	Total	FTE	Ongoing	One-Time	Total	FTE
Federal	-	-	-	0.00	-	-	-	0.00
General	139,000	-	139,000	0.00	-	-	-	0.00
Special	-	-	-	0.00	-	-	-	0.00
Total	139,000	-	139,000	0.00	-	-	-	0.00

State Initiative*: Health, Vibrant Communities

Is this a Large IT project? No

Is this request for a new program or service? No

Request explanation and justification (include any statutory authority)*: Recent studies have identified health effects from a group of chemicals known as PFAS. Screening for these chemicals has found them present in a variety of products and in the environment. This has resulted in increased attention and regulation of PFAS chemicals. This funding would be used to analyze samples to determine the presence and concentration of PFAS chemicals. DEQ has statutory authority under NDCC 61-28-04 and 61-28.1-03.

Necessary resources for implementation (including FTE’s)*: Funding to contract with a laboratory for analysis of water and fish tissue samples. Resources are needed for through 2029-31 biennium to assess all groundwater sources.

Are resources being redirected or are they new or additional (including FTE’s)*: Samples will be collected as part of other routine sampling conducted by the department.

303 Environmental Quality

Agency 303

Who is served and impact of not funding*: All users of drinking water or water resources are served by providing this information. Without this sampling it will be difficult to assess the health impacts from PFAS, and to address those impacts through treatment or remediation.

Chemistry Lab Petroleum Testing Program (Priority: 11)

	2023-25 Agency Request				2023-25 Executive Recommendation			
	Ongoing	One-Time	Total	FTE	Ongoing	One-Time	Total	FTE
Federal	-	-	-	0.00	-	-	-	0.00
General	247,552	963,200	1,210,752	1.00	-	-	-	0.00
Special	-	-	-	0.00	-	-	-	0.00
Total	247,552	963,200	1,210,752	1.00	-	-	-	0.00

State Initiative*: Other

Is this a Large IT project? No

Is this request for a new program or service? No

Request explanation and justification (include any statutory authority)*: The DEQ Petroleum Program evaluates fuel products to ensure quality for consumers. The engines currently used for testing are about 65 years old. If the program is to continue and grow, moving the existing engines to the new laboratory is expected to add about \$100,000 to moving expenses. The new equipment would be installed directly in the new building, reducing moving costs and establishing long term viability of the laboratory testing.

Necessary resources for implementation (including FTE's)*: One new engine will replace the two existing engines. Expected costs for a new engine, blending unit, and automated distillation units are around \$960,000. If the program stays at the current sampling rate (about 48 samples a month from May through September), then no additional FTE's are necessary. If the program is enhanced with more samples being collected on a year round basis, then an FTE will be necessary.

Are resources being redirected or are they new or additional (including FTE's)*: Funding for equipment would be new and one time only. Including a request for one FTE.

Who is served and impact of not funding*: Anyone purchasing fuel products in North Dakota will be served by this decision package. Consumer confidence will be negatively impacted if not funded.

Waste Management Petroleum Testing Program (Priority: 12)

	2023-25 Agency Request				2023-25 Executive Recommendation			
	Ongoing	One-Time	Total	FTE	Ongoing	One-Time	Total	FTE
Federal	-	-	-	0.00	-	-	-	0.00
General	606,264	4,800	611,064	2.00	-	-	-	0.00

	2023-25 Agency Request				2023-25 Executive Recommendation			
	Ongoing	One-Time	Total	FTE	Ongoing	One-Time	Total	FTE
Special	-	-	-	0.00	-	-	-	0.00
Total	606,264	4,800	611,064	2.00	-	-	-	0.00

State Initiative:* Economic Development/Diversification

Is this a Large IT project? No

Is this request for a new program or service? No

Request explanation and justification (include any statutory authority)*: Petroleum Fuel Testing is a long-standing program within the NDDEQ which was developed to ensure the quality of gasoline, kerosene, tractor fuel, heating oil, diesel fuel, or lubricating oil. This is achieved through a laboratory analysis of fuel samples and field evaluation of labeling on transportation, storage, and dispensary equipment. Additionally, the governing law establishes responsibilities for the department regarding ports of entry and the assessment of penalties. For several decades the program has conducted motor fuel testing at a small random selection of gas station facilities, occasionally in response to fuel quality complaints. Resources have not been available to oversee a larger percentage of facilities within the state, conduct regular follow-up on those facilities which were recently tested, or to expand the testing into the other fuel types outlined in the law. Based on ongoing conversations, the regulated community desires to have the NDDEQ grow the program to satisfy these additional objectives. Doing so would require no new statutory authority.

Necessary resources for implementation (including FTE's)*: Resources required for the field inspection and sample collection component of this program includes 2 FTE and all costs associated with their support.

Are resources being redirected or are they new or additional (including FTE's)*: The FTEs are new resources. The petroleum products law outlines an inspection fee, collected by the tax commissioner, which is placed in the general fund of the state. This inspection fee could be increased and appropriated to the NDDEQ to offset the costs associated with the program.

Who is served and impact of not funding*: The public is served as this is a consumer protection law and program. It ensures that people purchasing fuels are being charged appropriately for the product that they are receiving. It aids the public in being clearly informed about their purchases. It also helps to guarantee that facilities are competing equitably with fair price advertising for the products that they are selling. The DEQ's priority is protecting human health and the environment. There is a growing need to redirect existing staff focus and limited resources to those programs that produce the greatest benefit related to this objective. Because of this, if the funding were not received to expand the fuel testing program, we would propose suspending the program in its entirety.

Private Well Sampling (Priority: 13)

	2023-25 Agency Request				2023-25 Executive Recommendation			
	Ongoing	One-Time	Total	FTE	Ongoing	One-Time	Total	FTE
Federal	-	-	-	0.00	-	-	-	0.00
General	147,000	-	147,000	0.00	-	-	-	0.00

	2023-25 Agency Request				2023-25 Executive Recommendation			
	Ongoing	One-Time	Total	FTE	Ongoing	One-Time	Total	FTE
Special	-	-	-	0.00	-	-	-	0.00
Total	147,000	-	147,000	0.00	-	-	-	0.00

State Initiative:* Health, Vibrant Communities

Is this a Large IT project? No

Is this request for a new program or service? No

Request explanation and justification (include any statutory authority)*: Approximately 10% of the States’s population receives their drinking water from private groundwater wells. While recommended to sample on a regular basis to ensure safe healthy water supplies, the cost for the analysis of these samples falls to the private well owner. We propose to cover the cost of analysis, up to a set amount, at the state lab. We would also request a part time temporary position to develop educational resources, answer questions, and promote private well sampling.

NDCC 61-28-04(5)and (6) gives the DEQ the power to encourage, participate in, or conduct studies, investigations, research, and demonstrations relating to water pollution and causes, prevention, control, and abatement thereof as it may deem advisable and necessary for the discharge of its duties under this chapter. Also, to collect and disseminate information relating to water pollution and the prevention, control, and abatement thereof.

Necessary resources for implementation (including FTE’s)*: We are requesting \$140,000 in general funds to fund sample analysis and a temporary position to develop education and marketing materials, and to assist with sample processing.

Are resources being redirected or are they new or additional (including FTE’s)*: Some existing resources will be redirected internally, some efficiencies will be gained by economies of scale.

Who is served and impact of not funding*: Farms, ranches and rural residences relying on private wells for domestic water will be served. If not funded, there will be less sampling conducted due to cost. Resulting in the potential for short and long term health concerns due to unknown water quality impacts.

Wastewater Small System Operator Certification Reimbursement (Priority: 14)

	2023-25 Agency Request				2023-25 Executive Recommendation			
	Ongoing	One-Time	Total	FTE	Ongoing	One-Time	Total	FTE
Federal	-	-	-	0.00	-	-	-	0.00
General	51,000	-	51,000	0.00	-	-	-	0.00
Special	-	-	-	0.00	-	-	-	0.00
Total	51,000	-	51,000	0.00	-	-	-	0.00

State Initiative:* Health, Vibrant Communities

303 Environmental Quality

Is this a Large IT project? No

Is this request for a new program or service? No

Request explanation and justification (include any statutory authority)*: This request is to expand the existing Drinking Water Small Systems Operator Certification Reimbursement program to also include the ability to reimburse wastewater operators. Operator Certification Reimbursement is used to encourage small systems of 3,300 or under to get their system operators properly certified and to maintain that certification by removing expenses as being a barrier to certification.

Necessary resources for implementation (including FTE's)*: An increase of funding of \$50,000 over what has been requested for drinking water reimbursement.

Are resources being redirected or are they new or additional (including FTE's)*: Resources being requested are new.

Who is served and impact of not funding*: The approximate 290 communities of under 3,300 that maintain and operate a wastewater collection system and wastewater treatment system will be served. The impact of not funding is that small communities will use the cost of getting an operator certified and maintaining that certificate as a reason to not have a properly certified operator.

Human Resource Officer (Priority: 15)

	2023-25 Agency Request				2023-25 Executive Recommendation

State Initiative*: Employer of Choice

Is this a Large IT project? No

Is this request for a new program or service? No

Request explanation and justification (include any statutory authority)*: We are requesting the approval to hire a new Human Resource Officer within DEQ. According to the Society for Human Resource Management’s 2022 Human Capital Benchmark Report, the average HR staff to employee ratio is 1.7 HR staff per 100 employees. However, SHRM recommends between 1.5 and 4.5 HR staff per 100 employees. According to an ADP there is a correlation between HR staffing levels and employee turnover and turnover falls when there is less than one HR staff member per 200 employees. Currently DEQ is budgeted for 173 employees and currently has 15 temporary employees. Similar sized agencies through State Government have two to three dedicated Human Resource staff.

During the previous legislative session, DEQ was granted a Director of Human Resources position as shared services were not effectively meeting the demands of DEQ’s daily human resources operational needs. DEQ experienced extensive delays when requesting assistance with talent acquisition, talent management, employee relations duties.

As our DEQ continues to establish our Human Resource section, the demands from the daily operational needs have not allowed our Director of Human Resource to create strategic initiatives and efficiencies essential for the long-term success of DEQ. The daily administrative tasks, while crucial, are consuming a substantial portion of the Director's time.

Hiring a new HR Officer will allow the DEQ Director of Human Resources to delegate these daily Human Resource operational functions such as talent acquisition; talent management including training, mentoring, and performance management; payroll and benefits processing; and compliance management are handled efficiently and effectively. Delegating these daily functions, will allow the Director of Human Resources to concentrate on high-impact initiatives, including talent acquisition strategies, leadership development programs, and employee engagement strategies to foster a culture of continuous improvement, enhance our employer brand, and drive organizational performance.

I am confident that this strategic move will yield significant long-term benefits for our agency. I look forward to discussing this proposal further and exploring how we can expedite the recruitment process for this crucial role.

Necessary resources for implementation (including FTE's)*: DEQ would need to be authorized a new position and corresponding budget from the legislature to obtain a new Human Resource Officer at the Professional Services II level, Grade 106. Budgetary items would include:

- Salary: \$6,827 per month
 - MPP of Grade 106
- Benefits: \$1,645 per month
 - Health insurance
 - Life insurance
 - Employee assistance program
- Retirement: \$838 per month
- Taxes: \$528 per month
- NDIT Fees: \$350 per month
 - Phone
 - Desktop Support
 - Office 365
 - Technology Fee

- o Adobe
- o Visio

The total request would be approximately \$10,189 / month or \$122,268 / year or \$244,536 per biennium. However, this request would be offset by the reduced turnover experienced from adding qualified Human Resource Staff.

Are resources being redirected or are they new or additional (including FTE's)*: Currently there are a few Human Resource related programs and duties being conducted in various areas throughout DEQ that have brought to the Director of Human Resources attention to determine the feasibility of transferring to Human Resources Section.

Some of these programs and duties include the mentoring program and the DEQ training and development programs which are currently being handled by one of our Environmental Scientists who is responsible for Environmental Justice and Civil Rights. They have expressed concern about the importance of these duties and the time they take.

In addition, DEQ's Continuation of Operations / Continuation of Government Programs are currently being done by our Director of Water Quality. The Director of Human Resources and Director of Water Quality have discussed transferring this program to Human Resources as Human Resources provides the majority of information for the COOP plan and works closely with the ND State Risk Management team for a number of other programs and duties.

Unfortunately, the areas currently tasked with this additional Human Resource duties are already burdened by large workloads and therefore, the Human Resource programs and duties have either been neglected or are being managed inefficiently. Therefore, redirecting these programs to Human Resources has the potential to create more effective and efficient programs.

Due to the current daily Human Resource operational workload of the Director of Human Resources and the current work duties of the staff assisting with these additional Human Resource related programs redirecting resources to Human Resources has been unfeasible. Therefore, a new full-time employee would be necessary.

Who is served and impact of not funding*: One of DEQ's most important concerns is the ability to recruit and retain qualified employees. Qualified employees are vital ensure DEQ meets their mission to conserve and protect the quality of North Dakota's air, land, and water resources following science and the law. Qualified employees ensure DEQ is respected as expert partner when responding to proposed EPA regulations and ensure ND citizens are provided a sustainable, high-quality environment for current and future generations. DEQ is currently experiencing a lack of qualified applicants for our job postings and an increase in turnover over the past year.

The DEQ's lack of having a qualified Human Resource Officer directly attributes to this issue. As noted above, ADP found that agency turnover increases when Human Resource staffing hits 200 employees to 1 Human Resource staff member which is where DEQ is currently positioned.

By adding a Human Resource Officer, DEQ can better address employee needs and improve employee satisfaction and engagement thus reducing turnover. In addition, having additional Human Resource staff support would allow DEQ to conduct a job analysis of their current positions. A job analysis helps identify the skills, qualifications, experience, compensation requirements, and performance standards needed for an individual position. This analysis will help managers and Human Resource staff better understand the current work duties placed upon our staff and help create targeted job announcement and selection criteria to recruit and retain qualified applicants.

Large IT Project Summary

State Initiative:* Other

Is this a Large IT project? Yes

Is this request for a new program or service? No

Request explanation and justification (include any statutory authority)*: The Petroleum Tank Release Compensation Fund (PTRCF) is currently using an aging Access database. In house technical support for Access is limited and the current outside vendor used for support is operating on a year-to-year basis. A functioning database is instrumental in providing the services offered by the Fund to the customers. North Dakota Century Code 23.1-12 gives the ability to the North Dakota Department of Environmental Quality – PTRCF to administer the Fund.

Necessary resources for implementation (including FTE's)*: No additional FTE's will be requested for the implementation of this project. The current PTRCF program staff (2 FTE's) will be implementing this project. Some additional assistance from in house IT personnel may be required along with assistance from the database vendor to complete the project.

Are resources being redirected or are they new or additional (including FTE's)*: No additional FTE's will be requested. Additional resources will be redirected from current in house FTE's as needed to assist in the project.

Who is served and impact of not funding*: New database will serve all current and future tank owners

a. Large community fueling stations

303 Environmental Quality

Agency 303

- b. Rural fueling stations and cooperatives
- c. Small businesses
- d. Farmers and Ranchers

If not funded the PTRCF will be at risk of not having a functioning database with adequate technical support for tank owners and operators.

- a. Annual registration fees would need to be paid by check through the mail. Many owners currently pay online with a credit card or ACH check.
- b. Processing claim reimbursement would require manual input and tracking which will increase processing times and chance for errors.
- c. Owners and Operators would lose the ability to update information about their tank systems and other facility information.
- d. The PTRCF program would be extremely difficult to operate without a functioning database and technical support.

Start Date (MM/DD/YYYY): 7/1/2025

End Date (MM/DD/YYYY): 6/30/28

Replace existing application? Yes

Upgrade existing application? No

Development of new application? No

Anticipated Benefits:* a. Modern Information Technology database platform

- b. Maintain database maintenance and support while replacing outdated Access database.
- c. Potential for Mobile application for Online Portal Usage
- d. Provide improved customer support
- e. Improved program administration and database management.
- f. Custom database applications to meet programs future needs
- g. Updated Claims module to allow online access

Project Risk:* a. Increased Information Technology costs to implement new database

303 Environmental Quality

- b. Training and troubleshooting database platform
- c. Data transfer from old database to new database
- d. Time and availability of staff to develop database

Issue/Solution:* Current Access database lacks technical support and stability from current vendor

- a. Contract is year to year with no guarantee of renewal
- b. Current internal Information Technology support is limited
- c. NDIT no longer supports current Access database

New database would align us with what others in the department are using

- a. IT support will be available through the vendor
- b. Will lower overall department costs as more users are on the same platform
- c. Allows for a more user-friendly database for Tank owners (Mobile App)

303 Environmental Quality

Justification: The DEQ Chemistry Laboratory uses hydrogen and nitrogen extensively. Hydrogen and nitrogen are currently purchased through a commercial vendor at a cost of about \$110,000 per year. On site generation of these gases would have a payback period of 3 - 5 years. Hydrogen and nitrogen generators were removed from the original construction of our new laboratory.

Statutory Authority

North Dakota Century Code Chapters 37-15 and 37-18.1

Agency Description

The current Veterans Home, built in 2011, is located on 90 acres of land in the picturesque Sheyenne River Valley in Lisbon. The North Dakota Veterans Home stands as a tribute to North Dakota citizens who answered their country’s call to duty. Since 1893, the Veterans Home has been serving veterans and their spouses.

Agency Mission Statement

Caring for America’s Heroes

Major Accomplishments

-
- 1 Enhanced the quality of life for residents by implementing resident-centered care practices, which include personalized care plans, recreational programs, and meal choices.

 - 2 Provided a range of activity programs including pet therapy, music therapy and technological tools like the Toverdol and It’s Never 2 Late boards that offer a huge range of activities to help improve residents’ mental and physical well-being.

 - 3 Completed a large asphalt paving project that included all roads and parking lots on the Veterans Home grounds.

 - 4 With the lifting of the visitation bans due to COVID we were able to open our doors once again to allow volunteers, school kids and other organizations and groups to entertain and spend time with our residents. Enhancing the lives of our residents.

 - 5 We have consistently passed state and federal surveys with minimal to no deficiencies, ensuring compliance with regulations and high standards of care.
-

Critical Issues

-
- 1 The biggest critical issue we are facing is the shortage of qualified staff, including nurses and nurse aides. The restrictions of being a state agency and not being able to keep up with the market is hurting us. Many of the other facilities in the Lisbon area are offering wages higher than ours and have raised their benefit packages to be similar to ours. This, coupled with the incentives they are offering their staff, puts us at a disadvantage for attracting qualified staff.

 - 2 Maintaining high standards of care is a persistent challenge due to staffing shortages, budget cuts and lack of time to adequately train staff. Often times staff are having to work shifts on the floor before finishing all of their training due to staffing shortages or the individual training them does not have sufficient time to properly train because they are already short staffed on the floor. Quality of care is also affected by having contract agency staff as these individuals do not know our residents as well as our own staff do.

 - 3 Regulatory compliance is a huge issue. Nursing homes must comply with a wide range of federal, state and local regulations. These regulations are constantly evolving, and non-compliance can lead to significant fines, legal actions, loss of funding and bans on admissions. The Centers for Medicare and Medicaid Services (CMS) has started issuing significant fines for non-compliance with regulations. This includes adhering to safety standards, quality reporting, infection control measures, and staffing, which require constant monitoring and funding.
-

Critical Issues

- 4 Per diem reimbursement from the Department of Veterans Affairs (VA) has become a huge issue. The VA is pushing more costs onto the state veterans' homes including mental health, dental and podiatry. Previously these costs were all covered by the VA. Per diem rates have not increased to cover these additional costs. The VA also requires the veterans' homes to cover all medical costs for veterans that are 70% or more service connected and the per diem rates paid for these veterans are significantly less than the veterans that do not fall in this category. As a result, more and more costs are being pushed back onto the State.
-

Performance Measures

We have none at this time.

Program Statistical Data

.

Explanation of Program Costs

Since 1893, the Veterans Home has been providing high quality care for honorably discharged veterans and their spouses. The home has 52 skilled nursing home beds and 98 basic care beds. Our program costs include bond and interest for the veterans home, operation and maintenance of the home and grounds, and costs related to providing 24 hour care for all our residents.

Program Goals and Objectives

Our mission statement says it all, Caring for Americas Heroes. We are dedicated to the health and welfare of each individual resident.

Increase in food (Priority: 01)

	2023-25 Agency Request				2023-25 Executive Recommendation			
	Ongoing	One-Time	Total	FTE	Ongoing	One-Time	Total	FTE
Federal	-	-	-	0.00	-	-	-	0.00
General	-	-	-	0.00	-	-	-	0.00
Special	100,000	-	100,000	0.00	100,000	-	100,000	0.00
Total	100,000	-	100,000	0.00	100,000	-	100,000	0.00

State Initiative:* Health, Vibrant Communities

Is this a Large IT project? No

Is this request for a new program or service? No

Request explanation and justification (include any statutory authority)*: Food costs are continually rising and our food vendors are predicting a 20% increase over the next biennium. We have also seen an increase in our census resulting in more meals to prepare.

Necessary resources for implementation (including FTE's)*: Funding

Are resources being redirected or are they new or additional (including FTE's)*: No resources being redirected and no new FTE.

Who is served and impact of not funding*: Residents

313 Veterans Home

Agency 313

Increase in utilities (Priority: 02)

	2023-25 Agency Request				2023-25 Executive Recommendation			
	Ongoing	One-Time	Total	FTE	Ongoing	One-Time	Total	FTE
Federal	-	-	-	0.00	-	-	-	0.00

Special	65,000	-	65,000	0.00	65,000	-	65,000	0.00
Total	65,000	-	65,000	0.00	65,000	-	65,000	0.00

State Initiative:* Health, Vibrant Communities

Is this a Large IT project? No

Is this request for a new program or service? No

Request explanation and justification (include any statutory authority): We have been notified by our utility provider that we will be seeing a 6% increase in our rates for the next biennium.

Necessary resources for implementation (including FTE's): Funding

Are resources being redirected or are they new or additional (including FTE's): No

Who is served and impact of not funding: Residents. We need electricity to provide a safe, warm environment for the residents to live in and to operate the medical equipment needed for their care.

IT Contractual Services (Priority: 03)

	2023-25 Agency Request				2023-25 Executive Recommendation			
	Ongoing	One-Time	Total	FTE	Ongoing	One-Time	Total	FTE
Federal	-	-	-	0.00	-	-	-	0.00

Total	45,000	-	45,000	0.00	45,000	-	45,000	0.00

State Initiative:* Technology Investment

Is this a Large IT project? No

Is this request for a new program or service? No

313 Veterans Home

Agency 313

Request explanation and justification (include any statutory authority)*: Increase in maintenance and annual fees for our software systems, such as our electronic health records, staff scheduling, employee timeclock, nurse call system, employee training, insurance billing, maintenance and dietary software.

Necessary resources for implementation (including FTE's)*: Funding

Are resources being redirected or are they new or additional (including FTE's)*: No

Who is served and impact of not funding*: Residents, staff, facility

Door openers (Priority: 04)

	2023-25 Agency Request				2023-25 Executive Recommendation			
	Ongoing	One-Time	Total	FTE	Ongoing	One-Time	Total	FTE
Federal	-	-	-	0.00	-	-	-	0.00
General	-	-	-	0.00	-	-	-	0.00
Special	-	80,000	80,000	0.00	-	80,000	80,000	0.00
Total	-	80,000	80,000	0.00	-	80,000	80,000	0.00

State Initiative*: State Facility Investment

Is this a Large IT project? No

Is this request for a new program or service? No

Request explanation and justification (include any statutory authority)*: Funding is needed to replace 20 door openers due to their age and the number of cycles they have completed. The door operators are starting to reach the end of their life; we have already replaced several this biennium.

Necessary resources for implementation (including FTE's)*: Funding

Are resources being redirected or are they new or additional (including FTE's)*: No resources being redirected and no new FTE.

Who is served and impact of not funding*: Residents, staff and visitors. Doors may be difficult or impossible to open, there would be safety risks with doors that could close unexpectedly and cause injury, and doors may not lock causing a safety concern.

Resident medications (Priority: 05)

	2023-25 Agency Request				2023-25 Executive Recommendation			
	Ongoing	One-Time	Total	FTE	Ongoing	One-Time	Total	FTE

Total	112,284	-	112,284	0.00	112,284	-	112,284	0.00

State Initiative:* Behavior Health and Addiction

Is this a Large IT project? No

Is this request for a new program or service? No

Request explanation and justification (include any statutory authority)*: Increase in medication costs for veteran residents. Increase due to price increases and increase in resident census.

Necessary resources for implementation (including FTE's)*: Funding

Are resources being redirected or are they new or additional (including FTE's)*: No resources being redirected and no new FTE.

Who is served and impact of not funding*: Veteran residents, and facility could be fined, lose funding or have a ban on admissions by the Department of Veteran Affairs for not providing medications that we are required to provide.

Increase in repairs (Priority: 06)

	2023-25 Agency Request				2023-25 Executive Recommendation			
	Ongoing	One-Time	Total	FTE	Ongoing	One-Time	Total	FTE
Federal	-	-	-	0.00	-	-	-	0.00

Total	43,229	-	43,229	0.00	43,229	-	43,229	0.00

State Initiative:* State Facility Investment

Is this a Large IT project? No

Is this request for a new program or service? No

Request explanation and justification (include any statutory authority)*: Increase due to service fees charged by outside vendors. This line item includes service professionals such as HVAC, lawn care, building automation, fire protection, and generator maintenance.

Necessary resources for implementation (including FTE's)*: Funding

313 Veterans Home

Agency 313

Are resources being redirected or are they new or additional (including FTE's)*: No resources being redirected and no new FTE.

Who is served and impact of not funding*: State, veterans, staff

State Fire & Tornado insurance (Priority: 07)

	2023-25 Agency Request				2023-25 Executive Recommendation			
	Ongoing	One-Time	Total	FTE	Ongoing	One-Time	Total	FTE
Federal	-	-	-	0.00	-	-	-	0.00
General	15,100	-	15,100	0.00	15,100	-	15,100	0.00
Special	-	-	-	0.00	-	-	-	0.00
Total	15,100	-	15,100	0.00	15,100	-	15,100	0.00

State Initiative*: Emergency Response Support

Is this a Large IT project? No

Is this request for a new program or service? No

Request explanation and justification (include any statutory authority)*: State Fire & Tornado insurance premiums are increasing by 38% for the 2025-2027 biennium; also adding coverage for resident garages and storage units.

Necessary resources for implementation (including FTE's)*: Funding

Are resources being redirected or are they new or additional (including FTE's)*: No resources being redirected and no new FTE.

Who is served and impact of not funding*: State

Food & clothing increase (Priority: 08)

Total	50,000	-	50,000	0.00	50,000	-	50,000	0.00

State Initiative*: Health, Vibrant Communities

313 Veterans Home

Is this a Large IT project? No

Is this request for a new program or service? No

Request explanation and justification (include any statutory authority)*: Increase in costs for gloves. Gloves are necessary for infection control, patient protection, handling hazardous material, and maintaining a sterile environment. A portion of the expenses for gloves in the previous two bienniums was paid for with federal COVID funding, expenses are now falling back to the facility.

Necessary resources for implementation (including FTE's)*: Funding

Are resources being redirected or are they new or additional (including FTE's)*: No resources being redirected and no new FTE.

Who is served and impact of not funding*: Residents, staff

Travel to VA (Priority: 09)

	2023-25 Agency Request				2023-25 Executive Recommendation			
	Ongoing	One-Time	Total	FTE	Ongoing	One-Time	Total	FTE

State Initiative:* State Facility Investment

Is this a Large IT project? No

Is this request for a new program or service? No

313 Veterans Home

Agency 313

Request explanation and justification (include any statutory authority)*: Equipment under \$5,000 one-time include refrigerators for dietary, mattresses and feeding pumps for nursing, housekeeping workstation carts and a datalogger for pharmacy.

Necessary resources for implementation (including FTE's)*: Funding

Are resources being redirected or are they new or additional (including FTE's)*: No resources being redirected and no new FTE.

Who is served and impact of not funding*: Facility, veterans. Equipment will wear out; cost more to fix than to buy new.

Medical and dental costs increasing (Priority: 12)

	2023-25 Agency Request				2023-25 Executive Recommendation			
	Ongoing	One-Time	Total	FTE	Ongoing	One-Time	Total	FTE
Federal	-	-	-	0.00	-	-	-	0.00
General	-	-	-	0.00	-	-	-	0.00
Special	65,000	-	65,000	0.00	65,000	-	65,000	0.00
Total	65,000	-	65,000	0.00	65,000	-	65,000	0.00

State Initiative:* Other

Is this a Large IT project? No

Is this request for a new program or service? No

Request explanation and justification (include any statutory authority)*: The Department of Veterans Affairs (VA) is pushing more costs onto state veterans' homes that we were not responsible for in the past, including mental health and dental services.

Necessary resources for implementation (including FTE's)*: Funding, Mental health and dental sharing agreements.

Are resources being redirected or are they new or additional (including FTE's)*: No resources being redirected and no new FTE.

Who is served and impact of not funding*: The facility and veteran residents. Failure to provide these services will result in fines, loss of federal funding and inability to admit new residents.

Contract nursing costs (Priority: 13)

	2023-25 Agency Request				2023-25 Executive Recommendation			
	Ongoing	One-Time	Total	FTE	Ongoing	One-Time	Total	FTE
Federal	-	-	-	0.00	-	-	-	0.00
General	-	-	-	0.00	-	-	-	0.00

	2023-25 Agency Request				2023-25 Executive Recommendation			
	Ongoing	One-Time	Total	FTE	Ongoing	One-Time	Total	FTE
Special	275,000	-	275,000	0.00	275,000	-	275,000	0.00
Total	275,000	-	275,000	0.00	275,000	-	275,000	0.00

State Initiative:* Workforce

Is this a Large IT project? No

Is this request for a new program or service? No

Request explanation and justification (include any statutory authority)*: The shortage of staff in the long-term care industry is causing facilities to use contract agency staff in order to meet the care needs of our residents. Costs for these agency personnel are 3-5 times higher than our own staff.

Necessary resources for implementation (including FTE's)*: Contract agency personnel, funding

Are resources being redirected or are they new or additional (including FTE's)*: Increased services.

Who is served and impact of not funding*: The residents. Lack of staff leads to a decreased quality of care, increased risk of falls and injuries, physical and emotional distress for the residents, staff burnout and high turnover rates.

Door/card access (Priority: 16)

	2023-25 Agency Request				2023-25 Executive Recommendation			
	Ongoing	One-Time	Total	FTE	Ongoing	One-Time	Total	FTE
Federal	-	-	-	0.00	-	-	-	0.00
General	-	-	-	0.00	-	-	-	0.00
Special	-	80,000	80,000	0.00	80,000	-	80,000	0.00
Total	-	80,000	80,000	0.00	80,000	-	80,000	0.00

State Initiative:* State Facility Investment

Is this a Large IT project? No

Is this request for a new program or service? No

Request explanation and justification (include any statutory authority)*: Looking to add card access to certain areas for security and safety of residents and accountability of staff entering secure areas. Benefits include controlling access into certain areas, reduced risk of theft, convenience - no keys needed, lockdown capabilities and emergency access control.

313 Veterans Home

Necessary resources for implementation (including FTE's)*: Funding

Are resources being redirected or are they new or additional (including FTE's)*: New

Who is served and impact of not funding*: Staff. Enhances security and efficiency

Fund 3.0 FTE that were unfunded to meet budget guidelines (Priority: 18)

Total	351,285	-	351,285	0.00	351,285	-	351,285	0.00

State Initiative:* Workforce

Is this a Large IT project? No

Is this request for a new program or service? No

Request explanation and justification (include any statutory authority)*: Since we are so highly regulated and could not find anywhere to cut our budget to meet the Governor's 3% reduction in special funds, we had to remove funding from some vacant FTE positions. With our increasing census and the upcoming federal staffing mandates, we need to have these positions funded in order to comply with regulations.

Necessary resources for implementation (including FTE's)*: Funding FTEs

Are resources being redirected or are they new or additional (including FTE's)*: No

Who is served and impact of not funding*: Facility, residents, State

LPN to RN wage increase (Priority: 22)

Total	15,000	-	15,000	0.00	15,000	-	15,000	0.00

313 Veterans Home

State Initiative:* Workforce

Is this a Large IT project? No

Is this request for a new program or service? No

Request explanation and justification (include any statutory authority)*: Requesting funding to change LPN positions to RN positions if needed. Several staff have/are going back to school to become RNs. Properly adjusting funding to reflect advanced qualifications is crucial for maintaining a motivated, skilled and stable nursing workforce. At the time of entering this data, the State of North Dakota had 17,227 RNs and only 2,850 LPNs.

Necessary resources for implementation (including FTE's)*: Funding

Are resources being redirected or are they new or additional (including FTE's)*: additional

Who is served and impact of not funding*: Workforce, residents. Key downfalls of not funding include reduced staff retention and morale, negative impact on patient care, inequitable compensation, missed opportunities for professional development and potential legal and financial risks.

Painting (Priority: 24)

	2023-25 Agency Request				2023-25 Executive Recommendation			
	Ongoing	One-Time	Total	FTE	Ongoing	One-Time	Total	FTE
Federal	-	-	-	0.00	-	-	-	0.00
General	-	-	-	0.00	-	-	-	0.00
Special	-	50,000	50,000	0.00	-	50,000	50,000	0.00
Total	-	50,000	50,000	0.00	-	50,000	50,000	0.00

State Initiative:* State Facility Investment

Is this a Large IT project? No

Is this request for a new program or service? No

Request explanation and justification (include any statutory authority)*: Requesting funding to hire a professional painter to paint the interior of the facility. The building will be 14 years old and other than touch up painting, has never been repainted. There are many areas that have been touched up due to wear and the paint does not always match. Regular repainting should be part of routine maintenance to ensure the longevity of the surface and keep it in good condition.

Necessary resources for implementation (including FTE's)*: Funding, professional painter

Are resources being redirected or are they new or additional (including FTE's)*: New

313 Veterans Home

Agency 313

Who is served and impact of not funding*: State, facility. Building will look run down, showing signs of wear. Need to keep up with upkeep and maintenance to attract new residents.

Microsoft office (Priority: 25)

	2023-25 Agency Request				2023-25 Executive Recommendation			
	Ongoing	One-Time	Total	FTE	Ongoing	One-Time	Total	FTE
Federal	-	-	-	0.00	-	-	-	0.00
General	90,723	-	90,723	0.00	90,723	-	90,723	0.00
Special	-	-	-	0.00	-	-	-	0.00
Total	90,723	-	90,723	0.00	90,723	-	90,723	0.00

State Initiative:* Technology Investment

Is this a Large IT project? No

Is this request for a new program or service? No

Request explanation and justification (include any statutory authority)*: Funding would allow us to change 30 FTE staff from basic Office 365 to premium Office 365. The reason for the change would be efficiency. These staff can currently only access Microsoft products on a web browser, providing them with Office premium would give them access to all Microsoft products increasing productivity and allowing for better communication. We are also requesting funding to add 88 employees to basic Office 365. These staff currently do not have state email accounts making communication difficult. They also do not have access to the state intranet, state surveys, weekly and monthly informational information put out by the state, or cyber security training. The facility currently has to rely on several modes of communication in hopes that staff are getting the information.

Necessary resources for implementation (including FTE's)*: Funding

Are resources being redirected or are they new or additional (including FTE's)*: New licenses

Who is served and impact of not funding*: Staff, state. Staff may not receive necessary communication and are unable to access the state's resources.

Advertising/Marketing (Priority: 27)

	2023-25 Agency Request				2023-25 Executive Recommendation			
	Ongoing	One-Time	Total	FTE	Ongoing	One-Time	Total	FTE
Federal	-	-	-	0.00	-	-	-	0.00
General	50,000	-	50,000	0.00	-	-	-	0.00
Special	-	-	-	0.00	-	-	-	0.00
Total	50,000	-	50,000	0.00	-	-	-	0.00

313 Veterans Home

State Initiative:* State Facility Investment

Is this a Large IT project? No

Is this request for a new program or service? No

Request explanation and justification (include any statutory authority)*: Requesting funding for advertising and marketing. The state has never provided funding for these services, we have had to rely on donations from outside organizations. We need to be able to market to attract new residents, educate the public on the specialized care we provide, differentiate ourselves from our competitors, foster relationships with referral sources, and drive financial stability.

Necessary resources for implementation (including FTE's)*: Funding

Are resources being redirected or are they new or additional (including FTE's)*: New

Who is served and impact of not funding*: State, residents, family members. We often hear the phrases "you are the best kept secret in North Dakota" and "we wish we had known about this place sooner"; these are words we should never hear and giving us a budget to help market the facility would allow us to reach more people.

Capital Projects Summary

Total				-	-	\$80,000	-	\$80,000	\$80,000	-

State Initiative:* State Facility Investment

313 Veterans Home

Agency 313

Explanation / Justification: Looking to add card access to certain areas for security and safety of residents and accountability of staff entering secure areas. Benefits include controlling access into certain areas, reduced risk of theft, convenience - no keys needed, lockdown capabilities and emergency access control.

Computer temperature sensor reader (Priority: 21)

Description	Fund	BU-Dept	Fin Class	2023-25 Base Budget	2023-25 Optional Request		2023-25 Total Budget Request		2023-25 Executive Recommendation	
					Ongoing	One-Time	Ongoing	One-Time	Ongoing	One-Time
Computer temperature sensor reader	380	313-2000	31350	-	-	35,000	-	35,000	35,000	-
Total				-	-	\$35,000	-	\$35,000	\$35,000	-

State Initiative:* Technology Investment

Explanation / Justification: Computer temperature sensor readers provide significant benefits by ensuring precise temperature control, enhancing safety, reducing energy costs, and protecting valuable assets. Their ability to provide real-time data, trigger alerts, and integrate with other systems make them an essential tool for maintaining operational efficiency and regulatory compliance in temperature-sensitive environments.

Carpet replacement (Priority: 28)

Description	Fund	BU-Dept	Fin Class	2023-25 Base Budget	2023-25 Optional Request		2023-25 Total Budget Request		2023-25 Executive Recommendation	
					Ongoing	One-Time	Ongoing	One-Time	Ongoing	One-Time
Carpet replacement	380	313-2000	31350	-	-	260,000	-	260,000	-	260,000
Total				-	-	\$260,000	-	\$260,000	-	\$260,000

State Initiative:* State Facility Investment

Explanation / Justification: Funding would replace the carpeting in the basic care facility. Carpeting was replaced in the nursing home during the 2021-2023 biennium. Carpeting will be 14-15 years old and is in need of replacement. This project was identified as a need when Sitelocic did their facility assessments.

Statutory Authority

NDCC 54-36-01 to 54-36-10.

Agency Description

The North Dakota Indian Affairs Commission (NDIAC) is the liaison between the Executive branch and the Tribal nations of North Dakota. Duties include coordination and mediation service with Tribal nations and the State and its agencies regarding inter-agency communication, protocol, and jurisdictional issues. Additionally, NDIAC works with Tribal governments, their people and communities to enhance capacity in working with the State.

The NDIAC also is responsible for the maintenance and publication of several documents, including but not limited to the Statewide Directory of American Indian Resources, historical and contemporary information, and research about North Dakota’s Native American citizens. These materials are available in print and for download on the agency website.

Agency Mission Statement

NDIAC shall have the power to assist and to mobilize the support of state and federal agencies in assisting Native American individuals and groups in North Dakota, especially the five Tribal councils, as they seek to develop their own goals, project plans for achieving those goals, and implement those plans. NDIAC’s duties are:

- To investigate any phase of Native American affairs and to assemble and make available the facts needed by Tribal, State, and Federal agencies to work effectively together.
- To assist Tribal, State, and Federal agencies in developing programs whereby Native American citizens may achieve more adequate standards of living.
- To assist Tribal groups in developing increasingly effective institutions of self-government.
- To work for greater understanding and improved relationships between Native American and non-Native Americans.
- To seek increased participation by Native American citizens in local and state affairs.
- To confer with and coordinate officials and agencies of other governmental units and congressional committees regarding the needs and goals for each Tribal community.
- To encourage and propose agreements and accords between Federal, State, and local agencies and the several tribal governments, and, pursuant to chapter 54-40.2, to assist in monitoring and negotiating agreements and accords when asked by an affected Tribe.

Major Accomplishments

-
- 1 Conducted quarterly North Dakota Indian Affairs Commission meetings as defined in NDCC 54-36.

 - 2 Held Strengthening Government to Government conferences in both 2023 and 2024.

 - 3 Co-sponsored the North Dakota Indian Education Summit with the North Dakota Department of Public Instruction.

Critical Issues

-
- 1 Native American population growth is having an impact on infrastructure, oil energy development, schools and human service organizations in North Dakota.
 - 2 Issues confronting State-Tribal relations are increasingly complex. A state-embraced and formalized structure to address these complex issues is imperative to the future of North Dakota.
 - 3 The NDIAC staff, at times, is limited in its capacity to address issues beyond basic information sharing, networking and coordination functions.
-

Performance Measures

1. Develop and implement a written public relations campaign\plan to create a greater role and clarify its responsibilities, create an awareness of the needs and issues of American Indians in North Dakota; to celebrate the accomplishments of Indian individuals, programs and projects.
2. Gather and facilitate the dissemination of data and statistics and research issues, concerns, and needs that pertain to the American Indian population in the State of North Dakota.
3. Facilitate a collaborative relationship between and among agencies and tribal communities as it relates to legislation, economic development, workforce development, judicial systems, education, and social and health needs.
4. Advocate for the design, development and implementation of Tribal initiatives that may include but not limited to water issues, economic development, gaming, education, taxes, and social and health needs workforce development.
5. Coordinate quarterly meeting between State and Tribal leadership with the option to host emergency meetings as needed to build better understanding and respect amongst governments

Program Statistical Data

Tribal Statistics

Mandan, Hidatsa, & Arikara Nation (Three Affiliated Tribes) - 12,204 Enrolled members (MHA Enrollment Office 1/31/2011)

Spirit Lake Tribe - 6,478 Enrolled members (Spirit Lake Enrollment Office - 2011)

Standing Rock Sioux Tribe - 16,000 Enrolled members (Standing Rock Enrollment Office - 2011)

Turtle Mountain Band of Chippewa - 30,995 Enrolled members (Turtle Mt Enrollment Office - 1/28/2011)

Trenton Indian Service Area - 1,800 IHS User Population (TISA office 1/28/2011)

Sisseton-Wahpeton Oyate - 13,177 Enrolled members (2005 BIA Labor Force)

Explanation of Program Costs

The cost associated at the program level will provide for long-term articulated needs identified by the American Indian communities. The low achievement rate of American Indian children continues to lag an average of 20 points below that of the general school population of children in North Dakota schools. American Indian children still constitute the largest number of students by ethnicity in North Dakota schools and represent the largest number of English learning students. North Dakota ranks as one of the top 20 states with significant enrollments of American Indian students in the United States. American Indian students account for 10.5 percent of the total number of all K-12 students enrolled in North Dakota schools by type. Funds will be used to focus efforts to identify and offer strategies to address some of the consistent issues of student achievement, attendance, rates of graduation, efforts to work with key school\school districts on appropriate cultural pedagogy and evidence-based methodologies proven to impact the gap in achievement.

81% of the budget requested is for salary and fringe for Indian Affairs Commission staff. The remaining budget is for the operating expenses of the agency. There is an amount allocated to help fund the annual conference sponsored by the Indian Affairs Commission.

Program Goals and Objectives

The goals of the North Dakota Indian Affairs Commission as articulated continue to be:

- To increase the capacity of the state and state agencies to better address issues related to American Indians systemically. Increase the need for communication and cooperation toward resolution of matters of mutual concern.
- Build inter-agency support for identification/securing of personnel within agencies to serve in a liaison capacity on American Indian related issues and to network with the ND Indian Affairs Commission.
- Work to build government to government agreements between tribes and state in the areas healthcare, taxation, cyber security, and law enforcement.

State Initiative:* Tribal Partnerships

Is this a Large IT project? No

Is this request for a new program or service? No

Request explanation and justification (include any statutory authority)*: A Public Information Officer is needed to help coordinate communication between the State and individual tribal nations and well as between tribal nations.

Necessary resources for implementation (including FTE's)*: A new FTE is needed for this request. Current staff do not have the capacity to perform these functions.

Are resources being redirected or are they new or additional (including FTE's)*: The operating expenses for the new position will be absorbed by the current base budget.

Who is served and impact of not funding*: Communication between the state and the tribal nations is difficult and complex. If this request is not funded, both sides will continue to struggle with communications.

Statutory Authority

North Dakota Century Code Chapters 37-14 and 37-18.

Agency Description

The North Dakota Department of Veterans Affairs (NDDVA) has the responsibility of ensuring the state's over 54,000 veterans and their dependents not only know about the state and federal benefits to which they are entitled for having served their country, but also assist them in obtaining such benefits. The department is responsible for the collection, filing, safeguarding and maintaining of North Dakota Veterans DD214 and DD215 armed forces discharge documents. The department safeguards these records in fireproof locking cabinets and in electronic form. NDDVA provides certified and true copies to the veterans or their eligible next of kin upon request at no charge.

The department is responsible for assisting counties with training of the County Veterans Service Officers (CVSOs) and their assistants who serve 53 counties, and are appointed by their respective County Commissions, as well as assisting in the training of 9 Tribal Veteran Service Officers (TVSOs) from four tribes. The department provides training through two training seminars each year to keep the CVSO/TVSOs as current as possible on issues, topics and programs available to and affecting veterans as well as providing initial and continued one-on-one training and accreditation with the CVSO/TVSOs in the NDDVA office. The department assists counties in serving veterans in the absence or vacancy of CVSO personnel.

The department accepts, develops and carries through to completion veteran and dependent claims for benefits and services from the United States Department of Veterans Affairs (VA) and acts as power of attorney in these claims and appeals; counsels veterans on employment and entrepreneurial programs and regulations, educational (high school through graduate level) programs, disability benefits, medical (both physical and mental) care, nursing home assistance, death benefits, housing, and other related veterans activities. The department is responsible for enforcing the state's veteran's preference law.

A Veterans Aid Loan Program, Transportation Programs, Hardship medical & non-medical Grant Programs, Funeral Honor Guard Stipends, and Commemorative Memorial Coin programs are all administered by the department. The department is responsible for distributing information relating to veterans' programs and veterans' issues to the state veteran population, interested parties and the general public through the use of email, news media, website, social media, CVSO/TVSOs, veterans organizations and US mail. The department, working under the supervision of the Administrative Committee on Veterans Affairs, also monitors legislation and assists others in acquiring information.

Agency Mission Statement

1. Assist Veterans and their families to obtain benefits for which they are entitled.
2. Ensure that Veterans of the State of North Dakota are aware of all benefits available.
3. Advocate for adequate and needed benefits for Veterans being mindful of changing needs of those Veterans.
4. Ensure adequate resources are available for Veterans and Veterans' programs.
5. Develop programs and services to meet Veterans' needs.

Major Accomplishments

- 1 Provided training and support to County Veteran Service Officers (CVSOs) and Tribal Veteran Service Officers (TVSOs): - Four Training Conferences conducted averaging 70 participants. - Conducted week-long initial accreditation training for 23 new VSO's during 2021-2023 biennium.
- 2 Continue to archive DD214s into electronic data base for safe keeping and easy access. Requested ARPA funding from the 2023 legislation to conduct scanning of all county and tribal DD214's. Funding approved for 2023-2025 biennium.
- 3 Continued to improve veteran's claims management program which allows NDDVA and CVSOs to maintain, track, process and submit claims to the federal VA electronically. Many improvements to system were completed, many more in process. \$1.2 Billion in Federal Veterans Affairs benefits/expenditures coming into North Dakota through benefits and programs such as pension, compensation, education, insurance, and hospitalizations in part due to the services provided and coordinated by the North Dakota Department of Veterans Affairs. Improved Women Veteran Services. by maintaining focus on Women specific claims for benefits, such as complicated Military Sexual/Personal Trauma cases, and establishing and maintaining great working relationships with all Counties and Native American tribes in North Dakota.
- 4 Involved in legislative changes that resulted in improvements to services and benefits: --ARPA funding for Scanning of DD214's at county and tribal offices (HB 1025) --Added definition of Military, Armed Forces and Uniformed Services to ND Century Code (HB 1109) --Allow state veteran service organizations to accept charitable gaming funds (HB 1142) --ARPA funding for construction of a Fisher House for the Fargo VA (HB 1157) --Created a funeral honor guard stipend (HB 1182) --Updated the dependent and surviving spouse tuition waiver (HB1196) --Updated surviving spouse definition for vehicle license plate and excise tax exemption, property tax, and tuition waiver (HB 1212) --Updated veterans employment preference by adding National Guard and Reserve and Active-Duty pre-discharge eligibility (HB 1222) and updated definition of electronic communication (HB 1250) --Added "Bridges for the Fallen" program naming 3 bridges after fallen ND service members HB 1351, HB 1352, HB 1355 and a hidden wounds of war bridge HB 1354. --Updated eligibility for ND State Veterans Home to include certain disabled National Guard members and disabled former service members (HB 1389) --Created a suicide fatality commission including a veteran representative (HB 1390) --Resolution to include Vietnam War Navy Service members of the USS Frank E. Evans (DD-754) to be added to the Vietnam War Memorial Wall (HCR 3007) --Updated state employee leave to match federal requirements for care of disabled veteran or service member (SB 2198) --Updated ND DVA loan program to include ND National Guard and Reserve members (SB 2204) --Exempt military pay from state income tax (SB 2293)
- 5 Transportation: -- Implemented many changes to improve transportation for Veterans to medical appointments. --Purchased 1 replacement DAV van -- Purchased 5 replacement vans for the Highly Rural Transportation Grant (HRTG) program. Federal funds. -- Applied for and received federal grant for transportation services in 36 of North Dakotas highly rural counties and 2 tribes. -- Maintain 14 HRTG vehicles and wheel-chair accessible vans to sub-recipients throughout ND. -- Total transportation from the 5 NDDVA programs: 2021-2023 biennium NDDVA provided: -- 20,172.85 hours spent transporting veterans -- 767,526.34 miles traveled -- 1,883 Veterans served --7,997 trips provided
- 6 Education: -- SAA received highest rating from Federal VA -- 100% of all North Dakota' Institutes of Higher Learning program Catalogs reviewed, updated, and approved. -- Over 100 employers certified and participating in On-the-Job Training and Apprenticeship programs -- \$43 Million in Federal VA education benefits in ND.

Critical Issues

- 1 Restore NDDVA 2017 staff cuts; -- Return one (1) Veterans Benefits Specialist (VBS) FTE
- 2 Staff salary equity to compete with current market

Performance Measures

We have implemented and continue to update individual employee goals and performance measures to outline and measure the quality of service to our veterans and performance of our staff in providing these services to ensure quality service.

Program Statistical Data

During the course of the Federal Fiscal Year (FFY) 2022, in part due to the services provided and coordinated by the North Dakota Department of Veterans Affairs, the Federal Veterans Affairs benefits amounted to \$635,012,000 coming into North Dakota through benefits and programs such as pension, compensation, education, insurance, health and behavioral health services. Total Federal benefits in FFY2023 was \$672,293,000 (up \$37,281,000 from previous year). VA expenditures in North Dakota are over \$1.3 Billion per biennium, this does not happen without the hard work of NDDVA and our partners.

North Dakota has approximately 54,000 veterans residing in the state along with their dependents. NDDVA Veteran Service Officers:

ND DVA employs 4 Veterans Benefit Specialists and one Women Veterans Coordinator/Benefits Specialist who service the claims from the 4 Tribal Service Offices and over 70 CVSO/TVSOs and their assistants serving North Dakotas 53 Counties and 4 tribes. 2019-2021 Biennium: NDDVA Veteran Benefits Specialists:

Filed 3,104 new claims resulting in

- \$15.8 Million in new Compensation or Pension awards

- \$22.5 Million in retroactive (back pay) payments

- 903 appeals filed with

- 68.8% win rate (national average: 36%)

Veteran Service Officers efforts resulted in

- \$319 Million paid to ND Veterans and Dependents in Compensation and Pension

- \$353 Million in medical services

State Approving Agency (under NDDVA) FFY2021 and FFY2022 accomplishments

- 15 Compliance Surveys (Audits) on Institutes of Higher Learning (IHL)

- 2,934 total approval actions

- 100+ Total On-the-Job (OJT) and Apprenticeship facilities approved in ND

- \$45 Million in Education Benefits in North Dakota

Highly Rural Transportation (HRTG) Program:

Fourteen (14) vans are in operation with ten (10) sub-recipients designated to transport veterans to VA medical appointments. Nine (9) independent transit providers are also contracted to provide transportation services.

321 Veterans Affairs

Agency 321

During the 2021-2023 biennium HRTG provided:

- 17,136 hours spent transporting veterans
- 667,406 miles traveled
- 1,328 Veterans served
- 6,969 trips provided

DAV Transportation Program: The veterans (DAV) transportation system is designed to aid veterans in transportation to a Veterans Hospital. Currently, there are eight (8) vans on scheduled routes bringing veterans to the Fargo Veterans Affairs Medical Center.

For the year 2019:

- 257 veterans were transported to the Federal VA for medical appointments
- Volunteer drivers drove 62,990 miles providing 308 trips during 1,910 hours of volunteer driving
- 1 DAV van purchased in 2023 for \$18,600 NDDVA General Fund dollars.

Veterans Aid Loan Program:

During the 2021-2023 biennium NDDVA processed 37 loan applications. Approving 15 new loans for \$73,828.

Hardship Grant Programs:

During 2021-2023 biennium

- 80 PWTF grants processed and \$154,130 paid out.
- 51 Impact grants processed and \$88,854 paid out.

Funeral Honor Coins:

2022 & 2023 totals:

- Coins Sold: 1,587 for \$16,925
- Replacement coins provided to Funeral Home Directors 2022 & 2023: 2,165

Funding for the veterans' aid loans comes from the Veterans Aid Fund (Fund 368) and funds for the hardship grant are obligated by the Administrative Committee from the Post War Trust Fund interest earnings held in fund 410.

Explanation of Program Costs

The cost for the Department is in salary, benefits, and operating costs for the eight full-time staff including the Commissioner of Veterans Affairs. The Department has a responsibility towards the veterans and their dependents of North Dakota to meet the duties and obligations given to it under North Dakota Century Code and as assigned by the Administrative Committee on Veterans Affairs.

The ND State Approving Agency (SAA) is also under the ND Department of Veterans Affairs. The full budget for the one SAA employee is paid by Federal funding. Administrative fees are also collected from Federal funding.

The veterans aid loans come from the revolving Veterans Aid Fund (368).

Funds for the hardship grant and transportation programs are obligated by the Administrative Committee from the Post War Trust Fund interest earnings. Available funds are held in Fund 410.

Highly Rural Transportation program is fully funded by a Federal Grant. NDDVA collects 10% per diem from the Federal Grant Funds expended.

Program Goals and Objectives

The program goal is to deliver quality customer service and manage available resources in a way that is cost effective and productive. Expand and grow programs to compete with other states in order to attract discharging veterans to North Dakota and become a more military and veteran friendly state.

State Initiative:* Other

Is this a Large IT project? No

Is this request for a new program or service? No

Request explanation and justification (include any statutory authority)*: Dutch Bialke spoke on the Veterans’ Affairs subcommittee discussion regarding the Commissioner’s salary. The Commissioner is appointed by ACOVA and serves at the pleasure of ACOVA. ACOVA sets the Commissioner’s salary within the confines of the Department’s budget. The subcommittee reviewed a list of containing 21 state agencies that are similar in size to the Department; the Commissioner’s salary is down at the bottom. They also reviewed a list containing the salaries of other State Directors of Veterans Affairs; again North Dakota is at the bottom. The Commissioner’s

321 Veterans Affairs

Agency 321

monthly compensation is \$7,834.42 per month; the director of an agency like the Department receives \$12,000 per month. The subcommittee looked at his duties, exemplary work ethic and length of employment (he was appointed in 2008). Commissioner Wangen holds two master's degrees and a bachelor's degree. They took into consideration that there is no Deputy Commissioner to help with the workload. The networking and contacts the Commissioner has made from serving on over 20 committees has helped him be more effective in serving the veterans of North Dakota.

The Veterans' Affairs Subcommittee recommends to the full committee that the Commissioner be compensated more consistent with his duties and responsibilities. They recommend his salary be increased by \$3,525.55 to an amount of \$11,359.97 per month. This places the Commissioner just below mid-point of the amount agency directors receive and that of other State Directors. The increase is long overdue, and the subcommittee believes it's the right thing to do.

Motion by Dutch Bialke to increase Commissioner Wangen's salary by an additional \$3,525.55 for a monthly salary of \$11,359.97, second by Vernon Laning. Motion amended by Dutch Bialke that the effective date be 1 December 2023, second by Hal Weninger. Amendment passed.

Roll Call vote on Amended motion Yeas: Steve Anderson, Brian Bartlett, Joseph Bialke, Dave Hilleren, Trish Hodny, Vernon Laning, Gary Maddock, Dave Rice, Glenn Wahus, Hal Weninger, Murray Strom; Abstain: Ed Ennis. Motion passed.

This increase accounts for approximately \$100,000 of the \$143,092.

Necessary resources for implementation (including FTE's)*: Funding the agency completely with general funds is being requested. There is no need for an FTE for this Decision Package.

Are resources being redirected or are they new or additional (including FTE's)*: General Funding will be replaced with federal funding . There will be General Fund turnback at the end of biennium.

We are not asking for any additional funding for our operating costs.

Who is served and impact of not funding*: Our agency primarily serves the veterans population of North Dakota along with their dependents. We also work with other state and federal entities to ensure that veterans are receiving all benefits and services they are entitled to from the federal government and state government. We also provide information to the public through events and our website. If NDDVA is not fully funded by general funds for the 2025-2027, we could face a situation severely impacting our ability to provide services. There is no guarantee on the amount of the reimbursements we receive since it is based on actual expenses.

Equity Funding (Priority: 02)

State Initiative*: Workforce

321 Veterans Affairs

Agency 321

Is this a Large IT project? No

Is this request for a new program or service? No

Request explanation and justification (include any statutory authority)*: Recruiting and retention of employees:

During the 2021-2023 biennium ND Department of Veterans Affairs (NDDVA) experienced 30% staff turnover. All staff turn-over was attributed to their salary/compensation amounts. Civilian, County and Federal employers are paying higher compensation packages. Four of our top candidates refused employment due to the compensation package NDDVA could offer. It is unacceptable that NDDVA cannot afford to recruit the qualified staff needed to serve North Dakota's Veterans. We need to provide funding to move these employees closer to a compensation package which is more reflective of the work that they are doing and competitive with the civilian, County and Federal employment markets.

In comparison to the top 3 competitors for NDDVA Veterans Benefit Specialist (VBS) grade 104 positions NDDVA salary is on average 28% below market.

See below.

MNDVA (23%) Minnesota Department of Veterans Affairs poached one NDDVA VBS at a starting annual salary of \$12,000 more than current salary of NDDVA VBS. That is a 23% higher wage. Source: MN DVA

VARO (36%): Federal VA Regional Office Veterans Claims examiners grade 11 and 12 step 4 is 36% higher than NDDVA. Source: VA online pay schedule

CVSO ND (24%): County Veteran Service Officers (CVSO) of the top 9 largest counties in ND are paid on average 44% more than the NDDVA VBS who train and support them. Source 2022 Mill report.

Necessary resources for implementation (including FTE's)*: Total General Fund Salary Base for NDDVA grade 104 2021-2023 Biennium: \$844,877.76

VBS \$1,692.83 (monthly equity) x 6 staff= \$243,767.91

Are resources being redirected or are they new or additional (including FTE's)*: New additional funding.

Who is served and impact of not funding*: NDDVA and its stakeholder are responsible for service to over 53,000 North Dakota Veterans and their 69,000 dependents.

** Federal VA expenditures brought into North Dakota exceeds \$1.3 Billion each biennium. NDDVA is at the center of making that happen and increasing those dollar amounts.

2021-2023 North Dakota General Fund dollars appropriated to NDDVA= \$1.7 million.

Return on Investment: 790%

Total	176,498	-	176,498	1.00	-	-	-	0.00

State Initiative:* Workforce

Is this a Large IT project? No

Is this request for a new program or service? No

Request explanation and justification (include any statutory authority)*: NDDVA requests the return of one FTE lost in the 2017 cuts.

North Dakota Department of Veterans Affairs (NDDVA) has been in need of an additional Veteran Benefits Specialist (VBS) for many years. With the loss of 3 positions during the 65th Legislative session and the increase of responsibilities and caseload the NDDVA staff have been unable to serve the ND Veterans and the ND County and Tribal Veteran Service Officers (C&TVSO) as they require.

During the 2019-2021 biennium NDDVA VBS;

- Completed 3,315 new Claims for Compensation and Pension resulting in,
 - o \$35 million in new awards
 - o \$9.5 million in retroactive payments
 - o 628 appeals filed with an 85% remand (National average: 39%)

The 3 NDDVA VBS assist, advise and mentor over 70 ND County and Tribal Veteran Service Officers.

Necessary resources for implementation (including FTE's)*: General funds and 1 FTE authorization added to budget.

Are resources being redirected or are they new or additional (including FTE's)*: This would be the return of resources removed in 2017 budget cuts.

Who is served and impact of not funding*: 53,608 ND Veterans (Source: VA GDX 2020)

69,690 Dependents of Veterans (Per US Census.gov Household of 2.3)

321 Veterans Affairs

Agency 321

70+ County and Tribal Veteran Service Officers

Impact of not funding has taken a toll on NDDVA staff. NDDVA has lost good staff after the 2017 cuts and the workload has only increased. The workload for current staff needs to be relieved.

Due to the increased workload NDDVA lost its most senior and experienced Veterans Benefits Specialist to a higher paying position with less caseload in the same field.

NDDVA believes that an additional FTE would greatly improve our ability to serve our veterans as well as increase the services and benefits received by ND Veterans.

An added note: The Federal VA expended over 1 Billion Dollars (\$1,067,191,000) of Federal funds in North Dakota during the last Biennium (Source: VA GDX). With better supported and informed stakeholders this number will continue to grow.

Retirement Payment for Annual and Sick Leave (Priority: 06)

	2023-25 Agency Request				2023-25 Executive Recommendation			
	Ongoing	One-Time	Total	FTE	Ongoing	One-Time	Total	FTE
Federal	-	-	-	0.00	-	-	-	0.00
General	-	19,148	19,148	0.00	-	19,148	19,148	0.00
Special	-	-	-	0.00	-	-	-	0.00
Total	-	19,148	19,148	0.00	-	19,148	19,148	0.00

State Initiative:* Workforce

Is this a Large IT project? No

Is this request for a new program or service? No

Request explanation and justification (include any statutory authority)*: Employee retiring with 45 years of service. Agency will need to pay out accumulated annual and sick leave hours as directed under HR Policy Manual.

Necessary resources for implementation (including FTE's)*: Additional general funds dollars to cover costs.

Are resources being redirected or are they new or additional (including FTE's)*: n/a

Who is served and impact of not funding*: Not funding costs would negatively impact the Agency's payroll budget. Position would need to be left vacate in order to cover the costs. This position does all the administrative work for the Department and would severely impact all areas of the Agency.

Description	Fund	BU-Dept	Fin Class	Account	Est. Useful Life (Years)	2023-25 # of Items	2023-25 Unit Cost	2023-25 Optional Request		2023-25 Total Budget Request		2023-25 Executive Recommendation	
								Ongoing	One-Time	Ongoing	One-Time	Ongoing	One-Time
	001	321-9000	32152	692000	6	1	18,800	4,200	-	4,200	-	4,200	-
Total					-	-	-	4,200	-	4,200	-	4,200	-

State Initiative:* Health, Vibrant Communities

Justification: NDDVA has supported and continues to support the need for DAV transportation vans in North Dakota. While NDDVA is requesting this funding, it is important to point out that this is not funding for use in the operation of the NDDVA but is Pass-Through funding.

Current DAV Van inventory in ND is 9 vans serving the urban areas of:

- Bismarck (2 vans): Bismarck/Mandan, Jamestown, Valley City (communities between Bismarck and Fargo)

321 Veterans Affairs

Agency 321

- Beach (1 van), Beach, Medora, Dickinson (communities between Beach and Fargo and Beach and SD Ft. Meade)
- Lidgerwood (1 van): Communities from Lidgerwood, Wahpeton and to Fargo
- Minot (1 van): Minot and communities along highway 2 and I29 to Fargo
- McHenry County (1 van): Communities along highway 75 to Jamestown and to Fargo
- Pembina Count (1 van): Communities along I29 to Fargo; Grand Forks, Hillsboro

*Drivers are volunteers and drive on set days and set routes.

NDDVA's budget for vans:

- 2017-2019 included \$37,200 for the purchase of up to 2 transportation vans, no vans were purchased.
- 2019-2021 budget included: \$18,800, one (1) van was purchased at a cost to NDDVA of \$13,845.
- 2021-2023 budget included: \$18,800 for one (1) van.
- 2023-2025 budget included: \$18,800 in General Funds and \$18,800 in ARPA funds for 2 vans
- o State cost share of one (1) van was \$22,664.
- It is estimated that One (1) van will need replacement during the 2025-2027 biennium.

This funding along with funding from the DAV's Columbia Trust is used to purchase vans to transport veterans from across ND to the VAMC in Fargo. In working with the Columbia Trust NDDVA's has been able to purchase vans for \$14,000-\$22,664. When we submit applications to the Columbia Trust we also request that the trust consider North Dakota for a free van, the trust provides a few free vans nationwide each year. North Dakota received a free van in 2014 and again in 2018.

Once purchased the DAV Vans are donated to the Federal VA in Fargo. The Federal VA maintains all expenses for van to include fuel, maintenance, and licensing. Once van reaches its useful life it is returned to NDDVA for disposal. Useful life has been at 100,000 to 150,000 miles.

Total				-	50,000	-	50,000	-	50,000	-

State Initiative:* Behavior Health and Addiction

Explanation / Justification: Post Traumatic Stress Disorder (PTSD) is a real illness which greatly affects the quality of lives for well over 35% of our veterans. PTSD is also a large contributing factor in the alarming rate of suicides within our veteran community. Nationally it is estimated that a veteran will successfully commit suicide every 80 minutes which results in over 6,000 suicides per year. We have lost 26 North Dakotans to the wars in Afghanistan and Iraq since 2001. We have lost over 449 North Dakotan Veterans to suicide since 2001. These service dogs can greatly improve the quality of lives of our veterans who have many hidden injuries from their war experiences. The 63rd legislative assemblies SB 2344 appropriated \$50,000 to the NDDVA for the purchase of service dogs for our veterans. We would like to continue this appropriation in our budget.

Agency Description

HHS's more than 150 programs and services enhance North Dakotans' well-being and quality of life by supporting access to economic stability, housing, education, food, health care, and more.

Our over 2,800 full time team members serve North Dakotans at 59 locations across the state.

We deliver services and supports in collaboration with Medicaid providers, behavioral health providers and contracted human services providers, such as developmental disability and senior nutrition providers, and other partners. We support and provide resources and expertise to health care providers and facilities, such as hospitals, basic-care and long-term care facilities.

We also partner with local public health, tribal leaders, universities and providers to deliver public health education, outreach and response. We partner with 19 human service zone offices to deliver economic assistance and child welfare programs and services across all 53 counties in the state.

Agency Mission Statement

HHS fosters positive, comprehensive outcomes by promoting economic, behavioral and physical health, ensuring a holistic approach to individual and community well-being.

Our mission underscores the incredible work that is already underway across HHS today. It reflects our commitment to keep the well-being of individuals and communities at the forefront of our efforts.

In addition to our mission, our HHS strategic framework includes our HHS vision: North Dakota is the healthiest state in the nation.

Strategic Priorities

We've also defined six strategic priorities that provide the specifics for how we will achieve our vision and how we will measure our success:

- Support the advancement of strong, stable, healthy families and communities.

- Advance the foundations of well-being through access to high-quality services and supports closer to home.
- Optimize disaster and epidemic response and recovery.
- Advance excellence in agency infrastructure and operations.
- Deliver best-in-class customer-centered experiences.
- Foster a culture of excellence where every team member has a voice, adds value and is empowered to make a difference.

HHS Guiding Principles

Our guiding principles are more than just words. They inspire our decisions, fuel our passion for service and shape our culture as an agency:

- Continuous improvement and innovation: We embrace continuous improvement and innovation as ways to streamline the delivery of services, drive efficiencies and promote best-in-class customer-centered experiences.
- Responsible stewardship: Our organizational effectiveness and impact is enhanced by our strategic and efficient management of agency funding, assets and resources.
- Transparent and open communication: We prioritize transparent and open communication to facilitate trust, organizational and stakeholder awareness, collaboration and unity.
- Engaged collaboration: We bring a spirit of teamwork and accountability to every interaction, using our combined strengths to drive solutions and success.
- Data-centered decisions: Our decisions are grounded in data; we use facts and metrics to inform and guide our actions and evaluate outcomes.

Major Accomplishments

-
- 1 ND State Laboratory: HHS began construction on a new ND State Laboratories building in April 2024. The new state-of-the-art laboratory will preserve and advance the state's ability to protect North Dakota's public health and environment for future generations. It will be scalable, designed to be flexible to meet immediate demands, adjust for growth opportunities and quickly pivot for public health and environmental emergencies. The new facility is expected to open in 2026.

 - 2 ND Workforce: In July 2024, HHS launched an innovative Non-Traditional Hour Child Care Pilot, the most recent component of the larger ND Child Care Initiative and part of HHS's ongoing efforts to alleviate one of the state's major barriers to workforce participation: access to quality, affordable child care. The pilot program helps providers offer child care outside of the traditional child care hours of 7:30 a.m. to 5:30 p.m. which do not meet the needs of all working parents.

 - 3 Medicaid redetermination process: HHS in partnership with the Human Service Zones reviewed eligibility for more than 131,000 North Dakota Medicaid members from April 1, 2023 to April 30, 2024, as required by federal law at the end of the public health emergency. This was the largest initiative since the state launched the Medicaid Expansion program in 2014. Six out of 10 North Dakota Medicaid members who returned their renewal forms retained their coverage.

 - 4 988 Lifeline rollout: In July 2024, HHS recognized the two-year anniversary of the 988 suicide and crisis lifeline. Since its inception, the 988 Lifeline has seen a 61% increase in interactions in North Dakota, underscoring its critical role in crisis response.
-

Critical Issues

-
- 1 Child care: Stabilize the state’s child care market and child care workforce by strengthening the providers who employ them.

 - 2 Housing: Align and support efforts across state agencies to implement a coordinated housing initiative that is designed to strengthen communities, prevent housing crisis and pave the way for greater well-being.

 - 3 Economic well-being: Build better pathways to stable, optimal employment and economic stability to minimize the harm that stems from material hardship.

 - 4 Community Behavioral Health Clinics: Fully operationalize the transition of human service centers to community behavioral health clinics.

 - 5 Care Coordination: Deliver system-wide care coordination that is team based and whole-person centered.

 - 6 Quality: Ensure a comprehensive strategy for health and safety across HHS.

 - 7 Optimizing infrastructure: Build a foundation of strategy planning, governance and best practices to achieve long-term goals and continue to improve.

Performance Measures

Note: Examples below are not all-inclusive due to space limitations.

Aging and Adult Services: Inform all Medicaid members residing in long-term care facilities about their care choice options.

Behavioral Health Clinics: Achieve Certified Community Behavioral Health Clinic (CCBHC) status for all human service centers by December 31, 2027, to align with SAMHSA’s best practices and address gaps identified in the ND Behavioral Health (HSRI) study.

Behavioral Health Policy & Administration: Increase number of communities implementing substance misuse and suicide prevention strategies.

Child Support: Confine growth in unpaid child support to less than 1% per year.

Disease Control and Forensic Pathology: Increase the measles, mumps, and rubella vaccination rates of infants ages 19-35 months from 82.0% to 85% by 2027.

Early Childhood: Increase utilization of child care assistance program (CCAP) across all geographic regions, as well as the percentage of slots in licensed child care that generate at least a portion of their revenue from CCAP funds.

Economic Assistance: Achieve the processing timeliness goals specific to each program.

Health Response and Licensure: Increase the percentage of hospitals and long-term care facilities that are able to confirm receipt of a health alert network (HAN) message and successfully order from the state medical cache within 1 hour, at or above 85% by 2027.

Health Statistics & Performance: Maintain Vital Record’s turnaround time for customer requests for certified copies at 1.5 days. Prior to 2020, this was approximately 3 days.

Healthy & Safe Communities: Increase to 100% the percentage of babies residing in ND with a confirmed newborn screening diagnosis who are in long-term follow-up services (Baseline: 82% in 2023).

Laboratory Services: Complete construction and commission the new laboratory building by fall 2026.

325 Health and Human Services

Agency 325

Life Skills and Transition Center: Reduce the long-term population at LSTC, enabling these individuals to thrive in non-institutional settings and allowing LSTC to concentrate on providing short-term crisis and stabilization support to a greater number of people in need.

Medical Services: Increase preventive services outreach to children covered by Medicaid; in 2023, outreached 7,541 families directly and attended 4 outreach events.

Refugee Services: Support integration and decrease feelings of isolation and inferiority by increasing English proficiency and building of trust and community relationships.

State Hospital: Identify and bridge gaps in services to provide comprehensive and continuous care for all patients.

Vocational Rehabilitation: Increase services provided to businesses seeking to recruit or retain employees with disabilities.

Program Statistical Data

Note: Examples below are not all-inclusive due to space limitations.

Adult and Aging Services: Responded to 1,546 reports of abuse, neglect and exploitation of a vulnerable adult.

Behavioral Health Clinics: Provided behavioral health services to 7,987 individuals and 2,006 youth and their families.

Behavioral Health Policy & Administration: Reduced suicide deaths from 184 in 2022 to 147 in 2023, improving mental health outcomes (preliminary data; ND Health Statistics and Performance).

Child Support: Served 66,325 children through the collection of court ordered child support and medical support, disbursement of support, and other related activities.

Children and Family Services: Implemented the Support and Stabilization Plan which reduced case backlog by over 86% in the Cass County Human Service Zone as well as built an on boarding process and training for new staff to help with retention of the team with support from Zone partners.

Development Disabilities: Worked with 6,600 individuals to create person-centered service plans individualized to their needs and goals.

Disability Determination: Determined 3268 initial claims, 748 reconsideration claims and 958 continuing disability reviews in federal fiscal year 2023, which connected qualifying North Dakotans to disability benefits to support their financial well-being.

Disease Control and Forensic Pathology: Provided education on the new respiratory syncytial virus (RSV) vaccine and new monoclonal antibody that became available during the 2023-2024 respiratory illness season.

Early Childhood: Supported child care providers with 448 grants and a range of technical support resources, helping to revitalize facilities and provide quality child care.

Economic Assistance: Implemented enhancements to the Child Care Assistance Program (CCAP) which resulted in an average of 5,117 children served per month, including an increase in the number of infants and toddlers served (\$39.6 million of CCAP support for families during SFY 2024).

325 Health and Human Services

Agency 325

Health Response & Licensure: Met all life safety and construction plan review timelines and reduced the review time for medium projects from 84.6 days to 30.6 days.

Health Statistics & Performance: Implemented the State Health Improvement Plan (SHIP), securing partners and receiving and processing 150 applications from across ND.

Healthy & Safe Communities: Screened 11,065 infants in 2023 through the newborn screening (NBS) and follow-up program.

Human Service Zones: Completed eligibility reviews over a 12-month period ending April 2024 for over 131,000 North Dakota Medicaid members following the end of the pandemic public health emergency.

Laboratory Services: Began construction on new laboratory building in spring 2024.

Life Skills and Transition Center: Delivered crisis stabilization services to 111 people across the state, offering 1,800 hours of critical support during times of high need.

Medical Services: Launched two value-based purchasing models with ND's six large health systems and nursing facilities to improve quality and health outcomes for Medicaid members.

Refugee Services: Collaborated with the Behavioral Health Division to implement refugee wellness programs focusing on health and well-being with 8 service providers across the State.

State Hospital: Strengthened collaborative relationships with courts, attorneys, human service centers, and community partners.

Vocational Rehabilitation: Ranked second in the nation with an employment rate of 54.5% for people with disabilities making employment opportunities available for everyone.

Administration and operations: Implemented enhanced governance related to projects, contracts and data to advance excellence in agency infrastructure and support data-centered decisions.

Explanation of Program Costs

Operating costs:

Motor pool expense and rent and leases; IT support and infrastructure; administrative hearings; attorneys general assistance; mailing costs, insurances, contracted services and printing, vital records maintenance, treatment and care costs, licensing, telephone and printing costs.

IT costs include many systems such as: MMIS Modernization Project and support and maintenance for the Health Enterprise Medicaid Management Information System (MMIS), the MMIS Decision Support System, the Self- Service Portal and Consolidated Eligibility System (SPACES), the Electronic Health Records System (EHR), the North Dakota Immunization Information System (NDIIS), the Electronic Disease Surveillance System (EDSS), among others.

Internal workforce costs:

Salaries and benefits; professional development

Capital expenditure infrastructure costs:

Equipment repairs and replacement, building maintenance and improvement and signage.

Grant costs:

These include payments and services to individuals for programs such as Child Care Assistance Program (CCAP), Low Income Home Energy Assistance Program (LIHEAP), Supplemental Nutrition Assistance Program (SNAP), and Special Supplemental Nutrition Program for Women, Infants and Children (WIC), Temporary Assistance for Needy Families (TANF) and ND Housing Stability, medical assistance grants, workforce incentive grants; substance use disorder (SUD) voucher, recovery housing, behavioral health grants, local public health unit grants, emergency response grants to partners, grants to health care partners, and other supportive services.

Funding is also dispersed to state agencies, local health departments, human service zones, health facilities, schools, universities, tribal reservations, political subdivisions and non-profit agencies through grants and contracts.

Indirect costs:

Reimbursement to counties for human service zones indirect costs.

Program Goals and Objectives

Note: Examples below are not all-inclusive due to space limitations.

Adult and Aging Services: Expand access to in-home and community-based services for older adults, adults with physical disabilities.

Developmental Disabilities: Promote home and community-based services that allow individuals to live independently and safely in their communities.

Behavioral Health Clinics: Provide a front door experience that assures all individuals seeking service have timely access to quality service that meets their identified need.

Behavioral Health Policy & Administration: Strengthen a full continuum of services, from prevention through recovery, to meet individual and community needs.

Child Support: Ensure support for children from legally responsible parents.

Children and Family Services: Support services to strengthen families.

Disability Determination: Make the medical disability determination for those applying for social security benefits.

Disease Control and Forensic Pathology: Increase access points to infectious disease preventative care.

Early Childhood: Improve child care availability, making it easier for working families to find child care when and where they need it.

Economic Assistance: Connect families to stabilizing financial resources that can help them meet basic needs like food, housing, child care and access to health care.

325 Health and Human Services

Agency 325

Health Response and Licensure: Coordinate public health and medical emergency response efforts.

Health Statistics and Performance: Leverage data to drive improvements in health outcomes, reduce disparities and enhance overall well-being in communities.

Healthy & Safe Communities: Support the ability of all North Dakotans to reach their optimal health.

Human Service Zones: Serve as the front line for human service delivery in communities across North Dakota, connecting people to economic assistance and family support services.

Laboratory Services: Improve public health infrastructure through building a state-of-the-art laboratory facility and capacity to detect, respond to and investigate disease outbreaks.

Life Skills and Transition Center: Deliver both residential and non-residential services to people with intellectual disabilities and developmental disabilities with a focus on crisis and stabilization services.

Medical Services: Improve the health and well-being of Medicaid members through accountable partnerships and quality and efficient care.

Refugee Services: Increase collaboration with community organizations, employers, schools, post-secondary education providers and community members.

State Hospital: Deliver compassionate care that fosters healing and wellness for all clients in a safe, supportive environment.

Vocational Rehabilitation: Support the employment goals of individuals with disabilities through work readiness, job training and placement and education.

Administration and operations: Lead project and change management, provide legal counsel, oversee talent acquisition, oversee financial activities, lead marketing and communications.

State Initiative:* Health, Vibrant Communities

Is this a Large IT project? No

Is this request for a new program or service? No

Request explanation and justification (include any statutory authority)*: The original submission of cost-to-continue related costs for HHS neglected to include two items that are typically part of that calculation; the omission was an error and not reflective of a change in policy or operation.

HCBS Cost to Continue Growth. Demand for home and community-based services has continued to increase. This is reflective of the growing number of North Dakota residents who are entering age ranges where health issues become more prevalent, as well as the success of the state's efforts to both divert and transition people from living in institutional settings.

AASK (subsidized adoption). As North Dakota's sees success in its efforts to reduce the number of children in foster care, the demand for and utilization of subsidized adoption services continues to increase.

Necessary resources for implementation (including FTE's)*: HCBS. The funding request is based on forward-looking utilization assumptions; it represents a net increase of 11 individuals served per month, over the course of the biennium, utilizing the average cost of providing services. No additional staffing resources are included in this request.

AASK. The funds requested represent the projected increase in the contract cost for the Adults Adopting Special Kids (AASK) program and for costs associated with subsidized adoption in ND.

Are resources being redirected or are they new or additional (including FTE's)*: N/A

Who is served and impact of not funding*: The funding request represents costs of continuing existing services, accounting for both cost and caseload increases. Without these dollars, HHS would not be able to continue serving older adults and people with disabilities who are seeking home and community based services to enable them to live in community settings; individuals served through HCBS would - but for those services - either continue living in their home unsafely, which increases the likelihood of further health deterioration and a crisis situation occurring, or they would be forced to move to an institution (ex. nursing home). Likewise, the resources requested for the subsidized adoption program enable HHS to continue the work of identifying, vetting, approving and supporting adoptive homes for children in the foster care system who have been orphaned or who no longer have family reunification options.

325 Health and Human Services

Agency 325

Svc - BH Current (Priority: 03)

State Initiative:* Behavior Health and Addiction

Is this a Large IT project? No

Is this request for a new program or service? Yes

Request explanation and justification (include any statutory authority)*: Behavioral health needs are growing throughout the state and in order to continue current state of service delivery, the following requests are being brought forward:

Avel ECare- HHS was provided one time funding during the 23-25 session; this request is for continuation of services currently being to 64 agencies with potential growth of 11 more.

SUD Voucher-To support the growth pattern increase and anticipated rate increases, it is projected for the SUD Voucher to need an additional \$4,568,058 to continue supporting the needs of the program. The SUD Voucher rates are based on Medicaid rates as applicable and appropriate because Medicaid rates are reviewed and updated each fiscal year, the SUD Voucher makes rate updates as well.

Behavioral Health staffing for current services: This request includes adding 55 FTE to support the current state the behavioral health division clinics. Clinics are unable to meet the demand of the current service population of individuals experiencing crisis and/or severe and extreme functional impairments. This request also includes assessment and planning for facility modifications or location change to meet demand as well as provide a safe space to meet crisis facility standards.

Western ND-HHS is currently unable to meet the competitive market for workforce in the western region. For example: private residential treatment facility is advertising for LAC at \$95,000 annually; Williston PD recently posted a community coordinator at \$68,000 annually with full benefits with HS diploma as min qual. Several HHS positions have been open for over two years due to inability to meet salary demands. This request will support staffing compensation in this area of the state.

Residential Addiction program / WCHSC- This service is currently only provided by private providers in the Bismarck region (Region VII). Through this request, West Central HSC would be able to provide this SUD residential service to citizens who otherwise may not be served or qualify to other providers. This request includes additional FTE needed to provide specialized treatment services by licensed addiction counselors per licensure requirement.

Addiction Residential contract-This request supports rightsizing statewide deficits to meet the competitive workforce market demand as well as operation costs to avoid reduction of citizens being served due to limited capacity or closure.

Crisis Residential Contract- Outlined in North Dakota Administrative Code - Title 75 Article 5 Chapter 3 Extended care services, HHS is required to provide this service. This element supports rightsizing statewide deficits to meet the competitive workforce market demand as well as operation costs to avoid reduction of citizens being served due to limited capacity or closure.

Recovery/Rehab- This request supports the continuation of services required under in North Dakota Administrative Code - Title 75 Article 5 Chapter 3 Extended care services rightsizing statewide deficits by meeting the current workforce shortage demand and operation costs. This request also supports the continuation of medications delivery to North Dakota citizens who without the services will not have assistance in maintaining medication compliance which may lead to increase in behavioral health distress causing hospitalization.

The South Central Region, which lacks private psychiatric hospitals, currently contributes the largest number of referrals (34%) to NDSH. This has led to NDSH operating over capacity and maintaining a waitlist, which negatively impacts other regions. The proposal includes funding for transportation and emergency medical detoxification services that will decrease admissions to NDSH by addressing local gaps in service provision. By addressing barriers to local care options, this decision package aims to decrease admissions to NDSH from the South Central Region, thereby alleviating pressure on the state hospital and improving patient outcomes across North Dakota.

On average:

- 9 individuals per month from the South Central region are admitted to NDSH with acute psychiatric need that could be managed by an admission to a provide hospital, but have no insurance or alternative payer source.
- 7 individuals per month are admitted to NDSH primarily for medical detoxification, which could be handled at a local facility if funding options were available.

Goals and Objectives

1. Goal: Reduce NDSH admissions from the South Central Region by 15 individuals per month.

Objective 1: Fund ambulance transport services for individuals requiring psychiatric care who lack insurance or a payer source, diverting them from NDSH admissions.

Objective 2: Fund local medical detoxification services at the Jamestown Regional Medical Center (JRMC) to prevent unnecessary admissions to NDSH for detoxification purposes.

This decision package is critical to reducing the strain on the North Dakota State Hospital. Without intervention, NDSH will continue to face overcapacity and waitlists, limiting its ability to meet statewide needs. Providing funding for ambulance transport and local detox services addresses gaps in the South Central Region's care infrastructure, allowing patients to receive the care they need without overburdening NDSH.

Additionally, the investment in local services aligns with the state's goals of improving care coordination, reducing unnecessary hospitalizations, and enhancing local treatment capacity. The requested funding represents a cost-effective solution to mitigate the long-term costs associated with overburdening NDSH, improving care outcomes, and supporting community-based treatment.

Necessary resources for implementation (including FTE's)*: To meet the demand of the current population served by the behavioral health division clinics, 55 FTE plus 2 FTE for 3.1 Addiction Residential services for WCHSC totaling \$15, 261,621 with staff compensation increase totaling \$490,536 for Western ND - all general fund.

325 Health and Human Services

Agency 325

\$6,778,686 to support current contract demands for crisis residential, addiction residential, recovery/rehab supports, and Avel crisis response for law enforcement, no FTE's requested - all general fund.

\$4,568,057 in general fund to support SUD Voucher expected rate increases and maintain service delivery at current levels.

To support this change that will include increased collaboration with ambulance, private hospitals throughout the state, and JRMC Emergency Department, one additional FTE is being requested to provide care coordination and assure continuity of care for those being served through this funding.

1. Ambulance Transport Services

*Cost: \$2,000 per person for transport.

*Need: Approximately 11 individuals per month require transportation to psychiatric care facilities but are uninsured or underinsured.

*Annual Cost: \$2,000 times 11 persons/month times 24 months = \$528,000 for the biennium.

2. Medical Detoxification at Jamestown Regional Medical Center (JRMC)

*Contract with JRMC for up to 10 beds to support Medical Detox

Are resources being redirected or are they new or additional (including FTE's)*: Resources being requested are new as there are no FTE resources or funding able to be redirected.

Who is served and impact of not funding*: The impact of not funding the current state of behavioral health services will:

-cause youth and adult citizens of North Dakota the inability to access to behavioral health care whether due to severe and extreme functional impairments alternative agencies are unable to provide or inability to pay.

-The demand for behavioral health crisis response in lieu of law enforcement interventions will be unmet causing inappropriate incarcerations or access to hospitals.

-North Dakota's citizens will have reduced access to residential and recovery supports as contracting agencies are unable to meet workforce demands and costs to provide care.

This package addresses individuals with acute psychiatric and substance use need with a two fold goal of assuring that individuals have option for receiving services at the lowest level of care when possible and that individuals who have true need for NDSH admission are not required to be on waitlists to receive timely care. If not funded, waitlists will continue and individuals who require admission to our state hospital will spend unnecessary waits within jails and private hospital facilities.

Children's Behavioral Health (Priority: 04)

	2023-25 Agency Request				2023-25 Executive Recommendation			
	Ongoing	One-Time	Total	FTE	Ongoing	One-Time	Total	FTE

	2023-25 Agency Request				2023-25 Executive Recommendation			
	Ongoing	One-Time	Total	FTE	Ongoing	One-Time	Total	FTE
General	9,084,997	2,000,000	11,084,997	0.00	4,759,997	2,000,000	6,759,997	0.00
Special	-	-	-	0.00	-	-	-	0.00
Total	12,409,997	2,000,000	14,409,997	0.00	7,759,997	2,000,000	9,759,997	0.00

State Initiative:* Behavior Health and Addiction

Is this a Large IT project? No

Is this request for a new program or service? Yes

Request explanation and justification (include any statutory authority)*: Children’s behavioral health services are vital in the behavioral health system of care; however, many gaps in service levels and capacity exist.

Development of Partial Hospitalization / Intensive Day Treatment: The expansion of community-based continuums of care will ensure that individuals and families enter least restrictive treatment services and are able to step up to more intensive treatment or down to less intense treatment as needed. Partial hospitalization programs (PHP) and intensive outpatient programs (IOP) reduce Emergency Department (ED) boarding times, reduce the length of hospital stays, and increase engagement of family and natural supports in treatment and recovery. There is currently limited access to this level of care while need is increasing. The \$2,000,000 is proposed to support the development of up to 2 new programs in the state.

Behavioral Health School Grant: The purpose of the Behavioral Health School Grant program is to identify and address gaps along the behavioral health continuum of care. This includes identifying prevention and early intervention services that have no other funding source, using funds to reimburse clinical or treatment services that are effective, but not currently covered services, and filling gaps in service coverage for populations that don’t qualify for other forms of reimbursement. School districts and/or Special Education Units who have billed Medicaid during the previous school year for billable services outlined on the Individualized Education Plan for eligible students are able to apply for funds. The amount in which they are eligible is equal to the State Match share taken from their Medicaid reimbursements. Based on history and current projections, the request for \$4,000,000 is to cover additional school eligibility.

Treatment Collaborative for Traumatized Youth Expansion: The TCTY mission is to increase awareness about the effects of childhood trauma and train professionals in evidence-based treatments for children impacted by trauma. The expansion of \$408,000 will support enhanced training development and provision statewide and specifically focused on the western part of the state.

Voluntary Treatment Program / QRTP access for private custody youth: VTP provides out of home residential services for Medicaid-eligible children with a serious emotional disorder without requiring parents to relinquish custody (NDCC 50-06-06.13). The VTP will pay for maintenance costs of the treatment episode and Medicaid will pay for the treatment costs in accordance with the state plan. Qualified Residential Treatment Providers (QRTPs) and PATH Foster Homes are providers through the VTP. The goal of the Voluntary Treatment Program is to improve functioning of youth. The enhanced budget request of \$1,351,997 will support approximately 21 youth for approximately 4 months each. Current base budget supports approximately 4-7 youth.

Youth Crisis Stabilization Pilot: ND does not have any youth-specific crisis services and HHS has been working to align current behavioral health crisis mobilization and stabilization with national guidelines for Mobile Response and Stabilization Services (MRSS). SAMHSA’s National Guidelines for Child and Youth Behavioral Health Crisis Care highlights the need for developmentally appropriate crisis response services. These services are focused on keeping youth in their homes and

325 Health and Human Services

Agency 325

families intact by receiving the least restrictive services in home and community-based settings. The requested \$6,000,000 will support the development of youth crisis services being stood up at two Human Service Centers/Community Behavioral Health Clinics.

Medicaid Value based purchasing - PRTF and QRTP: PRTFs and QRTPs are largely dependent on Medicaid payment for revenue. Current rate methodologies incentivize utilization of services for payment. ND Medicaid proposes to work with a vendor to convene a provider-based workgroup to redesign provider rates and implement a value-based incentive program to drive towards enhanced outcomes for youth while maintaining a safety net of service delivery to support children with behavioral health needs in ND.

Necessary resources for implementation (including FTE's)*: Development of Partial Hospitalization / Intensive Day Treatment: \$2,000,000 is requested in general fund.

Behavioral Health School Grant: \$4,000,000 is requested in general fund

Treatment Collaborative for Traumatized Youth Expansion: \$408,000 is requested in general fund.

Voluntary Treatment Program / QRTP access for private custody youth: \$1,351,997 is requested in general fund.

Youth Crisis Stabilization Pilot: \$6,000,000 is requested; \$3,000,000 in general fund and \$3,000,000 in federal fund.

Medicaid Value based purchasing - PRTF and QRTP: \$650,000 requested; \$325,000 in general fund and \$325,000 in federal fund.

Are resources being redirected or are they new or additional (including FTE's)*: All requested resources are new resources required to meet the demands of the programs.

Who is served and impact of not funding*: Programs and services included in this Decision Package serve North Dakota youth experiencing varying levels of behavioral health needs. If these efforts are not funded, vital levels of care in the continuum of services for youth will not be available, current capacity needs for services will not be met, and the risk of youth entering the justice system will increase with no other supports to divert incarceration as a last effort to ensure youth safety.

Compliance & Quality (Priority: 05)

	2023-25 Agency Request				2023-25 Executive Recommendation			
	Ongoing	One-Time	Total	FTE	Ongoing	One-Time	Total	FTE
Federal	1,624,284	200,000	1,824,284	2.60	1,117,115	200,000	1,317,115	0.50

Special	-	-	-	0.00	-	-	-	0.00
Total	7,695,533	400,000	8,095,533	23.00	4,032,173	400,000	4,432,173	8.00

State Initiative:* Workforce

Is this a Large IT project? No

Is this request for a new program or service? No

Request explanation and justification (include any statutory authority)*: HHS is committed to improving health, safety, and service delivery across its programs. This decision package addresses key areas that require attention, compliance, and investment. The focus spans from ensuring effective treatment for pregnant and parenting women to improving safety standards in health facilities, and from addressing food and lodging inspection issues to managing developmental disability assessments.

1. Pregnant and Parenting Women Program Compliance

The Pregnant and Parenting Women Program is vital for supporting women during and after pregnancy, especially those struggling with substance use. Currently, the Behavioral Health Division is out of compliance with federal requirements under the Substance Use Prevention, Treatment, and Recovery Services Block Grant.

To ensure full compliance, ND must invest in a dedicated Pregnant/Parenting Women Treatment Coordinator. This role is crucial for implementing and maintaining the PPW program in accordance with federal requirements. This position will oversee the program's execution, ensuring it meets the necessary standards and reporting requirements. This investment will not only align ND with federal expectations but also enhance support services for pregnant and parenting women, ultimately improving outcomes for both mothers and their children.

2. Health Facility and Life Safety Inspections

Under NDCC 23-09.3-04, the HHS is required to conduct timely inspections of basic care facilities. Currently, there is a significant lag in the inspection process, with an estimated 33-year interval between relicensing onsite surveys. This delay is concerning given the increase in complaints and the seriousness of allegations.

To address this issue, ND must allocate resources to enhance the inspection process. This includes increasing staffing to ensure that inspections are conducted in a timely manner and complaints are addressed promptly. Investments in this area will improve life safety and quality standards in basic care facilities, ensuring that they meet the necessary health and safety regulations.

3. Food and Lodging Plan Review and Inspection

Food and lodging inspections are critical for maintaining public health standards. However, ND faces challenges in this area due to a lack of financial resources and staffing. Currently, the FDA recommends that an inspector conduct up to 380 inspections annually, but ND's food and lodging inspection staff are handling between 500-600 inspections per year, in addition to nearly 400 plan reviews.

The current staffing levels are insufficient to meet the demands of timely inspections and oversight. Resources are required to hire more inspectors and support staff. This will ensure that inspections are conducted on time and that the oversight of Local Public Health Units, as mandated by NDCC 23-09, is effectively managed.

4. Food and Lodging Code Enforcement

A new full-time equivalent position is needed for effective code enforcement across all program areas related to food and lodging. This role will involve logging, tracking, and assigning complaints, assisting with field investigations, writing enforcement reports, and ensuring compliance with regulatory standards. Investing in this role will enhance the HHS's ability to manage complaints, enforce codes, and maintain high standards of safety and quality in food and lodging establishments. It will also help in addressing any compliance gaps and ensuring that regulatory requirements are met effectively.

5. Mobile Home Park Regulation

HHS requires additional resources to regulate mobile home parks comprehensively. This includes managing plan reviews, license applications, renewals, inspections, and enforcement actions. Currently, license fee revenues do not cover the operating expenses and staffing needs.

To address this, ND needs additional resources of a program manager, licensing administrator, and several licensed environmental health practitioners. This investment will ensure that mobile home parks are regulated effectively, enhancing safety and compliance across the state.

6. Community Health Worker Licensure

NDCC 43-66-03 mandates the establishment of a certification method for community health workers, including Indian Health Service community health representatives. This requires HHS to adopt rules and implement a certification process. This request is for resources to meet this requirement.

7. Basic Care Study Implementation

The Basic Care Study has identified several areas for improvement, impacting licensure, service array, reimbursement, and educational activities. Implementing these recommendations will require several biennia and coordination among various divisions within HHS.

A dedicated full-time position is necessary to lead and coordinate this implementation process. This role will ensure that recommendations are addressed effectively, and that ongoing updates and monitoring are conducted. Investing in this position will facilitate the successful implementation of the study's recommendations, improving the overall quality of basic care services in ND.

8. Value-Based Purchasing in Medicaid

To enhance the quality of care and provider participation in Medicaid, ND is proposing a \$1 million incentive for high-performing providers in the Prospective Payment System VBP program. Expanding the VBP program in rural health areas requires expertise in rural VBP design to create a model that addresses program alignment, infrastructure, care delivery, and IT/data sharing.

Investing in a vendor with expertise in rural VBP design will help develop a model that improves healthcare quality, accessibility, and sustainability in rural areas. This will benefit both providers and the communities they serve, ultimately leading to better health outcomes and more efficient care delivery.

9. Developmental Disability Eligibility Assessment Tool

Currently, the ICAP assessment tool is used for resource allocation for children. However, concerns have been raised about significant drops in resource allocation when transitioning from the ICAP to the adult assessment tool (SIS). Additionally, the ICAP tool is no longer being updated. Proposing a shift the ICAP to the child SIS assessment aims to reduce the impact of this transition and focus on support needs rather than deficiencies. This multi-year project will involve testing the new assessment and adjusting the allocation formula based on the results. Funding is needed for the assessment tool and consultant services to ensure a smooth transition and accurate resource allocation.

10. Child Welfare Continuous Quality Improvement Administrator

A position dedicated to CQI administration is essential for the CFS area. This role will focus on implementing CQI tasks, ensuring that child welfare services are continuously improved and meet high standards of quality. Investing in this position will enhance the effectiveness of child welfare services, leading to better

325 Health and Human Services

Agency 325

outcomes for children and families. The administrator will play a crucial role in driving improvements and ensuring that services are delivered efficiently and effectively.

11. DD Case Management Supervisor

To manage caseload issues in DD case management, a new supervisor position is required. This role will oversee case management activities, ensuring efficient handling of cases and meeting the needs of individuals with developmental disabilities. Investing in this position will improve support quality and service delivery.

12. Compliance with Workforce Laws and Regulations

A dedicated position is needed to focus on employment/workforce laws and regulations for HHS, to include laws in the states that our team members reside and work remotely. This role will ensure compliance with relevant laws, address issues as they arise, and keep practices up to date. This investment will help mai

Necessary resources for implementation (including FTE's)*: This request requires the investment of 21 FTE with a total funding amount of \$ 7,567,141 with \$5,973,836 general funds and \$1,593,304 federal funds.

Are resources being redirected or are they new or additional (including FTE's)*: All requested resources are new resources required to meet the demands of the programs.

Who is served and impact of not funding*: The programs identified impact citizens and communities across ND. Currently, many of the programs identified are out of compliance with state or federal requirements. These investments are designed to meet those expectations. Without the required investment, programs will remain out of compliance. This will lead to continued delay of service or response to some of our most vulnerable populations. If certain areas are not funded, there could be monetary penalties to the State of ND.

Svc - Care Coordination (Priority: 06)

	2023-25 Agency Request				2023-25 Executive Recommendation			
	Ongoing	One-Time	Total	FTE	Ongoing	One-Time	Total	FTE
Federal	1,100,000	-	1,100,000	0.00	-	-	-	0.00
General	14,884,276	-	14,884,276	2.00	10,914,694	-	10,914,694	2.00
Special	-	-	-	0.00	-	-	-	0.00
Total	15,984,276	-	15,984,276	2.00	10,914,694	-	10,914,694	2.00

State Initiative*: Behavior Health and Addiction

Is this a Large IT project? No

Is this request for a new program or service? No

Request explanation and justification (include any statutory authority)*: Care coordination provides a bridge across multiple systems that serve individuals with complex health care needs. Today, these systems can often be disjointed and fragmented. Strengthening care coordination inherently means changing the way services are delivered to provide comprehensive, person-centered care focused on ensuring access and appropriate follow-up supports.

Medicaid Care Coordination: HHS is proposing to design a Medicaid care coordination benefit for targeted populations including individuals with complex and chronic conditions, behavioral health needs, and pregnant women. In this biennium, HHS will work with providers to collaboratively design and prepare for implementation of a care coordination benefit that complements current programs and services in ND. Preparation for implementation will include technology necessary to attribute and coordinate care for individuals in ND.

As behavioral healthcare in the state continues to grow and evolve, care coordination is becoming increasingly important to ensure access to the right levels of care and systems. The following programs support this ultimate need to meet people where they are at and support them in accessing care.

Continue Free Through Recovery and Community Connect existing levels of service: To support provider inflation rate increases and support current service levels, \$2,337,937 is needed for Free Through Recovery and \$2,423,144 is needed for Community Connect. This budget adjustment would allow for approximately 1,500 individuals to be served a month in each program.

Community Connect expansion: The population of North Dakota is expected to grow 7.5% from 2025-2030. The Community Connect average program census over the past 24 months has been 2,226. To respond to the growth and needs of the North Dakotans, and to better support the average program census, we are requesting a budget increase of \$4,458,814. This would ensure the program can responsively meet the needs of each community and serve around 2,000 individuals/month.

Free Through Recovery expansion: DOCR data predicts that the DOCR prison population will grow by an estimated 15% from July 2024 (1,873) to June 2027 (2,163). To respond to the growth of the DOCR population and the voiced need by parole and probation officers for additional recovery support services we are recommending a budget increase of \$4,016,908 to support approximately 2,000 people/month (compared to the average census for the past year of 1,660).

Peer Support: HHS began training the peer support workforce in 2018 and since this time has hosted 44 trainings (5-day, 40 hours) and trained over 1,200 individuals to provide peer support services. The number of Peer Support Certifications issued by HHS has increased dramatically over the past several years; from 54 (Sept 2020-Aug 2021) to 220 (Sept 2024 – present). The proposed budget increase of \$137,990 will support the HHS's responsibility to provide initial and ongoing trainings for peer support specialists, peer support supervisors and organizations across ND and continue certification requirements.

Kinship Navigator: HHS is committed to strengthening family connections whenever possible, including when children need a safe place to go when their biological family situation is disrupted. As a continuation of efforts to strengthen kin caregiving as part of the state's safety framework for children and families, this proposal would establish two Kinship Navigators who would focus exclusively on the work of identifying possible relative connections, supporting families who are taking on kin caregiving responsibilities, and working directly with Human Service Zone child welfare staff to infuse kin care options into safety plans wherever possible. HHS is requesting 2 FTE (\$409,483) for Kinship Navigators to enhance navigation services.

Necessary resources for implementation (including FTE's)*: Continue Free Through Recovery and Community Connect existing levels of service: \$4,761,081 in general fund requested

Community Connect expansion: \$4,458,814 in general fund requested.

Free Through Recovery expansion: \$4,016,908 in general fund requested.

Peer Support: \$137,990 in general fund requested.

Kinship navigator: \$409,483 in general fund requested to support 2 FTE, will continue to explore opportunities to leverage federal funding to match support

325 Health and Human Services

Agency 325

Medicaid Care Coordination: \$2,200,000 requested; \$1,100,000 in general fund and \$1,100,000 in federal fund.

Are resources being redirected or are they new or additional (including FTE's)*: Resources are new resources required to meet the demands of the programs.

The kinship navigator resources are new resources; the department will continue to look for opportunities to leverage federal match to support this work but, at this time, kinship navigation would rely on general fund support.

Who is served and impact of not funding*: The Free Through Recovery program services individuals engaged with the criminal justice system with a serious behavioral health concern. Community Connect serves individuals with a serious behavioral health concern who are currently homeless, involved with Child Protective Services, a parent/caregiver, pregnant or using drugs intravenously. If these programs are not funded aligning to these requests, less people will be served and waitlists will continue to grow.

If the peer support funding is not provided, HHS will have to decrease training and support provided to the new Peer Support Workforce in the state.

If Kindship is unfunded, roughly 50% of the child welfare cases that are staffed by Human Service Zones each year will not be engaged.

Svc - DOJ (Priority: 07)

	2023-25 Agency Request				2023-25 Executive Recommendation			
	Ongoing	One-Time	Total	FTE	Ongoing	One-Time	Total	FTE
Federal	11,531,840	-	11,531,840	0.00	5,588,783	-	5,588,783	0.00

Total	28,522,255	-	28,522,255	0.00	14,196,089	-	14,196,089	0.00

State Initiative:* Health, Vibrant Communities

Is this a Large IT project? No

Is this request for a new program or service? No

Request explanation and justification (include any statutory authority)*: The seven elements of this decision package all address various rates, payment, and eligibility mechanisms associated with HHS' delivery of home and community-based services to older adults and people with disabilities.

Home modification supports - SPED.

Add the AdaptAbility interdisciplinary (nurse, occ ther, handyman) service model to SPED. HHS has been involved in a pilot of this service delivery approach and has documented it both as a cost-effective intervention and one that delivers positive outcomes. Those receiving this service have a team assess and make improvements to the homes of eligible older adults to enable ongoing independence.

Companionship services - SPED.

The service known as "companionship" is a low-cost, proven-effective method of preventing the need for more intense service. Delivered by paraprofessionals, companionship is offered as part of a therapeutic goal for those showing negative impacts of social isolation.

Transition and Diversion from Institutional Settings.

For the last 2 years HHS has been piloting a robust, flexible set of services designed to make it possible for people with special, and often significant, health needs to move out of institutional settings (like nursing homes and the state hospital) to community-based settings (owned or rented home); the same set of services has been deployed to stop people from ever having to move to an institution (diversion) by supporting moves to or moves between community settings. Comprehensive, coordinated transition and diversion supports are an essential element of the state's commitment to delivering services closer to home, and to its ability to adhere to the conditions of the DOJ settlement agreement related to how and where target population members are served.

Housing Assistance to support transitions.

One of the barriers a person leaving an institution may face is the affordability of community-based housing. Because housing costs are not covered by Medicaid or by insurance (room and board is only an eligible expense in institutional settings), it is necessary to make sure housing assistance is available when needed.

QSP Delivered HCBS - targeted rate increase.

HCBS services are widely seen as being a prevention-oriented, scalable and flexible alternative to services delivered in institutional settings. There are several foundational HCBS services delivered by qualified service providers (QSPs) where rates significantly lag prevailing wages and other states in our region. This request implements a rate increase of between 25-35% for nursing services, personal care services, respite care services, companionship services, and homemaker services. The rate adjustment will help ensure continued access to HCBS services for people currently enrolled in the HCBS waiver, DD waiver, Autism waiver, SPED and Ex-SPED.

Home Health/Private duty nursing - targeted rate increase.

Home health and private duty nursing make some of the most complex diversions and transitions a reality; their rates have not been re-based in 20+ years. Today rates for these services are mis-aligned when compared to rates paid for home health skilled nursing. The re-base is expected to make a significant impact on the availability of these critical services; rates would increase on average 32%.

Medicaid Asset / Community Spouse limits.

Medicaid eligibility establishes asset limits, in addition to income limits, for certain populations. Adjusting the asset limits has the effect of increasing access to Medicaid-funded services for low-income households who otherwise may be using state funded services (SPED/ExSPED), which have higher asset limits. The request increases asset limit for Medically Needy individuals to \$6,000 for a single person household and \$12,000 for a two-person household (with an additional \$50 allowance for each household member beyond two). In addition to opening the door to Medicaid funding for needed services, this change will give members more available assets to meet their own living expenses. This proposal also increases the Community Spouse income limit from \$2,550 to \$4,000 monthly to address inflation and increased living costs for spouses of Medicaid members who are living in the community.

Necessary resources for implementation (including FTE's)*: Home modification / AdaptAbility - SPED: \$9,000 per person; 50 individuals served per year (\$900,000 total cost/biennium)

Companionship - SPED:

Estimated to serve an additional 48 people (over age 60) per month; when added to the current approp of \$280,000, we would be able to serve approximately 75 people per month.

Transition/Diversion from Institution:

The request anticipates funding sufficient to complete an estimated 500 transitions/diversions over the course of the biennium; this assumes an average cost per person served of \$10,500. History from the pilot phase of this work would suggest that 85% of transitions will assist someone with a physical disability; half of funds expended will support people receiving substance use treatment services; 25% will support people exiting homelessness or survivors of domestic violence. The majority of referrals come from HCBS case managers, from substance use treatment providers, centers for independent living, domestic violence centers, and community-based care coordinators (ex. Free Through Recovery).

Housing Assistance:

The average cost of housing assistance needed to support a transition has been \$3,000 but varies widely based on individual need/circumstance; the \$300,000 request is anticipated to serve 100 people.

QSP Delivered HCBS - targeted rate increase:

The proposed services affect the vast majority of individuals receiving services through an HCBS waiver to varying degrees. The request increases rates for the targeted services by 25-35%.

Home Health/Pvt duty nursing - targeted rate increase:

The request is based on both a cost/unit increase (32% on average) and an anticipated increase in utilization due to enhanced availability of service providers (25% over current utilization).

Medicaid Asset/Community Spouse limits:

The funding request assumes that an additional 336 people would become eligible for Medicaid over the biennium; the cost of providing coverage to these new members is based on current utilization assumptions.

Are resources being redirected or are they new or additional (including FTE's)*: The resources requested in this decision package (including the FTE) are new, representing increases in payment rates for various services, expansion of resources to meet demand, or (as in the case of the Transition and Diversion services), implement into our systems of care a set of services that has demonstrated effectiveness via a pilot program whose funding is ending.

Who is served and impact of not funding*: Demographic trends indicate continued growth in older adult populations, with particularly high rates of growth for people age 85 and older. The growth in demand for services that allow people to maintain independence in the face of changing and often complex health needs is a critical component of our ability to achieve the vision of being the healthiest state in the nation.

325 Health and Human Services

Agency 325

The package of services will provide systemwide improvements in access for older adults and people with a wide range of physical, behavioral, and developmental disabilities. Additionally, the actions described are essential to ND's ability to meet its obligations under the DOJ Settlement Agreement related to delivery of services to people in the most integrated setting possible, and that is of their choosing.

Improved access to essential services is about many different things - options, rates, eligibility, consumer demand. ND's ability to chart progress in this area is due largely to its continued commitment to work proactively to address issues of access. To keep up with what our citizens need, we have to keep moving the work forward, strategically and persistently.

Svc - HCBS (Priority: 08)

	2023-25 Agency Request				2023-25 Executive Recommendation			
	Ongoing	One-Time	Total	FTE	Ongoing	One-Time	Total	FTE
Federal	10,633,625	-	10,633,625	3.00	4,660,514	4,482,880	9,143,394	2.50
General	17,886,155	-	17,886,155	5.00	4,660,514	7,865,771	12,526,285	2.50
Special	-	-	-	0.00	-	-	-	0.00
Total	28,519,780	-	28,519,780	8.00	9,321,028	12,348,651	21,669,679	5.00

State Initiative:* Health, Vibrant Communities

Is this a Large IT project? No

Is this request for a new program or service? No

Request explanation and justification (include any statutory authority)*: Redesigned DD Case Management.

In an effort both to address workload challenges arising from increasing demand for and complexity of services, and to improve the quality of case management services offered, the DD section is doing a business process redesign to identify and implement efficiencies. This fund requested will support an anticipated increase in two staff positions that will be identified during redesign. As an example, these positions could enable the team to free up time by centralizing all or a portion of the eligibility determination process, which would allow case management staff to maximize their highest value time, on site with clients, guardians, providers and families.

Family Navigator for Self-Directed Services.

Over the last 2 years, the number of families who are opting to use self-directed service as a model of service delivery in the DD waiver, has increased by 40% (from an average of 461 families per month in 2021-22 to an average of 629 families per month in 2023-24. While HHS has an ongoing contract with an intermediary who offers some foundational administrative support to families who self-direct, there are a host of other complexities that present challenges for families. In an effort to help families successfully navigate self-direction, HHS is proposing to hire a family navigator whose role is to work with families throughout the self-direction journey. This person can help support approaches to staff training, service quality, and other administrative challenges.

Family Paid Caregiver service.

HHS implemented a pilot of a new Family Caregiver service that was available to people utilizing services in a number of Medicaid waivers (DD, Autism, Med Fragile). This request would move from pilot to a waiver covered service. The request contemplates CMS approval of the waiver service by July 2026; the first year of the biennium would require state funding as a bridge for families participating in the pilot (increase from 120 to 250 families served); the second year of the biennium would see services funded according to Medicaid FMAP (assumption of 400 families served).

Host Home service - DD waiver.

One of the highest priority gaps in the DD service delivery system involves appropriate service settings for youth who need at least some level of residential care outside of their family home. This request establishes a host home service in the DD waiver; it replaces the Family Care Option service which has been a part of the DD waiver for many years but has not effectively deployed. Host homes will infuse therapeutic level supports for both the youth and for the youth's family / support system to foster continued opportunities for family involvement as the youth navigates challenging symptoms and nears adulthood.

Cross Disability Waiver.

The Children's Cross-Disability Waiver is being designed to address existing disparities in access to home and community-based services for children with disabilities. The Medicaid Children's Cross-Disability Waiver will modernize the current system, ensuring equitable access to essential services for children aged 3 to 21 who have mild to moderate support needs. This innovative waiver transforms the way support is provided, promoting inclusivity and fairness across the board.

Necessary resources for implementation (including FTE's)*: Redesigned DD Case Management.

Funding for 2 staff to join the DD case management team in capacities that allow HHS to implement efficiencies identified in the redesign.

Family Navigator for Self-Directed Services.

Funding for 1 staff to join the DD team as a direct support for families who choose to utilize self-directed HCBS services in the DD waiver.

Family Paid Caregiver service.

Funding includes dollars to continue necessary staff support (1 FTE established during the pilot phase); the majority of funds are for delivery of direct services by paid family caregivers (assumed increase to 250 individuals in year 1 (state funded) and increase to 400 individuals in year 2 (waiver-funded)).

Host Home service - DD waiver.

No FTE resources requested; funds are for service delivery (paid to providers) in support of 20 operational host homes serving approximately 20 youth.

Cross Disability Waiver.

Request includes (1) Staffing - 4 existing FTE onboarded during initial planning phase and 2 additional FTE (projected hire date Jan 2026) to begin developing capacity for core family support services that will be part of the eventual implementation of the cross-disability waiver (peer support and community resource navigation). (2) Contracted support for facilitation of the Cross Disability Advisory Council. (3) Contracted support with a subject matter expert to help drive and guide waiver implementation. (4) Contracted resource (anticipated as psychiatric PA) to support and advise client serving teams. Anticipated start date for delivery of services is July 2028.

325 Health and Human Services

Agency 325

Are resources being redirected or are they new or additional (including FTE's)*: 5 of the FTE identified in this request are existing HHS staff whose roles were initially established as one-time funding associated with pilot projects (Family Caregiver) or multi-year planning efforts (Cross Disability Waiver).

4 FTE are new. The balance of the request involves payment to contracted partners, Medicaid providers, or family caregivers.

Who is served and impact of not funding*: There are more than 7,500 people with developmental disabilities who are served each month by the system of care that has been established to support independence, integration and choice. The items in this decision package not only endeavor to fill gaps in the existing systems of care (ex. host homes for youth, family caregiving and self direction as service modalities), but they strive to make current system resources more efficient to help handle increasing volume/complexity of cases (ex. DD case mgmt redesign) while also taking meaningful steps to expand access and resources to people who may not be well served by the current system of care (ex. children with serious behavioral health concerns, children ages 3-5 with developmental disabilities).

HHS Operations (Priority: 09)

	2023-25 Agency Request				2023-25 Executive Recommendation			
	Ongoing	One-Time	Total	FTE	Ongoing	One-Time	Total	FTE
Federal	-	-	-	0.00	-	-	-	0.00
General	32,974,843	-	32,974,843	0.00	16,582,716	-	16,582,716	0.00
Special	-	-	-	0.00	-	-	-	0.00
Total	32,974,843	-	32,974,843	0.00	16,582,716	-	16,582,716	0.00

State Initiative*: Smart, Efficient Infrastructure

Is this a Large IT project? No

Is this request for a new program or service? No

Request explanation and justification (include any statutory authority)*: HHS received an underfund of \$13.9M to its operating expenses during the 23-25 biennium. This request would decrease the funding gap and make the department's operating expenses whole, ensuring that all services can be provided adequately to the citizens of the state. Without this funding adjustment, the department would be forced to make additional cuts beyond the already required 3% savings. These further reductions would severely impact the department's ability to perform vital functions. Specifically, HHS would face decreased travel capacity for service delivery, a reduction in the number of quality contracts for crucial services and other operational costs such as printing and postage. This is also at a time where leases, insurance and supplies are all increasing due to inflation. One of the rising costs are the increased rates for the Attorney General and Office of Administrative Hearings.

To meet the current staffing needs and maintain effective service delivery, it is essential to keep salaries whole within the FTE block grant. This will ensure resources are available for the department to adjust to the needs of the citizens, recruiting quality candidates and retaining team members.

Necessary resources for implementation (including FTE's)*: HHS is requesting to restore the underfund to operating in the base budget that was reduced by legislators in the 23-25 biennium. The Department is also asking for 190,590 for the increase in rates for the Attorney General and Office of Administrative Hearings. The department is requesting 13.9M for this reduction, the department is also requesting \$15.6M to the FTE block grant in order to maintain and retain team members for HHS.

325 Health and Human Services

Agency 325

Are resources being redirected or are they new or additional (including FTE's)*: Resources being requested are new on-going funding to keep the department whole.

Who is served and impact of not funding*: Without the restoration of the underfund to operating, the department will not receive adequate training or be as readily available to serve citizens in the state, have quality contracts for vital functions, print and mail documentation to citizens or keep up with the cost of inflation for services provided by the AG's office, insurance, leases or supplies.

Without the restoration of funding to the FTE block grant, the department will not be able to adjust to the needs of citizens by ensuring hiring and retaining quality team members.

Svc - Vulnerable Adults (Priority: 10)

	2023-25 Agency Request				2023-25 Executive Recommendation			
	Ongoing	One-Time	Total	FTE	Ongoing	One-Time	Total	FTE
Federal	179,177	-	179,177	0.75	191,701	-	191,701	0.75
General	13,502,849	-	13,502,849	3.25	1,286,828	-	1,286,828	2.25
Special	-	-	-	0.00	2,250,000	-	2,250,000	0.00
Total	13,682,026	-	13,682,026	4.00	3,728,529	-	3,728,529	3.00

State Initiative*: Health, Vibrant Communities

Is this a Large IT project? No

Is this request for a new program or service? No

Request explanation and justification (include any statutory authority)*: Adult Protective Services. HHS maintains responsibility for providing Adult Protective Services (APS) across North Dakota, which involves response to reports of abuse or neglect (including self-neglect) of vulnerable adults. The APS unit has seen a growth in the number of reports of suspected abuse/neglect over the last several years, with the most common types of reports related to self-neglect (i.e., inability to care for oneself) and financial abuse by others. This request would allow HHS to more appropriately staff to the demand by adding one additional HHS staff person to the APS team, and additional resources to the contracts maintained with Mountrail/McKenzie and Cass Human Service Zones for APS coverage.

HHS also serves as the host agency for ND's Long Term Care Ombudsman program. Ombudsman serve as a neutral reporting entity for people/families who receive services in Long Term Care settings (ex. nursing homes). Ombudsman are trained to represent the interests of the citizen, not the state; they advocate for the health, safety, and rights of residents in long-term care facilities. This request allows ND to add 2 additional LTC Ombudsman in order to more appropriately address the volume and complexity of concerns that they are receiving from residents and their families.

Legal guardianship is established when a person is unable to make decisions for themselves; HHS operates a Guardianship Establishment Fund to help defray the legal costs of establishing guardianships for older adults who have complex health needs, diminished cognitive capacity, and no other options for supported decision making. The Guardianship Establishment Fund has been experiencing significant and sustained increases in demand; this request increases resources to better accommodate demand. HHS would be able to help establish guardianship for an additional 159 people over the course of the biennium (\$3,000 per guardianship).

325 Health and Human Services

Agency 325

Services related to domestic violence are delivered by a network of private non-profit providers in North Dakota. This request increases the pass-through funding coming from the state to support their work, including additional resources for supervised parent exchange / child visitation.

Necessary resources for implementation (including FTE's)*: The request creates four new staff positions - 1 in Adult Protective Services, 2 Long Term Care Ombudsmen, and 1 domestic violence prevention position. All other resources would be passed through to third parties for services rendered (APS, guardianship, domestic violence prevention).

Are resources being redirected or are they new or additional (including FTE's)*: The resources requested in this decision package (including the FTE) are new.

Who is served and impact of not funding*: Adults who are victims of abuse and neglect would be directly impacted by continued inadequate funding for services whose purpose is to investigate and respond to concerns.

Svc - Families (Priority: 11)

	2023-25 Agency Request				2023-25 Executive Recommendation			
	Ongoing	One-Time	Total	FTE	Ongoing	One-Time	Total	FTE
Federal	554,741	-	554,741	1.00	459,744	-	459,744	0.50
General	3,224,742	801,000	4,025,742	1.00	2,459,745	-	2,459,745	0.50
Special	-	-	-	0.00	-	-	-	0.00
Total	3,779,483	801,000	4,580,483	2.00	2,919,489	-	2,919,489	1.00

State Initiative:* Health, Vibrant Communities

Is this a Large IT project? No

Is this request for a new program or service? Yes

Request explanation and justification (include any statutory authority)*: In ND, 48% of all children in foster care are Native American; overall, 6% of ND children are Native American. This disproportionate representation is one of the driving forces behind the request to create two Indian Child Welfare Act (ICWA) focused child welfare tribal liaisons. The two requested positions would work directly with Human Service Zones and with Tribal Nations to support adherence to the provisions and protections afforded to children and families via ICWA, as well as help improve monitoring of our performance as a state to Native American children and families. The roles would be part of the Children and Family Services team and integrated fully into the department's child welfare work.

While we have made much progress as a state in reducing reliance on out of home placements and foster care as a principle safety measure, we are one of only a handful of states that has not taken steps to assure quality legal representation for families involved in child welfare. States have the ability to leverage federal IV-E funds to make sure that families are well represented through what can be a complex and life-changing legal process. This request would leverage federal IV-E dollars with an investment of state general funds to support two defense attorneys to be contracted by ND Indigent Defense; the attorneys would be trained to specialize in child welfare law. These attorneys would be supported by a licensed social worker and parent with lived experience, to support the connection with families throughout the life of the case.

325 Health and Human Services

Agency 325

Dental care remains one of the most unmet healthcare needs for children, particularly in low-income families. Since 2012, the Dental Care Mobile has provided vital dental services at no cost to the families across western ND (10,013 kids to date). This initiative also removes the other most common barrier to accessing care, which is transportation; with the Care Mobile program, the dental services come to the family. This request both replaces the current vehicle (which is at the end of its useful life) and adds funding to continue program operation. Note: The size of the vehicle that houses the mobile dental office/lab is comparable to a semi without the cab or a large RV.

HHS has a continued focus on improving maternal and child health. As such, this decision package also included additional dollars to be used in support of this priority. Funds will be directed to initiatives related to Women’s Health, Healthy Moms and Healthy Babies, Maternal Mortality & Morbidity, Healthy Pregnancy, and Post partum care will with the goal of assuring women have healthy pregnancy and birth outcomes.

Necessary resources for implementation (including FTE’s)*: The ICWA Tribal Liaison request centers on the addition of two new HHS staff who have this as their focus. Funding for these roles is eligible for IV-E match (50/50 match; total \$409,483).

Similarly, the Quality Legal Representation team would utilize federal IV-E match; all funds would be passed through to ND Indigent Defense as the implementation partner for the initiative (50/50 match; total \$700,000).

The funds for the Dental Care Mobile (\$801,000) would be passed through to the implementing partner (Ronald McDonald House) and the various maternal and child health investments (\$2,670,000) would be passed through to both existing and new providers to increase their impact.

Are resources being redirected or are they new or additional (including FTE’s)*: The resources requested in this decision package are new (including the 2 FTE). The child welfare-related elements of the proposal involve leveraging federal IV-E dollars that the state had not previously accessed.

Who is served and impact of not funding*: There are approximately 500-600 Native American children in the ND child welfare system (Zone, Tribal or DJS custody) who could be expected to benefit directly or indirectly from the work of the ICWA/tribal liaisons as their sole focus will be to support and assure quality practice related to ICWA and state/tribal engagement.

While the investment in legal representation for families is a new endeavor, HHS expects this group to be able to work with approximately 75-100 families over the course of the biennium (accounting for time it would take to start-up).

The Dental Care Mobile would continue to serve western ND children and families, anticipating services being provided to more than 1,000 children over the course of the biennium.

Svc - Expansion (Priority: 12)

	2023-25 Agency Request				2023-25 Executive Recommendation			
	Ongoing	One-Time	Total	FTE	Ongoing	One-Time	Total	FTE
Federal	-	-	-	0.00	-	-	-	0.00
General	22,828,437	-	22,828,437	74.50	8,800,019	-	8,800,019	16.00
Special	-	-	-	0.00	-	-	-	0.00
Total	22,828,437	-	22,828,437	74.50	8,800,019	-	8,800,019	16.00

State Initiative:* Behavior Health and Addiction

Is this a Large IT project? No

Is this request for a new program or service? Yes

Request explanation and justification (include any statutory authority)*: In order to meet the growing behavioral health needs of North Dakotans, this decision package outlines several service expansion opportunities.

Recovery Housing Assistance Program (RHAP) Expansion-

The RHAP is a critical community resource that provides funding for essential services not otherwise covered by other public services. Requesting an increase in the budget will give the RHAP the opportunity to continue to focus on improving access to quality services and recovery supports, increasing capacity for community-based services, reduce homelessness, and provide housing stability to reduce barriers and aid in supporting the full continuum of care. This request of \$2,902,972 includes allowing current providers to add beds and add three providers from the waitlist as well as adding one FTE to administer this program and the expansion.

Substance Use Disorder (SUD Voucher Expansion (IMD Med Exp)-

When an individual on Medicaid enters a residential addiction treatment program that is deemed an Institute for Mental Disease (IMD)*, the Social Security Act and 42 CFR 435.1009 requires the individual's Medicaid to be suspended. Although an individual's addiction treatment services would be covered by the Substance Use Disorder (SUD) Voucher, any medical services, including medications are no longer covered. The decision package is adding additional funding plus an FTE to cover medical expenses for individuals on Medicaid when receiving treatment at an IMD. This request includes one FTE to assist with the increase in daily workload of processing applications, releases of information, authorizations, invoices, ongoing eligibility, refunds, and program discharges.

Drug Court Treatment support-

Currently, there are five adult drug courts, serving 150 individuals. Each drug court is made up of a team consisting of attorneys, judges, licensed addiction counselors, probation officers, and coordinators. In 2024, DOCR received a grant to increase drug court participation from 150 to 240 individuals through the funding expansion of judges and other justice-related positions. In order to meet this growing demand and ensure best practices, HHS in collaboration with DOCR has determined a requested budget of \$425,000 to include 225,000 for one FTE and 200,000 to cover contract expansions related to non-billable time for court involvement of licensed therapists to build drug court capacity across the state from 150 to 240 participants over the next biennium. The FTE will provide treatment coordination and ensure facilitation of best practices in the clinical aspects of specialty treatment court participants through management of provider contracts.

CCBHC Svc Expansion-

To meet Certified Community Behavioral Health Clinic (CCBHC) standards, clinics will need to expand service population beyond individuals experiencing severe to extreme functional impairments. Service expansion will include primary care screening, care coordination for all, and services provided to veterans. With facilities already at capacity of space, funding is requested to support exploration of leasing new facility space to meet demand, as well as facility maintenance positions. Becoming a CCBHC will give access to clinics to access funding options for services usually unfunded by public/private payors. This request is for \$18,669,082 and includes 73.5 FTE.

Necessary resources for implementation (including FTE's)*: Recovery Housing Assistance Program (RHAP) Expansion:

325 Health and Human Services

Agency 325

\$2,902,972 in general fund (includes 1 FTE)

Substance Use Disorder (SUD Voucher Expansion (IMD Med Exp):

\$1,000,000 in general fund (includes 1 FTE)

Drug Court Treatment support:

\$425,000 in general fund (includes 1 FTE)

CCBHC Svc Expansion:

\$18,669,082 in general fund including 73.5 FTE totaling \$18,206,624 to meet growth of service delivery to comply with CCBHC criteria and \$462,457 for building lease to meet additional growth.

Are resources being redirected or are they new or additional (including FTE's)*: All requested resources are new resources required to meet the demands of the programs.

Who is served and impact of not funding*: If unfunded, North Dakots citizens needing behavioral health services will continue to face a shortage of care and face the continued struggles of navigating the health care system. Human Service Center clinics/Community Behavioral Health Clinics will not be able to meet the growing behavioral health need in the state and enhance service delivery to align with the CCBHC standards and then won't be able to receive enhanced Medicaid reimbursement to sustain increased service delivery.

Public Health - Core (Priority: 13)

	2023-25 Agency Request				2023-25 Executive Recommendation			
	Ongoing	One-Time	Total	FTE	Ongoing	One-Time	Total	FTE
Federal	-	-	-	0.00	-	-	-	0.00
General	2,303,404	3,113,804	5,417,208	1.00	313,072	151,500	464,572	1.00
Special	8,213,930	100,000	8,313,930	0.00	4,220,962	3,062,304	7,283,266	0.00
Total	10,517,334	3,213,804	13,731,138	1.00	4,534,034	3,213,804	7,747,838	1.00

State Initiative*: Health, Vibrant Communities

Is this a Large IT project? No

Is this request for a new program or service? Yes

Request explanation and justification (include any statutory authority)*: Investing in core public health activities is crucial for advancing community health and ensuring effective responses to emerging health threats. Key areas of requested investment include coordinated purchasing for immunization, creating non-fatal toxicology services, increasing local public health state aid, transitioning to a new public health laboratory, and supporting the Statewide Health Strategies Grant (SHSG)

program. Each of these initiatives plays a vital role in enhancing public health infrastructure, improving health outcomes, and ensuring equitable access to necessary services.

Coordinated Purchasing to Support Immunization Access:

Immunization is one of the most effective public health interventions, crucial for preventing diseases and maintaining herd immunity. Coordinated purchasing helps address several challenges related to vaccine access and affordability. By pooling resources and negotiating bulk purchases, public health agencies can reduce vaccine costs and improve distribution efficiency. This approach can lead to significant cost savings, which can be redirected to expand vaccination programs, particularly in underserved areas. The requested funding in this area would be targeted to birthing centers who have communicated concerns of the escalating cost for childhood vaccines that could potentially force them to no longer participate in the Vaccine for Children program.

Creating Non-Fatal Toxicology Services for North Dakota:

Non-fatal toxicology services are essential for diagnosing and managing exposure to harmful substances that do not result in death but can cause significant health problems. In North Dakota, where residents may face challenges accessing specialized services due to the state's large geographic area, establishing local non-fatal toxicology services is crucial. These services can provide timely and accurate diagnoses, facilitate effective treatment, and support public health research on environmental and occupational risks. By leveraging the capabilities of the newly constructed state laboratory, we could fill the void for North Dakota, where no current options exist for non-fatal toxicology services. This would allow for ND providers and organizations including state agencies, a lab in ND to send required non-fatal toxicology testing instead of currently being forced to send to out-of-state labs to determine results.

Local Public Health State Aid Increase:

Local public health agencies are foundational to community health, providing essential services such as disease prevention, health promotion, and emergency response. However, many local agencies face financial constraints that limit their capacity to effectively carry out their roles. Increasing local public health state aid can address these challenges by providing additional resources to expand services, support workforce development, and improve program effectiveness. Enhanced funding can lead to better health outcomes through more comprehensive services, increased staffing, and improved capacity to address emerging health issues. Investing in local public health infrastructure ensures that agencies can meet the needs of their communities more effectively.

Transition into the New Public Health Laboratory:

Public health laboratories are critical for disease detection and surveillance. Transitioning to a new public health laboratory offers numerous benefits, including improved capabilities, increased efficiency, and enhanced support for research and innovation. A modern laboratory equipped with advanced technologies can provide more accurate and timely testing, streamline operations, and support cutting-edge public health research. The requested funding would allow us to fully complete the transition next biennium with the equipment and technology needed to be fully operational and compliant with required safety regulations.

Statewide Health Strategies Grant (SHSG):

The SHSG supports locally lead public health initiatives aimed at addressing specific health challenges identified in our State Health Improvement Plan (SHIP). By providing funding for innovative projects and strategies, the SHSG enables state to implement evidence-based interventions that improve health outcomes and strengthen public health infrastructure. This program supports a range of initiatives, from chronic disease prevention to emergency preparedness, and encourages collaboration among state agencies, community organizations, and other stakeholders. Investing in SHSG-funded projects can lead to significant improvements in public health through targeted interventions, capacity building, and enhanced coordination. This past year, we received over 40 applications totaling more than 2.5

million dollars in requests for the 1.5 million dollars available in State funding, making this grant highly competitive. This new request is to double the state funding match from 1.5 to 3 million with authority to grant the additional 3 million of matching funds from the community.

Investing in these core public health activities is essential for building robust health systems, improving access to services, and addressing health disparities. Coordinated purchasing enhances immunization access, non-fatal toxicology services improve diagnostic capabilities, increased state aid supports local public health efforts, a new laboratory modernizes testing and research, and the SHSG program drives innovative health strategies. Each of these investments contributes to a healthier, more resilient community and prepares public health systems to effectively respond to current and future challenges.

Necessary resources for implementation (including FTE's)*: This request includes funding for one staff to implement the non-fatal toxicology services for ND.

The request also includes resources needed to meet safety, security, and regulatory standards as well as general laboratory operations to comply with CLIA '88, EPA, and Select Agent Program requirements for the new lab project. Many of the items would require coordination with NDIIT and/ or Facilities Management of OMB. Items that are above and beyond the project budget include the following:

- Safety signage for high complexity and biosecurity laboratories (\$23,881)
- Refrigerators and freezers for specimens (\$314,574)
- Laboratory chairs and other laboratory furniture (\$25,000)
- Biohazardous waste receptacles (\$13,000)
- Security cameras, card readers, ports, and wiring for security systems (\$350,000)
- Moving costs to transfer office and laboratory equipment and supplies (\$1.5 Million)
- One-time activation @ \$375 per security door (\$9,563)
- Building security installation fee (\$185,644)
- Security cameras (\$30,000)
- UNESCO Payoff on current lab building (\$505,642)

Some of these items are partially allocated in the project budget; however, there is not sufficient funds to cover the total cost to complete this greater than 70 Million dollar, state-of-the-art public health laboratory.

Are resources being redirected or are they new or additional (including FTE's)*: For all of the requests, with the exception of the creation of non-fatal toxicology services in ND, existing staff and resources will be utilized to implement the distribution and execution of funding requests.

Who is served and impact of not funding*: Public Health benefits every community in ND. Each element of the request has specific impacts if not funded.

325 Health and Human Services

Agency 325

Coordinated purchasing to support immunization access:

The requested funding in this area would be targeted to birthing centers who have communicated concerns of the escalating cost for childhood vaccines that could potentially force them to no longer participate in the Vaccine for Children program. The potential risk is losing access to childhood vaccinations in birthing hospitals.

Create non-fatal toxicology services for North Dakota:

Not funding this initiative would leave a hole in non-fatal toxicology testing services in ND. ND organizations and citizens would continue to need to send those tests out-of-state for service.

Local Public Health State Aid increase:

Lack of funding in this area would result in local public health units potentially reducing services or activities in their local areas.

Transition into the new Public Health Laboratory:

Lack of funding for this request would greatly impact the ability to transition into the new lab timely and meet safety, security, and regulatory standards as well as general laboratory operations to comply with CLIA '88, EPA, and Select Agent Program requirements for the new lab project.

Statewide Health Strategies Grant (SHSG) program:

Lack of funding for this program would eliminate the SHSG program

Operational Infrastructure Support (Priority: 14)

	2023-25 Agency Request				2023-25 Executive Recommendation			
	Ongoing	One-Time	Total	FTE	Ongoing	One-Time	Total	FTE

Total	2,817,842	-	2,817,842	12.50	943,995	-	943,995	4.00

State Initiative:* Workforce

Is this a Large IT project? No

Is this request for a new program or service? No

Request explanation and justification (include any statutory authority)*: This decision package represents needs for resources to address operational infrastructure requirements. Individual FTE are represented below:

325 Health and Human Services

Agency 325

Admin support for Beh Health (3.0 FTE):

1. BHD Executive Director Administrative Assistant: With Pamela Sagness' new role as the Executive Director of the new integrated Behavioral Health Division (including Policy & Administration, Clinics and State Hospital), this position will assist with scheduling; reviewing, prioritizing and responding to emails; answering and returning phone calls; organizing documents; maintaining records; taking notes at meetings, etc.
2. BHD Policy & Administration Administrative Assistant: meet additional needs as the Policy and Administration team has increased to add Revenue Cycle and Quality and Technical Services, increasing from 44 FTE in July 2023 to around 80 FTE July 2024.
3. Pregnant and Parenting Women (PPW) Program Administrator: will work with implement and maintain the required PPW program complying with federal Substance Use Prevention, Treatment and Recovery Services Block Grant requirements. The BHD is currently out of compliance with this federal requirement and is working through a waiver process with the federal Substance Abuse and Mental Health Services Administration (SAMHSA).

Internal comms support for culture/engagement initiatives (1.0 FTE):

This FTE will implement a communications strategy designed to strengthen and enhance workforce culture and engagement across HHS and support increased team member retention. The position will work to increase the quality, amount and timeliness of information getting into the hands of managers who are the go-to resources for the majority of our workforce who work offline and are directly serving North Dakotans.

Public health-focused Comms Specialist (1.0 FTE):

This FTE will support the continued growth and expansion of the "Love You to Stay" health care workforce retention campaign, the increased need for preventive health and wellness communication for women and children and support cross promotion to providers and partners including local public units. This position will also allow us to reduce external vendor costs and improve timeliness.

Finance support for Beh Health (1.0 FTE):

This FTE will support the financial needs of the Behavioral Health Services Division. The service delivery model has a direct impact on the financial operations of the agency, and it is critical that appropriate financial practices are invoked.

Admin support for HR and Comms teams (1.0 FTE):

This FTE is a shared resource for two Divisions within the agency, neither of which have current administrative support. The addition of this FTE would allow professional-level staff to focus on higher-level duties and for administrative support staff available to schedule meetings, monitor email accounts, open and process mail, manage information, etc.

Internal trainer; provide core learning activities for HHS team members (1.0 FTE):

This FTE will be responsible to provide core training for HHS team members. This includes conflict management, supervisory training, harassment training, etc. in a proactive fashion. Given the workforce landscape, it is critical that we dedicate resources to the development and improvement of team members' skills and knowledge relevant to their current roles and responsibilities.

325 Health and Human Services

Agency 325

Talent Management: Supporting knowledge transfer, succession planning and competency mapping:

These FTE will create a Talent Management Team which will be responsible to prepare our agency team members and leaders for the future workforce. This includes knowledge transfer, succession planning, and competency identification and mapping, performance reviews, onboarding, offboarding, etc. It is critical that there be a systematic way of administering these programs in order to adequately attract and retain acceptable talent.

HR support for behavioral health workforce needs:

This FTE will support the HR-related changes occurring within the Behavioral Health Division. This includes, but is not limited to, organizational design, job design, healthcare recruitment and compensation, and team member safety.

Medicaid Funding Liaison:

This FTE will be responsible for financial expertise related to maximization of Medicaid funding. There are many opportunities to enhance federal funds, and this position will work closely with program staff to assure maximization.

Necessary resources for implementation (including FTE's)*: This request requires the investment of 12.5 FTE with a total funding amount of \$2,832,428 with \$2,323,626 general funds and \$508,802 federal funds.

Are resources being redirected or are they new or additional (including FTE's)*: The request is not anticipated to use temp staff or facilities differently.

Who is served and impact of not funding*: The primary recipients of the services provided by these positions are internal team members. Ultimately team members provide necessary services to ND citizens. Not funding these resources will require that existing staff continue to work unreasonable hours, work does not get done timely or appropriately, and ultimately lead to burnout of team members which will increase turnover and cause a decrease in employee engagement.

Data Infrastructure (Priority: 15)

	2023-25 Agency Request				2023-25 Executive Recommendation			
	Ongoing	One-Time	Total	FTE	Ongoing	One-Time	Total	FTE
Federal	109,634	-	109,634	0.36	67,505	-	67,505	0.18
General	1,221,757	-	1,221,757	4.60	846,086	-	846,086	2.80
Special	12,180	-	12,180	0.04	7,499	-	7,499	0.02
Total	1,343,571	-	1,343,571	5.00	921,090	-	921,090	3.00

State Initiative*: Smart, Efficient Infrastructure

Is this a Large IT project? No

Is this request for a new program or service? Yes

Request explanation and justification (include any statutory authority)*: Data Governance Manager:

Subject matter expert to help create data governance policies and processes that HHS team members can align to in their domain specific data governance efforts.

Enterprise Data Officer:

We are seeking the hiring of an Enterprise Data Governance position to lead the internal HHS Data Governance efforts. As per NDIT guidance the agency specific Data Governance processes are to be managed by the agency. This position is responsible for implementing the agency Data Governance program, set the vision, enforce the policy around data while adhering to data governance best practices. The position will work with the assigned data stewards in the respective program divisions to establish agreed upon definitions and meta data for all of the HHS data elements. The position is also responsible for the creation of data lineage reports (i.e. how the data is captured and used), create an agency wide Data Catalog and work towards an agency wide Data Center of Excellence Team that can provide data decision making reports for all levels of the organization in a consistent manner and using agency wide BI tools.

EMS Epidemiologist:

ND is the only state EMS office without a data manager despite having to manage two state data repositories, five patient care registries, and an agency and an agency and personnel licensure management system. Data Manager will maintain and update the data systems, generate reports, and interact with national data systems.

Informatics Support/Data Integration Specialist:

This position will assist the Data Modernization director in moving data modernization projects from initiation to completion. They define project scope, allocate resources, manage timelines, and communicate progress. Their role ensures successful project delivery within budget and according to specifications. Additionally, this position is responsible for integrating disparate data sources within the PHD. They design and implement data pipelines, ETL (Extract, Transform, Load) processes, and data warehouses. Their goal is to create a unified view of data for analysis and reporting.

Overdose and Injury Epi:

ND collects information on homicides, suicides, deaths of undetermined intent that may be due to violence, legal intervention deaths, and unintentional firearm deaths - in all settings for all age groups. More than 600 unique data elements about these deaths are gathered from death certificates, coroner/medical examiner reports, toxicology lab reports, and law enforcement reports into one database. At this time the department also collects the minimum demographic data on all overdose deaths.

Necessary resources for implementation (including FTE's)*: This request represents 5 FTE that align with Data Transformation across HHS. The total of the five FTE is 1,174,443 with \$1,086,445 being general funds, \$79,199 being federal funds and \$8,800 being special funds. Both the Enterprise Data Officer and the Data Governance Manager will be engaged with NDIT and ensure that HHS's Data Governance work and strategy align with NDIT and support the greater enterprise strategy.

These positions have been reviewed with NDIT to ensure alignment.

Are resources being redirected or are they new or additional (including FTE's)*: As HHS has an FTE Block grant, we are requesting the salary dollars for our block grant to hire these new positions. All of the positions are new and will better support total data alignment across the agency.

325 Health and Human Services

Agency 325

Who is served and impact of not funding*: The Enterprise Data Officer and Data Governance Manager will serve the entire agency, ensuring we have data governance processes and procedures that are in place and being followed, ultimately allowing for real time access to clean data for reporting, analysis, prediction of needs and for general public consumption.

Healthcare Workforce (Priority: 16)

	2023-25 Agency Request				2023-25 Executive Recommendation			
	Ongoing	One-Time	Total	FTE	Ongoing	One-Time	Total	FTE
Federal	2,189,770	-	2,189,770	0.00	2,189,770	-	2,189,770	0.00
General	2,696,670	-	2,696,670	1.00	2,189,770	-	2,189,770	0.00
Special	-	-	-	0.00	-	-	-	0.00
Total	4,886,440	-	4,886,440	1.00	4,379,540	-	4,379,540	0.00

State Initiative*: Health, Vibrant Communities

Is this a Large IT project? No

Is this request for a new program or service? No

Request explanation and justification (include any statutory authority)*: Workforce is vital for ensuring access to health care services. Demands for care continue to increase, while an aging workforce is reducing the supply of providers. The National Center for Health Care Workforce projects widespread shortages over the next 15 years to meet current levels of utilization of services across healthcare sectors. Predicted shortages do not address the current unmet needs for services, especially in behavioral health and in rural and frontier health care delivery.

The impact of large behavioral health initiatives is limited by workforce. An October 2022 study by the Western Interstate Commission on Higher Education Behavioral Health Program recommends a comprehensive, strategic approach to workforce to have lasting efforts. HHS is proposing an FTE to focus on behavioral health workforce and career development in partnership with universities, licensing boards, and other state and federal programs. This FTE will create a sustainable strategy for workforce development to complete HHS Behavioral Health programs and service delivery.

Ambulance providers continue to face challenges in providing safety net care in their communities. ND Medicaid has 115 enrolled ambulance providers. To help ensure access This request will increase rates to match the highest Medicare rural rate for all Medicaid ambulance transports.

More broadly, the ND Healthcare Professional Loan Repayment Program provide loan repayment for primary care and behavioral health professionals. ND HHS is proposing to reduce the contract length from 5 years to 3 years to keep the contract length competitive with other federal programs offering loan repayment and to serve more providers through this program.

Necessary resources for implementation (including FTE's)*: Behavioral Health Workforce Administrator - One new FTE is being requested with a general fund cost of \$232,032.

Targeted Medicaid Rate Increase for Ambulance Services - This requests increases Medicaid rates to the highest reimbursement level used by Medicare, with a general fund cost of \$2,189,770 to access \$2,189,770 in federal funds.

325 Health and Human Services

Agency 325

ND Healthcare Professional Loan Repayment Program - ND HHS is proposing to transition from a 5 year contract to a 3 year contract to serve more providers. An additional \$264,000 in general funds is needed to support the reduced contract timeframe.

Are resources being redirected or are they new or additional (including FTE's)*: No resources are being redirected. These are requests for new funding and one new FTE.

Who is served and impact of not funding*: These programs support vital healthcare workforce providing access to emergency care, behavioral health, and primary care across North Dakota. Not funding these requests will impact the ability to recruit, retain, and grow healthcare workforce and may negatively impact access to safety net care for all North Dakotans.

Forensic (Priority: 17)

	2023-25 Agency Request				2023-25 Executive Recommendation

State Initiative:* Workforce

Is this a Large IT project? No

Is this request for a new program or service? No

Request explanation and justification (include any statutory authority)*: Investing in forensic examiner services is crucial for ensuring accurate, efficient, and timely investigations into the causes and manners of death, particularly in the context of statutory requirements and evolving technological needs. Here's a detailed overview of the benefits of such an investment, framed around the current situation with the State Forensic Examiner's Office and the contractual services provided by the University of North Dakota (UND) School of Medicine's Department of Pathology.

The Health and Human Services (HHS) Department is mandated by statute to engage a forensic pathologist to assist county and local officials in investigating deaths within the state. This requirement underscores the critical role forensic pathology plays in the judicial system and public health. The state's forensic examiner office, however, faces significant operational challenges that hinder its ability to meet growing demands and modernize its processes. Currently, the State Forensic Examiner's Office operates using paper records, which is increasingly inadequate given the volume of cases and the need for more efficient data management. Transitioning to an electronic records system is essential for enhancing case management, ensuring data accuracy, and improving the overall efficiency of forensic investigations.

Since 2013, due to the rising number of autopsies exceeding the capacity of the single pathologist employed by HHS, the state legislature approved funding for a contract with UND School of Medicine's Department of Pathology. This arrangement was designed to cover forensic pathology services for 21 eastern counties. The partnership was established to manage the increased workload, as the state's single forensic pathologist could not adequately handle the volume of cases. As of the latest figures, UND is conducting approximately 440 autopsies per biennium under the current contract, with a total contractual amount of \$1,718,684. This breaks down to about \$3,906 per autopsy. In comparison, the state forensic examiner's office, with a biennial budget of \$3,655,528, conducts around 400 autopsies per

biennium, equating to about \$9,139 per autopsy. UND has indicated that their costs have exceeded the current contract amount, necessitating a review and potential adjustment of the contractual terms. To ensure that forensic pathology services continue to meet the required standards and to address the funding shortfall, it is proposed that the contract amount be increased to \$3,584,840. This adjustment would bring the cost per autopsy to approximately \$8,147.

Benefits of Investing in Forensic Examiner Services:

1. **Enhanced Efficiency and Accuracy:** Transitioning to an electronic records system would streamline data management, reduce errors associated with paper records, and facilitate quicker access to critical information. This modernization is essential for improving the accuracy and efficiency of forensic investigations, leading to more reliable conclusions about the causes and manners of death.
2. **Increased Capacity and Timeliness:** With the proposed increase in the contractual amount, UND would be better positioned to handle the volume of autopsies efficiently. This ensures timely processing of cases, which is crucial for law enforcement, legal proceedings, and providing closure to families.
3. **Improved Resource Utilization:** By investing in forensic examiner services and updating technology, the state can optimize resource allocation. This investment would allow the forensic examiner's office and UND to work more effectively, avoiding bottlenecks and ensuring that forensic resources are utilized where they are most needed.
4. **Support for Regional Services:** The current contract covers 21 eastern counties, ensuring that forensic pathology services are accessible across a large and diverse geographical area. Investing in this contractual service helps maintain high standards of forensic investigation in these regions, which might otherwise struggle with inadequate local resources.
5. **Legislative and Public Confidence:** Upholding statutory requirements and investing in state-of-the-art forensic services demonstrates a commitment to maintaining public trust and confidence in the forensic investigation process. It aligns with legislative expectations and ensures that the state meets its obligations effectively.
6. **Adaptation to Growing Demands:** As forensic demands continue to rise, particularly with increasing population and complexity of cases, it is essential to adapt and scale forensic services accordingly. The proposed increase in funding and the shift to electronic systems are strategic moves to address these growing needs and to ensure long-term sustainability.

Investing in forensic examiner services, particularly through the contractual relationship with UND School of Medicine's Department of Pathology, provides significant benefits. It ensures that forensic pathology services are adequately funded, efficiently managed, and capable of meeting the demands of modern forensic investigations. The proposed increase in the contractual amount and the transition to electronic records are both crucial steps toward enhancing the effectiveness and accuracy of forensic examinations, ultimately serving the best interests of justice and public safety.

Necessary resources for implementation (including FTE's)*: No additional FTEs are required for this request. We would need to coordinate with UND on the contract and interoperability between forensic examiner records systems.

Are resources being redirected or are they new or additional (including FTE's)*: No resources are being redirected. These are requests for new funding.

Who is served and impact of not funding*: Forensic Examiner services are provided to all communities in ND. Lack of funding could lead to continued inefficiency and potential delay in forensic examiner review and response.

325 Health and Human Services

Agency 325

Potentially, UND could determine the value of the providing forensic medical examiner services to the eastern part of the state is no longer financially viable or beneficial. This could lead to no longer participating in the contract which would lead to all services needing to be brought to the State Forensic Examiner's office.

Facilities (Priority: 20)

	2023-25 Agency Request				2023-25 Executive Recommendation			
	Ongoing	One-Time	Total	FTE	Ongoing	One-Time	Total	FTE
Federal	-	-	-	0.00	-	-	-	0.00
General	-	13,421,980	13,421,980	0.00	-	-	-	0.00
Special	-	-	-	0.00	-	1,684,480	1,684,480	0.00
Total	-	13,421,980	13,421,980	0.00	-	1,684,480	1,684,480	0.00

State Initiative:* State Facility Investment

Is this a Large IT project? No

Is this request for a new program or service? No

Request explanation and justification (include any statutory authority)*: The campus that is today known as the Life Skills Transition Center, was established in 1909 and today includes 22 separate buildings on approximately 40 acres. LSTC buildings that are still in use range in age from 1909 to 1984. The 437,641 square feet of building space on the LSTC campus includes Dakota East Gift Shop, Collette Fitness Center and Trophy Store (open to community), as well as all requisite residential and health services/support space associated with LSTC's delivery of Intermediate Care Facility services. This request includes 3 capital improvement projects necessary to address urgent and emergent physical plant issues on the campus. The roofs at both the Cedar Grove (ICF residence) and PT/OT buildings, as well as essential maintenance of four elevators (controller replacement).

The bathrooms have not been remodeled since the building was built in 1993. They do not have ADA compliance, the toilets and sinks are constantly being repaired, wall coverings and tiles are chipping and toilets are starting to pull away from the wall. The twelve restrooms all are in serious need of repair.

As Behavioral Health transitions Human Service Centers to Certified Community Behavioral Health Centers, they are working through the process of identifying their true space needs. Specifically, the Prairie Hills Plaza building which house West Central Human Service Center is in a predicament because it is for sale. At a minimum, we would like to extend our current lease through June 2027 while we evaluate the potential of purchasing this building. It does provide adequate space and location, however, we'd like an engineer to evaluation the structure so we understand future investments. The current purchase price is listed at \$11.9M.

Necessary resources for implementation (including FTE's)*: 2,421,980 would be necessary for all the projects requests.

712,480 for the roof for cedar grove, 500,000 for elevator maintenance at LSTC, 237,500 for the roof replacement of PT/OT building.

The bathroom remodel for SEHSC is 972,000.

West Central Human Services Center building purchase 11,900,000

325 Health and Human Services

Agency 325

Are resources being redirected or are they new or additional (including FTE's)*: N/A

Who is served and impact of not funding*: The roofs are continually patched and are unable to continue to be repaired. Without this funding, the roofs will continue to deteriorate, leak and the building will not be in a condition for individuals to stay in or team members to work. Elevators are critical to move individuals within the buildings, if the elevators are not working or down, those sections of the buildings are unusable by the individuals. The bathrooms at SEHSC are in constant repair, which closes bathrooms down for a period of time rendering them unusable for the time they are down. There are frequent toilet and sink issues.

Child Care (Priority: 21)

	2023-25 Agency Request				2023-25 Executive Recommendation

Special	-	-	-	0.00	-	-	-	0.00
Total	174,272,500	-	174,272,500	0.00	-	19,272,500	19,272,500	0.00

State Initiative:* Workforce

Is this a Large IT project? No

Is this request for a new program or service? No

Request explanation and justification (include any statutory authority)*: North Dakota has made a significant commitment to removing child care as a barrier to work by making strategic investments in affordability, availability, and quality, while also building on and strengthening underlying early childhood infrastructure. HB1540 was the vehicle that contained the bulk of ND Child Care Initiative efforts. This decision package requests consideration to remove the "one-time funding" designation from three of those initiatives.

HHS' grants and resources to child care providers has made possible hundreds of facility, quality and inclusion grants, a brand new shared services infrastructure as well as child care start-ups and expansions. HB1540 included \$7 million for grants and incentives; this request increases that amount to \$12 million recognizing the high/immediate impact these funds have in child care programs and the rapid utilization of funds. The grants and incentives are designed to be flexible and responsive to program needs. The expanded dollars would allow HHS to do more to support not only new program start-ups and existing program expansions, but also preservation of programs at risk of closure through transition/transfer.

HB1540 designated \$3 million in early childhood quality infrastructure and \$3 million in enhanced payments for Step 2-3-4 quality-rated CCAP providers as one-time funding. These investments together are having a significant impact on advancement of quality-rated options for care across our state; the number of programs actively pursuing the "next " quality step has doubled in the last year, with each cohort full to capacity and additional programs on a waiting list to participate. Once quality rating has been achieved, providers are eligible for lump-sum grant support as well as enhanced CCAP reimbursement; and children and families have the added benefit of improved quality in their local child care environments. Building momentum around quality in child care takes time and persistent investment, not only by the child care providers and workforce who are delivering care, but by the systems and infrastructure that support them.

HHS' base budget investment in early childhood is aligned to fully support the initiatives outlined in HB1540. This decision package requests increased investment in three of those areas to further advance the state's goals related to child care, children, families and workforce.

Inclusion Supports connect private child care programs and families with both coaching and financial resources designed to help assure that children with special needs can maintain their place in an integrated child care setting. Today there are 5 inclusion coaches who support the more than 1,100 child care programs across ND; one of those coaching roles is supported with funding that expires in 2025. This request would allow us to maintain the current network of 5 inclusion specialists serving the state.

Best in Class is ND's research-informed year-before-kindergarten experience. Since its inception in 2021, Best in Class has grown to serve more than 1,800 children in 2024-25, with programs participating in ND communities, xx of which are rural. This request would allow more programs to apply to become Best in Class sites, with expansion from the current participation level to an estimated xxx per year by the end of the biennium. Capturing good data is essential to our ability to measure impact; the state makes Teaching Strategies GOLD available to Best in Class and Step 3-4 quality rated programs; this decision package requests funds to increase the number of programs using Teaching Strategies for data collection on quality and outcomes, adding accounts that would cover an additional 2,000 children in participating programs of varying sizes.

In addition to the elements outlined above, the Legendary Beginnings Child Care Stabilization Initiative represents the next bold step in the state's effort to remove child care as a barrier to work. This proposal would help stabilize the state's child care market by creating a monthly stabilization payment of \$800 for all infant/toddler slots in licensed child care settings where the tuition is no more than 75% of market and where the provider agrees to abide by performance measures that drive toward state goals.

Necessary Resources: Items designated as one-time funding (general fund) in HB 1540; requesting renewal of funding and removal of one-time status.

- Early Childhood Quality Infrastructure - \$3 M
- Enhanced Child Care Assistance payments for Quality-Rated programs - \$3 M
- Grants and Incentives for Child Care providers - \$12 M (increased from HB1540 level of \$7M)

Inclusion supports preserve current levels of coverage, replacing expiring one-time funds with general funds (\$172,500)

Best in Class represents an expanded investment of \$6 M (over the base budget level of \$12 M)

Data collection portfolios to support quality and outcome measurement represents an expanded investment of \$100,000 (over the base budget level of \$372,000, which is partially funded with federal dollars)

Legendary Beginnings Stabilization Fund will invest \$200 million in direct payments to child care providers over the course of the biennium (see policy options matrix for detailed description of several funding alternatives)

Resources redirected: This request does not include additional FTE. The financial resources requested are new investments (either replacing one-time funds or expanding capacity of existing programs).

Who is served: •The expanded grant/incentive funding for providers would be expected to impact 400-500 child care programs.

- The quality infrastructure supports touch the majority of licensed providers in some way, with more intensive supports going to quality cohort participants and providers receiving intensive coaching (est 200 providers)
- Enhanced CCAP payments for quality rated providers will continue to see growth as additional providers receive their quality rating, and as CCAP utilization grows. We would expect this payment to directly impact 150-200 quality rated providers in the next biennium.
- Inclusion supports are used by 100-200 providers/families each year; the inclusion specialist funded in this request would likely work directly with 30-40 families/providers over the course of the biennium.
- Best in Class participation would be expected to grow to serve approximately 2,200 children in year 1 of the biennium and 2,800 children by year 2, with approximately 100 total program sites anticipated.
- Adding access to outcome reporting tools would add data collection capacity for 2,000 children in new quality rated programs.
- Legendary Beginnings Fund would make a monthly payment of \$750 (\$99M/year) to 11,000 (of 15,000) infant/toddler slots

Necessary resources for implementation (including FTE's)*: Items designated as one-time funding (general fund) in HB 1540; requesting renewal of funding and removal of one-time status.

1. Early Childhood Quality Infrastructure - \$3 M
2. Enhanced Child Care Assistance payments for Quality-Rated programs - \$3 M
3. Grants and Incentives for Child Care providers - \$12 M (increased from HB1540 level of \$7M)

Inclusion supports preserve current levels of coverage, replacing expiring one-time funds with general funds (\$172,500)

Best in Class represents an expanded investment of \$6 M (over the base budget level of \$12 M)

Data collection portfolios to support quality and outcome measurement represents an expanded investment of \$100,000 (over the base budget level of \$372,000, which is partially funded with federal dollars)

Legendary Beginnings Stabilization Fund will invest \$150 million in direct payments to child care providers over the course of the biennium (see policy options matrix for detailed description of several funding alternatives)

Are resources being redirected or are they new or additional (including FTE's)*: This request does not include additional FTE. The financial resources requested are new investments (either replacing one-time funds or expanding capacity of existing programs).

- Who is served and impact of not funding*:**
1. The expanded grant/incentive funding for providers would be expected to impact 400-500 child care programs.
 2. The quality infrastructure supports touch the majority of licensed providers in some way, with more intensive supports going to quality cohort participants and providers receiving intensive coaching (est 200 providers)

325 Health and Human Services

Agency 325

3. Enhanced CCAP payments for quality rated providers will continue to see growth as additional providers receive their quality rating, and as CCAP utilization grows. We would expect this payment to directly impact 150-200 quality rated providers in the next biennium.
4. Inclusion supports are used by 100-200 providers/families each year; the inclusion specialist funded in this request would likely work directly with 30-40 families/providers over the course of the biennium.
5. Best in Class participation would be expected to grow to serve approximately 2,200 children in year 2 of the biennium and 2,800 children by year 2, with approximately 100 total program sites anticipated.
6. Adding access to outcome reporting tools would add data collection capacity for 2,000 children in new quality rated programs.
7. Legendary Beginnings Fund would make a monthly payment of \$750 (\$99M/year) to 11,000 (of 15,000) infant/toddler slots

Housing Initiative (Priority: 22)

	2023-25 Agency Request				2023-25 Executive Recommendation			
	Ongoing	One-Time	Total	FTE	Ongoing	One-Time	Total	FTE
Federal	-	-	-	0.00	-	-	-	0.00

Special	-	-	-	0.00	-	14,500,000	14,500,000	0.00
Total	14,500,000	-	14,500,000	15.00	-	14,500,000	14,500,000	0.00

State Initiative:* Health, Vibrant Communities

Is this a Large IT project? No

Is this request for a new program or service? Yes

Request explanation and justification (include any statutory authority)*: Housing is a workforce issue for North Dakota. When workers don't have stable housing, they are universally less able to be fully engaged at work. ?Whether renting or owning, an inability to find, afford, and maintain your place to live is de-stabilizing. ?

The ND Housing Initiative is a comprehensive package of investments and policy innovations that, together, will harness the power of the private market to increase access to housing that is affordable to people of all ages and life stages who are living and working in North Dakota. This work must necessarily address both supply and demand issues, which is why the Governor's Office brought HHS, Department of Commerce, ND Housing Finance Agency and the Bank of North Dakota together to help coordinate and drive this effort forward. Each agency will carry implementation responsibility for a portion of the initiative. As a whole, the package of recommendations will:?

Create incentives that recognize regulatory environments that are housing friendly and infrastructure-efficient.?

Make targeted investments to bridge affordability gaps driven by market realities.?

Pave the way for more moderate-income households to make the transition from renting to owning.?

Embrace the full range of housing options to support the natural life stage mobility trends that drive healthy housing markets.?

Tie access to dollars to performance thresholds to ensure that we are incentivizing the behavior we seek.

Use existing policy tools to make quick implementation possible.

Focus on things that matter (get laser focused on cutting red tape and administrative burdens that make housing less attainable).

HHS' part of the housing strategy will:

Establish a targeted rental assistance program designed to disrupt cyclical instability experienced by working households with modest earnings

Make flexible funding available to reduce known housing barriers (accessibility, transition costs, landlord debt, security deposit)

Invest in effective eviction and foreclosure prevention practices (mediation services, budget management, housing provider outreach)

Whenever housing barriers may be present, implement housing facilitation as a standard partner for case managers and people served

Define transition points between the prevention, crisis and stabilization components of the housing stability continuum by connecting to a shared intervention framework.

HHS will accomplish this through three inter-related efforts. ND Rent Help will connect renters with modest incomes to existing housing, including stabilizing rental assistance for people exiting homelessness (post-rapid-re-housing; month 3 thru month 24; graduated payments; required financial literacy/coaching), people exiting incarceration / institutions (ex. state hospital, nursing home, in conjunction with transition/diversion services), people early in recovery (ex. post-recovery housing), and people at imminent risk of housing crisis (eviction notice, utility shut-off, economic crisis trigger). NDRH will prioritize housing stability, which requires targeted financial coaching geared toward each individual's household circumstances.

Note. There are several supportive services items in HHS decision packages that would be further enhanced by having greater access to direct housing assistance as described here: DP6 (expand FTR, Comm Connect - \$8,475,722), DP7 (Adaptability home mod program, Transition/Diversion assistance, DOJ rental assistance - \$6,489,397), and DP12 (Recovery Housing Assistance - \$2,902,972). ND Rent Help and ND Help for Homeowners mitigates the benefit cliff many individuals encounter by creating a bridge to housing stability, which is fundamental to overall household wellbeing and an essential element of worker engagement and productivity.

Necessary resources for implementation (including FTE's)*: ND Rent Help - \$6 million - rental assistance for up to 1,000 households, based on a model of graduated payments (max of 15 months) designed to mitigate benefit cliff impacts and create a bridge to financial stability. Program includes eviction prevention resources as well as re-housing supports (ex. payment for past rental debt when a barrier to obtaining housing).

Financial Coaching - \$4 million - direct work with renters and homeowners, case managers and care coordinators to facilitate personal financial planning and financial literacy; the approach identifies housing stability as an essential component of household success and helps households think critically about their

325 Health and Human Services

Agency 325

resources, constraints and opportunities (intend to use a combination of contracted resources and state staff, all of whom specialize in financial literacy / financial advisement for people at risk of instability)

Eviction Prevention - \$3.5 million - eviction prevention intervention for up to 375 households, including assistance with past due obligations, and financial coaching/counseling paired with housing assistance for 6-9 months post-crisis.

Home Modification for Accessibility - \$1 million - Direct assistance to eligible homeowners with home repair needs that affect the ongoing habitability of their home (@ up to \$30k/unit); intent is to layer this funding to bridge gaps not able to be covered by other existing home repair/improvement programs; focus on accessibility and insurability (i.e., not cosmetic).

Are resources being redirected or are they new or additional (including FTE's)*: This proposal redirects staff and technology resources that had previously been funded with one-time dollars from U.S. Treasury to now deliver elements of the ND Housing Initiative. Implementation will require conversion of 15 temporary positions to FTE (intake/customer support, eligibility determination, stability coaches). The continued delivery of assistance to renters and homeowners, eviction prevention, and housing stability/financial literacy coaching can be delivered using the existing housing stability technology platform.

Who is served and impact of not funding*: A recent public input survey conducted in coordination with the ND Housing Initiative Housing noted that affordability is a concern for people across the income spectrum. High housing costs and localized supply mismatch can create stressors for any household. However, we know that households who are already at risk of instability because they are experiencing a disruption (ex. health issue, a change in caregiving expectations, income interruption or unexpected expense) or a crisis (domestic violence, substance abuse, job loss, persistence of debilitating health condition) experience housing instability more acutely, and their options to resolve it are typically more limited. We also know, based on ND labor market data, that the vast majority of ND residents (both renters and homeowners) are members of their local workforce. Housing is a workforce issue. When they experience housing instability, their ability to stay engaged at work suffers.

Direct housing assistance is proven-effective stabilizing resource that, when paired with other appropriate supportive services, can effectively help a family bridge whatever disruption they are experiencing and move toward stability. Without the resources made available through ND Rent Help and ND Help for Homeowners, the path to building that bridge is much less clear for thousands of individuals and families who work in occupations that pay a more modest wage and thus would otherwise lack the resources needed to stabilize their housing situation.

State Hospital (Priority: 23)

State Initiative:* State Facility Investment

Is this a Large IT project? No

Is this request for a new program or service? No

Request explanation and justification (include any statutory authority)*: North Dakota State Hospital has been a cornerstone of mental health care in our region since its inception. Established in the 1885, NDSH was originally designed to provide care for individuals with mental health conditions in an era when understanding and treatment options were limited. Over the decades, our institution has evolved, adapting to the changing landscape of mental health care while remaining steadfast in our mission to support the most vulnerable members of our community.

Throughout its history, NDSH has witnessed significant advances in mental health treatment, from the early days of institutional care to the modern approaches we employ today. However, despite these advancements, our facility faces challenges inherent in aging infrastructure and evolving standards of care. As the demands on mental health services grows and our understanding of best practices continues to advance, it became increasingly clear that a new facility is essential to continue providing the high-quality care our patients deserve.

Necessary resources for implementation (including FTE's)*: New resources of \$ 333,592,000

Are resources being redirected or are they new or additional (including FTE's)*: New resources.

Who is served and impact of not funding*: 1. Patients:

- Individuals Requiring Acute and Specialized Care: The new 125 bed facility will serve adults, geriatric patients, and forensic patients who require short-term acute psychiatric, intermediate psycho-social rehabilitation, and specialized forensic services.

- North Dakota Sex Offender Residential Treatment Program (SOTEP) Patients: It will include 40 dedicated beds for individuals in the SOTEP program, providing specialized care for this population.

- The current campus is almost 650,000 sq ft, while historic, no longer meets the modern standards for safety, accessibility, and therapeutic environments. The need for a state-of-the-art facility that can support contemporary treatment modalities and patient care practices within one building (316,246 sq ft) has become very evident.

2. Mental Health Professionals:

- Healthcare Providers and Support Staff: The facility will provide improved and safe working conditions for healthcare providers, including psychologists, psychiatrists, nurses, therapists, and support staff, through modern infrastructure and dedicated spaces for professional development.

- The facility's design will enable rapid response to incidents, with strategic placement of safety stations and quick access to emergency equipment.

Impact of Not Funding the New Facility:

1. For Patients:

- Compromised Care Quality: The aging infrastructure limits the ability to provide contemporary treatment modalities and safe therapeutic environments. Without a new facility, patients will continue to experience outdated conditions, which could hinder their recovery and overall treatment outcomes.

- Increased Stigma and Isolation: The current co-location with the JRCC campus contributes to feelings of stigma and isolation. Continued use of the outdated infrastructure may perpetuate these issues, affecting patients' mental health and recovery.
- Increased Strain on Existing Services: Current facilities may become noncompliant, leading to reduced quality of care and longer wait times.
- Higher Costs Elsewhere: Without the new facility, there may be increased reliance on emergency rooms, law enforcement and the courts for mental health crises, leading to higher costs in these areas.

2. For Staff:

- Inefficient Work Environment: Current inefficiencies, such as long distances between buildings and inadequate communication systems, lead to reduced staff productivity and increased stress. Without bringing these to a current state, these challenges will persist, potentially affecting staff morale and retention. This will also lead to continuing compliance issues with CMS and Joint Commission, forcing more costly changes to the buildings, infrastructure and security to keep up with health care compliance demands.
- Increased Operational Costs: Maintaining and operating outdated infrastructure is more expensive and less efficient, potentially diverting funds away from patient care and other critical areas. For example, the Tompkins building roof needs to be replaced. The current cost to replace that roof it will cost \$1.5M.
- Limited Professional Development: The lack of updated facilities for training and professional development may hinder staff growth, making it harder to attract and retain skilled professionals.

3. For the Community:

- Economic Missed Opportunities: Not funding the new facility means missing out on job creation and local economic stimulation. The current infrastructure's limitations could also hinder the overall effectiveness of mental health services in the region.
- Stagnation in Mental Health Services: Without investment in a modern facility, the mental health care continuum in North Dakota may remain fragmented and inadequate, impacting the overall well-being of all communities in North Dakota.

4. For the Facility:

- Continued Safety and Efficiency Issues: The current facility's outdated safety systems and inefficient design pose risks to both patients and staff. Continued reliance on these systems could lead to safety incidents and injuries.

In summary, not funding the new facility would mean continued challenges for patients, staff, and the communities NDSH serves. It would prevent the much-needed improvements in patient care, staff working conditions, and overall mental health infrastructure in North Dakota. Investing in the new facility is crucial for enhancing mental health services, supporting staff, and benefiting the communities of North Dakota.

State Initiative:* Technology Investment

Is this a Large IT project? Yes

Is this request for a new program or service? No

Request explanation and justification (include any statutory authority)*: The Health and Human Services Department is serious about modernizing the underlying technology that is used to support a wide variety of program areas. This decision package is a combination of items that all need to be addressed to remove HHS applications from the retire quadrant of the technology roadmap. HHS has worked jointly with NDIT to establish categories where applications were scored based on technology value/risk and business value/risk. The four quadrants are retire, review, refresh, retain. The agency is seeking funding to ensure we can obtain temporary resources (HHS and NDIT) to step through all the applications and determine how to remove dependency of the technology. Several previously funded modernization efforts provided means to procure no solutions but for a variety of reasons either not all the data was converted, processes were not fully incorporated into the new solutions or all dependencies were not fully identified and are now remaining. The 2nd component of this decision package is to account for the rate increase for the mainframe services provided by NDIT. We have been informed that the usage-based costs with an average of \$ 250k per month are slated to go to a flat fee cost of \$ 400k per month which is a 60% increase. Besides mainframe expenses being increased, HHS is requesting funding to create a more

robust network redundancy capability to ensure that critical services can continue during network outage. The current network topology is outdated and investments are needed to ensure we can provide services to our customers 24x7 especially in our State Hospital. Other areas in this funding request are regular upgrades of technology to ensure technical compliance can be achieved.

Necessary resources for implementation (including FTE's)*: The resources needed are a combination of contracting resources to reverse engineer old technology processes to ensure we know exactly what data/process is being performed. This information will be used as input for, most likely vendor resources, to build these same capabilities using the new technology for solutions like SPACES and other applications. HHS in conjunction with NDIT is proposing a dedicated project team to focus on all of the necessary technical debt solutions and collectively and methodically work down the need for these older solutions and transfer data to modern storage platform or purge data when truly no longer needed in adherence to our data retention policies.

Are resources being redirected or are they new or additional (including FTE's)*: HHS, in conjunction with NDIT, is proposing a dedicated team of resources for these efforts. In some cases we will redirect existing resources, especially those who are currently supporting these old technology applications, and other instances we anticipate hiring temporary staff to assist with all the work that is needed to remove all of our technical debt. We should determine the long term plan for those NDIT staff members who support these old technology solutions.

Who is served and impact of not funding*: The impact of not funding the technical debt removal effort would be a major concern since will inevitably introduce security risk that will be able to be remediated. Our applications (40+) that still depend on this technology would become in-operatable and the data would need be able to be accessed for mission critical business functions. Customers data spans a wide variety of programs including Economic Assistance, Medicaid, Behavior Health and several smaller sized programs.

Start Date (MM/DD/YYYY): 7/1/2025

End Date (MM/DD/YYYY): 6/30/2028

Replace existing application? Yes

Upgrade existing application? No

Development of new application? Yes

Anticipated Benefits*: Moving HHS off the mainframe completely, having fully supported technology that operates efficiently and effectively, ensuring timely and accurate issuance of benefits and case information.

Project Risk*: By not addressing significant technical debt across HHS we are putting programs, data and critical systems at risk of shutting down due to unsupported technology.

Issue/Solution*: If NDIT has the resources to support HHS's timeline to move off the mainframe.

325 Health and Human Services

Agency 325

Information Technology - New (Priority: 18)

	2023-25 Agency Request				2023-25 Executive Recommendation			
	Ongoing	One-Time	Total	FTE	Ongoing	One-Time	Total	FTE

Total	-	8,985,000	8,985,000	0.00	-	8,985,000	8,985,000	0.00

State Initiative:* Technology Investment

Is this a Large IT project? Yes

Is this request for a new program or service? No

Request explanation and justification (include any statutory authority)*: The IT New decision brief is for three new implementations of a new technical solutions for the respective areas (Vocational Rehab (VR) program, Food and Lodging and EMS Licensure). The VR system would be a brand new solution or a solution that would integrate with one the HHS existing solutions. The food and lodging solution is to ensure we are compliant with the state law to provide inspections for Food and Lodging facilities, Body Art/Tattoo facilities, Tanning facilities and funeral homes/crematoriums. The North Dakota state law has increased regulatory action necessary for all food and lodging program areas. Examples are: Food vending rules, Bed and Breakfast facilities, Lodging Sanitation Standards.

Necessary resources for implementation (including FTE's)*: No additional FTE resources are anticipated as part of this decision brief. The funding is needed to obtain technology solutions for the respective areas and will be procured via the RFP process.

Are resources being redirected or are they new or additional (including FTE's)*: No resources are anticipated to be re-directed since these areas currently don't have the required IT solutions.

Who is served and impact of not funding*: The impact of not funding the request will cause HHS to be out of compliant with the North Dakota state law and the required timelines to deliver the requested services.

Start Date (MM/DD/YYYY): 7/1/2025

End Date (MM/DD/YYYY): 6/30/2027

Replace existing application? Yes

Upgrade existing application? No

Development of new application? Yes

325 Health and Human Services

Agency 325

Anticipated Benefits:* Moving from manual, paper processes to a fully automated, efficient and effective system will allow team members to focus on the critical work instead of pushing paper.

Project Risk:* Ensuring NDIT has enough resources to support implementing all three projects.

Issue/Solution:* Ensuring NDIT has enough resources to support implementing all three projects.

	316	325-500-02	32550	693000	7	1	278,000	-	-	-	-	-	278,000
Total					-	-	-	-	278,000	-	278,000	-	278,000

State Initiative:* Workforce

Justification: HHS is required by statute to hire a forensic pathologist to assist county and local officials in investigating the cause and manner of deaths that occur in the state. Currently, the State Forensic Examiner uses paper records and we need to update to an electronic records system.

Health Facilities/EMS Licensure Mgmt system (Priority: 18)

Statutory Authority

North Dakota Century Code Chapter 25-01.3.

Agency Description

The Protection and Advocacy Project (P&A) is governed by a seven-member board named the Committee on Protection & Advocacy. The appointments to the Committee are made by the Legislative Council (2), the Governor (2), Mental Health America of ND (1), The Arc of ND (1), and an entity selected by the Committee (1). The Committee's current selection is ND Cares. An advisory council provides stakeholder input, regarding the Mental Health Advocacy Program (MH), to the governing board and P&A staff.

Current federal programs include the: 1) Protection and Advocacy for Developmental Disabilities (DD); 2) Protection and Advocacy for Mental Health (MH); 3) Protection and Advocacy for Individual Rights (PAIR - for individuals with disabilities who are not eligible for the DD or MH advocacy programs); 4) Protection and Advocacy for Assistive Technology (AT); 5) Protection and Advocacy for Beneficiaries of Social Security (PABSS); 6) Protection and Advocacy for Traumatic Brain Injury (TBI); 7) Protection and Advocacy for Voting Access (PAVA); 8) Protection and Advocacy for Beneficiaries with Representative Payees; 9) Client Assistance Program (CAP) which is a contract from the ND DHHS/Vocational Rehabilitation Section.

P&A investigates allegations of abuse, neglect, and exploitation of individuals with disabilities. Advocacy services are directed to individuals with disabilities who experience rights violations or those who are not receiving services for which they should be found eligible.

Agency Mission Statement

The purpose of the agency is to protect and advocate for the rights of people with disabilities. As set by the Committee on Protection and Advocacy in November 2000, the mission reads: Uniting to champion the equality and inclusion of people with disabilities where we live, learn, work and play.

Major Accomplishments

- 1 P&A collects qualitative and quantitative data on its work through an annual public comment period. In 2024, 94% of survey participants agreed that P&A's work is beneficial to people with disabilities.
- 2 P&A collects qualitative and quantitative data on its work through an annual public comment period. In 2024, 87% of clients (participating in the survey) agreed that they were happy with the outcomes of P&A services.
- 3 P&A is actively engaged with 50+ local and statewide councils, workgroups, commissions, and boards whose work positively impacts individuals with disabilities.
- 4 P&A tracked and monitored 271 bills and resolutions on disability-related topics during the 2023 session. P&A disseminated information weekly and hosted 40+ informational events open to the public.
- 5 P&A launched a pilot project focused on relieving workforce pressures and creating independence for people with disabilities through assistive technology.

Critical Issues

- 1 P&A continues to see challenges with it's workforce. The agency struggles to attract top talent and finds that it cannot compete with the private market. This is displayed by increased turnover, longer job postings, less qualified applicants, and longer onboarding/training periods once a hire is completed. In addition, many long time staff are reaching retirement age with 25% of P&A staff reaching the rule of 85 within the next four years. This is not only a fiscal hardship due to retirement payouts, but also a loss of institutional knowledge.
- 2 North Dakotans with disabilities and the general public lack awareness of P&A. This means that individuals don't know about the services we provide or how to access help. Increased awareness would allow the agency to take a more proactive approach to addressing disability related issues and minimize negative impacts on people with disabilities.
- 3 The workforce crisis is rampant and is greatly affecting the service system that supports people with disabilities. This workforce crisis is having a ripple effect on P&A with 1) lack of workforce resulting in more reports of abuse/neglect/exploitation for P&A to screen, investigate, and address and 2) vulnerable individuals getting dropped from services due to staffing issues resulting in increased request for P&A service to assist the individual in maintaining health and safety in the community. P&A believes it has a solution with the Workforce Technology Project which will address the workforce crisis in many respects.
- 4 P&A receive a substantial amount of federal funds. The current political climate is volatile and this has resulted in federal appropriations being delayed fairly regularly. In addition, funds are at best being level funded with the impact of inflation this means P&A is constantly being challenged to maintain or increase service level with decreased or level funding.

Performance Measures

P&A annual goal setting process includes establishing and tracking performance measures. P&A examines quantity of services (how many people served) and quality of services (outcomes of services provided). These measures are tracked for each of the following service categories:

1. Information & Referral: Providing information about disability-related issues and rights and referring for services outside of P&A.
2. Advocacy Assistance: Providing limited assistance and support to help clients solve their disability-related problem.
3. Advocacy Representation: Providing an advocate to address disability-related issues on the client's behalf.
4. Legal Representation: Providing a lawyer to address disability-related legal rights violations.
5. Protective Services: Conducting activities (investigations, monitoring, risk management) to address abuse, neglect, or exploitation of individuals with disabilities.
6. Training & Support: Providing training and assistance on disability-related issues.
7. Systems Advocacy: Addressing broad concerns with disability services, rights, and policies.

Program Statistical Data

FFY 23

- 2,819 information & referrals provided

360 Protection and Advocacy

Agency 360

- 870 clients served
- 1,167 active cases
- 6,843 people trained
- 16,441 website visits

Explanation of Program Costs

The Protection and Advocacy Project (P&A) is funded by a combination of state and federal monies. Project costs include salaries and benefits for 28.5 FTEs and operating expenses such as rent, insurance, printing, phone, IT services, supplies, furniture/equipment, travel, and professional development. P&A also incurs expenses related to work with contractors/consultants to perform work that P&A doesn't have the capacity to perform in-house. All costs support the provision of programs and services to individuals with disabilities.

Program Goals and Objectives

P&A's Mission: Uniting to champion the equality and inclusion of people with disabilities where we live, learn, work and play.

FFY 24 P&A Goals & Objectives:

1. Abuse, Neglect, & Exploitation: individuals with disabilities will be free from abuse, neglect, and exploitation.
 - Investigations, monitoring, rep payee reviews, training, and collaboration.
2. Community Inclusion: individuals with disabilities will receive treatment, services, and supports to meaningfully contribute and participate in the communities where they live, learn, work, and play.
 - Advocacy, training, and collaboration in the areas of inclusion, education, healthcare, employment, assistive tech, and voting.
3. Criminal Justice/Juvenile Justice: the disability/mental health related rights of individuals will be protected and enforced.
 - Advocacy, training, and collaboration in the areas of forced medication, justice involvement due to disability, and access to disability-related treatment and supports in correctional settings.

*Note federal grants require P&A to go through an annual goal setting process often resulting in annual changes to program goals.

State Initiative:* Workforce

Is this a Large IT project? No

Is this request for a new program or service? No

Request explanation and justification (include any statutory authority)*: The workforce that provides care to individuals with disabilities has been in crisis for years, but was exacerbated by covid. Many service providers are experiencing turnover rates of 40%+ and high vacancy rates; as a result they are cutting much needed services for individuals with disabilities.

In 2022, P&A received \$114,00 in one-time federal "covid monies" to complete a project of its choosing that addresses concerns with the workforce serving individuals with disabilities. P&A has leveraged it's one-time funds to garner an additional \$295,000 in one-time fiscal support from other entities. P&A initiated a pilot program focused on transitioning individuals with disabilities from congregate settings to independent settings with the use of innovative technology. This project is utilizing assistive technology to alleviate pressures on staff by providing automated support and tools. In addition, participating individuals with disabilities are realizing greater independence, self-sufficiency and freedom. This pilot includes creating new technologies that address disability-related needs, creation of a system for managing and monitoring technologies created by various vendors, working with DHHS to examine amendments to the Medicaid State Plan to fund technologies system-wide, and completing a cost/benefit analysis.

360 Protection and Advocacy

Agency 360

To date this project is being implemented by a program coordinator who is a temporary FTE. Funding for this position ends in February 2025. With the end of funding, the progress made on this project will also conclude. P&A requests 1 FTE to make the current program coordinator a fulltime permanent FTE.

Necessary resources for implementation (including FTE's)*: P&A requests 1 additional FTE and state general funds to assist in supporting the position.

Are resources being redirected or are they new or additional (including FTE's)*: P&A will redirect a portion of federal resources to support this request, but also requests support of state general funds for the new FTE.

Who is served and impact of not funding*: P&A serves individuals with all types of disabilities and of all ages. This project is expected to specifically impact individuals with disabilities currently residing in institutional settings, some with annual costs of greater than \$500,000 per person per year which are funded by the state. Supporting this request will ensure that P&A can continue this project of transitioning people with disabilities to more independent and less resource intensive settings, all while alleviating workforce pressures.

A failure to fund this request may result in 1) people with disabilities continuing to be served in congregate, high cost settings, 2) people with disabilities being discharged from services leaving them vulnerable to abuse, neglect, exploitation, denial of rights all resulting in serious risks to health and safety, and 3) continuation of the workforce crisis and staffing shortages resulting in further erosion of the service delivery system that supports vulnerable North Dakotans.

New FTE - Coms/Mrkt (Priority: 02)

	2023-25 Agency Request				2023-25 Executive Recommendation			
	Ongoing	One-Time	Total	FTE	Ongoing	One-Time	Total	FTE
Federal	-	-	-	0.00	-	-	-	0.00
General	237,878	-	237,878	1.00	-	-	-	0.00
Special	-	-	-	0.00	-	-	-	0.00
Total	237,878	-	237,878	1.00	-	-	-	0.00

State Initiative:* Workforce

Is this a Large IT project? No

Is this request for a new program or service? No

Request explanation and justification (include any statutory authority)*: P&A is well-known and respected within the world of disability; however, the agency struggles with awareness. Even though 1 in 5 people have a disability, many North Dakotans are not connected to the disability community and are therefore unaware of how P&A can serve them. P&A seeks to enhance awareness, so that every North Dakotan will know about P&A's purpose, services, and resources. This will allow individuals to seek assistance from the agency at the first point needed and also access information and resources to address challenges for themselves. This effort will allow the agency and North Dakota to move towards a proactive stance, rather than a reactive stance which will optimize use of resources. In order to support this goal, P&A request 1 FTE to hire a marketing/public relations professional to initiate and implement awareness work.

Necessary resources for implementation (including FTE's)*: P&A requests 1 additional FTE and state general funds to assist in supporting the position.

360 Protection and Advocacy

Agency 360

Are resources being redirected or are they new or additional (including FTE's)*: P&A will redirect a portion of federal resources to support this request, but also requests support of state general funds for the new FTE.

Who is served and impact of not funding*: P&A serves individuals with all types of disabilities and of all ages. Supporting this request will ensure that P&A reaches all vulnerable North Dakotans that are eligible to receive services. A failure to fund this request may result in people with disabilities being subjected to abuse, neglect, exploitation, and denial of their civil and legal rights because they are not aware of P&A and the help we can provide.

Retirement Payouts (Priority: 03)

	2023-25 Agency Request				2023-25 Executive Recommendation			
	Ongoing	One-Time	Total	FTE	Ongoing	One-Time	Total	FTE
Federal	-	-	-	0.00	-	-	-	0.00
General	-	19,288	19,288	0.00	-	19,288	19,288	0.00
Special	-	-	-	0.00	-	-	-	0.00
Total	-	19,288	19,288	0.00	-	19,288	19,288	0.00

State Initiative:* Workforce

Is this a Large IT project? No

Is this request for a new program or service? No

Request explanation and justification (include any statutory authority)*: Protection & Advocacy continues to experience retirements of long-term employees. During the 25-27 biennium 5 FTEs will reach the rule of 85; this is nearly 20% of P&A's staff. Long-term staff are eligible for substantial retirement payouts for accrued vacation and sick leave. These payouts are a hardship for the agency, as the positions must remain vacant for an extensive period of time in order to re-coup payout funds before the agency has the resources to hire and fill the positions. These vacancies create a burdensome workload for existing staff and jeopardize the agency's ability provide timely and quality services

Necessary resources for implementation (including FTE's)*: P&A requests state general funds to provide for retirement related payouts.

Are resources being redirected or are they new or additional (including FTE's)*: This is a one-time request for state general funds for retirement related payouts. This is a request additional to P&A's existing budget.

Who is served and impact of not funding*: P&A serves North Dakotans of all ages and all types of disabilities. If this request is not granted service quality and quantity to individuals with disabilities will be negatively impacted.

Statutory Authority

North Dakota Century Code Chapter 52-01 through 52-11

Agency Description

Job Service North Dakota (JSND) is the designated State Workforce Agency and is responsible for administering the state and federal unemployment insurance programs, providing labor market information, delivering workforce training and reemployment programs, and providing specific services to targeted workforce sectors and populations.

Agency Mission Statement

Job Service North Dakota's mission is: Meeting Workforce Needs

Our strategic anchors are integrity first, service before self and excellence in all we do.

Major Accomplishments

- 1 Continued assisting employers with recruiting potential employees from a local to national level through traditional means as well as hosting virtual job fairs and outreach sessions online. In February of 2024, Job Service held its third annual comprehensive virtual job fair which was a great success. Registered for the event were 1,308 job seekers and 96 employers. The event was international, with 23 states and 21 countries represented.
- 2 Connected employers and job seekers to meet North Dakota's workforce needs and received national recognition for service to veterans from the American Legion veteran service organization for staff and the Bismarck Workforce Center.
- 3 Implemented use of data analysis and predictive reports to increase performance measure and federal reporting outcomes.
- 4 During the summer and fall of 2023, JSND hosted three webinars that attracted over 1,300 attendees. These webinars covered Work Based Learning, International Student Pathways, and Labor Market Information.
- 5 Continued to meet and exceed federal Workforce Innovation and Opportunity Act performance standards. Over 600 individuals were authorized federal funding for short-term job training through this grant in PY 23.
- 6 In FY 23, staff drove 53,977 miles while inspecting over 1,500 housing units for 3,572 foreign workers. This was a 20% increase from FY 22, when inspections totaled slightly over 1,200 units.
- 7 Continued to meet and exceed federal Unemployment Insurance performance standards, ensuring quick, high-quality resolution of activities that impact the citizens of North Dakota.
- 8 Implemented document management software resulting in efficiencies in WIOA data element validation and monitoring activities.
- 9 Implemented effective fraud prevention tools, both utilizing data analytics and actual identity proofing. These tools have had a lasting impact on preventing and identifying fraudulent Unemployment Insurance activities in North Dakota.
- 10 We received funding for the UI Modernization project and have procured a vendor through the State Procurement process. We are actively working with the vendor on this multi-year project.
- 11 Received funding in the last legislative session to implement the Job Placement Pilot Program, a recommendation from the Workforce Development Council. The program focuses on re-entry efforts for justice-involved individuals within the ND Department of Corrections and Rehabilitation.

Major Accomplishments

12 Continue to collaborate and work as one with other state agencies to address the critical workforce needs in North Dakota.

Critical Issues

- 1 Increasingly uncertain federal funding as policy priorities change in response to the economy.
- 2 Flat to declining federal funding and increases in workload within the unemployment insurance program has impacted and could further impact the timeliness of the services provided to program participants. The primary impact is significant delays in adjudicating claims, which ultimately impacts the timeliness of payments to eligible claimants. In addition, delays in appeals processing and employer status determinations are also being seen and expected in the future.
- 3 Flat federal funding and significant increases in workload within the H2A Foreign Labor program has impacted and could further impact the timeliness of the services provided to Ag producers and agents. The primary impact is delays in housing inspections because of the significant increase in the number of inspections and lack of workforce staff to complete the inspections in a timely manner. These delays ultimately impact the timeliness of foreign workers arriving in ND which could delay planting and harvesting timelines.
- 4 Increasing reliance on electronic service delivery as the costs for electronic service delivery rise.
- 5 Effectively measuring the skills and availability of the state's workforce to help the economic development community recruit new companies to the state and encourage expansion of existing North Dakota companies.
- 6 Succession planning for key positions.
- 7 Replacement of aging technology, particularly the Unemployment Insurance mainframe-based system. This is a high-risk project due to limited funding and low staffing levels.
- 8 Ongoing technology costs continue to increase and require higher and higher percentages of our total yearly operating grant. This is critical as it limits technology options and prevents innovative, customer-desired service options. This is particularly challenging to the efforts of implementing a modernized Unemployment Insurance system.
- 9 Flat federal funding has not kept up with inflation for over a decade. As funding remains flat, the gap between inflation (actual costs to agency) and actual funding received, grows.
- 10 Due to flat/declining funding, JSND has had to shrink staffing and statewide office footprint. This downsizing has come while the ND population and employer community has seen continued growth.
- 11 Funding shortfalls put program performance at risk, negatively impacting citizens. Risks include delayed Unemployment Insurance eligibility determinations and benefit payments, technology failures & downtime, long waits to speak with staff members.

Performance Measures

Unemployment Insurance Program:

Job Service North Dakota actively tracks and manages the performance of the Unemployment Insurance (UI) program. Leadership throughout the agency, from supervisors to the Executive Director, monitor performance via several reporting mechanisms.

Job Service reviews many performance measures internally, but the U.S. Department of Labor (USDOL) establishes the primary UI program performance measures which revolve around the timeliness, quality, and accuracy of the agency's UI determinations. Historically, Job Service performs very well against the core measures

that the USDOL tracks. As importantly, UI staff members are committed to providing high-quality customer service to the unemployed workers and the employers of North Dakota.

Job Service had the following results on eight of the primary federal measures for the quarter ended March 31, 2024 (most recent performance period results available at time of publication):

Measure Federal Standard JSND Performance

Payment of Intrastate Claims Timely 87% Timely 98.43%

Non-Monetary Determinations Completed Timely 80% Timely 95.58%

Quality of Non-Separation Eligibility Determinations 75% Exceed Quality 98.25%

Quality of Separation Eligibility Determinations 75% Exceed Quality 98.32%

Appeals Case Aging 60% in 30 Days or Less 77.95%

Appeals Quality 80% Quality 100%

Timely New Employer Status Determinations 70% Timely 85%

Tax Program Quality Pass/Fail Pass

Job Service strives for excellence in program administration and customer service. As noted earlier, Job Service has been a nationwide leader and has excelled in almost all aspects of measured UI performance. At the same time, Job Service continues to perform well and will always strive for excellence.

Benefits Unit – While the workload in the benefits unit has remained fairly consistent over the last decade, agency staffing has declined, and statewide population has increased. This creates an environment of additional citizen support for UI related activities and questions. Additionally, although the publicly visible activities related to the pandemic have in large part ended, the Benefits unit continues with all the subsequent federal activities such as reporting and audits. Economic factors and a changing worker demographic continue to impact workloads as well. Lastly, while North Dakota’s unemployment rate remains low, we continue to see many claims for benefits from out-of-state claimants.

The claim duration for UI claimants within North Dakota remains one of the lowest in the nation at approximately 12 weeks. This short duration indicates that claimants are returning to work fairly quickly.

Tax Unit – The primary workload increase within the UI Tax unit results from the increased number of status determinations that must be performed and the growth in employer numbers statewide. The status determination function directly correlates with the number of employers establishing businesses within North Dakota and the number of existing businesses changing ownership.

New businesses must complete a Registration for Unemployment Insurance Tax form. Tax staff receive and review the forms, follow up with employers for further information, and determine the businesses’ liability accordingly.

The increase in employer numbers causes significant data input and administrative processing. The volume of wage credits and other correspondence that must be processed also increases with the increased number of new businesses. During 2017 legislation, North Dakota Century Code 52-04-01.1 was amended and reenacted to require all liable employers electronically file Employer's Contribution and Wage Reports quarterly, minimizing data entry and error correction on the part of Job Service staff.

Appeals Unit – The Appeals unit has processed a significantly increased number of appeals over the last several years, which is not surprising given the increased number of claims received. However, we have begun to see a return to normal levels within the last year.

Program Statistical Data

Unemployment Insurance Program:

Covered Employers 28,653

UI Tax Collected \$78,850,398

Initial Claims Filed 20,422

Monetary Determinations Issued 16,465

Non-Monetary Determinations Issued 16,637

Appeal Decisions 2,540

Weeks Claimed 150,115

Benefits Paid \$66,387,531

Average Actual Duration BYE 7-2022 to 6-2023 12.0

*CY 2023 data

The maximum Weekly Benefit Amount (WBA) for which claimants may be eligible is adjusted each July and is based upon average wages paid in North Dakota. For illustrative purposes, three WBAs are provided:

Time Period Maximum WBA

July 2021 through June 2022 \$657

July 2022 through June 2023 \$673

July 2023 through June 2024 \$748

Job Opportunities and Basic Skills Program

Total Enrolled (July 2022 – June 2024) 264*

* Job Service administers the JOBS program in Region 5 only (Effective July 1, 2009).

Trade Adjustment Assistance for FY 22-23

(October 2022 – September 2024) 2 – 2 entered & completed training, 0 participated in wage subsidy.

North Dakota New Jobs Training Program

A total of 4 projects had final North Dakota New Jobs Training Agreements on file for current year 2024. These projects covered the creation of 35 planned new jobs. There were 5 New Jobs Training agreements written in the 2023 with 204 planned new jobs created. One of the five closed immediately after the tax code changes were implemented due to lower wages. These numbers are down from previous years likely due to the change in the tax code and the workforce shortage. Most agreement contract amounts were reduced after the tax code change.

Labor Market Information Center:

The following Labor Market Information products were published in the biennium ending June 30, 2023.

- Benefits Guide
- Careers in North Dakota
- North Dakota Employment Projections (short-term and long-term)
- North Dakota Employment and Wages by Occupation
- North Dakota Employment and Wages by Industry
- North Dakota Area Profiles
- North Dakota Workforce Review
- Online Job Openings Report
- North Dakota's Oil and Gas Economy
- Quarterly Review of Employment and Wages by Industry
- Largest Employers in North Dakota

Explanation of Program Costs

Unemployment Insurance Program:

The costs included in the budget request support the administration of the Unemployment Insurance program. NOTE: Because benefits are paid from a trust fund held by the federal government, the amounts estimated to be paid in benefits are not appropriated biennially. North Dakota Century Code Section 52-03-04 makes these funds available for payment of benefits only and without an appropriation. The remainder of the budget encompasses the administration of the Social Security responsibilities under North Dakota Century Code Ch. 52-10, dealing with the status of public employees with respect to Social Security coverage.

Workforce Programs:

The costs included in the budget request support the administration of Workforce Programs.

Labor Market Information Center:

The budget request includes the continuation of the present Labor Market Information Center at Job Service North Dakota.

Program Goals and Objectives**Unemployment Insurance Program:**

1. Administer the UI program to provide temporary income replacement for workers who are unemployed through no fault of their own.
2. Collect employers' unemployment insurance taxes to fund North Dakota's Unemployment Insurance Trust Fund.
3. Pay unemployment insurance benefits to eligible workers consistent with state and federal law.
4. Administer Social Security coverage option statutes (North Dakota Century Code Ch. 52-10) for state and local governmental units. Required action most commonly occurs with school district consolidation or the extension of Social Security coverage to groups of government employees not previously covered.
5. Serve as the USDOL liaison for the required Management Information System reporting and maintenance used for performance management and statistical data requirements.

Workforce Programs:

1. Serve as a lead agency by providing a gateway for employers and job seekers into the state's One-Stop/Workforce Development Service System.
2. Support Job Service North Dakota workforce centers as they help youth and adults enter the labor force and improve their occupational and educational skills. The goal is to improve customers' long-term employment earnings and reduce dependency on economic assistance programs.
3. Develop, test, and maintain the Management Information Systems used by the Job Service workforce centers for program services. These services include initial job training, retraining, upgrade training, and employability for eligible participants. Classroom job-skill training and on-the-job training components are used to achieve the objectives outlined for job training programs. Training funds are aimed toward in-demand occupations in North Dakota. The Workforce Innovation and Opportunity Act also encompasses individualized career services, supportive services, and informational services for those seeking employment and training.
4. Serve as the USDOL liaison for the required performance outcomes and reporting data extracted from the case management module of the Management Information System and Self-Service Labor Exchange System used for performance management and statistical data requirements.

5. Connect job seekers to statewide job openings on jobsnd.com. The Online Job Openings Report from June 2024 indicates a total of 14,669 open and available online job openings in June 2024, a change of -0.7 percent (-98) from the prior month and +5.0 percent (+704) from the same month one year ago. Job openings posted within the last 30 days accounted for 61.1 percent of all job openings.

Healthcare Practitioners and Technical reported the largest number of job openings (3,370) among the 22 non-military major occupational groups, followed by Educational Instruction and Library (1,046) and Sales and Related (1,014). Ten occupational groups reported an over-the-year increase in job openings, while twelve reported an over-the-year decrease. Healthcare Practitioners and Technical reported the largest over-the-year increase in job openings with a change of +787. The occupational group reporting the largest over-the-year decrease was Production (-164).

Among North Dakota's 53 counties, Cass County reported the largest number of job openings (3,785), followed by Burleigh County (2,856) and Grand Forks County (1,715). Thirty counties reported an over-the-year increase in job openings, while twenty-three reported an over-the-year decrease. Grand Forks County reported the largest over-the-year increase in job openings with a change of +249. Cass County reported the largest over-the-year decrease with a change of -327 openings.

Of those openings with a typical entry-level education assignment, 46.2 percent required either a high school diploma or less. The remaining job openings required some sort of postsecondary education or credential, with a Bachelor's degree being the most common (35.4 percent).

North Dakota had a total of 2,116 active r}sum}s in June 2024, a change of +0.8 percent (+17) from the prior month and +18.9 percent (+337) from the same month one year ago. Active r}sum}s consist of those posted or updated within the last 90 days. There were a total of 1,897 in-state active r}sum}s and 219 out-of-state active r}sum}s. In-state active r}sum}s accounted for 89.7 percent of all active r}sum}s while the remaining were from out of state.

6. Provide the resources necessary for Job Service workforce centers to assist job seekers with job search assistance, job opening referrals, career guidance, and skill assessment.

7. Provide the tools necessary for Job Service staff to help businesses recruit employees, meet affirmative action goals, process requests for foreign workers, and sustain and grow their local economies.

Labor Market Information Center:

1. Provide up-to-date labor market information allowing customers to make more informed decisions.
2. Create new products to emphasize the labor market information

State Initiative:* Technology Investment

Is this a Large IT project? No

Is this request for a new program or service? No

Request explanation and justification (include any statutory authority)*: Administration of the Unemployment Insurance (UI) program is federally funded and allocated to states by the United States Department of Labor based upon Federal Unemployment Tax Act (FUTA) tax receipts received from employers via federal taxes that are subsequently allocated by congress as requested by the United States Department of Labor (USDOL) based upon Administration priorities. With congress continuing to fund government operations via continuing resolutions (CR) rather than actual budget creation, UI administrative funding has remained for the most part flat over the last decade or longer. The lack of adjustments in federal funding do not support state-level program increases, such as legislative wage adjustments, IT cost increases, and inflationary costs to operating expenses. As funding remains flat, the gap between inflation (actual costs to agency) and actual funding received grows. Given this, the state support for UI administration and technology costs represented by the base budget of \$3 million has been vital to the operation of the critical UI program.

Since 2001, technology improvements and the decrease in funding for our programs has resulted in a reduction of 215 regular full-time employees and the closure of seven of our offices throughout the state. We are currently authorized for 158.61 FTE. The shrinkage of the agency size has resulted in strategic use of temporary

positions during seasonal layoffs by state employers and for special projects that arise. Importantly, the downsizing of the agency staff and our statewide office footprint has come while the ND population has grown by over 106K, and the number of employers has grown by 7,716 in the last decade alone. While we have done all we can to create efficiencies that allow us to provide services to the citizens of the state, the funding shortage and inflationary increases has reached a point where our capacity to serve the citizens of the state will likely be impacted without increased funding support.

Although cost increases continue in almost all aspects of our operations, two areas who have notified us of increased costs are particularly impactful to our operations. We have received notice from the North Dakota Information Technology Department (NDIT) and from our technology system host and mainframe-based system supplier, Unisys, that we will be realizing cost increases over the next biennium as follows:

NDIT Increases of \$1.426M over the next biennium. NDIT is noting that they are increasing costs in almost all areas of their operations. They are noting that the increases are to cover their costs such as wage and equity increases, user fee increases, maintenance and operational increases, hosting increases, and a change to the interactive voice response (IVR) system. Additionally, a significant change to the phone system software used to provide support to citizens has undergone a change by NDIT which increased our costs from \$30 to \$100 per month per staff member. These increases cannot be supported by the funding that we currently receive, and we are not able to look to other lower cost solutions as it is a statewide enterprise system that NDIT controls.

Unisys mainframe-based lease increase of \$235.5K for the next biennium. This increase is an inflationary increase.

Unisys maintenance and operations (M&O) Hosting increase of \$238.5K for the next biennium. This increase is an inflationary increase.

The support that the legislature has provided via our base state funding of \$3 million remains a critical component of our budget, but the need has grown. As a result, our budget request is increasing to assist with a portion of the inflationary increases we are facing from NDIT and Unisys. This increased need results in a request for an additional \$1.9 million for the biennium, equating to an overall request for \$4.9 million.

Necessary resources for implementation (including FTE's)*: 1. \$1.426M for NDIT increases

2. \$235.5K for Unisys Mainframe-based lease increase. This increase is inflationary.

3. \$238.5K for Unisys Maintenance and Operations (M&O) Hosting increase. This increase is inflationary.

Are resources being redirected or are they new or additional (including FTE's)*: New Additional Funding

Who is served and impact of not funding*: Job Service does not have the federal funds to cover the increase of these IT costs. Without additional funding support, it is expected that significant staff reductions will be necessary. Any further reduction in staff will inevitably impact program performance and negatively impact citizens. Risks include delayed Unemployment Insurance eligibility determinations and benefit payments, technology failures & downtime, and long waits to speak with staff members.

State Initiative:* Workforce

Is this a Large IT project? No

Is this request for a new program or service? No

Request explanation and justification (include any statutory authority)*: During the 2023 Legislative Session, the legislature approved funding for The Job Placement Pilot Program, an initiative that was approved and recommended by the Workforce Development Council (WDC). The main objective of this program is to connect recently or soon-to-be released ex-offenders with in-demand positions within North Dakota. During the last 18 months of implementation, the program has seen much success and deserves to move forward.

This program is a partnership between JSND and the ND Department of Corrections and Rehabilitation (DOCR) and is supplemental to the existing services provided by JSND through the Federal Workforce Innovation and Opportunity Act. Over the last year and a half, we have worked in partnership with the Department of Human Services (Vocational Rehabilitation), the F-5 Project, and other agencies to provide wrap-around services to include other supportive programs, as well as other basic needs to include housing, transportation, tools, work clothing, and equipment that are not otherwise paid for by federal funding.

Though we have not yet completed the 2-year cycle, as of August 29, 2024, we have received 212 referrals from the Department of Corrections and Rehabilitation. Of those referrals, 167 intakes have been completed and we now have 93 active participants in the program with 78% being currently employed. Since the program’s beginning, 31 participants have successfully exited the program after completing six months of employment. The reincarceration rate of those who have completed the intake process and are, or have been, case managed, is 6.59%. ND’s overall recidivism rate is 37.6% as reported by DOCR.

Staffing

The number of referrals from DOCR is higher than what was originally anticipated, resulting in higher caseloads and the need for additional staffing, one in Fargo and one in Bismarck. Throughout the last 18 months, we have also recognized that individuals are being released to locations outside of the Fargo and Bismarck area, forcing an analysis of the need for staffing in those areas. We worked in partnership with DOCR to determine the areas where individuals are being released to. Grand Forks has been identified as an area that could benefit from this program with approximately 100 releases per year.

Support Services

Over the first year of the biennium, we averaged \$607.53 per participant for payment of support services which may include transportation, housing, etc. Also during this time, the total paid to those who successfully exited the program was \$12,317. Those who have exited the program are earning an average of \$20.47/hour thereby putting money back into North Dakota’s economy and reducing recidivism.

380 Job Service

Agency 380

During the last legislative session, \$300K was allocated to the program for purposes of support services. Of this amount, we have spent \$102K, and we anticipate an additional \$103K will be spent through the end of June 2025, thereby leaving \$95K in unused funds. While we faced many unknowns in the beginning of the program's implementation, we have since learned how to best execute the dollars in the most efficient manner. Practicing good stewardship of the state-allocated funds is paramount to serving as many individuals as possible. If Grand Forks is added as an additional location, we estimate the support services funding needed for all three locations for the next biennium to be \$250K.

The value of this program has many benefits to different groups. DOCR has benefited through the reduction of recidivism resulting in less dollars spent for housing someone who has returned to prison. It has also helped the parole and probation staff by ensuring gainful employment which is often a requirement of someone recently released. Employers have benefited by having an additional population to recruit employees. The state has benefited as putting these individuals to work puts money back into North Dakota's economy.

Necessary resources for implementation (including FTE's)*: 1. Continuation of the program outside of the pilot format

2. \$710K for 3 Full-Time Employees

a. 1 in Bismarck, 1 in Fargo, and 1 in Grand Forks

b. 2 employees are currently employed as temporary during the pilot phase of the program.

3. \$250K in support services

Are resources being redirected or are they new or additional (including FTE's)*: New additional funding. 3 new FTE positions

Who is served and impact of not funding*: Ex-Offenders were identified by the WDC as a population who experience barriers to entering the workforce, including the life-long impact of a criminal conviction on their record. As of 2024, North Dakota averages approximately 1,400 prisoner releases each year. Without a steady paycheck allowing for basic needs to be met, such as housing and food, many ex-offenders return to the prisons.

Ex-offenders are a target group to fill in-demand positions in skilled trades, transportation, IT, and a wide variety of other industries. Without tapping into this labor pool and preparing ex-offenders for the workforce, employers will continue to have difficulty filling in-demand positions.

H2A Agricultural Program (Priority: 03)

	2023-25 Agency Request				2023-25 Executive Recommendation			
	Ongoing	One-Time	Total	FTE	Ongoing	One-Time	Total	FTE

General	233,672	-	233,672	1.00	-	-	-	0.00
Special	-	-	-	0.00	-	-	-	0.00
Total	233,672	-	233,672	1.00	-	-	-	0.00

State Initiative:* Workforce

Is this a Large IT project? No

Is this request for a new program or service? No

Request explanation and justification (include any statutory authority)*: Since 2007, JSND has been administering the H2A Foreign Labor Certification Program. This program provides assistance to agricultural employers who have a shortage of domestic workers. The program brings non-immigrant foreign workers to the U.S. to perform agricultural labor on a temporary or seasonal basis. Worker housing provided by the employer receives a quality inspection by JSND as outlined by the US Department of Labor.

The program has grown exponentially from processing 219 H2A applications in 2007 to 1,097 in 2023. With only 9 months into the current program year, we have surpassed the number of applications processed in 2023. In addition to processing applications, the number of housing inspections has also increased from 845 in 2021 to 1,524 in 2023. So far, during the last 9 months of the current program year, we have also exceeded the 2023 numbers by 36 and fully expect this number to increase before the end of the program year.

Over the last 3 years, JSND has facilitated the placement and subsequent housing inspections of thousands of seasonal workers to help agricultural employers during the busy seasons. [See Table 1]

(Oct 1 – Sept 30) # of H2A workers

FY22 2,995

FY23 3,572

FY24* 3,646

Table 1: 3-Year Look Back Period of Worker Placement

*FY24 numbers are 9 months only as program year ends on 9/30/24

To conduct these housing inspections, JSND employees must travel from a Workforce Center Location resulting in over 69,212 miles driven in the last nine months to conduct inspections. This is already an increase of 15,235 miles with 3 months remaining for the current program year.

Contributing to the workload is a new program requirement issued by the Department of Labor. This new requirement is related to program outreach which is to be implemented during the 2026 program year. With the continued program growth, Job Service continues to be challenged with the needed staff time to travel to inspection sites and conduct inspections. The new regulation only adds to the staffing challenges with the need to have staff conduct required outreach.

Necessary resources for implementation (including FTE's)*: To continue to support North Dakota’s agricultural employers through administration of the H2A program, there is a need to supplement the current staffing to continue providing efficient services and be compliant with the Department of Labor Regulations.

1. \$237,000 for 1 Full-Time Employee

a. 1 FTE will support the increase in housing inspections and conduct outreach

380 Job Service

Agency 380

Are resources being redirected or are they new or additional (including FTE's)*: New funding with one additional FTE

Who is served and impact of not funding*: H2A workers are vital to the remote farming communities within North Dakota. Without additional funding, other workforce services will be reduced due to the time and staffing needed to conduct the required housing inspections.

Statutory Authority

Title 26.1, Title 18

Agency Description

The North Dakota Insurance Department oversees the insurance marketplace that exists within the state of North Dakota. Established in 1889, the department serves the public by providing education, regulation, and enforcement of insurance laws and policies. North Dakota is part of the U.S. insurance regulatory framework that is designed to promote fairness and protect consumers in the complexity of the U.S. insurance marketplace. As a member of the National Association of Insurance Commissioners (NAIC), North Dakota joins a coalition of state regulatory agencies to help establish standards and best practices, coordinate regulatory oversight, and conduct peer reviews.

The department consists of eight divisions that include assisting consumers in navigating the marketplace, investigating insurance fraud, monitoring the financial strength of insurance companies operating in North Dakota, helping producers get licensed, and mitigating risk with the fire marshal’s office. Over 47 full-time team members, led by the Insurance Commissioner, work to execute the mission and goals of the department and uphold the laws governing insurance.

Agency Mission Statement

Mission

Safeguarding the promises made to North Dakotans and fostering a fair and thriving marketplace to meet the needs of our consumers and evolving insurance industry.

Vision

Safeguarding Promises. Fostering Fairness.

Major Accomplishments

-
- 1 Fire Marshal Transition back to the Insurance Department from the Attorney General’s Office effective 7/1/2023

 - 2 The Department was successful in achieving injunctive relief from the Senior Health Insurance Company of Pennsylvania, protecting North Dakota consumers from unapproved rate increases or benefit reductions.

 - 3 The Department successfully completed the first analysis of the state’s essential health benefits benchmark plan for nearly a decade, drafted revisions, received legislative support through HCR 3011, and successfully navigated the federal process to update the EHB benchmark. As a result, North Dakota consumers who have an individual or small group Affordable Care Act plan will benefit from the new benchmark plan beginning in 2025.

 - 4 During the fall of 2023 it became known that the Reinsurance Association of North Dakota (RAND) was in an underfunded position due to the RAND Board’s recommendation to suspend assessments in 2020. The Commissioner and staff developed and executed a plan to get RAND back to a funded position, which included steps to ensure RAND does not find itself in an underfunded position again.

Critical Issues

- 1 Recruitment and Retention of employees. Mainly salary. We are constantly reminded from a national level that our salaries are behind for our staff members. As this impacts all state agencies, we are faced with teleworking poachers approaching our experienced staff with higher salaries while remaining geographically neutral.
- 2 The Property and Casualty codes need to be reviewed and rewritten to reflect current situations in our industry.
- 3 The insurance industry is struggling for a variety of reasons, which has an impact on affordability and availability for consumers. As the regulator for the industry in North Dakota, the Insurance Department is also impacted by the struggles of the industry, yet we remain focused on protecting consumers and committed to taking actions that can help to maintain a competitive market in the state.

Performance Measures

In the State of North Dakota, we have a healthy and competitive insurance market due to our regulatory efforts and we maintain our NAIC Accreditation.

Program Statistical Data

In 2021 and 2022, the North Dakota Insurance Department facilitated a robust insurance landscape, overseeing significant financial transactions and ensuring consumer protection through diligent regulatory efforts. During these years, insurance companies collected a substantial \$16 billion in premiums, underscoring the department's pivotal role in the state's economic framework.

A core focus for the department was managing claims, with insurance companies disbursing \$10.7 billion to policyholders in 2021 and 2022 alone. This substantial payout reflects the department's commitment to ensuring that North Dakotans are supported during times of need, underscoring their dedication to consumer welfare.

The department's regulatory oversight extended to a diverse and extensive network of insurance professionals. By the end of 2022, North Dakota boasted 5,909 licensed resident producers and a staggering 95,002 licensed non-resident producers. This expansive licensing framework ensures that consumers across the state have access to knowledgeable and qualified insurance professionals.

Moreover, the department oversaw the licensing of insurance business entities, with 988 resident and 7,898 non-resident entities approved by the end of 2022. This regulatory framework supports a competitive and secure marketplace for insurance services, fostering economic growth and stability.

In 2022, the department's regulatory diligence was evident in its product approval processes. For life and health insurance, the department reviewed 2,074 products, approving 2,559 and denying only 43, ensuring that new insurance products meet stringent standards of quality and consumer protection. Similarly, in property and casualty insurance, out of 2,830 products reviewed, 2,741 were approved and 76 were denied, highlighting the department's commitment to maintaining high standards of safety and reliability in insurance offerings.

The department's enforcement efforts were also noteworthy. In 2022, it imposed fines totaling \$13,000 and revoked licenses in response to company actions that jeopardized consumer interests, demonstrating a firm stance on compliance and accountability within the insurance sector. Additionally, agent actions resulted in fines totaling \$7,400, reinforcing the department's role in upholding ethical standards and protecting consumer rights.

Through robust oversight, strategic regulation, and proactive enforcement, the North Dakota Insurance Department continues to excel in its mission to safeguard consumers, promote fair practices, and uphold the integrity of the insurance industry. Its unwavering commitment to excellence ensures that North Dakotans can rely on a stable and transparent insurance marketplace, contributing to the state's overall economic resilience and prosperity.

Explanation of Program Costs

The North Dakota Insurance Department is a state agency with the primary role of regulating the insurance industry in the State of North Dakota. Additionally, the department provides consumer protection and assistance services to help consumers navigate the coverage and benefits within their insurance policies. Most recently, the Insurance Department acquired the State Fire Marshal office, The State Fire Marshal office enforces all laws in the state pertaining to preventing fires, the storage, sale, and use of combustibles and explosives, the installation and maintenance of fire alarms and fire extinguishing equipment, adequate exits in public and private schools and public places, investigation of cause and origin of fire, and education of the citizens of North Dakota on the hazards of fire.

Program Goals and Objectives

Consumer Protection & Assistance

The Department is a team of dedicated public servants who are experienced in the ins and outs of insurance. Did you submit an auto claim and it was rejected? Was part of a medical procedure not covered by insurance? No question is a bad question in our book. Our team stands by to assist you with your insurance questions and issues.

If you believe you were wronged or treated unfairly by an insurance company, the Department facilitates and handles complaints against insurance companies in North Dakota.

The Department also assists consumers with Medicare through the State Health Insurance Assistance Program (SHIP) program. This service assists North Dakotans in understanding choices, enrolling, comparing plans, and submitting appeals while providing unbiased and confidential support. Additionally, the Department offers Prescription Connection to connect citizens with prescription medication that would otherwise be unattainable.

Fraud Investigations

Committing insurance fraud is a crime and is one of the most profitable crimes in the United States. The North Dakota Insurance Department receives fraud tips and inquiries from the public and investigates any wrongdoing to determine if fraud was committed.

Our team investigates fraud claims, recommends charges, and may prosecute alleged fraud. The public is encouraged to report any fraud within North Dakota to the Department.

Agent & Company Licensing

Before an individual or company can market and sell insurance in the State of North Dakota, they need to become licensed through the Department. In order to do this, applicants will be reviewed and must pass all applicable examinations before they are permitted to sell insurance in the State.

Financial Surveillance & Market Conduct

It's common knowledge that companies need to have enough money in order to stay afloat. That couldn't be more true for insurance companies. The Department collects and analyzes the financial data of insurance companies to ensure that there is enough money to pay claims.

The Department also performs market conduct examinations to protect the public's trust in the insurance marketplace. The examinations review a company's conduct and how consumers were treated. This includes assessing a company's complaints, claims processing, agent licensing, and adherence to state and federal laws.

Rates & Policies

The rates you pay and the specific benefits you receive through your insurance all pass through the Department. Our team analyzes the rates that consumers pay and what benefits are associated with each policy to ensure it complies with laws and regulations, as well as the viability of what is being promised.

Fire Marshal

The State Fire Marshal is responsible for enforcing state laws relating to the storage, sale, and use of combustibles and explosives, installation and maintenance of automatic or other fire alarms and fire extinguishing equipment, and for inspections of State buildings, public and private schools, child care facilities, and licensed liquor establishments. There are four programs run under the Fire Marshal Department that include Fire Investigations, Certificate of Existence, Fire Reporting, and Community Risk Reduction.

State Initiative:* Reinventing Government

Is this a Large IT project? No

Is this request for a new program or service? No

Request explanation and justification (include any statutory authority)*: This is the additional operating amount that we need to cut to be at our budget limit of \$15,396,403.

This is evenly cut across all division based on the percentage the cost is incurring for the agency.

A majority of these increases are seen in fleet charges in 521000, Data Processing 601000, and Professional Services 623000

Necessary resources for implementation (including FTE's)*: The appropriation of the funds to effectively run our agency. Each division was tasked with cutting 3%. They did this within reason to being able to still function.

Are resources being redirected or are they new or additional (including FTE's)*: No new or redirected as this is operational.

401 Insurance

Who is served and impact of not funding*: Our Agency wouldn't be able to operate.

Additional FTES (Priority: 02)

	2023-25 Agency Request				2023-25 Executive Recommendation			
	Ongoing	One-Time	Total	FTE	Ongoing	One-Time	Total	FTE
Federal	-	-	-	0.00	-	-	-	0.00

Total	852,335	4,000	856,335	4.00	496,369	2,000	498,369	2.00

State Initiative:* Workforce

Is this a Large IT project? No

Is this request for a new program or service? No

Request explanation and justification (include any statutory authority)*: The Department's request for additional Full-Time Equivalents (FTEs) encompasses strategic enhancements across four key areas.

Firstly, the addition of a dedicated attorney in the legal domain is essential. Given the intricacies of insurance law, having specialized legal expertise will significantly enhance our ability to serve both the department and consumers. Currently, our attorneys are tasked with broad responsibilities across multiple domains, hindering their capacity to serve as true subject matter experts.

Secondly, in Company Licensing, the proposed FTE will facilitate the redistribution of duties and enable cross-training initiatives. This proactive measure aims to mitigate operational disruptions during staff absences, ensuring continuous workflow and promoting departmental efficiency.

The third FTE is earmarked for a Property and Casualty (P/C) Consumer Assistance role, responding to a notable surge in consumer inquiries and complaints since mid-2023. This position will focus on educating insured individuals about policy details and marketplace dynamics, thereby improving consumer satisfaction and regulatory compliance.

Lastly, the addition of a communications position reporting to our Director of Communications aims to bolster our agency's outreach efforts. Strengthening our communication channels is crucial, particularly in light of increased demands stemming from recent developments, such as heightened Fire Marshal office promotions.

Necessary resources for implementation (including FTE's)*: The necessary resources for each FTE are in the form of ITD related expenses and licenses required for the positions.

Are resources being redirected or are they new or additional (including FTE's)*: They would be additional to the changing need of our consumers.

401 Insurance

Agency 401

Who is served and impact of not funding*: The consumers will be negatively impacted. These proposed FTEs are instrumental in addressing current operational challenges and advancing our agency's mission to provide robust regulatory oversight and consumer protection within the insurance sector.

Equity Fire Marshal (Priority: 03)

	2023-25 Agency Request				2023-25 Executive Recommendation			
	Ongoing	One-Time	Total	FTE	Ongoing	One-Time	Total	FTE
Federal	-	-	-	0.00	-	-	-	0.00
General	-	-	-	0.00	-	-	-	0.00
Special	-	45,000	45,000	0.00	-	-	-	0.00
Total	-	45,000	45,000	0.00	-	-	-	0.00

State Initiative:* Workforce

Is this a Large IT project? No

Is this request for a new program or service? No

Request explanation and justification (include any statutory authority)*: The Fire Marshal's Office has not received an equity increase or comprehensive study in 40 years. This amount of money would be to adjust current staff members while also providing for a new higher salary starting wage for new hires. Reclassifications would most likely take place and starting salary ranges would be around 6K-6,2K monthly.

Necessary resources for implementation (including FTE's)*: No FTEs, but to remain competitive for staffing, the salary funds would be necessary.

Are resources being redirected or are they new or additional (including FTE's)*: no.

Who is served and impact of not funding*: Consumers are served and local communities would be impacted if we lost staff or weren't able to adequately staff.

Retirement/OT Package (Priority: 04)

	2023-25 Agency Request				2023-25 Executive Recommendation			
	Ongoing	One-Time	Total	FTE	Ongoing	One-Time	Total	FTE
Federal	-	-	-	0.00	-	-	-	0.00

Total	-	83,250	83,250	0.00	-	-	-	0.00

State Initiative:* Workforce

401 Insurance

Is this a Large IT project? No

Is this request for a new program or service? No

Request explanation and justification (include any statutory authority)*: In the next biennium, we could potentially face two retirements of staff who have been with our Department. Some of those individuals have been with the Department for 30 years. This retirement package is to cover annual and sick leave payouts where applicable. Additionally, the Fire Marshal Staff accrue comptime and anything over 40 hours is paid out to them at the end of a biennium. If they are fully staffed this isn't as much of an issue, however if they are understaffed, have to travel distances, they will accrue comptime. Additionally, we cannot control when or how emergencies or investigations will take place.

Necessary resources for implementation (including FTE's)*: Requesting additional appropriation authority out of fund 239.

Are resources being redirected or are they new or additional (including FTE's)*: They are additional. In the past we have been able to redirect salary and fringe dollars to cover exits, however with a fully staffed Department, there will not be excess salary dollars. Additionally we have no way of forecasting what OT payouts will potentially be. We do try to control these as much as we are able to.

Who is served and impact of not funding*: n/a

Total					-	-	-	-	80,000	-	80,000	-	80,000

State Initiative:* Technology Investment

Justification: Appropriation for spending authority would be for FEMA Fire Safety & Prevention Grant for additional fire investigation equipment. The grant does require a 5% match of other than federal funds. The purpose for pursuing the grant is for an additional "portable x-ray imager". The State Fire Marshals Office operates one portable x-ray imager currently, but the use is often restricted by distance and location. One additional portable x-ray imager would allow the equipment to be used at further scenes, having a positive impact in fire cause determination. This is a critical piece of equipment that is expensive to purchase, but provides valuable data to assist fire investigations. See attached pictures for a burned piece of equipment with normal digital photography, and one that has been x-rayed. The x-ray allows further examination of metal and other components that can help determine if a piece of electronics has contributed to the fire or not been involved in the ignition. This has enabled the department to determine the difference between arson and accidental fires in the past. Further investment into this emerging technology will help to continue this push for more accurate and conclusive fire cause determinations.

Approximate cost of a portable x-ray imager - \$70,000 (but requesting spending authority for up to \$80,000 in case this price has risen or for set up and training)

Agency Description

The Industrial Commission (IC or Commission) budget includes funding for the Office of the Industrial Commission, the Public Finance Authority (PFA), and the Transmission Authority.

The Office of the Industrial Commission coordinates the Commission's oversight of the agencies or programs that report to the IC. The office manages and is the contracting office for the Clean Sustainable Energy Authority, the Lignite Research, Marketing and Development Program, the Oil and Gas Research Program, the Renewable Energy Research Program, and the Outdoor Heritage Fund. The office also administers the Executive Director contracts for the Pipeline Authority and the Transmission Authority.

The PFA provides market and below market loans to political subdivisions through the purchase and holding of eligible securities and provides financial services in connection with the administration and management of the State Revolving Fund Program as the financial agent for the State Department of Environmental Quality. Beginning in 2011, the PFA offered disaster loan assistance to political subdivisions through its Capital Finance Program. The Executive Director is an authorized officer for the Building Authority, the Student Loan Trust and North Dakota Transmission Authority. The NDPFA Executive Director provides administrative oversight for the Building Authority and Student Loan Trust.

The Transmission Authority facilitates the development of transmission infrastructure in North Dakota and serves as a catalyst for new investment in transmission by facilitating, financing, developing and/or acquiring transmission to accommodate energy production. The Authority is a builder of last resort, meaning private business has the first opportunity to invest in and/or build needed transmission.

Agency Mission Statement

Through the Office of the Industrial Commission, serve as the central contact and support for the activities and programs overseen by the North Dakota Industrial Commission.

Through the Office of the Industrial Commission, facilitate the operations of the Clean Sustainable Energy Authority which has the mission to support research, development, and technological advancements through partnerships and financial support for the large-scale development and commercialization of projects, processes, activities, and technologies that reduce environmental impacts and increase sustainability of energy production and delivery.

Through the Office of the Industrial Commission, facilitate the operations of the Lignite Research, Development and Marketing Program, which has the mission to promote economic, efficient and clean uses of lignite and products derived from lignite in order to maintain and enhance development of North Dakota lignite and its products; preserve and create jobs involved in the production and utilization of North Dakota lignite; ensure economic stability, growth and opportunity in the lignite industry; and maintain a stable and competitive tax base for our state's lignite industry for the general welfare of North Dakota. The development of North Dakota's lignite resources must be conducted in an environmentally sound manner that protects our state's air, water and soil resources as specified by applicable federal and state law.

405 Industrial Commission

Agency 405

Through the Office of the Industrial Commission, facilitate the operations of the Renewable Energy Development Program which has the mission to promote the growth of North Dakota's renewable energy industries through research, development and education.

Through the Office of the Industrial Commission, facilitate the operations of the Oil and Gas Research Program which has the mission to promote the growth of the oil and gas industry through research and education.

Through the Office of the Industrial Commission, facilitate the operations of the Outdoor Heritage Fund which has the mission to provide access to private and public lands for sportspersons, create fish and wildlife habitats, support stewardship for farming and ranching, enhance water quality, plant diversity, soil conditions and conserve natural areas for recreation through the establishment and development of parks and other recreation areas.

Through the Transmission Authority, assist with the removal of electrical transmission export constraints and assist with the upgrading and expansion of the region's electrical transmission grid to provide reliable electricity to our citizens and industries and for export to the regions' consumers.

Through the Public Finance Authority acting as the North Dakota Building Authority, access the national capital markets for low-cost financing of capital projects approved by the Legislature.

Through the Pipeline Authority, facilitate development of pipeline facilities to support the production, transportation, and utilization of North Dakota energy-related commodities.

Through the Office of the Industrial Commission and Public Finance Authority as the authorized officer for the North Dakota Student Loan Trust, oversee funds held in the Student Loan Trust and provide funds, in coordination with the North Dakota Student Loan Guarantee Agency, to enhance student loans administered by the Bank of North Dakota.

Through the Public Finance Authority, assist with the development of rural and urban North Dakota by providing political subdivisions and other qualifying entities access to flexible and competitive financing option for their local qualifying projects.

Through the Public Finance Authority, assist small issue manufacturers in obtaining loans through tax-exempt financing.

Through the Public Finance Authority, provides financial services in connection with the administration and management of the State Revolving Fund Program as the financial agent for the State Department of Environmental Quality.

Through the Public Finance Authority, issue and manage the Legacy Fund Infrastructure Program Bonds.

Through the Public Finance Authority as an authorized officer, assists the North Dakota Transmission Authority with bond issuance and accounting.

Major Accomplishments

-
- 1 Hired two FTEs and restructured job portfolios to optimize support for management of NDIC grant programs.
 - 2 Transitioned the Office of the Industrial Commission into a stand-alone business unit (405) and established internal management of fiscal and HR functions.
 - 3 Launched project to digitize decades of historical records and disposition physical records as appropriate with Historical Society State Archives.
 - 4 Completed phase 1 office space renovation.
-

Major Accomplishments

- 5 Completed system needs analysis, RFI process, and vendor selection for the new Grant Management System.
- 6 Produced and conducted 38 Industrial Commission meetings from 07-01-21 through 06-30-24.
- 7 The Public Finance Authority and the Department of Environmental Quality have successfully navigated the additional requirements of Build America Buy America Act and the implementation, tracking and reporting of five additional annual capitalization grants associated with the Bipartisan Infrastructure Law (BIL) funding. The BIL funding will provide approximately \$356 million of additional funding for the State Revolving Fund for 2022 through 2026 for eligible water, wastewater and storm water infrastructure projects.
- 8 The Public Finance Authority and the Department of Environmental Quality have successfully designed and implemented cloud-based software to be utilized by State Revolving Fund staff from both agencies as well as political subdivisions, consulting engineers, technical assistance providers and third-party auditors. The system includes the loan application, project draw requests, storage for all technical documents related to the project as well as tracking the capitalization grants.
- 9 The Public Finance Authority issued the two series of Legacy Fund Infrastructure Program Bonds to fund the \$680 million dollars of projects approved by the 2021 Legislature.
- 10 The Clean Water SRF reached a major milestone during 2022, surpassing the \$1 billion mark in assistance approved and \$860 million in funds disbursed. Because the funds are continually being loaned out and repaid with interest, the SRF continues to grow. This source of below-market rate financing will continue to meet future needs for a wide variety of water issues.
- 11 The Public Finance Authority issued \$200,920,000 in bonds for the State Revolving Fund Program. The proceeds were used to leverage the program and refund the 2015A bonds.
- 12 Established a direct contract with the NDIC for the Executive Director of the North Dakota Transmission Authority (NDTA).
- 13 Moved the Transmission Authority location to the state capital building with the NDIC Admin Office and moved NDTA electronic files to the state server.
- 14 The ND Transmission Authority became an adjunct member of the Midwest Reliability Organization.
- 15 NDTA completed a technical review and grid reliability impact study related to proposed EPA MATS Rule.
- 16 NDTA completed a grid reliability impact study related to the Final Greenhouse Gas Emissions ruling from EPA.
- 17 The Executive Director of the NDTA visited each ND transmission owner at their company headquarters.
- 18 NDTA solicited, scored, and selected four grid reliability projects in ND (over \$8 million) using the DOE IJIA Formal Grant award and the 15% ND State general fund match.
- 19 NDTA presented generation resource adequacy/grid reliability information to stakeholders including the ND Legislative Energy Development and Transmission Interim Committee, industry members, and national & regional electrical transmission associations.
- 20 NDTA participated in regular meetings of Midcontinent Independent System Operator (MISO), Southwest Power Pool, (SPP) and the ND Public Service Commission.
- 21 NDTA completed the Resilience of the Electric Grid in North Dakota Annual Report and the NDTA Annual Report.
- 22 NDTA launched a study in collaboration with the EERC (funded by State Energy Research Center) to produce data and information to help North Dakota utilities/regulators integrate new electric loads and generation sources while maintaining the reliability and enhancing the resiliency of the electric grid for North Dakota and understanding the impact from large loads like data centers/AI.
- 23 Supported Grid United and MN Power/Allete's GRIP application resulting in a grant award of \$700 million for the North Plains Connector.

Major Accomplishments

- 24 The North Dakota Pipeline Authority (NDPA) Director provided ongoing information to key stakeholders on current pipeline activities through testimony, reports, monthly webinars and numerous presentations.

- 25 NDPA developed forecast models to better understand the production potential and required transportation infrastructure for crude oil, natural gas, and natural gas liquids. This information was utilized by the industry to develop plans for expanding critical pipeline and processing infrastructure in the state.

- 26 NDPA continued to update datasets and reports related to regional oil and natural gas markets. This information is used by policymakers for revenue forecasting and by the industry to assist with infrastructure planning and development.

- 27 NDPA collaborated with natural gas pipeline operators to advance the initiative of moving more North Dakota-sourced gas to eastern North Dakota. The new sixty-million-dollar line of credit from the Bank of North Dakota, aimed at securing capacity for a potential eastward expansion, was a critical tool in that initiative.

Critical Issues

- 1 Federal policy that is driving electric generation decisions, retirement/closure of dispatchable generation (coal, gas) and expansion of non-dispatchable generation (wind/solar/batteries).

- 2 EPA pressures on baseload coal and gas generation.

- 3 Phenomenal energy demand growth in the oil/gas sector, supporting industries, data centers, AI, domestic manufacturing, and electrification of the economy.

- 4 Positioning North Dakota to capture data processing/AI load growth.

- 5 Removing roadblocks to expand electric transmission capacity to reduce congestion, increase generation exports and enhance grid reliability and resilience.

- 6 Transmission (electrical) and Transportation (pipeline) constraints that limit the State’s energy industries from moving all forms of energy both in and out of North Dakota.

- 7 Launch and on-going support of Grant Management System

Performance Measures

The Public Finance Agency provided funding on a timely basis to those political subdivisions seeking low-cost financing for their capital projects. During the 2021-2023 biennium the NDPFA approved under the State Revolving Fund Program \$114,132,000 of Clean Water SRF Program loans and \$57,705,300 of Drinking Water SRF Program loans. During the 2021-2023 biennium the NDPFA did not approve any loans under the Capital Financing Program.

The Public Finance Authority issued \$85,330,000 of bonds for the State Revolving Fund Program in January 2022. The proceeds were used to provide state match, leverage the Program and refund the 2011A bonds. In August 2024, \$200,920,000 of bonds were issued for the State Revolving Fund Program to leverage the Program and refund the 2015A bonds.

There were no bond issues for the Capital Financing Program.

The NDPFA issued two series of Legacy Fund Infrastructure Program Bonds to fund the \$680,000,000 of projects approved by the 2021 Legislature. The staff provides continuing disclosure and all other ongoing administration of the bonds.

The NDPFA staff issues bonds for legislatively approved projects. Additionally, they work with the state agencies and NDUS. NDPFA manages the sale, accounting, continuing disclosure, debt service invoices and ongoing administration of all outstanding North Dakota Building Authority bonds and evaluates whether it was economic to refund any outstanding bond issues.

The NDPFA assisted the ND Transmission Authority with their first bond issue of \$150,000,000 to finance the purchase of a transmission line and provides ongoing accounting and bond administration.

The Pipeline Authority has been working with numerous oil and gas and pipeline companies to provide information regarding the need for the construction of pipelines and gas processing plants. Several pipelines and gas processing plants are either under construction or are being planned. During the current biennium, the Pipeline Authority Director continued to update his forecast models to better understand the production potential and required transportation infrastructure for natural gas liquids.

Program Statistical Data

The Office of the Industrial Commission produces and conducts a minimum of 12 Industrial Commission meetings per year dealing with all areas of the Commission's oversight responsibilities, as well as conducting over 30 public meetings per year across 8 separate advisory boards and councils. The Office provides staffing and advisement to 88 individual board members across the advisory boards and councils.

The Office of the Industrial Commission currently manages 132 active research and development projects, totaling \$135.9 million in committed dollars. The Office manages \$168.9 million across its various research and development funds.

As of July 31, 2024, the Lignite Research Program has invested approximately \$172.5 million in over 255 research, development, education and marketing projects along with feasibility studies. Matching dollars and in-kind services of over \$2.7 billion have been committed to these projects.

As of July 31, 2024, the Industrial Commission awarded funding for 71 renewable energy projects through the Renewable Energy Development Program totaling over \$24 million. Matching dollars and in-kind services of approximately \$161.7 million have been committed to these projects.

As of July 31, 2024, the Industrial Commission awarded funding for 116 oil and gas research projects through the Oil and Gas Research program totaling over \$93.2 million. Matching dollars and in-kind services of over \$530.4 million have been committed to these projects.

As of July 31, 2024, the Industrial Commission has awarded funding for 239 projects for the Outdoor Heritage Fund totaling over \$89.4 million. Matching dollars and in-kind services of over \$222.4 million have been committed to these projects.

As of July 31, 2024, the Industrial Commission has awarded grant funding of \$74.5 million and \$545.5 million of loans for 20 projects through the Clean Sustainable Energy Authority. Matching dollars and in-kind services of over \$10.5 billion have been committed to these projects.

Under the Capital Financing Program established in April of 1990, the NDPFA has made 195 loans to political subdivisions in the total principal amount of \$265,093,016. These totals include 17 State School Construction Fund leases purchased from the State Board of Public Instruction in 1994 in the total principal amount of \$6,300,205. The NDPFA had \$113,755,000 loans outstanding as of December 31, 2023. All CFP loans are normally made with bond proceeds. The NDPFA has also made 67 direct loans as investments of CFP assets, rather than using bond proceeds, in the amount of \$15,342,601. These direct loans are generally for terms of less than five years. As of December 31, 2023, the NDPFA had \$1,810,000 in outstanding direct loans. In addition, the NDPFA has made 40 Disaster Loans to political subdivisions. As of December 31, 2023, there were no outstanding disaster loans.

The State Revolving Fund Program consists of a Clean Water SRF Program and a Drinking Water SRF Program. As of December 31, 2023, under the Clean Water SRF Program established in October 1990, the NDPFA has approved 354 loans to political subdivisions in the total principal amount of \$1,102,413,241 and has funded \$862,520,644 of this amount (SRF loans are funded as construction costs are incurred). As of December 31, 2023, under the Drinking Water SRF Program, established in October 1998, the NDPFA has approved 326 loans to political subdivisions in the total principal amount of \$827,302,730 and has funded \$716,797,519 of this amount. These loans are made at below-market interest rates (the rate was 2%) for the construction of wastewater treatment works and public water systems. As of December 31, 2023, the total amount of SRF Program Bonds outstanding was \$278,770,000 and the total outstanding amount of SRF Program loans was \$858,344,505.

The Building Authority has \$81,485,000 of bonds outstanding as of June 30, 2024.

As of June 30, 2024, there are \$681,655,000 of Legacy Fund Infrastructure Program Bonds outstanding.

The Student Loan Trust has \$2,200,000 of assets as of June 30, 2023.

Explanation of Program Costs

The base budget for the Office of the Industrial Commission includes funding for 6 FTE positions. The majority of funding for the Office of the Industrial Commission comes from special funds sources through the assessment of the entities which report to the Commission--the Bank of North Dakota, Housing Finance Agency, North Dakota Mill, Public Finance Authority, Clean Sustainable Energy Authority, Lignite Research Fund, Oil and Gas Research Program, Renewable Energy Development Program, and the Outdoor Heritage Fund. General Fund dollars are requested to fund the cost of the Executive Director contract for the Transmission Authority, the IJJA Grid Resiliency Grant state match, and lignite litigation funding.

The 2023 Legislative Assembly appropriated \$30,000,000 of grant funding from SIF for the Clean Sustainable Energy Authority (CSEA). In addition, the Legislature appropriated \$30 million from SIF to repay a portion of the Industrial Commission's \$250 million line-of-credit for CSEA loans and increased the Industrial Commission's line-of-credit for CSEA loans to \$390 million. Reference to this program has been included in the discussion of the Industrial Commission budget since the Office of the Industrial Commission provides the staffing for this program and administers the funding.

The continuing appropriation funding of the Lignite Research, Development and Marketing Program comes from dollars held in the Lignite Research Fund. The funding sources for the Fund are a \$.02 per ton severance tax and coal taxes, interest income and, during the 2023-2025 biennium \$10,000,000 from oil and gas taxes. The Program also received income from its investment in the Dakota Gasification Plant and the Spiritwood Plant. Reference to this program has been included in the discussion of the Industrial Commission budget since the Industrial Commission administers the funding for this Program.

The continuing biennial appropriation of \$17,500,000 for the Oil and Gas Research Program is deposited in the Oil and Gas Research Fund (OGRF). The source of funding for the OGRF is a portion of the oil and gas gross production tax and oil extraction tax revenues. All grants are matched with either private or federal funding or in-kind services. During the 2023-2025 biennium an additional \$3,000,000 of funding from the Strategic Investment and Improvements Fund was appropriated for the iPipe project. Reference to this program has been included in the discussion of the Industrial Commission budget since the Industrial Commission administers the funding for this Program.

The continuing appropriation funding source of \$3,000,000 for the Renewable Energy Program is the Resources Trust Fund. Advanced Energy Technology was added to the mission for this Program during recent biennia. Reference to this Program has been included in the discussion of the Industrial Commission budget since the Industrial Commission administers the funding for the Renewable Energy Program.

The Outdoor Heritage Fund was established in 2013 with a continuing appropriation of \$30,000,000 a biennium (\$15 million a year) with the funding source being oil production revenues. The 2015 Legislature increased that funding level to \$40,000,000 per biennium (\$20 million per fiscal year). However, with reduced oil and gas revenues the Outdoor Heritage Fund was not fully funded during the 2013-2015 and the 2015-2017 biennia. During the 2017-2019 biennium, the Legislature limited the funding level to \$10,000,000. During the 2019-2021 and 2021-2023 biennia, the Legislature authorized funding of \$15,000,000 with \$7,500,000 coming each fiscal year. Reference to this program has been included in the discussion of the Industrial Commission budget since the Industrial Commission Office of the Industrial Commission provides the staffing for this program and administers the funding.

All program costs for the NDPFA are paid from revenues of the NDPFA. No General Fund dollars are utilized for the operations of the NDPFA. Salaries and wages for the NDPFA's employees comprise the largest single program cost. The appropriation for lease/loan-bond payments for outstanding North Dakota Building Authority bonds is included in the NDPFA budget. Each agency that has benefited from a Building Authority financing is billed for their portion of the debt service payments on the outstanding bonds. The Public Finance Authority appropriation reflects these dollars as special fund receipts whether they come from the General Fund or other funding sources.

Beginning in 2023, the appropriation for the outstanding Legacy Fund Infrastructure Program bond debt service payments from the Legacy Fund Earnings is included in the NDPFA budget. The Public Finance Authority appropriation reflects these dollars as special fund receipts.

Program Goals and Objectives

Provide ongoing coordination and support for oversight of the Industrial Commission agencies/programs which include Bank of North Dakota, North Dakota Mill, Department of Mineral Resources, Housing Finance Agency, Public Finance Agency, North Dakota Building Authority, North Dakota Student Loan Trust, North Dakota Pipeline Authority, North Dakota Transmission Authority, Clean Sustainable Energy Authority, Lignite Research, Development and Marketing Program, Oil and Gas Research Program, Renewable Energy Development Program, and Outdoor Heritage Fund.

Through the Clean Sustainable Energy Authority, provide financial assistance to support research, development, and technological advancements for the large-scale development and commercialization of projects, processes, activities, and technologies that reduce environmental impacts and increase sustainability of energy production and delivery.

Through the Lignite Research Program, provide financial assistance to encourage research, development, education and marketing of lignite and products derived from lignite. Under the Lignite Research Program, provide funding for the Attorney General to litigate laws or federal regulations that impact the utilization or development of North Dakota's vast lignite resources.

Through the Oil and Gas Research Program, promote the growth of the oil and gas industry through research and education by providing matching funds for projects that meet the mission of the Program.

Through the Renewable Energy Program, provide financial assistance to encourage research and development of renewable energy sources and build the renewable energy industry in the state.

Through the Outdoor Heritage Fund provide grants to applicants that fulfill the mission established by the legislature to provide access to private and public lands for sportsmen, create fish and wildlife habitats, support stewardship for farming and ranching, enhance water quality, plant diversity, soil conditions and conserve natural areas for recreation through the establishment and development of parks and other recreation areas.

Through the Public Finance Authority, to provide market and below-market interest rate loans to North Dakota political subdivisions and other qualifying organizations at low costs of issuance and in compliance with federal tax laws and regulations and State law.

405 Industrial Commission

Agency 405

To administer the NDPFA's programs in such a manner as to assure credit ratings that allow the NDPFA to sell its bonds at low interest rates. In turn those low interest rates can be passed on to the political subdivision. Current rating for the State Revolving Fund program is Aaa from Moody's Investors Services and AAA from Standard and Poor's. The Capital Financing Program has a rating of AA-.

To develop new programs as needed to meet the financing needs of the political subdivisions and other qualifying organizations for capital projects and economic development opportunities.

To encourage economic development by offering to purchase qualified small issue bonds. For those entities that qualify for this program, it provides a way to secure long-term fixed rate borrowings at tax-exempt rates. As originally approved by the 2005 legislature, in order to limit the State's exposure and create a diversified group of borrowers, the program has limits of \$2,000,000 per borrower.

To provide the services of the NDPFA to other state agencies which have the authority to issue debt through an administrative agreement between those agencies and the NDPFA. This concept was introduced and approved during the 2005 Legislative Session to create more efficient government by allowing any state agency to utilize the existing resources and expertise of the NDPFA staff.

To act as the financial agent for the Department of Environmental Quality in administering and managing the finances of the State Revolving Fund (SRF) Program. Revolving loan funds have been established under North Dakota Century Code chs. 61-28.1 and 61-28.2 for the SRF Program. By establishing these statutory revolving loan funds, the State, through the Department of Environmental Quality, is eligible to receive capitalization grants from the federal Environmental Protection Agency. Under the SRF Program, bonds are sold by the NDPFA to provide state match dollars and leverage loan dollars. These funds, together with the capitalization grants, are used to make below-market interest rate loans to political subdivisions for qualified wastewater treatment and public water system projects.

To provide accounting services to other state agencies as requested. Currently the NDPFA accounting staff provides accounting services to other Industrial Commission entities including the ND Building Authority and ND Transmission Authority.

The NDPFA Executive Director is an Authorized Officer for the ND Building Authority, ND Student Loan Trust and ND Transmission Authority. The NDPFA serves as the lead

State Initiative:* Technology Investment

Is this a Large IT project? No

Is this request for a new program or service? No

Request explanation and justification (include any statutory authority)*: The Industrial Commission Administrative Office received funding in the 23-25 budget for the development of a new Grant Management System to support the five primary grant programs managed by the agency plus the ancillary programs assigned on a temporary basis. The system will require on-going support and will carry a licensing fee. The estimated biennial cost is \$275,000.

405 Industrial Commission

Agency 405

Necessary resources for implementation (including FTE's)*: Funding of \$275,000 per biennium. This cost will be assessed to the grant programs that the new system supports and will be special fund dollars.

Are resources being redirected or are they new or additional (including FTE's)*: This is a new, on-going expense that will be paid for by special funds through assessments of the grant programs supported by the new system.

Who is served and impact of not funding*: General public; surface and mineral owners, oil & gas, coal, ethanol industries; researchers/educators; state agencies; and other governments/political subdivisions.

Ongoing Funding for Transmission Authority Executive Director Contract (Priority: 02)

	2023-25 Agency Request				2023-25 Executive Recommendation			
	Ongoing	One-Time	Total	FTE	Ongoing	One-Time	Total	FTE
Federal	-	-	-	0.00	-	-	-	0.00
General	600,000	-	600,000	0.00	400,000	-	400,000	0.00
Special	-	-	-	0.00	-	-	-	0.00
Total	600,000	-	600,000	0.00	400,000	-	400,000	0.00

State Initiative*: Economic Development/Diversification

Is this a Large IT project? No

Is this request for a new program or service? No

Request explanation and justification (include any statutory authority)*: The Office of the Industrial Commission requests \$600,000 as an on-going general fund appropriation to fund the Transmission Authority Executive Director Contract. The North Dakota Transmission Authority (Authority) was created by the North Dakota Legislative Assembly in 2005 at the request of the North Dakota Industrial Commission. The Authority's mission is to facilitate the development of transmission infrastructure in North Dakota. The Authority was established to serve as a catalyst for new investment in transmission by facilitating, financing, developing and/or acquiring transmission to accommodate energy development. The Authority is a builder of last resort, meaning private business has the first opportunity to invest in and/or build needed transmission.

By statute, the Authority membership is comprised of the members of the North Dakota Industrial Commission. Claire Vigesaa was appointed by the Commission to serve as Executive Director of the Authority in July of 2023. The Director works closely with Office of the Industrial Commission staff and the Public Finance Authority Executive Director who is an authorized officer of the Transmission Authority. In 2023 the Legislature approved the use of general fund dollars as the funding source for the Transmission Authority Executive Director contract.

The workload of the Transmission Authority continues to increase, and additional resources are needed. The Transmission Authority provided vital expertise and played a leadership role in negotiating the sale of Coal Creek Station, our state's largest baseload power plant. The need for this expertise is heightened as North Dakota's electric grid resilience faces significant challenges created by increasing electricity demands coupled with the retirement of baseload energy sources and current federal energy policies. The ability to fund studies related to grid resiliency, electricity demand, resource adequacy, and policy impacts is critical. Increased

405 Industrial Commission

Agency 405

state engagement with regional transmission operators MISO (Midcontinent Independent System Operator) and SPP (Southwest Power Pool) is needed as these organizations develop their long-term strategic plans, develop electric resource adequacy plans, and determine cost allocation.

Necessary resources for implementation (including FTE's)*: \$600,000 general fund appropriation, on-going

Are resources being redirected or are they new or additional (including FTE's)*: Increase of \$300,000

Who is served and impact of not funding*: General public; surface and mineral owners, oil & gas, coal, ethanol industries; researchers/educators; state agencies; and other governments/political subdivisions.

Executive Director Salary Increases (Priority: 03)

	2023-25 Agency Request				2023-25 Executive Recommendation			
	Ongoing	One-Time	Total	FTE	Ongoing	One-Time	Total	FTE
Federal	-	-	-	0.00	-	-	-	0.00
General	-	-	-	0.00	-	-	-	0.00
Special	232,300	-	232,300	0.00	350,000	-	350,000	0.00
Total	232,300	-	232,300	0.00	350,000	-	350,000	0.00

State Initiative:* Workforce

Is this a Large IT project? No

Is this request for a new program or service? No

Request explanation and justification (include any statutory authority)*: Administration Office: The scope and nature of the Executive Director's responsibilities have expanded and evolved significantly in the last several decades, but the compensation for this position has not kept pace and should be increased. This compensation constraint may be attributable to the funding mechanism for the Admin Office as the IC agencies and programs are assessed to cover the budget of the Admin Office, and there could exist a disinclination to create increased costs for the other IC agencies and programs. The Executive Director salary should be appropriately increased to reflect the workload, diversity of responsibilities, executive nature, and significance of the role. Additionally, salary savings from this position were previously used to adjust compensation for three Admin Office positions. These increases were related to retention of staff and workload increases, and this salary savings component needs to be restored to the Executive Director's salary.

PFA: The Executive Director's salary should be adjusted to reflect increased workload related to Building Authority, Student Loan Trust, Legacy Bond Issuance, and Transmission Authority fiscal management. Additionally, this position's salary level is lagging that of comparable Executive Director positions within the Industrial Commission.

Necessary resources for implementation (including FTE's)*: Administration Office: The total amount needed to restore salary and provide workload and equity increase is \$182,300

PFA: The total amount needed for workload and equity increase is \$50,000.

405 Industrial Commission

Are resources being redirected or are they new or additional (including FTE's)*: Administrative Office: assessed to IC agencies and programs

PFA: special funds - covered by revenues and program funds

Who is served and impact of not funding*: ICAO: General public; surface and mineral owners, oil & gas, coal, ethanol industries; researchers/educators; state agencies; and other governments/political subdivisions.

PFA: Political subdivisions and their residents/customers and state agencies.

IIJA Grid Resiliency Grants (Priority: 04)

	2023-25 Agency Request				2023-25 Executive Recommendation			
	Ongoing	One-Time	Total	FTE	Ongoing	One-Time	Total	FTE
Federal	-	11,885,295	11,885,295	0.00	-	11,885,295	11,885,295	0.00
General	-	1,782,794	1,782,794	0.00	-	1,782,794	1,782,794	0.00
Special	-	-	-	0.00	-	-	-	0.00
Total	-	13,668,089	13,668,089	0.00	-	13,668,089	13,668,089	0.00

State Initiative*: Smart, Efficient Infrastructure

Is this a Large IT project? No

Is this request for a new program or service? No

Request explanation and justification (include any statutory authority)*: Carry forward \$7,499,037 in federal funds and \$1,124,856 in state funds; \$11,885,295 in new federal funds and \$1,782,794 in new state general funds.

During the 23-25 biennium, \$7,499,037 in federal funds were received by the IC under the federal Department of Energy’s IIJA Grid Resilience grant program. This required a state match of 15%, which was appropriated from general funds. North Dakota was the first state to receive an award under this program. The IC awarded the funds to 4 sub awardees in October 2023. Those projects are currently awaiting NEPA review by DOE, and are expected to start in Autumn 2024. This funding will need to be carried forward into the next biennium.

During fiscal years 2025-2027, the state is expected to receive an additional \$11,885,295 in federal funding, which will require a state match of \$1,782,794.

Necessary resources for implementation (including FTE's)*: N/A

Are resources being redirected or are they new or additional (including FTE's)*: N/A

Who is served and impact of not funding*: Utilities would lose funding for implementing grid resiliency projects without this funding.

405 Industrial Commission

Agency 405

Lignite Litigation (Priority: 05)

	2023-25 Agency Request				2023-25 Executive Recommendation			
	Ongoing	One-Time	Total	FTE	Ongoing	One-Time	Total	FTE
Federal	-	-	-	0.00	-	-	-	0.00
General	-	3,000,000	3,000,000	0.00	-	3,000,000	3,000,000	0.00
Special	-	-	-	0.00	-	-	-	0.00
Total	-	3,000,000	3,000,000	0.00	-	3,000,000	3,000,000	0.00

State Initiative:* Other

Is this a Large IT project? No

Is this request for a new program or service? No

Request explanation and justification (include any statutory authority)*: During the 23-25 biennium, \$3 million was appropriated to the Industrial Commission for lignite litigation expenses. The Commission is currently tracking over 30 issues, including federal rulemaking and rulemaking in the State of Minnesota which will likely require litigation to resolve. The litigation is necessary to prevent undue burden and premature closure of the state’s baseload power plants. An additional \$3 million is required for the 25-27 biennium to continue the Commission’s litigation work.

Necessary resources for implementation (including FTE’s)*: N/A

Are resources being redirected or are they new or additional (including FTE’s)*: N/A

Who is served and impact of not funding*: If the Commission is unsuccessful in its litigation attempts, burdensome rules and regulations could be enacted which would lead to the premature closure of the state’s baseload power plants. Without reliable power, citizens of North Dakota would see a decline in quality of life, lost jobs, and in some cases could be put in life-threatening situations. State tax revenues would also significantly decline, as oil production would significantly decline without reliable power.

Inflation (Priority: 06)

State Initiative*: Employer of Choice

Is this a Large IT project? No

Is this request for a new program or service? No

Request explanation and justification (include any statutory authority)*: Industrial Commission staff must occasionally travel to carry out their duties and participate in educational events necessary for professional development. Staff participation in conferences and meetings is needed not only to support professional development and remain apprised of the latest industry innovations, but also to maintain professional contacts and help inform policy decisions which benefit North Dakota. For example, NDIC staff have held leadership positions in the Interstate Oil and Gas Compact Commission (IOGCC), which allows North Dakota to play a key role in developing and informing nationwide policies which impact our largest industry.

405 Industrial Commission

Agency 405

Necessary resources for implementation (including FTE's)*: 1. IOGCC – 2 meetings per year = \$1,550/ meeting x 4 = \$6,200

2. Williston Basin Petroleum Conference – 1 per biennium = \$1500

3. NDPC Annual Meeting – 1 per year x 2 = \$1,500

4. WDEA Annual Meeting – 1 per year x 2 = \$1,500

5. BPOP Annual Meeting – 1 per year x 2 = \$1,500

6. PCOR Annual Meeting – 1 per year x 2 = \$3,000

Total = \$15,200

Are resources being redirected or are they new or additional (including FTE's)*: New

Who is served and impact of not funding*: General public; surface and mineral owners, oil & gas, coal, ethanol industries; researchers/educators; state agencies; and other governments/political subdivisions.

State Initiative:* Smart, Efficient Infrastructure

Explanation / Justification: Carry forward \$7,499,037 in federal funds and \$1,124,856 in state funds; \$11,885,295 in new federal funds and \$1,782,794 in new state general funds.

During the 23-25 biennium, \$7,499,037 in federal funds were received by the IC under the federal Department of Energy’s IJJA Grid Resilience grant program. This required a state match of 15%, which was appropriated from general funds. North Dakota was the first state to receive an award under this program. The IC awarded the funds to 4 sub awardees in October 2023. Those projects are currently awaiting NEPA review by DOE, and are expected to start in Autumn 2024. This funding will need to be carried forward into the next biennium.

During fiscal years 2025-2027, the state is expected to receive an additional \$11,885,295 in federal funding, which will require a state match of \$1,782,794.

Renewable Energy Develop. Fund

Statutory Authority

North Dakota Century Code Chapters 14-02.4, 14-02.5, 34-05, 34-06, 34-06.1, 34-07, 34-12, 34-13, 34-14, and Sections 34-01-20 and 34-08-14.

Agency Description

The Department of Labor and Human Rights is responsible for administering statutory provisions relating to labor standards, including wage and hour issues, child labor, and labor-management relations. The Department is also responsible for improving working and living conditions of employees and advancing their opportunities for employment; fostering, promoting, and developing the welfare of wage earners and industries in the state; promoting cooperative relations between employers and employees; cooperating with other governmental agencies to encourage the development of new and existing industries; representing the state in dealings with the U.S. Department of Labor, with the federal mediation and conciliation service, and the U.S. veteran's administration with regard to job training programs; acquiring and providing information on subjects connected with labor, relations between employers and employees, hours of labor, and working conditions; and encourage and assist in the adoption of practical methods of vocational training, retraining, and vocational guidance.

The Department of Labor and Human Rights also has statutory regulatory responsibilities with respect to human rights. This includes receiving and investigating complaints of discrimination in employment and housing; adopting rules necessary to implement the law; fostering prevention of discrimination through education; emphasizing conciliation to resolve complaints; publishing, in even-numbered years, a written report recommending legislative or other action to carry out the purposes of the chapters; and conducting studies relating to the nature and extent of discriminatory practices in the state.

The Department of Labor and Human Rights is responsible for promoting the human rights of all North Dakota citizens through leadership, education, prevention, and enforcement of state laws prohibiting discriminatory practices in the state. Specifically, the department investigates complaints alleging violations of law in the areas of employment, housing, public services, public accommodations, and credit transactions.

Agency Mission Statement

Empowering North Dakota's residents by championing fair labor and housing practices, fostering respectful workplaces, and safeguarding the human rights of every citizen. Our vision is to be a driving force in shaping policies that enhance economic opportunities, promote an environment to attract workforce to the state, and ensure that all individuals, within the unique tapestry of North Dakota, thrive in an environment of dignity, respect, and access to prosperity.

Major Accomplishments

-
- 1 The Department is set to close 1161 cases by December 31, 2024. This is an increase of 140% from the preceding 24-month period.

 - 2 Developing educational videos and public outreach efforts to bring the information to the employers related to our Department. First set of public outreach taking place in October where the Department will connect with small-to-mid-sized communities to provide information and answer any questions employers may have related to our laws.

 - 3 The Department has educational videos the explain the employer responsibilities and employee rights for our citizens to access via our website at no cost. The goal is to give the public the information they need to be informed of the laws pertaining to them so claims can be reduced and a healthier work environment exists for our State.

 - 4 The Department is in the process of implementing the final steps of the needed case management program improvements. These improvements will allow the Department to increase efficiencies, reduce the necessity of human time, and expedite the resolution of our cases to the public can receive decisions quicker.

Critical Issues

- 1 Although the Department is increasing its closures, each month cases continue to open as well. To effectively reduce the time to close cases faster for our public, it is imperative the Department receives funding for its only unfunded 13th FTE as a Compliance Investigator II.
 - 2 Many smaller agencies don't have the authority or funding to hire a professional marketing expert. The Department has many areas it needs to improve and modernize the content available to reach a 21st century public. While some tools can help with this, having access to someone with that expertise would be of significant value to the Department. We have discussed having a position like this housed in HRMS and available for all agencies to access those services.
 - 3 The Department currently does not have sufficient office space in the event all employees are required to work in-office in the future. To the extent this may occur, the Department would need an additional 5-6 offices. At this time, remote work has been successful but a new Governor may not permit agencies to have fully remote employees.
-

Performance Measures

The primary metric for Department performance is accomplishing case closures as well as outreach efforts through public education.

Caseload Information as of June 30, 2022:

Pending Employment Discrimination and Retaliation Complaints = 122

Pending Claims for Unpaid wages = 113

Pending Claims for Housing Discrimination Complaints = 17

Pending Public Service/Public Accommodation & Credit Transaction Complaints = 3

The ongoing objective is for cases in all areas to be current in accordance with the following targets for case closures: 1) complaints of discrimination in employment, public services, public accommodations, and credit transactions to be completed within 180 days; 2) claims for unpaid wages to be completed within 90 days; and 3) complaints in housing discrimination to be completed within 100 days.

Program Statistical Data

As of the date of this submission (July 31, 2024), the following data summarizes the Departments current status of caseload and closures for the period of June 30, 2023 - July 31, 2024:

- Wage Claims: 288 existing claims, 321 opened claims, 353 closed claims = 257 pending
- Employment: 158 existing claims; 270 opened claims; 217 closed claims = 211 pending
- Housing: 18 existing claims; 32 opened claims; 34 closed claims = 16 pending
- PS/PA: 7 existing claims; 12 opened claims; 6 closed claims = 13 pending.

Totals = 610 closed claims, 497 pending claims.

Education & Outreach: 22 events providing education to the public.

Explanation of Program Costs

For the 2023-2025 biennium, 87.8% of the Department of Labor and Human Rights' regular program expenditures funds staff salaries and benefits. The remaining 12.2% funds operating expenditures for day-to-day operation of the office (including postage, printing, office supplies, telephone and data processing costs), professional services such as administrative law judges, operating fees for sheriffs' service, travel as necessary for program work (investigations and mediation) and staff training, and proactive educational activities - all of which directly support the department's statutory duties.

The Department also requested and received approval for a carryover of \$88,168 of the previously approved \$177,717 for continuing work on our Dynamics 365 case management program. At the time of this submission (July 31, 2023), the Department has only received an estimated cost of \$135,125 for total project completion. To the extent this estimate is accurate, the Department will need to utilize an additional \$46,933 of its operating funds to complete the project. The completed Dynamics 365 program will provide the Department with features to increase efficiencies, automate features that currently require employee time, and allow us to better serve the public by decreasing case time.

The Department received a one-time appropriation of \$50,000 to complete the occupational licensure study as directed under S.B. 2249. The funds were utilized to employ a Temporary Research Assistant, contract for data extraction and report generation services, and to cover minimal travel costs.

Program Goals and Objectives

The Department of Labor and Human Rights has three primary areas: (1) Wage & Hour; (2) Human Rights ; and (3) Housing Rights. The goals and objectives of each include:

Wage & Hour:

- Educate employers and wage earners about labor laws;
- Provide effective and timely investigation of claims for unpaid wages;
- Provide effective and timely investigation of complaints alleging violations of labor standards;
- Monitor the employment of youth under age 16 to ensure compliance with all youth employment laws;
- Review applications for the payment of sub-minimum wages to persons enrolled in vocational programs and persons with disabilities and to issue special licenses to pay sub-minimum wage only where established standards of law are met;
- Make accurate and timely determinations of independent contractor status; and
- Issue licenses (in limited circumstances) to and review the activities of employment agencies operating in the state to ensure compliance with applicable regulatory provisions.

Human Rights:

406 Labor and Human Rights

Agency 406

- Educate employers, housing and other service providers, and citizens about rights and responsibilities under ND human rights laws to promote awareness;
- Provide effective and timely investigation of complaints alleging discriminatory practices in the state;
- Emphasize conciliation to resolve complaints when possible;
- Seek remedies for persons determined to have been harmed by discriminatory practices; and
- Conduct studies of the nature and extent of discrimination in the state.

Housing Rights:

- Educate housing and other service providers, and citizens about rights and responsibilities under ND housing laws to promote awareness;
- Provide effective and timely investigation of complaints alleging discriminatory practices in the state;
- Emphasize conciliation to resolve complaints when possible;
- Seek remedies for persons determined to have been harmed by discriminatory practices; and
- Conduct studies of the nature and extent of discrimination in the state.

Additionally, the Department has a duty to educate the public on the laws we are charged to enforce. The Department has increased its educational outreach in several ways, including FAQ pages, visitations to local communities at no cost to attendees, and educational videos available on our website.

State Initiative:* Other

Is this a Large IT project? No

Is this request for a new program or service? No

Request explanation and justification (include any statutory authority)*: The Department is requesting funding of its currently authorized but unfunded 13th FTE as a Compliance Investigator II. The position would be a 106 grade with a monthly MPP of \$6,628 (annual salary of \$79,536). With an estimated 30% for benefits, the total request is \$206,792 for the biennium (\$103,396 per year).

This position would be identical in scope and duties as the 6 existing Compliance Investigator II employees at the Department. It is currently authorized, but remained unfunded last Session.

We have accumulated data sufficient to show that funding this position would have a directly positive effect to our entire state. When I joined the Department in December 2022, I reported the prior 24 months of case closures by the Department in the January appropriations committee hearing. We had closed 830 cases in the preceding 24 months. By December 31, 2024, the Department anticipates having closed 1161 cases in this current 24-month period.

This was accomplished in several ways, but the common theme among the solution is that a Compliance Investigator is performing the investigations, interviewing the witnesses, reviewing the evidence, and drafting the decisions. The data unequivocally demonstrates we close more cases with more FTEs. To meet my target of issuing decision within 3 months of a case being filed, the Department - and more importantly the public - need this position funded to continue to close in on that goal.

406 Labor and Human Rights

Agency 406

Necessary resources for implementation (including FTE's)*: Resources needed are general funds in the total amount of \$206,792 for the 2025-2027 biennium, which is comprised of a MPP salary of \$79,536 per year plus an estimated 30% for benefits at \$23,860 annually (\$103,396 per year).

Are resources being redirected or are they new or additional (including FTE's)*: New

Who is served and impact of not funding*: The public as a whole are served. While that is a broad and likely overused rationale, the data over the past 19 months directly demonstrates our Department closes more cases (resulting in shorter case load times) by having additional investigators. If this position is not filled, the public will continue to wait unacceptable amounts of time before getting a decision on the case that they are a party to.

Statutory Authority

ND Constitution Article V; North Dakota Century Code Chapters, 24-01, 24-09, 28-32, 38-14.1, 38-14.2, 38-18, 40-33, 40-34, 54-06, 54-44.8, 57-61; 64-02, and 64-04, Titles 49 (except Chapter 49-16)

Agency Description

The Public Service Commission is a constitutional agency with varying degrees of statutory authority over electric and gas utilities; telecommunication companies; power plant, transmission line and pipeline siting; railroads; weighing and measuring devices; pipeline safety; coal mine reclamation; and eliminating public hazards from abandoned mine lands. The Commission is comprised of three Commissioners who are elected on a statewide basis to staggered six-year terms. The Commission had 43 authorized full-time employees throughout the 2021-23 biennium and 1 to 2 temporary seasonal construction inspectors.

Agency Mission Statement

The Public Service Commission fulfills its statutory mandates by protecting consumers, the public interest and the environment. Our values include:

- Balance: balancing public and private interest affecting each decision
- Collaboration: tackling work challenges as a team to harness expertise and achieve better outcomes with greater impact
- Continuous Improvement: building a workplace that fosters growth, excellence and diversity
- Creativity: generating solutions by turning new and imaginative ideas into sound policies and regulations that protect citizens and promote orderly development
- Responsiveness: taking action to address the needs of industry and the public

Major Accomplishments

-
- 10 Processed 840 formal cases during the 2021-23 biennium. Cases included industry filings, complaint proceedings, and rulemaking. Received and processed
1 more than 1,800 informal complaints, inquiries, and comments. A large majority of the contacts included public input for siting cases. The majority of informal complaints involved billing disputes, electric disconnects, and quality of service complaints against regulated utilities.

 - 10 Agency received an overall satisfaction score of 4.55 out of 5 for employee satisfaction and work environment in 2023 Gallup Survey, which ranks among the
2 highest of state agencies.

 - 10 Continued to be proactive in RTO engagement including Commissioner and staff participation on committees and leadership groups. This engagement has led
3 to numerous positive impacts for North Dakota reliability such as MISO’s use of a reliability based demand curve, long range transmission planning, and winter resource adequacy requirements and SPP’s increased planning reserve margin and adoption of performance based accreditation.

 - 10 Continued focus on economic regulation and RTO engagement has led North Dakota to have the lowest overall cost of energy in the United States as of 2023.
4

 - 10 Gas Pipeline Safety program received a perfect audit score from PHMSA for CY 2022 and CY 2023, which includes completing all mandatory inspections for
5 each year.

Major Accomplishments

-
- 10 6 Damage Prevention Program received a perfect audit score from PHMSA for CY 2021 and CY 2022. Completed 57 damage prevention complaints during the 21-23 biennium resulting in penalties totaling \$70,900, bringing more awareness of the ND One Call Law. Participated in 811 Day at the State Fair to help educate the public about the importance of calling 811 before any digging project.
-
- 10 7 Processed siting applications for 6 pipelines, 1 natural gas power plant, 2 wind farms, and one application to amend/upgrade an existing wind farm in the 21-23 biennium. Total value of investment for applications received biennium to date is in excess of \$4.5 billion.
-
- 10 8 Landowner and area resident participation in siting cases has beneficially increased. This is highly beneficial to residents and our process, as the local information provided by residents and landowners is what we must have in order to make a meaningful accurate decision with appropriate conditions to ensure siting projects produce minimal adverse impacts upon the state of North Dakota.
-
- 10 9 Received high marks on federal review of the coal regulatory and abandoned mine lands programs.
-
- 11 0 During the 21-23 biennium, the Reclamation Division approved 3 permit renewals. As of June 30, 2023, there were 135,647 acres under permit for surface coal mining and reclamation operations. During the current biennium, a total of 985.23 acres were released from bond and 2,661 acres were added to an existing mining permit.
-
- 11 1 AML Division conducted sinkhole filling projects and filled 53 hazardous sinkholes caused by underground mine collapses at numerous sites in western North Dakota this biennium. Additional sinkholes are being filled during the 2024 construction season.
-
- 11 2 In the 21-23 biennium, the Railroad Safety Program inspectors completed 415 inspection days and inspected more than 85,000 units, finding thousands of defects that the railroads subsequently corrected. Mechanical Inspector completed a second inspection discipline (HAZMAT) in Sept. 2021 and the track inspector completed all federal training requirements and was certified by the Federal Railroad Administration in March 2022.
-
- 11 3 Advocated for single block numbering at the Federal Communication Commission to prevent exhaustion of the 701-area code and the need for ten digit dialing and additional area codes within the state.
-
- 11 4 Implemented Registered Service Company Quarterly Reports to provide information on the Quality Assurance Inspections completed on weighing & measuring devices certified by Registered Service Persons.
-

Critical Issues

-
- 10 1 Participating in Regional Transmission Organizations (RTOs) MISO and SPP is critical for the energy future of ND. It is crucial to be engaged with these organization to influence RTO decisions effecting reliability, cost, and resource mix which impacts ND's power prices and power production. In order to ensure that North Dakota's interests are represented in decisions that are made by MISO and SPP, the challenge will be finding resources to assign to the task.
-
- 10 2 Working with MISO and SPP to balance the cost and need for interstate transmission lines under federal jurisdiction with the cost and need for resources under local jurisdiction is critical to ensuring ratepayers are served with affordable and reliable electricity. Such transmission investments are forecasted to be significant, and the Commission must ensure both local and regional industries are working to advance ratepayers interests. Becoming more and more involved and keeping up with this complex system takes increased staff time and specific staff and Commissioner expertise. This is particularly important considering the significant push from the Federal Energy Regulatory Commission (FERC) for transmission buildout and the drastically increased focus on complex issues being addressed both within MISO and SPP.
-

Critical Issues

-
- 10 In addition to the RTOs, another critical area for North Dakota is the Federal Energy Regulatory Commission (FERC), the Environmental Protection Agency (EPA)
 3 and Office of Surface Mining (OSM) are vital federal agencies that are constantly overreaching their authority. Just as we are seeing RTOs develop regional energy and transmission policies that have an impact on North Dakota, FERC, EPA, and OSM are taking up many topics that will have an impact on North Dakota. This is why engaging in these federal proceedings and filing meaningful comments is necessary to ensure that ND's voice is heard and ND's citizens are protected from the added costs and reduced reliability that will result from the absence of our engagement. EPA and FERC proceedings are numerous, as are the filings within them. Ensuring we have adequate staff to review those cases and filings and make recommendations for comments that North Dakota should file in those cases is not simply important, but necessary. Some current examples of cases we are actively participating in include national interest electric corridors, greenhouse gas emissions rules, interstate electric transmission siting, regional transmission planning and cost allocation.
-
- 10 As the electric energy industry evolves and grows, we must strive to maintain North Dakota's low utility prices and high reliability ratings. North Dakota's
 4 average rate was 32% lower than the national average for residential natural gas customers and 39% lower than the national average for residential electric customers. In 2022, North Dakota had 8% fewer electricity outages than the national average. This is complicated by jurisdictional limitations, federal overreach, competing state policies, and involvement of two multi-state regional transmission organizations.
-
- 10 Assuring excellence in reclaiming 135,000 acres of coal mine permits, more than 1 million acres of wind farm permits, and use of federal grants to repair safety
 5 concerns in unreclaimed abandoned mines.
-
- 10 Ensuring continued excellence in safety and quality of life programs such as Weights and Measures, Pipeline Safety, Rail Safety, and Call Before You Dig. • An
 6 additional Heavy Duty Weights & Measures Inspector will further the oversight of heavy duty devices, ensure industry compliance, and aid in oversight of light duty devices. We rely on private inspectors to assist in certifying light duty devices (small scales and liquid devices), but do not have enough manpower to quality assure their work. • Changing federal rules issued by the federal Pipeline and Hazardous Materials Safety Administration (PHMSA) could impact the Pipeline Safety program. These new rules place reporting requirements and potential inspection requirements on previously unregulated gathering system operators. While the impact on our agency is still being evaluated, this will directly impact ND oilfield natural gas gather systems. • Evaluating the role of the current Pipeline Safety Program with the evolution of CO2 transportation and sequestration in ND via pipelines as the program is not presently geared towards hazardous liquids.
-

Performance Measures

WEIGHTS & MEASURES:

- Assure all measuring devices are tested at least every 15 months, with a goal of every 12 months.
- Assure that all weighing & measuring devices are accurate.
- Assure that commercial testers are qualified to certify and place weighing or measuring devices into service.

RAILROAD SAFETY:

- Complete at least 130 inspection days per year, per inspector.
- Program goal is to work with railroads and shippers to achieve compliance, not to drive compliance through enforcement, violations and defects.
- Ensure railroad compliance with provisions of law providing rights for North Dakota citizens.

PIPELINE SAFETY:

- Conduct inspections of five distribution system operators, ten transmission system operators, and seven gathering system operators covering over 4,280 miles of natural gas pipeline.
- Complete necessary audits based upon time frame, operator size, and system size in the following categories (note, not all inspection types are due annually):
 - Records Audits
 - Control Room Management
 - Drug and Alcohol Testing
 - Damage Prevention
 - Integrity Management
 - Emergency Procedures
 - Operation and Maintenance
 - Operator Qualification Plan
 - Public Affairs
 - Construction
 - PIPES Act of 2020 Section 114
- Take necessary enforcement action when required.
- Annual performance evaluation conducted each year by PHMSA.

DAMAGE PREVENTION:

- Reduce violations
- Reduce accidents
- Increased education to the public on the importance of calling 811 before any digging project.
- Annual performance evaluation conducted each year by PHMSA.

RECLAMATION:

- Broad customer service survey is conducted by OSMRE as part of their annual evaluation
- Annual performance evaluation conducted by OSMRE resulting in no corrective actions or concerns in many years.
- OSMRE has declared the PSC to be a leader in the development of GIS applications and systems used to track mining and reclamation activities.
- Good working relationship with all stakeholders (industry, landowners, citizen groups, state and federal agencies).
- Actively seek public comments

AML:

- Interaction with landowners and other interested agencies
- Ability to respond quickly to emergency situations
- Annual performance review conducted by OSMRE resulting in no corrective actions or concerns in many years.

ECONOMIC REGULATION:

- Safe service
- Reliable service
- Reasonable cost

SITING:

- Assure that facilities are sited in an orderly manner to ensure that energy needs are met and fulfilled in an efficient manner
- Assure system reliability and integrity
- Assure adverse human and environmental effects are minimized

TELECOM:

- Assure designation of new eligible telecommunication providers is in the public interest
- Assure the longevity of North Dakota's single area code

Program Statistical Data

During the 2021-2023 Biennium:

WEIGHTS & MEASURES: Staff inspected and tested 9,350 weighing and measuring devices and reviewed 40,849 test reports filed by private device testers. The Commission also has a Quality Assurance (QA) Program that reviews new installations for compliance, monitors the processes and test results of registered service persons, and performs onsite reviews prior to the approval of a permanent variance. During the biennium, 424 QA inspections were completed. Revenues generated and deposited into the general fund during the biennium totaled \$172,511.

LICENSING: At the request of the Commission and in consultation with and agreement with the ND Auctioneer's Association, the 68th Legislative Assembly completed a partial deregulation of the auctioneer and auction clerk licensing and regulatory program. Beginning on Jan. 1, 2024, auctioneers and auction clerks are no longer required to carry a bond or be licensed by the PSC. Instead, auctioneers and auction clerks need to be registered with the Secretary of State's Office.

RAILROAD SAFETY: The Commission employs two rail safety inspectors; one track inspector and one mechanical inspector certified in hazardous materials as well. They conduct inspections on all 3,000+ miles of track, class 1 and short line locomotives and rolling stock, HAZMAT receivers, shippers, and railroad transport focusing on the main energy/HAZMAT routes and critical noncompliant areas within the state. The two inspectors had a combined total of 415 inspection days, 85,649 units inspected and found 4,536 defects and 37 violations. The program processed 53 informal complaints/inquiries dealing with blocked crossings, railroad rights-of-way fencing issues, weed control, train speeds, and train horns.

PIPELINE SAFETY: The Commission completed 359 inspection days conducting gas pipeline safety inspections of 5 distribution system operators, 10 transmission system operators, and 7 gathering system operators on a combined total of more than 4,280 miles of natural gas pipeline.

DAMAGE PREVENTION: The Commission completed 57 complaint proceedings resulting in penalties totaling \$70,900.

RECLAMATION: 4 significant permit revisions were received and 14 were issued. Thirteen insignificant permit revisions were received and 21 were issued. Three permit renewals were received and 4 were issued. One bond release application was received and 4 were issued. Final bond release was approved on 1,235 acres. The division conducted 829 inspections on 22 inspectable units and 3 Notice of Violations were issued where \$11,750 in penalties were assessed and collected.

At the end of the biennium, 135,647 acres were under permits held by eight companies for eight mines. Of these, six were active and the other two were inactive and under reclamation.

AML: Major underground mine reclamation projects were conducted to inject cementitious grout or foamed sand into underground mine voids beneath public roads and near other infrastructure and residential sites near Beulah and Garrison. Exploratory drilling projects were conducted near Beulah, Dickinson, Garrison, Noonan, Williston and Velva. Major construction projects to backfill dangerous surface mine highwalls and eliminate spoil piles were conducted in Ward and Morton Counties.

Sinkhole filling projects were conducted to fill approximately 223 hazardous sinkholes caused by underground mine collapse at numerous sites in western ND. An emergency project was conducted to fill hazardous sinkholes caused by an underground mine collapse along ND Highway 36 near Wilton. In May 2023, a sinkhole was discovered after public complaints of a depression in County Highway 12 south of Scranton. A large sinkhole was discovered in the middle of the driving lane, which was excavated, compacted and filled. Two coal refuse fires were also extinguished on abandoned mine lands. Both fires were abated by excavating the burning material and capping the area with soil prior to final reclamation.

PUBLIC UTILITIES:

The Commission received siting applications for 6 pipelines, 1 natural gas power plant, 2 wind farms, and one application to amend/upgrade an existing wind farm. The Commission sited more than \$2.1 billion worth of energy-related projects.

The Commission received and processed more than 1,800 informal complaints, inquiries and comments. A large majority of the contacts included public input for siting cases. Telecommunications: The Commission received and approved 49 interconnection agreements and 31 interconnection agreement amendments.

ADMINISTRATION:

The Commission processed 840 cases.

Explanation of Program Costs**Compliance:**

The Commission's Compliance Division is made up of Weights & Measures; Railroad Safety; Pipeline Safety; and Damage Prevention.

WEIGHTS & MEASURES: The costs to operate the Weights & Measures Program are primarily comprised of wages and travel expenses for the inspectors. Due to the closing of the Metrology Lab in 2009, spending includes travel to an out-of-state laboratory for calibration of weights & measures standards used for testing of commercial weighing and measuring devices.

RAILROAD SAFETY: The costs to operate the Railroad Safety Program are comprised of wages and travel expenses for the inspectors. Initial expenses included purchasing of inspection equipment and other safety-related devices required by the industry. Initial out-of-state certification training and required out-of-state annual training along with funding to purchase laptops for the inspectors are reimbursed through the Federal Railroad Administration (FRA) Rail Safety Grant Program.

Funding for the Rail Safety Program comes from a diesel fuel assessment paid by the railroads, a portion of which is set aside to fund rail safety initiatives. It is distributed by the NDDOT.

PIPELINE SAFETY: The costs for the Gas Pipeline Safety Program are primarily comprised of wages and travel-related costs for the inspectors. Up to 50% of the funding is administered by a grant through the Pipeline & Hazardous Materials Safety Administration (PHMSA) under the U.S. Department of Transportation.

DAMAGE PREVENTION: The majority of costs for the Damage Prevention Program is wages to cover one-call complaint investigations and enforcement along with public outreach. A large portion of funding used to administer the program is provided by PHMSA through a grant.

Reclamation:

The reclamation programs are comprised of the Coal Mine Reclamation Program and the Abandoned Mine Lands (AML) Program. Most of the costs for these programs are paid by the federal government on a cost reimbursable basis. The funds are primarily used to pay salaries and to procure outside construction and other services for abandoned mine lands reclamation.

The costs of administering and enforcing the coal regulatory program are split approximately 36 percent state general funds and 64 percent federal funds, while the AML program is 100 percent federal funds. The Commission also collects indirect costs from the federal government on the salaries of the employees that work on

these programs. As part of the OSMRE budget requests for the past several years, the administration has proposed reducing the amount of federal dollars nationwide for states. While the proposed reductions have not been enacted by Congress, the adequacy of future federal funding continues to be a concern.

Based on federal legislation enacted in late 2021, the federal reclamation fees used to fund the AML program will be collected until September 30, 2034. The AML fee on North Dakota lignite changes from eight cents per ton to 6.4 cents per ton. In addition to the reauthorization of fee collection, an additional \$11 Billion in Treasury Funds was appropriated for disbursement to the AML programs over the next 15 years. A minimum of \$20 Million per eligible state or tribe will be dispersed in annual grants. During the 2021-23 biennium the Commission received a reduced grant amount due to federal sequestration of \$2.8 million each year. The Commission is scheduled to receive \$3 million a year, pending sequestration, for the remaining life of the program.

Public Utilities:

The Public Utilities Division is made up of Siting, Economic Regulation and Telecommunications. The majority of the requested funds are related to salaries, but also includes operating expenses necessary to monitor and enforce compliance with the statutory requirements of public utility companies.

Administration:

The Commission's administration is comprised of three statewide Elected Officials, Executive Director, and staff. The salary and wages line item includes the bulk of program expenditures. Remaining expenses are to support the general needs of the agency.

Program Goals and Objectives

WEIGHTS & MEASURES:

- Inspect, test, certify, and monitor all commercial weighing and measuring devices every 15 months.
- Test and license all registered service companies and self-certifying companies and administer their compliance with laws & rules.
- Maintain traceability of all weight/volume standards to the National Institute of Standards and Technology.
- Develop and recommend rule changes and enforcement procedures.
- Provide timely and accurate information in response to inquiries/complaints.

RAILROAD SAFETY:

- Serve the public, railroad employees and railroad customers by implementing inspection and compliance programs that reduce the potential for injuries, death, and property damage in and along railroads.
- Reduce the number of accidents, derailments and other equipment failures experienced. This is achieved through the follow strategies:
- Expand safety inspections of track infrastructure.
- Utilize enforcement actions to include education, notification, and penalties.

- Work with railroads and shippers to upgrade safety and community relations.
- Ensure crude oil/HAZMAT routes are inspected regularly, as well as components and equipment used to transport/carry commodities.
- Serve as a safety resource and provide guidance regarding federal and state laws.
- Additionally, state law provides that the Commission is charged with representing the state's rail interests before federal agencies and in direct negotiations with rail carriers. The Commission has jurisdiction over certain railroad activities in intrastate commerce and works on behalf of North Dakotans to resolve railroad related issues.

PIPELINE SAFETY:

- Enhance public safety through enforcement of state and federal laws governing gas pipeline safety for intrastate natural gas transmission and distribution systems; and by maintaining liaison with and availability for special assistance to PHMSA regarding interstate natural gas transmission systems and all hazardous liquids transmission systems.

DAMAGE PREVENTION:

- Reduce violations, reduce accidents, and increase education of North Dakota's One Call laws through violation enforcement, public education and outreach, Safe Digging Month, participation in 811 Day at the State Fair and other educational events.

RECLAMATION:

- Carry out the mine permitting, inspection, and bond release activities in a manner that provides the required protection to the environment and public interest while being responsive to the needs of the mining industry.
- Harness the inquisitiveness and creativity of new staff in collaboration with experienced staff to transfer institutional knowledge while transforming and improving workflow processes.
- Develop new PSC and industry staff by providing training opportunities, and encouraging creativity, collaboration, and continuous improvement.

ABANDONED MINE LANDS (AML):

- Reclaim abandoned mine sites in North Dakota in a manner that utilizes available funds efficiently and effectively to mitigate unsafe abandoned mines, reduce environmental impacts and meet program requirements while being responsive to the public.
- Harness the inquisitiveness and creativity of new staff in collaboration with experienced staff to transfer institutional knowledge while transforming and improving workflow processes.
- Develop new PSC staff by providing training opportunities, updating the reclamation plan, and encouraging creativity, collaboration, and continuous improvement.

PUBLIC UTILITIES:

408 Public Service Commission

Agency 408

- Provide utility customers with reliable & safe service at reasonable & just rates:
- Establish & maintain a fair & reasonable regulatory environment in which utility services are provided.
- Provide information to consumers & the public to inform them of their rights & responsibilities.
- Protect North Dakota's environment & safety by maintaining effective oversight of the construction of energy conversion & transmission facilities.

State Initiative:* Workforce

Is this a Large IT project? No

Is this request for a new program or service? No

408 Public Service Commission

Agency 408

Request explanation and justification (include any statutory authority)*: Per legislative directive in SB 2015, Section 21, the PSC gave employee compensation increases that averaged 6% in year 1 and 4% in year two. The cost to continue the 4% compensation increases for the 25-27 biennium was not included in the OMB base budget calculation. Our agency is currently at full employment, so we have no savings to generate from vacant positions.

Necessary resources for implementation (including FTE's)*: We are requesting an additional \$161,450 in base budget salaries. The funding breakout is \$142,505 general funds, \$9,340 federal funds and \$9,605 special funds.

Are resources being redirected or are they new or additional (including FTE's)*: These are new/additional resources to fund base salaries for current staff.

Who is served and impact of not funding*: During the 68th Legislative Assembly, intentional steps were taken to better align state employee compensation with private industry to make state employment more competitive. This included equity increases and compensation increases. However, this progress was significantly eroded by the creation of the New/Vacant FTE pool. We recognize OMB did their best to make agencies whole by restoring the full amount that was removed from agency budgets for the New/Vacant FTE pool and including equity funding in the base budget calculation. However, the Commission believes without the costs to continue salary increases also being included in the agency base budget, this progress has been eroded. As a small agency at full employment with a very lean budget, we do not have the ability to reallocate resources biennium after biennium to cover cost to continue in base salary.

Failure to adequately fund salaries may require the Commission to downsize essential staff and make it a challenge to retain essential staff. This will negatively impact economic development, energy growth, rate payers, public safety, and North Dakota's environment.

Federal Intervention Funding (Priority: 02)

	2023-25 Agency Request				2023-25 Executive Recommendation			
	Ongoing	One-Time	Total	FTE	Ongoing	One-Time	Total	FTE
Federal	-	-	-	0.00	-	-	-	0.00
General	380,000	-	380,000	0.00	300,000	-	300,000	0.00
Special	-	-	-	0.00	-	-	-	0.00
Total	380,000	-	380,000	0.00	300,000	-	300,000	0.00

State Initiative*: Economic Development/Diversification

Is this a Large IT project? No

Is this request for a new program or service? No

Request explanation and justification (include any statutory authority)*: The Commission continues to see overreach from federal agencies such as Federal Energy Regulatory Commission (FERC), EPA, and Department of Interior. The Commission continues to increase engagement on rulemaking and litigation with federal agencies to ensure reliable, safe, secure, and efficient economical energy for consumers at a reasonable cost. Ensuring we have adequate resources to review and identify the critical issues negatively impacting North Dakota and actively engage in protecting North Dakota from federal agency overreach. This is essential and requires early and aggressive intervention, comments, and litigation under extremely short time constraints. The Commission has higher standing in FERC cases than state Attorneys General.

408 Public Service Commission

Agency 408

It is essential the Commission intervene on federal litigation to ensure North Dakota's interests and voices are being heard in the discussions on energy generation mix, resource planning and pricing, and grid reliability. In order to make a convincing legal case, we need the resources to hire consultants and contractors with subject matter expertise.

Necessary resources for implementation (including FTE's)*: We are requesting a base budget addition of \$380,000 in general fund to assist in federal intervention to protect and support North Dakota's interests.

Are resources being redirected or are they new or additional (including FTE's)*: These are new/additional resources.

Who is served and impact of not funding*: Every citizen, business, and industry in North Dakota is impacted by electric rates and resource mix in some way. Without these resources, we will be unable to effectively protect and preserve North Dakota's energy interests.

Professional Development for Staff (Priority: 03)

	2023-25 Agency Request				2023-25 Executive Recommendation			
	Ongoing	One-Time	Total	FTE	Ongoing	One-Time	Total	FTE
Federal	-	-	-	0.00	-	-	-	0.00
General	25,000	-	25,000	0.00	25,000	-	25,000	0.00
Special	-	-	-	0.00	-	-	-	0.00
Total	25,000	-	25,000	0.00	25,000	-	25,000	0.00

State Initiative:* Employer of Choice

Is this a Large IT project? No

Is this request for a new program or service? No

Request explanation and justification (include any statutory authority)*: We are requesting additional training resources for professional development and travel costs associated with professional development for our staff. The agency has reached full employment and 83% of the agency have less than 10 years of experience. The Commission is comprised of highly technical and hard to fill positions such as economists, engineers, scientists, accountants and attorneys. We need adequate resources to train and retain our current staff.

Necessary resources for implementation (including FTE's)*: \$25,000 general funding to support base operating costs for professional development.

Are resources being redirected or are they new or additional (including FTE's)*: These are new/additional resources.

Who is served and impact of not funding*: Provides opportunities for staff to participate in national organizations and training to further ND's interests and fund ongoing operational costs. This will also impact employee recruitment and retention.

408 Public Service Commission

Agency 408

Targeted Equity (Priority: 04)

	2023-25 Agency Request				2023-25 Executive Recommendation			
	Ongoing	One-Time	Total	FTE	Ongoing	One-Time	Total	FTE
Federal	-	-	-	0.00	-	-	-	0.00
General	40,000	-	40,000	0.00	-	-	-	0.00
Special	-	-	-	0.00	-	-	-	0.00
Total	40,000	-	40,000	0.00	-	-	-	0.00

State Initiative:* Employer of Choice

Is this a Large IT project? No

Is this request for a new program or service? No

Request explanation and justification (include any statutory authority)*: The Commission received some equity funding in the 23-25 biennium that was distributed and solved most of the equity issues in the agency. However, we still have a few areas of hard to fill, hard to retain positions which require equity.

Necessary resources for implementation (including FTE's)*: \$40,000 general fund to provide equity in hard to fill, hard to retain positions for base salaries

Are resources being redirected or are they new or additional (including FTE's)*: These are new/additional resources.

Who is served and impact of not funding*: The Commission may not be able to retain adequate staffing, which will negatively impact the quality of services we provide.

Cost to continue state provided services (Priority: 05)

	2023-25 Agency Request				2023-25 Executive Recommendation			
	Ongoing	One-Time	Total	FTE	Ongoing	One-Time	Total	FTE
Federal	4,625	-	4,625	0.00	4,625	-	4,625	0.00

Special	-	-	-	0.00	-	-	-	0.00
Total	217,167	-	217,167	0.00	217,167	-	217,167	0.00

State Initiative:* Reinventing Government

Is this a Large IT project? No

Is this request for a new program or service? No

408 Public Service Commission

Agency 408

Request explanation and justification (include any statutory authority)*: This includes costs to cover increases for services from other state agencies including NDIT, DOT motor pool, and OMB facilities rent. This also includes inflationary increases for costs associated with inspector travel including lodging and per diem. There are also anticipated increases for postage and OMB Central Supply; however, the Commission will absorb those costs and is not requesting additional funding for those services.

Necessary resources for implementation (including FTE's)*: \$217,167 total including \$26,719 for NDIT increases not included in the OMB base budget, \$15,420 rent, and \$175,028 to support costs to continue operating costs of weights and measures division

Are resources being redirected or are they new or additional (including FTE's)*: Some resources are being redirected to absorb some cost increases but we need new/additional resources to maintain current services including primarily testing and safety of scales.

Who is served and impact of not funding*: The Commission will be unable to fulfill its statutory mandates to protect consumers, the public interest, industry, ratepayers and the environment.

Weights and Measures Large Scale Inspector (Priority: 08)

	2023-25 Agency Request				2023-25 Executive Recommendation			
	Ongoing	One-Time	Total	FTE	Ongoing	One-Time	Total	FTE
Federal	-	-	-	0.00	-	-	-	0.00
General	356,540	-	356,540	1.00	-	-	-	0.00
Special	-	-	-	0.00	-	-	-	0.00
Total	356,540	-	356,540	1.00	-	-	-	0.00

State Initiative*: Economic Development/Diversification

Is this a Large IT project? No

Is this request for a new program or service? No

Request explanation and justification (include any statutory authority)*: Currently, the Commission has one large scale inspector to provide quality assurance on large scales (i.e. truck scales, large platform scales, livestock scales, hopper scales) in the entire state. If the large-scale inspector position is vacant, we are 0% effective and cannot respond to complaints. This position is hard to fill as it requires a CDL license. The average growth of large-scale devices in the state is approximately 6% per biennium over the last decade. As the number of large-scale devices continues to grow, we are capped at the number of large scales we can test due to drive time and only one inspector. This position would allow more comprehensive oversight of scales certified by private service providers to ensure ND scales used for commerce are fair and accurate to the consumer and business, as well as being useful in interstate commerce.

Necessary resources for implementation (including FTE's)*: 1 FTE for a Compliance Svcs I position. Salary of \$5,200 per month (\$124,800 biennium) plus benefits. Operating funding of \$165,850 for lodging, per diem, DOT motor pool costs, training, uniforms, and metrology certification of equipment. The is an ongoing general fund cost of approximately \$356,540.

NDDOT would also be responsible for providing a vehicle for this inspector. The costs from NDDOT's perspective are not reflected in the budget estimate.

408 Public Service Commission

Agency 408

Are resources being redirected or are they new or additional (including FTE's)*: This would be new/additional resources plus 1 FTE.

Who is served and impact of not funding*: If the large-scale inspector position is vacant, we are 0% effective and cannot respond to complaints. This position is hard to fill as it requires a CDL license. The average growth of large-scale devices in the state is approximately 6% per biennium over the last decade. As the number of large-scale devices continues to grow, we are capped at the number of large scales we can test due to drive time and only one inspector.

State Initiative*: Technology Investment

Justification: The Commission currently has no base funding to purchase federal capital assets. This appropriation would use federal grant funding to improve sensing technology and safety and increase the efficiency and effectiveness of abandoned mine land inventory updates and site analysis.

Our initial purchase would be a drone that would be beneficial to two divisions at the PSC. The Reclamation division could use the drone when mine access is restricted or hazardous; to create timely aerial imagery when adding acres to a new or existing permit, at bond release, at end of the year, for landowner complaints

408 Public Service Commission

Agency 408

about land impacts, and immediately following Notice of Violations (NOVs); to create timely digital surface models (DSM)s to estimate mine reclamation progress, estimate earthwork volumes, identify surface water flow paths, identify surface water ponding, and find erosional features. The Abandoned Mine Lands (AML) division would use the drone to inspect areas where access is limited or terrain presents challenges on foot. Images collected can be used to make maps, monitor progress and collaborate with other AML staff, contractors, landowners and the public. Autonomous flight missions would allow AML to create digital elevation models of existing ground conditions much faster than traditional survey methods. This would help AML compute earthwork volumes more efficiently and accurately for reclamation projects. The model of drone will need to be a US Department of Defense cleared drone. The Commission explored the option of a cooperative purchase; however, due to federal grant requirements, we are prohibited from sharing with other agencies as it must be used for a specific federal program.

LiDAR Technology (Priority: 7)

State Initiative:* Technology Investment

Justification: In December of 2023, the Office of Surface Mining and Reclamation and Enforcement (OSMRE) issued a notice of funding opportunity for federal grant money to provide states with financial and technical assistance necessary to maximize data enhancements and the use of the enhanced Abandoned Mine Lands Inventory System. The intention is to improve overall engineering and survey collection processes, site integrity, accuracy and reliability in the system and to address anticipated growth of the inventory, field reconnaissance activities and the use of technologies to efficiently collect site detail. The Commission is proposing to purchase a drone (discussed in more detail in decision package 6 above) and LiDAR imaging technology. This funding is to purchase the imaging technology to be carried by the drone in decision package 6.

Statutory Authority

North Dakota Century Code Chapters 2-02, 2-03, 2-04, 2-05, 2-06, 2-08, 57-40.5, 57-43.3.

Agency Description

The North Dakota Aeronautics Commission supports aviation activities in the state through communication with state, local, and Federal Aviation Association (FAA) officials, congressional offices, and national aviation groups. The commission is responsible for administering North Dakota’s laws regarding the registration of aircraft, aircraft dealers, aerial applicators, and the collection of aircraft excise tax. The Aeronautics Commission provides grant funding for airport infrastructure projects and manages aviation education initiatives and programs throughout the state. The office also provides airport planning services, helps to maintain the state’s Automated Weather Observation Systems (AWOS), and provides airport inspections for the general aviation airports.

The Aeronautics Commission also works to maintain and update publicized planning documents to help maintain and grow North Dakota’s aviation transportation system. Statewide airport capital improvement plans, aviation economic impact studies, airport directories, state aviation system plans, and pavement condition index studies are a few examples of these documents.

Agency Mission Statement

To serve the public by providing economic and technical assistance for the aviation community while ensuring the safe and cost-effective advancement of aviation in North Dakota.

Major Accomplishments

-
- 1 Provided technical and financial assistance to the 89 public-use airports across the state.

 - 2 Coordinated financial assistance through the Federal Aviation Administration and state capital improvement plan for 54 airports within North Dakota that belong to the National Plan of Integrated Systems (NPIAS).

 - 3 Provided approximately \$30 million dollars in state airport infrastructure grants throughout the 2023-2025 biennium and leveraged approximately \$125 million of federal aid for North Dakota airport projects during that same period.

 - 4 Began work to complete an update to the Pavement Condition Index Study that inventoried and provided a cost-benefit maintenance plan for the 60 million square feet of pavement that exists on North Dakota’s public-use airports.

 - 5 Received federal grant funding to rehabilitate all of the pavements at the Commission owned and operated International Peace Garden Airport.

 - 6 Continued to implement multiple agency programs for the public including: the Flight Instructor Assistance Program (FTAP), Passport Program, Airport Internship Program, Youth Aviation Art Contest, Windsock Program, and the Aerial Applicator Alert Map for Met Towers.

 - 7 Provided aviation education grants and support for schools and aviation museums to encourage youth to pursue careers in Aeronautics & STEM related fields.

 - 8 Collaborated with the North Dakota Aviation Association to support an annual aviation career expo and establish endowed and non-endowed scholarships for students pursuing a career in aviation.

 - 9 Distributed airport directories and aviation education material and supplies to communities throughout the state.

 - 10 Continued a statewide contract to provide routine maintenance and updates to North Dakota’s Automated Weather Observation System’s (AWOS).

Major Accomplishments

-
- 11 Provided educational opportunities for the public, the aviation community, and public airport sponsors through airport inspections, training conferences, and community meetings.

 - 12 Provided the leadership of all public-use airports with the opportunity to access training modules through the National Association of State Aviation Officials (NASAO).

 - 13 Updated the Commission's payment processing capabilities to allow credit card and e-check payments to be processed for excise tax and aircraft registrations.

Critical Issues

-
- 1 Maintaining and Improving Airport Infrastructure: The commission is challenged to ensure that the state's airports are maintained in a safe condition and are able to expand to accommodate the growing needs of their communities. Accommodating the infrastructure expansionary needs while also maintaining current infrastructure throughout the state is a challenge.

 - 2 Leverage Federal Airport Improvement Program Funding: Federal grant funding availability and the timing of receiving that funding is always a critical issue for airport infrastructure projects. The commission will continue to work with local, regional, and national leaders to ensure that North Dakota strongly competes for these funds. The availability of state funding to leverage and match federal funds for airport projects is also a priority of the agency.

 - 3 Ensuring the Safe Integration of UAS into the National Airspace System: North Dakota has been operating as one of the six unmanned aerial system (UAS) test sites within the United States. This new technology will require changes to airspace regulations, modernized equipment, new aviation fields of expertise, and additional infrastructure to provide in-state support. The commission will continue to hold an active role in ensuring that the UAS business is supported in North Dakota and will work with our UAS test site to successfully implement the new Statewide UAS network - VANTIS. The state will need to eventually determine how to regulate the industry (registration and excise tax of UAS) and if additional agency functions or employees will be needed to accommodate the public and private needs of this industry.

 - 4 Aviation Education Efforts: The international pandemic has had a large impact of the aviation sector, and the industry is currently experiencing workforce shortages. The agency will continue to work with our high schools, aviation museums, aviation associations, and the University of North Dakota to attract and grow the capacity of training an aviation workforce.

Performance Measures

Agency Performance Measures –

The agency tracks a variety of data and performance metrics to track both the success of the agency for helping to fund and complete airports projects as well as to monitor the health of aviation throughout the state. Examples of metrics include:

- Airline passenger enplanement and deplanement counts
- Airline Routes and top destinations of passengers
- Aviation Fuel Sales
- Aircraft Registrations
- Aerial Applicator Licenses and acres sprayed annually

- Aircraft Dealer Licenses
- Pilot Numbers
- Student counts for Aviation Education efforts
- Federal, State, and Local Contributions to airport infrastructure projects
- Airport Capital Improvement Plan Needs
- State Aviation System Plans also contain multiple metrics that benefit the public and aviation system such as:
 - o Pavement Condition Analysis for all 71 paved public airports
 - o Economic Benefits and Jobs created by the public airports
 - o Aviation System Plan has a host of additional airport metrics used to understand current system and to help plan and improve it.

Program Performance Measures – 100

Performance measures and results reporting are not currently used by the agency.

Program Performance Measures – 200

Performance measures and results reporting are not currently used by the agency.

Program Statistical Data

Program Statistical Data – 100

The agency works with and provides services to approximately 3600 pilots, owners of 2000 registered aircraft, 45 aircraft dealers, 100 aerial applicators, 56 fixed base operators, 81 general aviation airport managers and 8 air carrier airport managers.

Provides aviation education information and grants to various entities who are looking to promote aviation education.

Program Statistical Data – 200

The agency provides management assistance to 89 public use/owned airports. Only a few of these airports have full-time paid managers. All airports rely on the Commission to give guidance and assistance to achieve and maintain an efficient airport system. The agency is able to track state, local, and federal funds spent on airport infrastructure projects.

Explanation of Program Costs

Explanation of Program Costs – 100

The material amounts requested in this program cover the salaries/wages and operational costs for the agency. This program allows the agency to carry out the mission and regulatory requirements of the North Dakota Aeronautics Commission.

The educational grant program allows the Commission to fund activities which help to develop and support aeronautical activities and promote aviation youth programs.

Explanation of Program Costs – 200

State airports grants are available to the 81 general aviation airports and the 8 air carrier airports in the state. The grant programs provide funds to the airports for both maintenance and expansion related projects. Very often the state funds are matched by federal funds which allow a tremendous return on investment for state and local funds.

This program also funds the aviation planning efforts of the Aeronautics Commission. Airports are the gateway to each city and can be a key factor for the economic development for a city supporting an airport. Statewide planning efforts help to provide a systematic level view of the airport system and assists to plan and justify appropriate future investments.

Maintenance and capital improvements of the state's two airports, Garrison Dam Recreational Air Park in Riverdale, and the International Peace Garden Airport in Dunseith, are also funded within this program.

Program Goals and Objectives

Program Goals and Objectives – 100

The Aeronautics Commission encourages and supports the development of aviation activities in the state. The agency represents and communicates state concerns and positions at all levels of government while maintaining the regulatory environment of aviation activities as required.

Program Goals and Objectives – 200

Airport Grant Program – The commission provides airport infrastructure funding to ensure orderly and cost-effective growth for the improvement and maintenance of the state's airport system. The commission conducts annual inspections of all general aviation public-use airports every 3 years and is able to provide a first-hand assessment of current pavement conditions at airports. The airport inspection program also allows for the evaluation of safety issues at the airports and allows the state to ensure that the data for each airport that is disseminated to pilots is up to date.

State Owned Airports – The agency coordinates the capital improvements of the International Peace Garden Airport near Dunseith, North Dakota and the Garrison Dam Recreational Airpark near Riverdale / Pick City, North Dakota. Both of these airports are operated by the state.

State System Planning - To foster a timely competitive air transportation service, interstate and intrastate, in order to maintain the state's access to the national air transportation system. This is provided through the updating of statewide planning efforts. This program provides assistance to the Commission in forecasting

airport needs into the future and evaluate future funding plans this program has allowed the development of airline enhancement strategies, coordination of new business growth on the airports, and can provide the economic impact of aviation on the state's economy.

State Initiative:* Smart, Efficient Infrastructure

Is this a Large IT project? No

Is this request for a new program or service? No

Request explanation and justification (include any statutory authority)*: The North Dakota Aeronautics Commission is requesting an optional budget package to allocate an additional \$5 million in special fund appropriations for airport infrastructure grants. This request is feasible due to a robust Aeronautics Commission Special Fund balance, which has benefited from unexpected revenue increases over the past two biennia. Additionally, revenue from aviation fuel taxes has fully rebounded to pre-pandemic levels. As of the end of the recent fiscal year, the ND Aeronautics Commission is \$1.2 million ahead of the biennial budget projections for aircraft excise tax revenue.

The proposed \$5 million allocation will be used in the next biennium to support high-priority airport infrastructure projects across the 89 public-use airports in the state. The availability of federal funding through the Infrastructure Investment and Jobs Act also offers an opportunity to leverage state funds, enhancing the impact of both federal and ongoing Airport Improvement Program (AIP) resources. Given the inflationary pressures on construction costs, these additional state funds will help local municipalities manage the unexpected rise in project expenses.

412 Aeronautics Commission

Agency 412

This fall, the Aeronautics staff will update the statewide capital improvement plan to provide an accurate assessment of airport project needs in North Dakota. The most recent plan identifies \$725 million in airport projects for the next five years and an additional \$475 million for years six through ten. In total, approximately \$1.2 billion in airport projects are projected over the next decade, underscoring the extensive infrastructure needs statewide. Increased state funding for these projects will aid in maintaining and expanding our airport system, alleviating the financial strain on local municipalities.

Necessary resources for implementation (including FTE's)*: No additional resources are needed for implementation as adequate staff and grant database & processes are currently in place.

Are resources being redirected or are they new or additional (including FTE's)*: No resources are being directed and no additional FTE is required.

Who is served and impact of not funding*: The general public throughout the state of North Dakota benefits from the NDAC's ability to access these funds. They will provide airport infrastructure grants that support high-priority projects across the state's 89 public-use airports. Without access to these special funds, the state may lose the ability to leverage federal dollars, leading to the cancellation of airport projects or the need for additional local funding to keep them on track. This could result in delays or reductions in airport infrastructure improvements, directly affecting the state's air transportation system and the communities that rely on it.

High Priority Generational Airport Projects (Priority: 02)

State Initiative:* Smart, Efficient Infrastructure

Is this a Large IT project? No

Is this request for a new program or service? No

Request explanation and justification (include any statutory authority)*: The North Dakota Aeronautics Commission is requesting an optional budget package for an additional \$120 million appropriation to fund three high-priority generational airport projects planned for the next biennium. The funding for this request will need to be sourced from outside the Aeronautics Commission's special fund. Historically, the Strategic Improvement & Investment Fund (SIIF) has been used to support one-time generational airport projects.

The Federal Aviation Administration remains the primary funding source for airport development nationwide. However, the Airport Improvement Program (AIP) funding has been stagnant at approximately \$3.5 to \$4.0 billion annually over the past twenty years, while project costs and passenger demand have significantly increased. Current federal and local funding programs are insufficient to cover the expenses of major airport projects, creating an opportunity for the state to address funding gaps and provide crucial support for these initiatives.

This one-time funding request aims to secure state resources to support three well-justified, shovel-ready airport projects that are primed to leverage federal and local funding for completion. Detailed information on these projects is provided below, and further details are available upon request.

Necessary resources for implementation (including FTE's)*: No additional resources are needed for implementation as adequate staff and grant database & processes are currently in place.

Are resources being redirected or are they new or additional (including FTE's)*: No resources are being directed and no additional FTE is required.

Who is served and impact of not funding*: The general public throughout the state of North Dakota benefits from the NDAC's ability to secure additional appropriations for critical airport infrastructure projects. These funds enable the state to offer increased grant support to significant, generational projects at airports in Fargo, Grand Forks, and Dickinson. Moreover, this funding would enable the North Dakota Aeronautics Commission to effectively utilize the remaining grant program funds (including the \$20 million in airport infrastructure funds from "Operation Prairie Dog") to support the remaining 86 public-use airports across the state in the upcoming biennium.

Without these funds, North Dakota risks losing the opportunity to leverage federal dollars, potentially leading to the cancellation of key airport projects or requiring additional local funding to keep them on track. This could cause significant delays or scaling back of crucial infrastructure improvements, directly impacting the state's air transportation system and the communities it serves. Airports would also face difficult decisions, such as pausing project phases or moving forward with increased local debt burdens.

1. Dickinson–Theodore Roosevelt Regional Airport – Dickinson, North Dakota

- PROPOSED IMPROVEMENTS: Construct a new air carrier passenger terminal (26,722 sq. ft.) and associated taxiways, aprons, access roads and parking lots.

- PROPOSED COSTS: \$48M | FEDERAL: \$13M | STATE: \$30M | LOCAL: \$5M

- o Federal includes \$7M that Dickinson must compete for and is not guaranteed. State funding would include \$30M of direct allocation

- PROPOSED TIMELINE:

- o Start Design—2024-2025

- o Begin Construction—2026

- o Complete Construction—2027

2. Hector International Airport – Fargo, North Dakota

- PROPOSED IMPROVEMENTS: Reconfigure and renovate the Hector International Airport's existing passenger terminal (116,115 sq. ft) and expand the terminal by 78,161 sq. ft. to accommodate demand. Additionally, the project includes reconstruction of the existing terminal apron and expands the apron to serve the terminal expansion, and glycol deicing collection system.

- PROPOSED COSTS: \$154M | FEDERAL: \$60M | STATE: \$60M | LOCAL: \$34M

412 Aeronautics Commission

o Federal includes \$32M that Fargo must compete for and is not guaranteed. State funding would include \$60 M of direct allocation.

- PROPOSED TIMELINE:

- o Start Design—2022

- o Begin Construction—2024

- o Complete Construction—2026

3. Grand Forks International Airport– Grand Forks, North Dakota

- PROPOSED IMPROVEMENTS: Reconstruct Runway 17R-35L (7,351’ x 150’), Blast Pads (200’ x 200’) and Connecting Taxiways within the Runway Safety Area (RSA); and Install underdrain system to the runway and High Intensity Runway Lights (HIRL).

- PROPOSED COSTS: \$75M | FEDERAL: \$37M | STATE: \$30M | LOCAL: \$34M

o Federal includes \$30M that GFK must compete for and is not guaranteed. State funding would include \$30M of direct allocation.

- PROPOSED TIMELINE:

- o Start Design—2024

- o Begin Construction—2025

- o Complete Construction—2027

Statutory Authority

North Dakota Century Code Titles 6, 13, and 51

Agency Description

The Department of Financial Institutions is a self-funded regulatory agency responsible for the oversight of state-chartered banks, credit unions, trust companies, money brokers, collection agencies, mortgage loan companies, mortgage loan originators, mortgage loan servicers, deferred presentment service providers (payday lenders), debt settlement providers, and money transmitters doing business under the laws of the state of North Dakota. The department conducts examinations to determine the safety and soundness of the financial institutions and monitor compliance with applicable rules and regulations.

The services financial institutions provide in North Dakota are the foundation of main street and touch every citizen. The department’s responsibility is to ensure the safety and soundness of these institutions and therefore the continued economic development and the well-being of North Dakota communities and citizens.

Agency Mission Statement

To maintain public confidence in North Dakota financial institutions by ensuring the financial industry operates in safe and sound manner while complying with applicable rules and laws.

Major Accomplishments

-
- 1 Commissioner Lise Kruse served as the Chair of the Conference of State Bank Supervisors (CSBS) Board of Directors.

 - 2 Continued engagement with federal counterparts to ensure North Dakota interests are considered in the drafting of federal rules.

 - 3 Took action against nefarious actors to protect the public as well as the financial institutions.

 - 4 Maintained bank and credit union examination frequency within the requirements set by accreditation standards and federal regulations, despite having a large number of inexperienced team members.

Critical Issues

-
- 1 Priority #1 will always be the safety and soundness of our financial institutions. This will be obtained by: -Maintaining examination schedules -Identifying and addressing problems quickly -Proactive outreach and monitoring -Training of examination staff -Coordinate with federal counterparts

 - 2 Money Transmission/Virtual Currency -Virtual Currency oversight is evolving -Ensure regulatory authority remains with state government without federal preemption -Increase examinations and involvement -Efficiencies sought in collaboration with other states -Provide leadership in areas such as IT and digital asset review

 - 3 Information Technology -Increase automation -Enhance monitoring using AI -State and federal collaboration

 - 4 IT Service Providers -Most community banks outsource IT - especially their core providers -We have regulatory authority over the service providers -FTE to be full time focus on IT examinations - to do more complex bank IT exams and service providers

 - 5 Preventing federal preemption to ensure local control and that North Dakota interests are considered.

 - 6 Team Member Retention -Takes 3-5 years to be fully trained -Typically lose people within 3 years, just when they are starting to learn the job -Approximately one-third of our agency has been on less than three years -Approximately 62% of the examiners have been on less than three years

Performance Measures

1. Meeting accreditation standards by performing examinations within timeframes established by statute and agreements with Federal regulatory agencies.
2. Obtaining re-accreditation status for all three divisions within the Department. Accreditation ensures the Department is in compliance with industry standards and best practices through an independent review process.
3. Recognition by Federal Counterparts of Department work products, which reduces burden on North Dakota citizens by allowing more local state level oversight in lieu of more Federal regulation.
4. Timely identification of problems within the industries and guidance issued promptly to help resolve the issues.
5. Maintain an agency that consists of highly trained and experienced examiners to implement the mission, duties, and responsibilities of the agency.

Program Statistical Data

The Department of Financial Institutions has two chief examiners, 17 bank examiners, four credit union examiners, seven non-depository examiners, and five office staff to supervise and examine 58 banks with 311 locations in five states, four trust companies, 16 credit unions with 106 locations in two states, 606 collection agencies, 547 money brokers, 177 money transmitter companies, 4427 mortgage loan originators, 234 mortgage companies, 115 mortgage servicers, 3 debt settlement service providers, and 26 deferred presentment service providers. Over the past 10 years we have seen an increase of 151% in mortgage companies and money brokers and 228% in money transmitters. In addition, the Department examines the Bank of North Dakota on a bi-annual basis. The percentage of the financial services market overseen by the Department continues to increase (e.g. state-chartered banks had a market share of 66% of deposits as of June 30, 2023, up from 62% of the deposit market as of June 30, 2022).

Explanation of Program Costs

Salaries represent 80 percent of the Department budget. Travel expenses, which represent 12 percent of the operating expense request, decreased from the prior biennium of 28 percent of operating expenses. These travel costs are primarily for vehicle, motel and meal costs for the bank examiners, credit union examiners, and non-depository examiners. Previously, the travel budget was 40% of the operating line. We have been able to create efficiencies by doing more offsite reviews, thus reducing the travel expense. With the considerable reduction over the last two bienniums and based on current efficiencies, we are projected to use the entire amount allocated to travel in the current biennium. Professional development represents 15 percent of the operating budget and encompasses continuing education to acquire the skill required to succeed, participation in professional organizations, and other areas to improve job performance. Data processing expenses represent 22 percent of operating expenses and are primarily for desktop and technology support, as well as project management for specific IT projects.

Program Goals and Objectives

The Department will focus on successfully retaining national accreditation from the National Association of State Credit Union Supervisors (NASCUS) for the credit union division and from Conference of State Bank Supervisors (CSBS) for the banking division and mortgage division. The accreditation process enhances the function of the Department since it requires staff to review and enhance the aspects of the Department operations and encourages the Department to strive for continuous process improvement to meet higher industry standards. To ensure the safety and soundness of institutions, the examination staff continues to maintain bank and credit union examination frequency within the requirements set by accreditation standards, as well as federal examination frequency requirements. The Department issues administrative orders to problem institutions, and more closely supervises these institutions to ensure the corrective programs are implemented as expeditiously as possible. The Department has developed a data driven monitoring system, which assists in identifying and proactively addressing potential

413 Financial Institutions

Agency 413

problem situations. The State Banking and Credit Union Boards continue to act on applications in a reasonable time-frame while still providing public comment opportunity.

The number of licenses issued to money brokers, mortgage companies, mortgage loan servicers, collection agencies, mortgage loan originators, deferred presentment service providers (payday lenders), debt settlement providers, and money transmitters continues to increase on an annual basis. The Department has utilized the National Multi-State Licensing System (NMLS) and increased the cooperation with other states to issue licenses in a more efficient manner. The Department will continue to explore further cooperation with state counterparts for nationwide licensees to enhance efficiencies and provide North Dakota citizens with financial services in a timely manner.

The Department continues to focus on attracting and retaining qualified individuals and finding ways to reduce turnover in the Department.

State Initiative:* Workforce

Is this a Large IT project? No

Is this request for a new program or service? No

Request explanation and justification (include any statutory authority)*: A Business Analyst is needed to monitor institutions and interpret data since automation will continue to expand over the next several years. It is important to train and invest in people today to be a leader in this area. More examination processes can now be handled offsite with enhanced monitoring. A good business analyst can help us be more predictive and proactive in our oversight. Some states are adding a business analyst as a stand-alone position. We have the systems in place, we need people to have the time to use the system and the skillset to interpret the data.

Non-Depository institutions include payday lenders, collection agencies, money transmitters, debt settlement providers, mortgage loan servicers, mortgage companies, mortgage loan originators, and money brokers. The number of non-depository financial institutions continues to grow in both number of companies and in complexity. With that is also a growth in financial fraud and companies operating outside of the law. The speed of transactions make it imperative that we are ahead. Non-bank institutions are only regulated by states, so it is important that we do our job well so the federal regulators do not take over oversight of non-banks. There has been a 128% increase in non-depository licensees over the past ten years. As of 2013, we had approximately 2700 licensees. As of 2023, we had over

413 Financial Institutions

Agency 413

6100. In 2023 we added two non-depository examiners due to the passage of the bill that gives us regulatory authority over mortgage servicing companies. Over this timeframe we had limited growth in FTEs (2) for all other non-depository licenses, resulting in each FTE covering 900 licensees in 2013 versus 1,525 in 2023. The non-depository area is also where we see the most unlawful activity, requiring more time and attention from the examiners. We are requesting one FTE for the non-depository division.

Money transmitters, companies considered FinTechs and companies engaged in virtual currency, have grown. States worked together on a model law with input from the regulated industry to ensure the law is consistent across the country. North Dakota passed this law in the 2023 legislative session. Previously we have used a bank examiner to cover the examinations of the money transmitters. Currently, we have no bank examiners that have the knowledge, experience, or skillset to perform money transmission examinations. Money transmission is an industry experiencing significant challenges, which has dramatically increased the Department's workload. We are requesting one FTE for the money transmission/virtual currency role.

Most community banks outsource information technology services, especially for their core service providers. Therefore, vendor management is very important. We have oversight over these service providers and the authority to examine them; however, we do not have the staff to do so. There is also the opportunity to participate in examinations on the national level, to ensure North Dakota interests are considered. This FTE would focus on IT examinations to do more complex bank IT examinations and examinations of the service providers. We are requesting one FTE to be focused on IT service providers.

Banks are becoming more and more complex. While the number of banks has reduced due to mergers, the size and complexity of the institutions have grown. To manage the growth, the banking industry has increased their staff size by 76%, without a comparable increase in DFI staffing. Our bank examiners have struggled to keep up. The total of this FTE ask is still less than half the FTE increase reported by the banking industry itself. If we are unable to meet the demands of our examination schedule, we will be required to forego participating on examinations at some of the institutions, which gives more regulatory authority to our federal counterparts. One specific example is one bank that has assets over \$10 bill - the Federal government has three FTEs assigned to that one institution, while we have one. To ensure local oversight we need to increase our presence, and it should be noted that the industry assessments cover the cost of these FTEs.

Necessary resources for implementation (including FTE's)*: We are requesting FTEs for the following:

1 Business Analyst

1 Non-Depository Examiner

1 Money Transmission/Virtual Currency Examiner

1 IT Service Provider Examiner

3 Bank Examiners

Are resources being redirected or are they new or additional (including FTE's)*: The resource would be new FTEs.

Who is served and impact of not funding*: Our presence gives confidence in the financial system and the availability of financial services. We need to lead, we need to innovate, and we need state interests represented, rather than federal interests. To do so, we need more resources and more people. We know this is a big ask but it is necessary to accomplish our goal and keep state control over the regulatory process.

413 Financial Institutions

Professional Fees and Services (Priority: 02)

	2023-25 Agency Request				2023-25 Executive Recommendation

State Initiative:* Other

Is this a Large IT project? No

Is this request for a new program or service? No

Request explanation and justification (include any statutory authority)*: We expect to see an increase in the use of time the Department needs to utilize the Attorney General's Office. If we have additional economic problems, the legal need and costs will go up dramatically. This will result in an increase in operating line to cover the additional costs.

Necessary resources for implementation (including FTE's)*: We will utilize the Attorney General's Office for our legal resources.

Are resources being redirected or are they new or additional (including FTE's)*: Resources are being requested to cover the cost of the additional time used for legal costs.

Who is served and impact of not funding*: The request directly impacts the citizens of North Dakota. If we do not have the funds for the increase in legal costs this will have a negative impact on the citizens, potentially allowing the bad actors to continue preying on the people of North Dakota.

Professional Development (Priority: 03)

	2023-25 Agency Request				2023-25 Executive Recommendation			
	Ongoing	One-Time	Total	FTE	Ongoing	One-Time	Total	FTE
Federal	-	-	-	0.00	-	-	-	0.00

Total	60,000	-	60,000	0.00	-	-	-	0.00

State Initiative:* Workforce

Is this a Large IT project? No

Is this request for a new program or service? No

413 Financial Institutions

Agency 413

Request explanation and justification (include any statutory authority)*: With the volume of turnover that we experience we need to get aggressive in building back our human capital. The FDIC and NCUA front the cost of some of the training for examiners within their first two to three years. When examiners finish their core examiner schools, the Department then pays the full cost of the training.

Necessary resources for implementation (including FTE's)*: We will utilize the training courses offered by the FFIEC, as well as other professional development courses; for example, Dale Carnegie and the Risk Management Association.

Are resources being redirected or are they new or additional (including FTE's)*: New resources are being requested to cover the cost of additional training and development.

Who is served and impact of not funding*: This request directly impacts both the financial institutions we regulate and the citizens of North Dakota. The financial institutions need to have confidence in the examiners so they know that they are receiving a fair and accurate report of examination. The mission of the Department is to maintain public confidence in North Dakota financial institutions, which is best done when the examiners are well trained, thus keeping the citizens' money safe.

Examination Automation (Priority: 04)

	2023-25 Agency Request				2023-25 Executive Recommendation			
	Ongoing	One-Time	Total	FTE	Ongoing	One-Time	Total	FTE
Federal	-	-	-	0.00	-	-	-	0.00
General	-	-	-	0.00	-	-	-	0.00

Total	190,000	-	190,000	0.00	190,000	-	190,000	0.00

State Initiative*: Technology Investment

Is this a Large IT project? No

Is this request for a new program or service? No

Request explanation and justification (include any statutory authority)*: The financial industry continues to grow in both numbers and complexity. With that is also a growth in financial fraud and the speed of transactions. It is imperative that we stay ahead. We need to find ways to eliminate routine and use humans for the judgment and analytical pieces. We have opportunities to automate some of our examination process as part of multi-state efforts. We need funding to lead these statewide efforts, else risk the process being dominated by the east and west coast states, or even the federal government.

Necessary resources for implementation (including FTE's)*: The examination automation will be done at a national level in partnership with other states.

Are resources being redirected or are they new or additional (including FTE's)*: There are no additional FTEs being requested. The resources being requested will cover the costs associated with the automation of the examination process. This would not be one project, but rather a series of smaller improvements to our examination process.

Who is served and impact of not funding*: This affects the financial institutions and the citizens of North Dakota. If we cannot keep up with the growth and speed of the industry there will likely be an increase in fraud and loss to the consumers.

Statutory Authority

North Dakota Century Code Chapters 10-04, 43-10.1, 51-19 and 51-23

Agency Description

The North Dakota Securities Department protects North Dakota investors and supports legitimate capital formation by businesses. The Department is a regulatory agency that serves the citizens of North Dakota through the administration and enforcement of the North Dakota Securities Act (10-04), the North Dakota Commodities Act (51-23), the Franchise Investment Law (51-19) and Pre-Need Funeral Services Law (43-10.1).

Key elements of this investor protection regulatory structure are the registration of investment firms and professionals (broker-dealer, agents, investment advisers, and investment adviser representatives), the registration of securities offerings and the qualification of securities offerings for registration exemptions, and the registration of franchise offerings. Registration fees collected are a revenue source for the State of North Dakota. The agency regulates the capital formation process and strives to adequately balance the support of efficient, legitimate capital formation with appropriate protections for investors who commit capital to businesses.

Investigation of fraud and other securities law violations result in money returned to North Dakota investors through rescission, recovery and restitution. Enforcement actions produce necessary disciplinary remedies, act as a deterrent for further violations, and generate revenue through statutory civil penalties. Financial education programs delivered by the Department help investors make wise investment decisions and avoid financial fraud and exploitation.

Agency Mission Statement

The Core Mission of the Securities Department is to protect North Dakota investors and support legitimate capital formation by businesses through the administration of the North Dakota Securities Act (10-04). We execute this mission through our efforts in four functional areas:

1. Regulation of the Capital Formation Process
2. Registration of Securities Industry Firms and Professionals
3. Examinations, Investigations and Enforcement Actions
4. Investor Education and Financial Literacy Initiatives

Our Agency Vision: With a focus on inclusive prosperity, we safeguard the integrity of capital markets and support financial literacy improvement, so people of all backgrounds can confidently and capably invest to build a secure financial future.

Major Accomplishments

- 1 The Department conducted 184 examinations which is a significant increase over previous reporting periods due in large part to the enhancement of the Department's Examination Program. The program focuses on streamlining the Department's contact with examinees throughout the entire exam process. The Program also established focused examinations, which allows the examination staff to have contact with all State Registered Investments Advisers (RIAs) on a rolling 3-year interval. The focused exams assist the examination staff to connect with State RIAs and ensure they are meeting their annual filing requirements. The examinations are conducted through the previously mentioned Case Management System and all correspondence with the examinees is through the system.
- 2 The Department issued 8 Cease-and-Desist Orders and 3 Consent Orders.
- 3 Ordered Rescission totaling \$1,130,000 through a Cease-and-Desist Order confirmed by an Administrative Law Judge.
- 4 Obtained Investor Restitution totaling \$4,900,971.30 in a large investigation stemming from a routine examination by the Department. Wrapped up investigation involving fraud, misrepresentation, and suitability violations in the sale of Real Estate Investment Trusts and assisted in the return of \$628,833.22 directly to harmed investors.
- 5 The Department collected \$377,358.48 from a multi-state enforcement case settlement related to unregistered activity. The Department collected \$235,849.06 which represented 2 of 4 penalty payments totaling \$424,528.30 to be received through October 2023, from a multi-state enforcement case settlement related to unregistered activity.
- 6 Collected an additional \$40,500 in penalties associated with the issuance of 3 Consent Orders.

Critical Issues

- 1 Fraud against seniors.
- 2 Financial Technology (Fintech) innovations - i.e. Robo-advisers, crowdfunding, cryptocurrency, initial coin offerings, use of AI by broker-dealers and investment advisers.
- 3 Fintech related fraud, including use of AI to commit fraud.
- 4 Securing Blockchain analytics software and capabilities for cryptocurrency related investigations.
- 5 Continued growth in number of investors with more people turning to securities markets to help build wealth and financial security.
- 6 People have increased responsibility for personal financial security with the continued trend away from Defined Benefit plans to Defined Contribution plans and uncertainty around Social Security benefits.
- 7 Enforcement of SEC "Best Interest" rule for broker-dealers, effective June 30, 2020.
- 8 Enhancement of Case Management System for examinations and investigations.
- 9 Enhancement of Securities Filing Portal for Securities filings and data management.

Performance Measures

Agency Performance Measures:

1. Operate department within budget parameters.
2. In coordination with SEC and FINRA scheduling, examine broker-dealers and investment advisors registered and with offices in the state.

3. Maintain staff of highly trained, professional, experienced examiners in all divisions.
4. Perform duties in ethical, unbiased, informed and efficient manner.
5. Foster public confidence in regulated industry and capital markets through effective administration of duties.
6. Promote compliance with the Securities Act through routine firm examinations and swift enforcement action when necessary, appropriate and in the public interest.
7. Annual performance reviews are utilized to determine effectiveness in contributing to agency goals and overall mission.
8. Statistics are maintained for each division and are compared to prior measurement period. However, agency activity is market driven and connected to the health of the economy and finance sector, thus changes in measured statistics do not directly translate into a measure of agency effectiveness.
9. Gallup Engagement Survey – 4.83 engagement mean, 96 percentile rank Program Performance Measures:
 1. Operate department within budget parameters.
 2. Routinely examine broker-dealers and investment advisors registered with offices in the state.
 3. Maintain staff of highly trained, professional, experienced examiners in all divisions
 4. Perform duties in ethical, unbiased, informed and efficient manner.
 5. Foster public confidence in regulated industry and capital markets through effective administration of duties
 6. Promote compliance with the Securities Act through routine firm examinations and swift enforcement action when necessary, appropriate and in the public interest.
 7. Performance reviews are utilized to determine effectiveness in contributing to agency goals and overall mission.
 8. Statistics are maintained for each division and are compared to prior measurement period. However, agency activity is market driven and connected to the health of the financial services sector and the economy overall, thus changes in measured statistics do not directly translate into a measure of agency effectiveness.

Program Statistical Data

See attached.

Explanation of Program Costs

Costs are associated with the execution of the Department's mandate to protect North Dakota investors and support legitimate capital formation by businesses.

Successful execution of this mandate involves the registration of investment securities, investment firms and agents, and franchise offerings. Fees collected are a revenue source for the State of North Dakota. The agency supports the formation of capital by legitimate North Dakota businesses.

Successful execution of this mandate also involves the investigation of fraud and misconduct, which may result in money returned to North Dakota investors through rescission, recovery and restitution. Enforcement actions generate state revenues through statutory civil penalties, consent orders and agreements. Education programs help investors make wise investment decisions and avoid investment fraud and financial exploitation.

Program Goals and Objectives

The primary mission of the Securities Department is to protect the North Dakota Investor through the administration of the North Dakota Securities Act (10-04). We support this mission through our efforts in four functional areas:

1. Regulation of the Capital Formation Process
2. Registration of Securities Industry Firms and Professionals
3. Examinations, Investigations and Enforcement Actions
4. Investor Education and Financial Literacy Initiatives

For the 25-27 Biennium the following Goals and Objectives are identified to support the mission of the Department:

1. Regulatory Systems Modernization
 - a. Continue Enhancement of Dept CMS/Filing Portal 2.0
 - b. Continue Updates to Investment Adviser Regulatory Program
2. Fintech Regulatory Adaptation
 - a. Enhanced Digital Asset and Decentralized Finance Investigative Capabilities
 - b. Compliance Enforcement
 - c. Launch new division for FI/Securities fintech regulatory shared services through alignment with Department of Financial Institutions
3. Inclusive Prosperity Impact
 - a. Expand and Diversify Investor Education and Outreach Program Reach
 - b. Improve Competition Against Weaponizes Social Media Platforms

State Initiative:* Workforce

Is this a Large IT project? No

Is this request for a new program or service? Yes

Request explanation and justification (include any statutory authority)*: The Securities Department and the Department of Financial Institutions are seeking to merge agencies. The merged agency will be comprised of 3 Divisions:

1. Banking, Credit Union, Non-Deposit Division (existing)
2. Securities Division (existing)
3. Digital Finance and Fraud Division (new)

The merged agency will be overseen by the Department of Financial Institutions Commissioner, and each division will be led by a Deputy Director. Resources are being requested to facilitate the creation of the new Digital Finance and Fraud Division.

Digital finance is the term used to describe the impact of new technologies on the financial services industry. It includes a variety of products, applications, processes and business models that have transformed the traditional way of providing banking and investment services.

While technological innovation in finance is not new, investment in new technologies has substantially increased in recent years and the pace of innovation is exponential. Regulatory frameworks must adapt and evolve to ensure consumers and investors are protected, and that as state regulatory authorities we do not lose jurisdiction to the federal government.

With Digital Finance, consumers and investors interact with a variety of financial entities using mobile technology. Payments, money transfers, and investments are facilitated through new tools and alternatives that continue to expand. Artificial intelligence, social networks, machine learning, mobile applications, distributed ledger technology, cloud computing and big data analytics have given rise to new services and business models by established financial institutions and new (potentially unregulated) market entrants.

While new technology driven alternatives can improve financial services choice and access, they also carry unique risks that must be addressed from a regulatory standpoint, and in some cases the regulatory jurisdiction that applies to a transaction, product, or service may not be clear or may be multi-faceted. As such the new Digital Finance and Fraud Division of the merged agencies will be well positioned to examine evolving firms, products, and services, investigate misconduct, and take necessary and appropriate enforcement actions in the event consumers or investors are harmed by fraud.

Cryptocurrency transactions, peer-to-peer lending, AI-driven investment advice are examples of newer financial innovations that carry unique risks and regulatory considerations.

The new Digital Finance and Fraud Division of the merged agencies will provide the expertise needed to understand ever-evolving digital innovations in financial services, preserve market stability and integrity, and protect North Dakota consumers and investors.

Necessary resources for implementation (including FTE's)*: The Digital Finance and Fraud Division will require FTEs at the outset and an appropriation of \$2,644,593 to fund FTE salaries and operating expenses. The 5 FTEs include a deputy director and 4 examiner/investigator positions. Critical to the support and success of the new division will be the funding of investigative technology solutions needed for highly specialized blockchain analytics related to cryptocurrency transactions.

Are resources being redirected or are they new or additional (including FTE's)*: All resources for the Digital Finance and Fraud Division are new and would be funded by revenue generated by the Securities Department. It is estimated that Securities Department revenue for the current biennium will be approximately \$25 million.

Who is served and impact of not funding*: All North Dakotans who choose to utilize digital financial products and services alternatives or who are targeted by financial criminals with fraudulent digital financial products and services alternatives. Regulated entities doing business or seeking to do business in the state that are expanding their financial products and services offerings to include more digital-only or AI related offerings.

Failure to enhance resources and expertise in the area of digital finance will leave North Dakota consumers and investors increasingly vulnerable to financial damage resulting from proliferating fraud involving digital alternatives. Failure by state legislatures and regulators to move aggressively to adapt regulatory programs to address new financial innovations increases the risk of pre-emption by federal government agencies in this area, which would limit or eliminate state authority to protect our residents who consume or invest in digital finance products and services, or who are harmed by digital finance fraud.

General Fund Collections Summary

Statutory Authority

North Dakota Century Code Chapter 6-09.

Agency Description

The Bank of North Dakota (BND) serves as the development bank for agriculture, commerce, and industry in North Dakota.

The strategic goals from the 2022-24 Strategic Plan of the Bank include: drive innovation to enhance effective delivery of products and services, establish the new work environment to build community, support diversification in North Dakota’s economy by creating financial solutions to current and emerging needs, educate North Dakotans about post-high school education opportunities and deliver innovative products and services that support them, increase stakeholder appreciation for BND’s role as a bank in a competitive marketplace.

Bank of North Dakota is an important partner for students pursuing secondary education opportunities including college, trade school and certificate programs. In addition to offering a variety of loan programs at competitive rates, BND also coordinates scholarship opportunities and provides information on how to pay for college

Agency Mission Statement

Bank of North Dakota’s mission is to deliver quality, sound financial services that promote agriculture, commerce, and industry in North Dakota.

Major Accomplishments

-
- 1 Assets grew from \$7.1 billion in 2019 to \$10.1 billion in 2023, a 44% increase over five years. Total employee count remained stable. BND’s efficiency ratio for 2023 was 14.68% compared to the North Dakota Bank average of 62.49%.

 - 2 Assets in the legislative Directed programs have grown 52% since 2019 from \$710 million to over \$1 billion at the end of 2023. This includes implementing new administered loan programs for Clean Sustainable Energy Authority, Bulk Propane storage Tank and Legacy Investment Loan Funds.

 - 3 Closed 2023 with a \$5.7 billion loan portfolio. BND Funded 612 Commercial loans for over \$2.25 billion compared to 557 loans for \$1.4 billion in 2021. 537 Agricultural loans for \$193.6 million were funded in 2023 compared to 421 loans for 221.8 million in 2021.

 - 4 Committed to provide over \$300.0 million of its capital to fund its buydown of \$60.0 million in loan programs, \$116.0 million in various other areas, and provided a \$140.0 million dividend to the General Fund.

 - 5 Disbursed over \$69.9 million in student loans in 2023 with a total portfolio of \$1.1 billion.

 - 6 Rated A+ by Standard and Poors (S&P), putting BND in a rating category with the highest-rated U.S. banks.

 - 7 The Livestock Rebuilders program disbursed \$25.9 million to help replenish approximately 16,000 head of cattle for our state.

 - 8 Under the legislature’s directive, the Bank of North collaborated with 27 public and private sector stakeholders to analyze sustainability trends, laws, and policies, resulting in the publication of a report in June 2024. The report is available at stand.nd.gov.

 - 9 Worked with the ND Housing Financing Authority to develop the R-WISH project to support rural communities with market rate housing when a company is located or expanding its operations.

Major Accomplishments

-
- 10 Awarded a \$3.8 million Member Impact Fund grant from the Federal Home Loan Bank. These dollars were met with a match of \$1.3 million from BND Capital and paid to the North Dakota Housing Finance Agency- Housing Incentive Fund for affordable housing and community development initiatives.
 - 11 In 2023, through its loan participations, BND assisted in creating or retaining over 18,000 jobs in the state with a projected impact of \$2.5 billion to the State's Gross Domestic Product.
-

Critical Issues

-
- 1 It is continually important to balance the financial and business objectives of the Bank with the social and political objectives to expand North Dakota's economy. It is equally important to provide a culture that develops people, acts as a model of efficient business and government, and exemplifies the core values of the bank.
 - 2 BND strives to be a leader in technology to provide quality customer service and meet customer needs. Successful implementation of FISERV's Commercial Center will be a priority in the next biennium which will streamline system infrastructure, reduce integrations and improve customer experience for our online cash management system.
 - 3 BND continues to deal with increased regulatory requirements related to financial institutions. The effects of Dodd Frank, Basel III, SOX 404, and information security program requirements are burdensome. The role of compliance in the banking industry cannot be overstated and our entire bank feels the effects on a daily basis
 - 4 In addition, BND will continue to invest in ways to protect its physical and cyber security, whether through improved building security or insurance coverage. Although this coverage comes at a cost, we owe it to our employees and customers to provide a safe environment to conduct business.
-

Performance Measures

In meeting BND's performance, there are three areas that we believe should be monitored: Financial performance, achieving BND's mission, and meeting legislative expectations.

1. Financial Performance - The Department of Financial Institutions (DFI) evaluates the safety and soundness of banks utilizing the "CAMELS" rating system. CAMELS is an acronym standing for: Capital, Asset Quality, Management, Earnings, Liquidity and funds management, and Sensitivity.
2. Meeting the Mission - To deliver quality, sound financial services that promote agriculture, commerce, and industry. We measure our success in achieving our mission by the quality and usage of our programs.
3. The Legislature has numerous expectations for Bank of North Dakota. Key among these expectations are:
 - a. For BND to enhance the ability of North Dakota's financial institutions to serve their customers through loan participations and services. To maintain an awareness of financial needs in the state and develop products and services that enhance diversification of

the state's economy.

b. To administer legislatively directed programs including revolving loan funds and one-time initiatives.

c. For the bank management to meet regulatory and statutory requirements and to maintain the ability to provide a dividend for the state's general fund or for emergency programs in the state.

Return on Average Assets measures how effect a company is utilizing its assets. BND's historical ROA was as follows:

2023 - 1.91%; 2022 - 1.91%; 2021 - 1.60%; 2020 - 1.85%; 2019 - 2.47%.

Return on Average Equity measures how equity is used to generate income. BND's historical ROE was as follows:

2023 - 18.86%; 2022 - 19.63%; 2021 - 15.08%; 2020 - 15.59%; 2019 - 18.60%.

Leverage Ratio is a measure of financial strength and is calculated by dividing Tier One Capital by average assets. The leverage ratio BND was: 2023 - 11.33%; 2022 - 11.73%; 2021 - 10.26%; 2020 - 11.92%; 2019 - 13.60%.

Program Statistical Data

BND ended 2023 with over \$10.1 billion in assets compared to assets of \$10.0 billion at the end of 2021. Adequate liquidity has allowed the Bank to continue to grow its loan portfolio and reinvest in its investment portfolio as securities mature.

- The investment portfolio increased by nearly \$1.3 million from 2021 to 2023.
- The bank's loan portfolio grew 23% from \$4.7 billion in 2021 to \$5.8 billion at the end of 2023. BND's loan portfolio concentration includes agriculture, commercial, residential, and student loans. (Note: All residential originations, servicing, and collections transferred to Housing Finance Agency in 2021 as one of BND's initiatives for process improvements across state agencies.)
- The diversification of BND's loan portfolio remains well-balanced with commercial loans accounting for 63 percent, student loans 19 percent, ag loans 13 percent and residential loans 5 percent.
- At the end of 2023, BND also administered over a \$1 billion in net assets for legislatively directed programs, adding 3 additional programs from 2021 for a total of 25. These programs serve a wide range of purposes, including school construction, water projects, general and medical infrastructure, disaster recovery and promoting value added agriculture and energy development.

BND's Treasury Services provides a federal funds program and safekeeping services to over 100 North Dakota financial institutions.

471 Bank of North Dakota

Agency 471

- At the end of 2023, the Bank held 13,585 customer securities for \$9.8 billion, up by nearly 300 holdings and \$1.1 billion since year end 2021.
- Treasury Services also offers liquidity in the form of Fed Fund lines to correspondent institutions, which totaled just over \$675 million as of 2023.
- BND also provided an additional \$573 million of liquidity through our Letters of Credit for Public Deposits Programs. BND trust services 67 accounts with assets in excess of \$600 million, and transfer agent, registrar, and paying agent agency services to approximately 2,150 accounts.
- BND's Banking Services provides check clearing and correspondent bank account services to North Dakota financial institutions, state agencies, and political subdivisions. ACH and wire transfer services are also provided to correspondent banks.

Explanation of Program Costs

BND is a development and wholesale bank which generates revenue to fund its cost of operations and provide a return to the general fund.

Program Goals and Objectives

1. Drive innovation to enhance effective delivery of products and services.
2. Establish the new work environment to build community.
3. Support diversification in North Dakota's economy by creating financial solutions to current. and emerging needs.
4. Educate North Dakotans about post-high school education opportunities and deliver innovative products and services that support them..
5. Increase stakeholder appreciation for BND's role as a bank in a competitive marketplace.

State Initiative:* Workforce

Is this a Large IT project? No

Is this request for a new program or service? No

Request explanation and justification (include any statutory authority)*: 7.1.24 4% legislatively approved salary dollars were implemented for BND employees. This dollar amount is not included in both years of OMBs proposed budget dollars. This is for the additional year of increases for 187 FTEs.

Necessary resources for implementation (including FTE's)*: Appropriated dollars are the only resource necessary.

Are resources being redirected or are they new or additional (including FTE's)*: no

Who is served and impact of not funding*: All current BND employees.

7 positions excluded from Health insurance coverage and others Prorated. (Priority: 02)

State Initiative:* Workforce

Is this a Large IT project? No

471 Bank of North Dakota

Agency 471

Is this request for a new program or service? No

Request explanation and justification (include any statutory authority)*: BND identified 7 positions that did not have Healthcare dollars appropriated. \$276,068

Other positions were allocated a prorated amount for Health insurance, \$162,867.

Necessary resources for implementation (including FTE's)*: Appropriated dollars

Are resources being redirected or are they new or additional (including FTE's)*: No

Who is served and impact of not funding*: BND will be over budget for providing Healthcare benefit for current and future staff.

Industrial Committee Compensation package decisions (Priority: 03)

	2023-25 Agency Request				2023-25 Executive Recommendation			
	Ongoing	One-Time	Total	FTE	Ongoing	One-Time	Total	FTE

Total	220,987	-	220,987	0.00	220,987	-	220,987	0.00

State Initiative:* Workforce

Is this a Large IT project? No

Is this request for a new program or service? No

Request explanation and justification (include any statutory authority)*: Bank of North Dakota's Board, the Industrial Commission, made Compensation package decisions that should be included in BND's appropriated budget.

Necessary resources for implementation (including FTE's)*: Appropriated dollars

Are resources being redirected or are they new or additional (including FTE's)*: Current funding coming from timing of filing positions.

Who is served and impact of not funding*: Impact of not funding would be the current workforce.

Grade changes and associated benefit cost (Priority: 04)

	2023-25 Agency Request				2023-25 Executive Recommendation			
	Ongoing	One-Time	Total	FTE	Ongoing	One-Time	Total	FTE
Federal	-	-	-	0.00	-	-	-	0.00

Total	1,886,955	-	1,886,955	0.00	943,478	-	943,478	0.00

State Initiative:* Workforce

Is this a Large IT project? No

Is this request for a new program or service? No

Request explanation and justification (include any statutory authority)*: BND has experienced loan growth of 26% and 6 Legislatively directed programs have been added over the past 5 years. Business decisions were made to reclass positions to accommodate activity over the past and current biennium.

5 Job reclassifications for Manager positions

53 job reclassifications for the current and prior biennium in order to fill positions concentrated in the Lending and Operations due to higher volumes of activity.

\$720,071 of this ask relates to benefit costs associated with higher job reclassifications and increased salary dollars to hire hard to fill positions.

Necessary resources for implementation (including FTE's)*: Appropriated dollars

Are resources being redirected or are they new or additional (including FTE's)*: These would be additional dollars to be appropriated based on staffing requirements to fill hard to fill positions.

Who is served and impact of not funding*: Employees of BND will be impacted.

Served: BND Customers and ability to carry out Legislatively directed initiatives and programs.

Statutory Authority

North Dakota Century Code Chapter 54-17.

Agency Description

North Dakota Housing Finance Agency (NDHFA) makes possible the purchase, development and rehabilitation of single- and multifamily housing for low- to moderate-income residents of North Dakota. NDHFA addresses the needs of individuals and families experiencing homelessness or at-risk of homelessness by administering state and federal programs to support the State’s homeless response system and local non-profit providers. Agency profits are reinvested into grants and programs that provide critical assistance to households and communities to ensure safe, affordable and decent housing options.

Agency Mission Statement

NDHFA is dedicated to making housing affordable for all North Dakotans while focusing on the housing needs of communities.

Major Accomplishments

-
- 1 Since 1983, NDHFA has provided more than 53,000 single-family loans across the state equal to approximately \$5.6 billion. The U.S. Department of Housing and Urban Development (HUD) again ranked NDHFA a Tier 1 Federal Housing Administration loan servicer. The ranking system measures compliance with federal guidelines and intervention requirements, loss mitigation engagement, and reporting.

 - 2 Multifamily housing leverages local, state and federal funding; the agency has assisted in the creation and preservation of more than 10,500 rental units. Specifically, the state’s Housing Incentive Fund, which was launched in 2011, has committed over \$116 million in authorized funds, adding 3,400 units. The 68th Legislative Assembly allocated \$13 million to the Housing Incentive Fund, North Dakota’s only state-funded development program.

 - 3 North Dakota received \$7.7 million from HUD through the HOME-American Rescue Plan (HOME-ARP) program to assist individuals or households who are homeless, at risk of homelessness and other vulnerable populations, by providing housing, rental assistance, supportive services and non-congregate shelter, to reduce homelessness and increase housing stability across the state.

 - 4 NDHFA became the administrator of the HUD Emergency Solutions Grant and North Dakota Homeless Grant in July 2023. Administrative changes included increasing the maximum awards to individual agencies to reduce administrative costs and streamline resources. The programs were oversubscribed by \$3.1 million in FY23 and \$3.2 million in FY24, a total of \$6.3 million for the biennium.

Critical Issues

-
- 1 Interest rates: Interest rates for 30-year fixed-rate mortgages have jumped from 4.65% in 2022 to 6.75% in 2024. a. NDHFA provides below market interest rates and down payment and closing cost assistance. Year-to-date 2024 NDHFA has provided first-time homebuyers with an average rate 1.25% below market rate. The lower rate on a \$250,000 loan would save a homebuyer approximately \$250.00 per month. Almost 30% of the state’s first-time homebuyers use NDHFA’s programs and more than 58% use down payment and closing cost assistance. b. Below market interest rates are secured by selling mortgage revenue bonds, which are repaid by revenues generated through mortgage loans, not taxpayer dollars.

Critical Issues

-
- 2 Limited federal funds: Federally, North Dakota is considered a small state and therefore receives the small state minimum allocation for multifamily housing development totaling \$9 million annually. Post-pandemic supply chains have stabilized but material prices for lumber, steel, and concrete remain higher than pre-pandemic costs. Increased costs and stagnant funding means a reduced number of new construction and rehabilitation projects that can be funded. a. The North Dakota Legislature authorized the Housing Incentive Fund (HIF), which is the only state-funded, gap financing program for affordable, multifamily housing. Funding is contingent upon each legislative session. Funding will be fully committed at the end of the biennium. b. NDHFA administers a competitive application process for federal funds and HIF to build and rehabilitate multifamily housing. In the Biennium, 21 applications were received for urban and rural communities and approximately 10 projects or 481 units were funded. Programs were oversubscribed by \$17 million.
-
- 3 Housing instability: In 2023, 38% of renters and 17% of homeowners are considered housing cost-burdened, spending more than 30% of their income on housing; over 5,000 individuals received services for homelessness through ND Homeless Continuum of Care (CoC) partners; more than 2,400 school aged students identified as experiencing homelessness; and over the past year, almost 779 justice - involved individuals identified as homeless. Further complicating the issue, rents in North Dakota grew by 49% over the past decade. a. NDHFA administers the CoC federal program to support community-wide efforts designed to link people to organizations working to prevent and end homelessness. The CoC is federally funded and supplemented with agency funds. b. Multifamily housing development and rental subsidy programs administered and monitored by NDHFA include a compliance portfolio of more than 12,000 housing units. c. The Opening Doors program provides participating households with an opportunity to access housing, while protecting the property and investment of property owners. Tenants with poor credit, a history of evictions or a criminal record work with a care coordinator to secure housing, receive support services and mediate any disputes with the landlord. Landlords receive financial coverage beyond a security deposit if a participant causes excessive damage or loss of revenue.
-
- 4 Housing accessibility: In 2024, a typical home price in North Dakota is \$282,300. Based on median income limits and industry standards regarding mortgage lending practices, more than half of the state's households would not be able to afford a median priced home. Renters are also experiencing a substantial increase in rental costs. a. NDHFA administers four new construction and rehabilitation programs for builders, homeowners, property owners and nonprofits to create more safe and affordable housing. More than 50% of the housing in urban and rural communities is more than 40 years old. Preserving existing housing stock creates more opportunities for homeownership and utilizes existing infrastructure.
-
- 5 Department of Justice (DOJ) Settlement and Aging Population: The state of North Dakota and the DOJ reached a settlement agreement that outlines actions the state will take to expand access to home and community-based care services and enable individuals with physical disabilities to live in the least restrictive settings possible. Persons ages 65 and older are the fastest growing demographic in every county and are projected to increase 24% from 2020, reaching 147,528 by 2025. One in four homeowners 65 and older were housing cost burdened and so are 49% of renters in this age group. One in three have a disability including having serious difficulties walking or climbing stairs or vision, hearing and cognitive challenges, a. NDHFA self-funds two grant programs, a single-family rehabilitation program and a single/multifamily renovation program to ensure lower-income residents can remain safely in their homes. More than 8,500 households have benefited from these programs.
-

Performance Measures

Ratings & Ranking

- Moody's Aa1 rating reflects the agency's strong financial position and loan portfolio characteristics. As of June 30, 2024, the 1994 General Bond Resolution has \$1,877,085,000 in bond debt and the 2009 General Bond Resolution has \$38,615,000 in bond debt outstanding.
- HUD National Servicing Center Tier 1 ranking as a Federal Housing Administration loan servicer.

Homeownership Accessibility

473 Housing Finance Agency

Agency 473

- NDHFA services 12,847 mortgages, a value of \$1.95 billion as of June 30, 2024.
- Total loan portfolio of 14,372 loans totaling \$2.2 billion as of June 30, 2024.

Multifamily Funding Allocated

- In the Biennium (2023 and 2024 application rounds), more than \$26.3 million (grants/tax credits) were allocated to fourteen multifamily projects throughout North Dakota. When completed, 828 affordable rental housing units will be rehabbed or constructed.

Homeless Programs

- As coordinator and administrator of the ND Homeless Continuum of Care (CoC), HUD Emergency Solutions Grant (ESG) and the North Dakota Homeless Grant (NDHG), NDHFA works to develop and build capacity for the State's homeless response system. For the 23-25 biennium, NDHFA has allocated \$4.4 million in funding for homeless programs.
- Administer more than \$42 million for multifamily housing construction and renovation, contract administration, and ND Homeless CoC.

Program Statistical Data

Single Family Mortgages Purchased (cumulative as of 6/30/2024): 53,767 loans; \$5,645,609,118

Single Family Current Outstanding Mortgages (as of 6/30/2024): 14,372 loans; \$2,175,658,266

Single Family Bond Issues Outstanding (as of 6/30/2024): 33 bond issues; \$1,915,700,000

Down Payment Assistance Provided (Cumulative as of 6/30/2022): 25,174 loans; \$126,909,791

Tax Credit Units allocated in 2024: 145 units; \$3,902,172

Total Tax Credit Units Allocated (cumulative as of 12/31/2024): 8,622 units; \$72,775,041

Rental Assistance (as of 06/30/2024): 88 projects

Rental Assistance (as of 06/30/2024): 2,626 units

Rental Assistance Payments (Fiscal Year 2024): \$13,510,624

Agency 473

Rural Housing Development (cumulative as of 06/30/2024): 4 loans; \$719,450

Construction Loan Guarantees (cumulative as of 06/30/2024): 36 loans; \$3,206,440

Housing Incentive Fund Conditional Commitments (cumulative as of 06/30/2024): 95 projects; \$117,367,736

Housing Incentive Fund Project Disbursements /units (cumulative as of 06/30/2024): 3,216 units; \$110,118,012

Housing Trust Fund Conditional Commitments (cumulative as of 06/30/2024): 15 projects \$22,920,493

Housing Trust Fund Project Disbursements/units (cumulative as of 06/30/2024): 276 units; \$16,294,676

Community Land Trust Program (cumulative as of 06/30/2024): 7 projects: \$1,095,296

Housing Market Survey Grant Program Studies (cumulative as of 06/30/2024): 37 studies; \$264,470

Explanation of Program Costs

NDHFA's budget consists of grants to North Dakota low-to moderate-income residents and operating expenses associated with administering programs fully funded through federal and Agency generated revenue.

Included in Operating Fees and Services, object 621000, are servicing release premiums paid to participating lenders.

Professional services include legal, financial advisor, and audit expenses.

Program Goals and Objectives

NDHFA uses the following core priorities and goals as the compass for all future and ongoing business decisions capitalizing on leadership and organizational strengths. Each priority is supported by goals designed to be measurable, attainable and realistic to ensure desirable outcomes and managed expectations.

Homeownership: NDHFA helps North Dakotans achieve successful homeownership with homebuyer education, down payment and closing cost assistance, and affordable mortgage loans. More than 53,000 North Dakota households have achieved the dream of homeownership with the agency's support.

- Create and support access to affordable single-family housing and expand housing choices for low- to moderate-income individuals and families.
- Enhance the client and partner experience of homebuying through technological updates that will improve program performance.
- Proactively pursue strategic partnerships to support investment in affordable housing across the state.

Multifamily Development and Financing: NDHFA is charged with addressing the state's changing housing needs, including a shortage of housing for the state's workforce and low- to moderate-income households, and providing technical assistance to North Dakota communities struggling to address their housing needs. The Division is committed to providing financing for affordable rental housing and preserving existing affordable rental housing stock by supporting property improvements and extensions of rental assistance.

- Create and support access to affordable multifamily projects to expand housing choices for low- to moderate-income individuals and families.
- Cultivate strong, multi-sector partnerships to increase access to affordable housing for vulnerable populations.
- Support community and economic development, ensuring feasibility and long-term success to address the needs of vulnerable populations.

Compliance Monitoring: NDHFA provides regulatory oversight of privately-owned properties for thousands of individuals and families designed to provide modestly priced housing opportunities for low-income families, seniors, and individuals with disabilities. Working closely with federal agencies, NDHFA ensures that these rental housing options are safe, clean and accessible.

- Manage the multifamily portfolio for physical and financial conditions and fulfillment of regulatory guidelines.
- Create and improve training and technical assistance to strengthen multifamily housing monitoring and compliance practices while improving the customer and partner experience.

Collaboration: NDHFA leverages partnerships with local, state, federal and tribal entities, and the private and nonprofit sector to create and sustain affordable housing. Collaboration is essential to reach the public about services offered and to develop strategies for providing housing for the state's vulnerable populations.

- Improve marketing and outreach efforts to raise brand awareness of NDHFA to encourage public engagement in the creation and preservation of affordable housing.
- Take action on critical housing issues to address vulnerable population needs.

Staff Development: NDHFA's greatest resource are the people that come to work every day to administer our housing programs and provide the operational support to make the agency run smoothly. Ensuring that employees understand the importance of their role in the housing system and to create a culture of inclusivity and constant personal and professional improvement is vital to the success of the agency's mission.

- Identify and provide training and development opportunities that are tailored to strengthen employee skills and encourage personal and professional growth.
- Create a succession plan to develop a pool of trained employees to be able to fill key roles.
- Create a culture of employee engagement.

State Initiative:* Health, Vibrant Communities

Is this a Large IT project? No

473 Housing Finance Agency

Agency 473

Is this request for a new program or service? No

Request explanation and justification (include any statutory authority)*: NDHFA’s current serviced loans per FTE loan ratio is 988. Over the next three years, NDHFA anticipates loan servicing growth of 4% year after year, depending on market conditions. In 2027, the agency is projected to service 14,820 loans with 13 employees in Servicing (1,140 loans/FTE). Compared to the National Mortgage Bankers Association’s Loan Servicer report, NDHFA staff currently service 18% more loans per FTE than the private market.

Stringent regulatory requirements over the last couple of years have increased the workload and necessitates more staff to stay in compliance with regulations.

First-time homebuyer loans require more hands-on management to prevent delinquencies and help borrowers become successful homeowners. Higher levels of customer service and personalized interaction with borrowers increase the need for additional staff.

Necessary resources for implementation (including FTE’s)*: For NDHFA to be able to meet the demand of future low- to moderate-income homebuyers across the state, two additional FTEs are needed.

Are resources being redirected or are they new or additional (including FTE’s)*: Through organic market growth, NDHFA generates program revenue to fund additional FTEs.

Who is served and impact of not funding*: NDHFA provides housing solutions and stability for low- to moderate-income homebuyers and renters, and persons experiencing homelessness or at risk of homelessness. If NDHFA is not able to implement this Decision Package, operations will be negatively impacted, directly affecting financial gains and the agency’s ability to administer programs.

Without the additional FTEs, the agency would be forced to adjust business practices to slow down loan production, as direct costs, service release premiums, services fees and loan losses are non-negotiable expenses. Other consequences could include higher interest rates for future borrowers, a reduction in down payment and closing cost assistance, or loan servicing being conducted by out of state entities.

Technology - Business Analyst FTE (Priority: 02)

State Initiative*: Health, Vibrant Communities

Is this a Large IT project? No

Is this request for a new program or service? No

473 Housing Finance Agency

Agency 473

Request explanation and justification (include any statutory authority)*: To accommodate the demand for mortgages among low-to moderate-income homebuyers statewide, along with the number of programs administered by the agency, the agency needs one additional Business Analyst.

Necessary resources for implementation (including FTE's)*: For NDHFA to be able to meet the demand of the low- to moderate-income homebuyers across the state of North Dakota and continue to address the needs of the state's most vulnerable populations served through our various programs, one additional Business Analyst is needed.

Are resources being redirected or are they new or additional (including FTE's)*: Agency revenue and federal administration fees will be used to fund the new FTE.

Who is served and impact of not funding*: NDHFA provides housing solutions and stability for low- to moderate-income homebuyers and renters, and persons experiencing homelessness or are at risk of homelessness. If NDHFA is not able to implement this Decision Package, operations will be negatively impacted, directly affecting financial gains and the agency's ability to administer programs.

Accounting - Accountant FTE (Priority: 03)

	2023-25 Agency Request				2023-25 Executive Recommendation			
	Ongoing	One-Time	Total	FTE	Ongoing	One-Time	Total	FTE
Federal	-	-	-	0.00	-	-	-	0.00
General	-	-	-	0.00	-	-	-	0.00
Special	257,408	-	257,408	1.00	275,514	-	275,514	1.00
Total	257,408	-	257,408	1.00	275,514	-	275,514	1.00

State Initiative*: Health, Vibrant Communities

Is this a Large IT project? No

Is this request for a new program or service? No

Request explanation and justification (include any statutory authority)*: With the addition of the ND Homeless Grant and Emergency Solutions Grant over the last biennium along with the increase in the serviced mortgage portfolio and pipeline for new loans to be serviced, the workload can no longer be managed with the current staff level. To ensure the agency can meet its obligations when it comes to auditors, bond investors and other regulatory requirements an additional staff member is necessary.

Necessary resources for implementation (including FTE's)*: For NDHFA to continue to remain in compliance with federal agencies, bond investors and auditing requirements, one additional FTE is needed in accounting.

Are resources being redirected or are they new or additional (including FTE's)*: Agency revenue and federal administration fees will be used to fund the new FTE.

Who is served and impact of not funding*: NDHFA provides housing solutions and stability for low- to moderate-income homebuyers and renters, and persons experiencing homelessness or are at risk of homelessness. If NDHFA is not able to implement this Decision Package, operations will be negatively impacted, directly affecting financial gains and the agency's ability to administer programs.

Transfer ND Homeless Grant Funding to Housing Incentive Fund (HIF) (Priority: 04)

	2023-25 Agency Request				2023-25 Executive Recommendation			
	Ongoing	One-Time	Total	FTE	Ongoing	One-Time	Total	FTE

State Initiative:* Reinventing Government

Is this a Large IT project? No

Is this request for a new program or service? No

Request explanation and justification (include any statutory authority)*: The Housing Incentive Fund’s (HIF) NDCC 54-17-40.3 eligible activities include rental assistance, emergency assistance, barrier mitigation, or services designated to prevent or end homelessness.

HIF requires at least an annual report to the budget section of legislative management regarding the activities. HIF is an ongoing program and by transferring the ND Homeless Grant Funding to HIF, it allows the ND Homeless Grant to become permanent, but add accountability by requiring a report of activities. The Legislature may specify an amount for the ND Homeless Grant or permit the agency to determine an appropriate amount to be set aside from the total HIF appropriation.

The North Dakota Homeless Grant was funded in the amount of \$2.5 million in NDHFA’s 23-25 appropriation budget. NDHFA has included an increase of funding for the grant of \$7.5 million for a total support of homelessness of \$10 million.

Necessary resources for implementation (including FTE’s)*: NDHFA staff.

Are resources being redirected or are they new or additional (including FTE’s)*: No additional resources needed.

Who is served and impact of not funding*: The program transfer will provide continuity and stability to non-profit homeless providers.

Housing Incentive Fund (HIF) Funding (Priority: 05)

	2023-25 Agency Request				2023-25 Executive Recommendation

473 Housing Finance Agency

Agency 473

State Initiative:* Health, Vibrant Communities

Is this a Large IT project? No

Is this request for a new program or service? No

Request explanation and justification (include any statutory authority): North Dakota receives the small state minimum in federal funding for affordable housing. The funding does not adequately support the housing needs of the state. The Housing Incentive Fund (HIF) provides funding to support rural housing development and fill funding gaps for federally funded affordable development.

Necessary resources for implementation (including FTE's): Legislative appropriation.

Are resources being redirected or are they new or additional (including FTE's): Redirected.

Who is served and impact of not funding: HIF promotes housing development in both urban and rural communities. Without funding, affordable housing development will be drastically reduced.

ND Homeless Grant - Increase Funding (Priority: 06)

	2023-25 Agency Request				2023-25 Executive Recommendation			
	Ongoing	One-Time	Total	FTE	Ongoing	One-Time	Total	FTE
Federal	-	-	-	0.00	-	-	-	0.00

Total	7,500,000	-	7,500,000	0.00	7,500,000	-	7,500,000	0.00

State Initiative:* Health, Vibrant Communities

Is this a Large IT project? No

Is this request for a new program or service? No

Request explanation and justification (include any statutory authority): Federal funding for homeless programs remains stagnant, but the need for assistance continues to grow. FY23 and FY24 Emergency Solutions Grant and ND Homeless Grant application rounds were oversubscribed by \$6 million for the biennium.

Necessary resources for implementation (including FTE's): 1 FTE.

Are resources being redirected or are they new or additional (including FTE's): Both.

Who is served and impact of not funding: The program provides funding for emergency shelter operations, homeless prevention and rapid rehousing assistance to individuals experiencing homelessness or who are at risk of homelessness.

473 Housing Finance Agency

Agency 473

Costs of homelessness include increased use of emergency services, law enforcement, and health care systems.

ND Homeless Grant - Housing Program Administrator FTE (Priority: 07)

	2023-25 Agency Request				2023-25 Executive Recommendation			
	Ongoing	One-Time	Total	FTE	Ongoing	One-Time	Total	FTE
Federal	-	-	-	0.00	-	-	-	0.00

Total	213,880	-	213,880	1.00	-	-	-	0.00

State Initiative:* Health, Vibrant Communities

Is this a Large IT project? No

Is this request for a new program or service? No

Request explanation and justification (include any statutory authority)*: ND Homeless grant provides funding to non-profit organizations on a reimbursement basis. In order to provide appropriate oversight and monitor the expenditure of funds, an additional FTE is needed if funding is increased.

Necessary resources for implementation (including FTE's)*: 1 FTE.

Are resources being redirected or are they new or additional (including FTE's)*: New.

Who is served and impact of not funding*: The program provides funding for emergency shelter operations, homeless prevention and rapid rehousing assistance to individuals experiencing homelessness or who are at risk of homelessness.

State Initiative:* Reinventing Government

Explanation / Justification: The Housing Incentive Fund’s (HIF) NDCC 54-17-40.3 eligible activities include rental assistance, emergency assistance, barrier mitigation, or services designated to prevent or end homelessness.

HIF requires at least an annual report to the budget section of legislative management regarding the activities. HIF is an ongoing program and by transferring the ND Homeless Grant Funding to HIF, it allows the ND Homeless Grant to become permanent, but add accountability by requiring a report of activities. The Legislature may specify an amount for the ND Homeless Grant or permit the agency to determine an appropriate amount to be set aside from the total HIF appropriation.

The North Dakota Homeless Grant was funded in the amount of \$2.5 million in NDHFA’s 23-25 appropriation budget. NDHFA has included an increase of funding for the grant of \$7.5 million for a total support of homelessness of \$10 million.

Housing Incentive Fund (Priority: 5)

Description	Fund	BU-Dept	Fin Class	2023-25 Base Budget	2023-25 Optional Request		2023-25 Total Budget Request		2023-25 Executive Recommendation	
					Ongoing	One-Time	Ongoing	One-Time	Ongoing	One-Time
	001	473-1000	47379	-	-	40,000,000	-	40,000,000	-	-
Total				-	-	40,000,000	-	40,000,000	-	-

State Initiative:* Health, Vibrant Communities

Explanation / Justification: North Dakota receives the small state minimum in federal funding for affordable housing. The funding does not adequately support the housing needs of the state. The Housing Incentive Fund (HIF) provides funding to support rural housing development and fill funding gaps for federally funded affordable development.

HIF promotes housing development in both urban and rural communities. Without funding, affordable housing development will be drastically reduced.

ND Homeless Grant (Priority: 6)

Description	Fund	BU-Dept	Fin Class	2023-25 Base Budget	2023-25 Optional Request		2023-25 Total Budget Request		2023-25 Executive Recommendation	
					Ongoing	One-Time	Ongoing	One-Time	Ongoing	One-Time

Total				-	7,500,000	-	7,500,000	-	7,500,000	-

State Initiative:* Health, Vibrant Communities

Explanation / Justification: 1. Request explanation and justification

Federal funding for homeless programs remains stagnant, but the need for assistance continues to grow. FY23 and FY24 Emergency Solutions Grant and ND Homeless Grant application rounds were oversubscribed by \$6 million for the biennium.

The program provides funding for emergency shelter operations, homeless prevention and rapid rehousing assistance to individuals experiencing homelessness or who are at risk of homelessness.

Costs of homelessness include increased use of emergency services, law enforcement, and health care systems.

Statutory Authority

North Dakota Century Code 28-32-02, 32-40.2, 38-08, 38-08.1, 38-08-27, 38-11.2, 38-12, 38-12.1, 38-14.1, 38-15, 38-19, 38-22, 38-23, 38-24, 38-25-08, 38-25-11, 54-17, 54-17.2, 54-17.3, 54-17.6, and 57-61-01.5.

Agency Description

The Department of Mineral Resources is the primary source of information regarding the geology of North Dakota and is responsible for regulating all facets of petroleum production through enforcement of statutes, rules, and regulations of the Industrial Commission with regards to geophysical exploration, permitting of wells and treating plants, establishing well spacing for producing reservoirs, inspection of wells and facilities, approving enhanced oil recovery operations, ensuring proper plugging of all wells and site reclamation of all wells and facilities, and conducting hearings on oil and gas matters in a manner that will be most beneficial to the producer, royalty owner, and all citizens of the state. The Department of Mineral Resources maintains the state's core and sample library in Grand Forks, coordinates the State Fossil and State Mineral Collection, and disseminates geological information via the internet, maps, publications, presentations, tours, and field trips. The Department of Mineral Resources has statutory regulatory responsibilities for subsurface minerals, underground injection of fluids, carbon dioxide underground storage, oil well cores and drilling samples, coal exploration drilling, geothermal, paleontological resources, high-level radioactive waste, and underground storage and retrieval of nonhydrocarbons. The Department of Mineral Resources determines the geologic suitability of all proposed landfills, reviews the geology and paleontology of a variety of highway improvement projects as well as pipeline and transmission line corridors and other infrastructure projects, reviews the paleontology on Trust Lands tracts, and coordinates the State Fossil and State Mineral collections.

Agency Mission Statement

Through the Department of Mineral Resources, encourage and promote the development, production and utilization of minerals in the state in such a manner that will prevent waste, maximize economic recovery, assure that appropriate drilling and plugging operations are utilized that prevent the pollution of freshwater supplies by oil, gas, or saltwater and prevent blowouts, and fully protect the correlative rights of all owners to the end that the landowners, the royalty owners, the producers, and the general public realize the greatest possible good from these vital natural resources.

Through the Department of Mineral Resources, investigate and report the geology of North Dakota emphasizing the state's energy resources and stressing applied research, public service, dissemination of information, advisory work, and regulatory duties leading to the economic benefits or quality of life improvements for residents of the state, industry and other state, federal and local government agencies.

Through the Department of Mineral Resources, maintain the valuable oil and gas cores and samples at the core library and manage the State's Fossil Collection and Rock and Mineral Collection at the North Dakota State Museum for the benefit of the State's citizens.

Major Accomplishments

- 1 During Fiscal Year 2024 (July 1, 2023 - June 30, 2024), issued 838 oil well permits, heard 799 cases, wrote orders disposing of the cases, and permitted 12 seismic projects due to oil and gas production and activity.
- 2 Received Class VI Primacy from the United States Environmental Protection Agency (EPA) on April 24, 2018, which grants jurisdiction for the State of North Dakota to issue permits for the geologic storage of carbon dioxide. During Fiscal Year 2024 (July 1, 2023 - June 30, 2024), issued 1 carbon capture utilization and storage facility permit and issued 7 Class VI well permits due to carbon capture utilization and storage activity.

Major Accomplishments

- 3 During Fiscal Year 2024 (July 1, 2023 - June 30, 2024), the Geological Survey: answered more than 1,200 enquiries, published 474 articles, maps, and reports and gave 104 presentations on various aspects of North Dakota geology. Publication and presentation topics included: Topics included; landslides in North Dakota, the extent and thickness of the Opeche A and B salts for potential hydrocarbon storage, the critical mineral (including rare earth elements) concentrations in ND lignites and other rocks, the potash resources in northwestern North Dakota, the surface geology in the Bismarck and Fargo areas, the depth and thickness of the Sherack and Brenna Formations in the Red River Valley, management of the core workshop and presentations on the Opeche and Three Forks Formations at the 2024 Williston Basin Petroleum Conference, general geology and paleontology presentations to college students and students in grades 2-12, and tours of the paleontology laboratory and the ND State Fossil Collection, as well as Dakota (the mummified hadrosaur). Geological Survey paleontologists oversaw two woolly mammoth digs, discovered the remains of a juvenile Tyrannosaurus Rex, managed 44 days of public fossil digs, generated 81 fossil field jackets, prepared 160 field jackets, and added 4,669 fossils into the State Fossil Collection.
- 4 The Geological Survey issued geothermal, coal exploration, and subsurface mineral permits for 1,437 test holes; reviewed the geologic suitability of 348 infrastructure projects (roads, bridges, pipelines, transmission lines, and wind farms) and eight coal mine permits, and evaluated the paleontology on 579 State Trust Lands tracts.

Critical Issues

- 1 The need for additional staffing in the Department of Mineral Resources along with competitive salaries to retain skilled scientists, engineers, and experienced personnel.
- 2 Increasing environmental and reclamation workload on the Department of Mineral Resources as a result of federal and state legislation with no additional funding provided.
- 3 Increasing demands for detailed landslide mapping, critical mineral information, detailed surface and subsurface mapping, geologic reviews of infrastructure projects, and outreach demands throughout the state with insufficient of staff to meet demands.
- 4 Regulations that would remove the state from primacy of oil and gas development and specifically federal regulations that would ban hydraulic fracturing.
- 5 Regulations that would inhibit the State’s ability to continue policy implementing the current gas capture goals.
- 6 Efficiently manage the core and sample library.
- 7 Sufficient resources to respond to open records requests and to prepare documentation for litigation.

Performance Measures

PERMIT PROCESSING

The Oil and Gas Division has seen an increase in the number of drilling permit applications. The average permit processing time has remained steady, decreasing from 41 days in 2023 to 40 days in 2024; there are approximately 320 permit applications pending. Additional permitting considerations are continually analyzed, agency and industry turnover requires additional training of staff, and improved drilling rig efficiencies make it challenging to keep pace with permit demand.

UNDERGROUND INJECTION CONTROL

The Oil and Gas Division is seeing a steady number of permit requests for Underground Injection Control (UIC) wells (saltwater disposal wells and injection wells in enhanced recovery units) and thus the average permit processing time has remained steady, increasing from 68 days in 2023 to 69 days in 2024.

WELL AND SITE CONSTRUCTION REGULATION

The Oil and Gas Division witnesses a very high percentage of mechanical integrity tests and rigorously enforces well construction rules designed to protect underground sources of drinking water. Without this program newly drilled injection and temporary abandoned wells could have undetected mechanical problems that could endanger underground sources of drinking water.

The Oil and Gas Division regulates spill containment through diking and site construction rules.

For the past 20 years, the Geological Survey has consistently exceeded the goals set forth in its annual strategic plans.

PERMIT PROCESSING

The Geological Survey consistently issues coal exploration, subsurface mineral exploration, geothermal, and paleontological permits within seven business days of the day they are received.

CORE AND SAMPLE LIBRARY

The Geological Survey provides same business day response for requests from industry to study core in our facility or to ship the core to an approved out-of-state facility. A major expansion of the core library was completed in September 2016.

OUTREACH-CUSTOMER SERVICE

The DMR website contains links to over 4,900 Geological Survey publications (articles, maps, and reports) as well as other scientific information for access by industry, government, and the general public. The Geological Survey continues to provide a number of outreach activities (both in person and virtual presentations, tours, fieldtrips, fossil excavations, rock and fossil displays, core workshops, website material, etc.) on various aspects of North Dakota's geology. The tours of our paleontology laboratory and the geologic exhibits at the Heritage Center, as well as the public fossil dig program, are our biggest sources of outreach. During the first 12 months of the current biennium, our geologists gave 104 in-person-presentations to 2,523 industry geologists and engineers, teachers, K-12 students, undergraduate and graduate college students, and other interested people ranging from service clubs to professional conferences such as the Williston Basin Petroleum Conference, American Association of Petroleum Geologists, Geologic Society of America, public fossil digs, public meetings, tours of the paleontology laboratory and collection, and fieldtrips throughout North Dakota.

Program Statistical Data

The Oil and Gas Division currently regulates approximately 27,108 active oil, gas, and injection wells, permitted wells, and plugged and abandoned wells that have not been released from bond, and 18 Treating Plants. During Fiscal Year 2024 (July 1, 2023 – June 30, 2024) permitted 842 new and re entry wells and 12 geophysical exploration projects involving approximately 255 square miles and over 59,000 source points.

Oil and gas production has remained steady during the 2023-2025 biennium and is currently approximately 1,175,000 barrels of oil per day, 3,473,000 thousand cubic feet (MCF) per day, and 2,200,000 barrels of water per day. Approximately 3% of oil production is from active enhanced recovery units. Oil prices have remained somewhat steady at approximately \$71 per barrel, but federal regulatory overreach creates uncertainty that inhibits capital investment needed to increase oil production. The Oil and Gas Division expects oil price to remain steady and oil production to slightly increase during the second half of the 2023-2025 biennium.

During Fiscal Year 2024, the Oil and Gas Division heard nearly 800 cases, approximately 50% higher than pre Bakken activity.

The Wilson M. Laird Core and Sample Library contains more than 92 miles of core (487,300 feet) which equates to 162,550 core boxes and 54,348 sample boxes (three feet long). Since 1984, industry and academic scientists using the core library have studied 1.2 million feet of core. Over the last 20 years we have photographed 256,000 feet of core and 19,600 thin sections, generating 540,000 photographs for the ND Oil and Gas Division subscription website. These core photographs have been used by our geologists as well as industry geologists and engineers to promote the North Dakota portion of the Williston Basin at regional and national meetings and in national publications.

We answered 1,217 enquiries during the first half of the 2023-2025 biennium. These enquiries came from industry, geotechnical consultants, state and federal agencies, municipalities, and citizens on a variety of topics from general geology questions to specific questions regarding oil-bearing rocks (including the Piper, Spearfish, Opeche, Mission Canyon, Charles, Bakken, and Three Forks), landslides, coal reserves, critical minerals in North Dakota coals, potash resources, shallow salt deposits in ND, the sand deposit potential for proppant, clay, scoria, sand & gravel, gold, meteorites, geothermal, and paleontology.

Survey scientists performed 348 geologic reviews of proposed infrastructure projects (transmission and pipeline corridors, highway and bridge construction, wind farms, etc.) as well as paleontological assessments of 579 Trust Land tracts during the first half of the current biennium. The Geological Survey issued, 56 coal exploration, geothermal, subsurface mineral, and paleontological resource assessment permits over the last twelve months. A total of 1,437 test holes were drilled under these permits during this time period.

Explanation of Program Costs

General Fund budgeted costs are primarily salaries and benefits (83% for the Oil and Gas Division). Federal funds for protection of fresh water supplies are increasing slightly, although program costs continue to rise due to inflation and federal environmental mandates. However, the agency continues to have statutory responsibilities to protect fresh water supplies.

Operating budgets are primarily Travel (46%), over three-fourths of which is state fleet vehicle mileage for field work, Lease/Rent (21%) for the Bismarck office, warehouse, and three Oil and Gas Division field offices, and IT (15%) three-fourths of which is Information Technology Department (ITD) data processing.

The Geological Survey's requested budget is greater than 99% general funds and is less than 1% federal funds. Budget costs are primarily salary and benefits (81%).

The operating budget consists primarily of Lease/Rent (22%) for the Bismarck office and warehouse. Other items in our budget are indicative of the agency's role in providing services necessary to meet the objectives of collecting and disseminating geologic data, overseeing regulatory programs, managing the core library, and providing geologic information. The items of greater costs include travel (26%), primarily for fieldwork, and IT costs (20%) including data storage and processing, telephone, contractual services, and maintenance contracts on GIS and other specialized geologic software programs.

Program Goals and Objectives

Goals for the Oil and Gas Division are to effectively and efficiently accomplish the statutory responsibilities of the Industrial Commission for the regulation of oil and gas drilling, pipelines, geologic storage of carbon dioxide and gas, geophysical exploration, development, and production in a manner that will be most beneficial to the producer, royalty owner, citizens of the state; and to facilitate electronic storage of and access to oil and gas production, carbon dioxide storage, pipeline, reservoir, well, and geophysical exploration data to be used by industry, royalty owners, and other governmental agencies.

The objectives of the Oil and Gas Division are to continue providing the timely engineering, geological, and legal analyses necessary for the Industrial Commission to effectively and efficiently enforce North Dakota's oil and gas conservation statutes; continue the effective field supervision of drilling, geophysical exploration, production of oil and gas, underground injection, geologic storage of carbon dioxide and gas, oil, gas, and produced water pipelines, and reclamation of lands

474 Mineral Resources

Agency 474

disturbed by oil and gas development; implement electronic filing of oil and gas information; and improve storage and access to computerized geophysical exploration, production, and well information data to industry, royalty owners, other governmental agencies, and the public.

Goals for the Geological Survey are to continue providing detailed information on the surface and subsurface geology of North Dakota to citizens, industry, municipalities, and other state and federal agencies; to identify, collect and display important fossils of North Dakota; to efficiently administer regulatory programs; and to disseminate educational geologic material to the general public.

The objectives of the Geological Survey are to map the entire surface geology of the State of North Dakota at a scale of 1:12,000 (identifying landslides and other geohazards) and the subsurface at a scale of 1:100,000, to perform mineral assessments of areas of interest identified by industry including rare earth element concentrations and the other critical minerals, identify sand deposits that have potential as proppant sand, to effectively manage the core and sample library and to provide core workshops to train the next generation of scientists working in the Williston Basin, to photograph all oil core and thin sections for the ND Oil and Gas subscription site, to continue to provide timely responses to industry requests for access to cores and samples, to provide additional opportunities for citizens of the state to participate in public fossil digs and other geotourism ventures, to exhibit dinosaur and Ice Age mammal fossils at various localities around the State, to continue to issue regulatory permits in a timely fashion, and to continue to provide scientific outreach to the mineral industry, other state and federal natural resource agencies, and the citizens of North Dakota.

State Initiative:* Other

Is this a Large IT project? No

Is this request for a new program or service? No

Request explanation and justification (include any statutory authority)*: All of the Department of Mineral Resources 2023-25 biennium inflation items were given a one time funding status. For this reason, the prior inflationary amounts were deducted in creating the 2025-27 base budget. With the continued inflationary increase, there is now an even greater request to cover the total inflationary amounts.

The Oil and Gas Division has an inflationary increase in motor pool costs. Fleet Services budget guidelines require budgeting for \$0.69/mile which equates to an increase of \$1,236,230. This amount includes \$776,522 for inflation from the 2023-25 biennium (change from \$0.23/mile to \$0.56/mile) and \$459,708 for the 2025-27 biennium (change from \$0.56/mile to \$0.69/mile).

The Oil and Gas Division has an inflationary increase in lease payments of \$59,257. This amount includes \$41,814 for inflation from the 2023-25 biennium and \$17,443 for the 2025-27 biennium.

The Oil and Gas Division has an inflationary increase in Information Technology Department (ITD) data processing and telephone costs of \$124,812. These are additional costs on top of the data processing costs allowed by OMB.

The Oil and Gas Division has an inflationary increase in fire resistant safety clothing required for field staff to conduct inspections of \$28,250.

The Geological Survey has an inflationary increase in motor pool costs of \$57,132. This amount includes \$34,820 for inflation from the 2023-25 biennium and \$22,312 for the 2025-27 biennium.

The Geological Survey has an inflationary increase in ITD costs of \$74,786 (mostly in IT software licenses over \$5,000 and ITD telephone costs). This amount includes \$10,614 for inflation from the 2023-25 biennium and \$64,172 for the 2025-27 biennium.

The Geological Survey has an inflationary increase in lease costs of \$15,765. This amount includes \$7,167 for inflation from the 2023-25 biennium and \$8,598 for the 2025-27 biennium.

474 Mineral Resources

Agency 474

The Geological Survey also has increased inflation costs of \$12,876 per the OMB Guidelines: \$1,120 in office supplies (10% OMB), \$1,000 in postage (10% OMB), \$3,280 in additional printing costs for the newsletter and other publications (10% OMB), \$7,406 for insurance (20% of the FY22 Insurance increase, OMB), and \$70 for advertising services (7% OMB).

In order to absorb these inflationary increases and meet the Executive budget 3% reduction, the Department of Mineral Resources had to make the following adjustments:

Oil and Gas Division will be required to close the three district offices located in Dickinson, Minot, and Williston to cut lease expenses by \$352,150; and will be required to cut travel by \$1,492,391 (\$1,236,230 of this is Fleet Services inflation).

The closing of the three district offices will have a severe impact on our field staff, affecting over thirty employees. Restoring funding for the offices will provide a location for efficient synchronization of inspector data to our main database, contact between the general public and local Oil and Gas Division employees, for inspectors to complete written correspondence, and for senior staff to have discussions with and mentor less experienced field staff improving morale and facilitating knowledge transfer and succession planning. The restoration of funding will also be beneficial to the Governor's Main Street Initiative.

To offset the necessary travel reductions, the number of field inspections will have to be reduced by 70% at a time when industry consolidation has led to an ever-changing workforce requiring additional guidance and supervision. The increased efficiency of drilling rigs means they need to be inspected more frequently and there are an increasing number of wells, with a new record typically set every month creating an ever-increasing workload. The loss of the ability to do onsite inspections will further complicate the Oil and Gas Division's efforts to conserve and protect the natural resources of North Dakota, to prevent waste, and to facilitate operations in such a manner that protects correlative rights. The reduction of inspections could result in inadequate protection of underground sources of drinking water. The combined closing of the district offices and reducing the number of inspections means field staff will literally have no place to go during the workday.

Restoring the operating expenses and adjusting for inflation will allow the Oil and Gas Division to continue to provide necessary service levels to the public and the oil and gas industry.

Geological Survey will be required to make \$297,133 in reductions. To offset the necessary reductions, the Geological Survey will have to reduce levels of regulatory inspections; curtail fieldwork at a time when there is a high demand for our rare earth element study results and our study into the feasibility of using North Dakota sands as proppant in Bakken and Three Forks completions; reduce the identification of landslides related to current and future impacts on infrastructure; reduce our public fossil dig program despite the strong demand from both in state and out of state participants; and travel to give presentations to various in state groups with occasional travel to national meetings to present work being done in North Dakota.

Restoring the operating expenses will allow the Geological Survey to return to normal levels of regulatory inspections, fieldwork related to a variety of projects (rare earth, proppant sand, and landslide inventory), continued expansion of the paleontology public digs program, and travel to give presentations to various in state groups with occasional travel to national meetings to present work being done in North Dakota.

Necessary resources for implementation (including FTE's)*: Oil and Gas Division: Total needed for restoration of 3% cuts and inflationary increases is \$1,872,791.

Geological Survey: Total needed for restoration of 3% cuts and inflationary increases is \$362,610.

Are resources being redirected or are they new or additional (including FTE's)*: Resources needed include general funding for restoration of 3% cuts and inflationary increases in operating expenses.

474 Mineral Resources

Agency 474

Who is served and impact of not funding*: General public, surface owners, mineral owners, and the oil and gas industry. The impact of not funding is the inability to perform essential job functions, field inspections, and meet with industry, surface owners, mineral owners, and other stakeholders.

Position Conversion to Geologist (Priority: 02)

	2023-25 Agency Request				2023-25 Executive Recommendation

State Initiative*: Economic Development/Diversification

Is this a Large IT project? No

Is this request for a new program or service? No

Request explanation and justification (include any statutory authority)*: The number of infrastructure reviews that the Geological Survey performs has nearly doubled in recent years. We performed an average of 175 geologic reviews per year between 2017 – 2021. In 2021 and 2022, that average jumped to 320 and at the midpoint of the 2023-2025 biennium, we are on pace to perform over 400 reviews. The requests for geological reviews of infrastructure projects comes from ND DOT, engineering and geotechnical consulting firms, municipal planning groups, and federal agencies.

NDCC 54-17.4-02 Survey Responsibilities. 5. ... review externally prepared reports pertaining to geological aspects of the health and safety of the citizens and environment of the state. 11. Provide technical advice and assistance concerning the geology of the state to local, state, and federal governmental agencies and to state educational institutions.

Necessary resources for implementation (including FTE's)*: Currently, we have one person dedicated to this program along with obligations to a half dozen other programs and projects. At the current and projected levels, we need an additional person dedicated to the geological reviews of infrastructure program.

Are resources being redirected or are they new or additional (including FTE's)*: We can generate an additional FTE to assist with this rapidly growing program by converting an existing Administrative Assistant position to a surface geologist. The new surface geologist would focus on the geologic reviews of infrastructure projects.

Who is served and impact of not funding*: In the past, these reviews have identified landslides within the proposed infrastructure corridor as well as underground mines which required the project to be rerouted or additional safeguards to be taken. In addition to safeguarding the health and welfare of the general public, these reviews potentially save companies and taxpayers millions of dollars in disrupted infrastructure repairs. If the existing Administrative Assistant position is not converted to a surface geologist, the increase in time it will take for one person to review the ever increasing number of infrastructure projects will lead to an inevitable delay in review responses.

474 Mineral Resources

Agency 474

Permitting Position (Priority: 03)

	2023-25 Agency Request				2023-25 Executive Recommendation			
	Ongoing	One-Time	Total	FTE	Ongoing	One-Time	Total	FTE
Federal	-	-	-	0.00	-	-	-	0.00
General	154,871	7,160	162,031	1.00	167,072	7,160	174,232	1.00
Special	-	-	-	0.00	-	-	-	0.00
Total	154,871	7,160	162,031	1.00	167,072	7,160	174,232	1.00

State Initiative:* Economic Development/Diversification

Is this a Large IT project? No

Is this request for a new program or service? No

Request explanation and justification (include any statutory authority)*: This optional request is for an additional Permitting Technician position in the Bismarck office. Due to the increased efficiency of drilling rigs, issuing an adequate number of permits to allow for the inventory necessary to keep them operating without interruption requires timely review, analysis, and processing of the data submitted to ensure compliance with regulations. At current staffing levels there are approximately 300 permit applications waiting to be approved and it is a struggle to keep pace with demand and issue the number of permit applications necessary to grow production.

Necessary resources for implementation (including FTE's)*: This optional request is for one additional FTE at a cost of \$151,144 in salaries plus \$10,887 in operating expenses.

Are resources being redirected or are they new or additional (including FTE's)*: This optional request requires additional general funds for one new FTE.

Who is served and impact of not funding*: General public, mineral owners, and the oil and gas industry. A potential impact of not funding would result in the inability to issue enough permits to keep pace with the drilling rigs potentially resulting in rigs moving out of state and not enough new oil wells being drilled to grow production, thereby impacting state revenues.

Class VI Programmer (Priority: 04)

	2023-25 Agency Request				2023-25 Executive Recommendation			
	Ongoing	One-Time	Total	FTE	Ongoing	One-Time	Total	FTE
Federal	-	-	-	0.00	-	-	-	0.00

State Initiative:* Economic Development/Diversification

474 Mineral Resources

Agency 474

Is this a Large IT project? No

Is this request for a new program or service? No

Request explanation and justification (include any statutory authority)*: This optional request is for a Class VI database programmer position in the Bismarck office. With North Dakota being the first state to receive Class VI primacy and the only state to have active Class VI injection projects, it is imperative to develop a database to monitor and manage Class VI wells and facilities. The United States Environmental Protection Agency has made available to North Dakota a \$1,930,000 grant to be used for operation of a Class VI primacy program. The Oil and Gas Division intends to apply for this grant and pool a portion of it with other states through the Ground Water Protection Council to develop a Class VI database.

Necessary resources for implementation (including FTE's)*: This optional request is for one additional FTE at a cost of \$214,236 in salaries plus \$10,887 in operating expenses.

Are resources being redirected or are they new or additional (including FTE's)*: This optional request requires additional general funds for one new FTE.

Who is served and impact of not funding*: General public, surface owners, the carbon capture utilization and storage industry, the coal industry, the ethanol industry, the oil and gas industry, researchers, state agencies, and other government and political subdivisions. Not funding will greatly impact the Oil and Gas Division's ability to monitor and track the plethora of data associated with Class VI wells and facilities and efficiently implement the Class VI program. Potential impacts of not funding are the inability to perform essential job functions, track field inspections efficiently, and efficiently monitor data to ensure compliance with regulations, protect underground sources of drinking water, protect public health and safety, and protect correlative rights.

Paleo Tech (Priority: 05)

	2023-25 Agency Request				2023-25 Executive Recommendation			
	Ongoing	One-Time	Total	FTE	Ongoing	One-Time	Total	FTE
Federal	-	-	-	0.00	-	-	-	0.00
General	207,262	9,210	216,472	1.00	-	-	-	0.00
Special	-	-	-	0.00	-	-	-	0.00
Total	207,262	9,210	216,472	1.00	-	-	-	0.00

State Initiative*: Economic Development/Diversification

Is this a Large IT project? No

Is this request for a new program or service? No

Request explanation and justification (include any statutory authority)*: Since 2016, the popularity of the Public Fossil Dig Program has dramatically increased and continues to sell out within minutes each year. In response, we have tripled the number of registration spots we offer each year. However, the interest from both in state and out-of-state participants continues to grow and grow.

474 Mineral Resources

Agency 474

NDCC 54-17.4-02 Survey Responsibilities. 3. Conduct investigations designed to promote the public understanding of the state’s natural setting and natural resources. NDCC 54-17.4-09. State geologist – Specimens collected – Exhibited – Exchanged. The state geologist shall cause proper specimens, skillfully prepared, secured, and labeled, of ... fossils, and other earth materials discovered or examined in the course of the geological surveys to be preserved for public inspection.

Necessary resources for implementation (including FTE’s)*: A new FTE (paleontology technician) assigned to the Public Fossil Dig Program would enable us to increase the number of available registration spots from 600 to 840 (a 40% increase) increasing the number of tourists traveling within North Dakota as well as bringing in additional out-of-state tourists. Additional costs associated with expanding the Public Fossil Dig Program will be covered by registration fees collected from the additional 240 spots.

Are resources being redirected or are they new or additional (including FTE’s)*: We don’t currently have the staff to enable us to greatly expand the Public Fossil Digs Program. The expansion of the fossil dig program would require us to add one new FTE to help oversee the larger groups that we would be adding at each of the four public dig sites.

Who is served and impact of not funding*: Half of the Public Fossil Dig participants come from within North Dakota and the other half come from all over the U.S. as well as a few foreign countries. Questionnaires regarding what the participants have done or plan to do both before and after the digs have shown that both in state and out-of-state participants routinely spend 3-7 days vacationing in the surrounding area in North Dakota. For many of the out-of-staters, it is their first time in North Dakota and they want to see what North Dakota has to offer. The tourism industry in North Dakota stands to benefit from the resulting increase in tourists. The public fossil program will be unable to expand if the additional FTE is not forthcoming.

Equity Adjustment (Priority: 06)

	2023-25 Agency Request				2023-25 Executive Recommendation			
	Ongoing	One-Time	Total	FTE	Ongoing	One-Time	Total	FTE
Federal	-	-	-	0.00	-	-	-	0.00
General	805,800	-	805,800	0.00	250,000	-	250,000	0.00
Special	-	-	-	0.00	-	-	-	0.00
Total	805,800	-	805,800	0.00	250,000	-	250,000	0.00

State Initiative*: Employer of Choice

Is this a Large IT project? No

Is this request for a new program or service? No

Request explanation and justification (include any statutory authority)*: This optional request is due to a great need to pay competitive salaries for experienced personnel. There exists a tremendous inequity between the salaries paid by our agency and the salaries paid by the oil and gas industry. The Oil and Gas Division continues to see field inspection turnover and a lack of applicants due to the lower salary amount. During the 2021-2023 biennium and into the existing biennium, we have experienced a turnover rate in our field personnel of approximately 39%.

The average wage in 2022 (the most recent calendar year available) for support actives NAICS Code 213 was \$114,625 (\$9,552/month). The average wage for an Oil and Gas Division field inspector position is \$5,764, meaning they are earning approximately 60% of what they could make in the private sector for equivalent work. It

474 Mineral Resources

Agency 474

is crucial we be able to pay competitive salaries to retain experienced personnel in an attempt to mitigate employee motivation to leave and join the oil and gas industry; therefore, we are proposing an equity pool to address the inequity that exists between our agency and industry.

Necessary resources for implementation (including FTE's)*: This optional request is for equity funding of \$805,800 in salaries to retain these valuable experienced employees on staff to handle an ever-increasing workload.

Are resources being redirected or are they new or additional (including FTE's)*: This optional request requires additional general funds to address retention needs.

Who is served and impact of not funding*: General public, surface owners, mineral owners, and the oil and gas industry. Potential impacts of not funding are the inability to perform essential job functions, perform timely inspections to meet field inspection and drilling rig inspection goals, have experienced personnel witness tests, well plugging operations, and pipeline installations, and have experienced personnel meet with industry's ever-changing workforce to provide additional guidance and supervision, meet with surface owners, mineral owners, and other stakeholders, all of which will enhance the protection and conservation of our natural resources and underground sources of drinking water, protection of correlative rights, improve safety, enhance the prevention of waste, and ensure regulations are followed.

Mineral Analysis (Priority: 07)

	2023-25 Agency Request				2023-25 Executive Recommendation			
	Ongoing	One-Time	Total	FTE	Ongoing	One-Time	Total	FTE
Federal	-	-	-	0.00	-	-	-	0.00
General	100,000	-	100,000	0.00	-	100,000	100,000	0.00
Special	-	-	-	0.00	-	-	-	0.00
Total	100,000	-	100,000	0.00	-	100,000	100,000	0.00

State Initiative*: Economic Development/Diversification

Is this a Large IT project? No

Is this request for a new program or service? No

Request explanation and justification (include any statutory authority)*: The Geological Survey routinely sends out both surface and near-surface rocks as well as rock cores obtained from thousands of feet beneath the surface to laboratories for analysis. The resulting analysis are then incorporated into our maps and reports. This is one of the areas where we are routinely short of funding and have to scale back analysis or go without. The Geological Survey's critical minerals project requires laboratory rock analyses and there are 50 critical minerals. The Geological Survey has a number of current and future core studies planned on the rocks from the Mission Canyon Formation, Lodgepole, Bakken, Three Forks, and Birdbear Formations, as well as shallow salts, that require a variety of core analyses (total organic carbon, vitrinite reflectance, visual kerogen analysis, x-ray diffraction, SEM, etc.

NDCC 54-17.4-02. Survey – Responsibilities. 1. Serve as the primary source of geological information in the state.

We are requesting that this one-time funding be made a permanent increase in operating.

474 Mineral Resources

Agency 474

Necessary resources for implementation (including FTE's)*: There are no requests for new FTE's associated with this request.

Are resources being redirected or are they new or additional (including FTE's)*: We don't have an internal source of funding that we can redirect to cover these analyses. This work would not create a need for additional FTE's.

Who is served and impact of not funding*: The oil & gas industry, coal industry, critical mineral companies, geotechnical and engineering firms, professors and college students, as well as the potential impact on the citizens of North Dakota. This permanent funding would enable us to routinely do more in-depth studies that would more thoroughly answer questions for industry as well as other state and federal agencies.

If the funding for analytical work is not forthcoming, we will be unable to expand the scope of current and future projects requiring analysis.

Temp (Priority: 08)

	2023-25 Agency Request				2023-25 Executive Recommendation			
	Ongoing	One-Time	Total	FTE	Ongoing	One-Time	Total	FTE
Federal	-	-	-	0.00	-	-	-	0.00
General	45,000	-	45,000	0.00	-	-	-	0.00
Special	-	-	-	0.00	-	-	-	0.00
Total	45,000	-	45,000	0.00	-	-	-	0.00

State Initiative:* Workforce

Is this a Large IT project? No

Is this request for a new program or service? No

Request explanation and justification (include any statutory authority)*: Since 2004, we have been hiring students at the University of North Dakota to photograph core and thin sections for the Oil and Gas Subscription site. So far, we have photographed 256,000 feet (52% of the core in the Wilson M. Laird Core and Sample Library) and generated 393,000 photographs for the subscription site. We have also photographed 19,600 thin sections generating 151,000 photomicrographs for the web site.

NDCC 54-17.4-02. Survey – Responsibilities. 10. Operate and maintain a public repository for rock specimens, rock cores, well cuttings, and associated data.

One third of the money has been coming from the Geological Survey's temporary salary fund and two thirds from the Reservoir Data Fund. However, the monies we had been using from the Reservoir Data Fund are being diverted to complete the NorthStar oil and gas tracking and reporting system and then will be used to pay for ITD storage of DMR data. It now appears that money will continue to be diverted to NorthStar even further into the future.

Necessary resources for implementation (including FTE's)*: During the last legislative session, we were given a permanent infusion of \$45,000 in temporary salaries to help offset our source of funding to pay college students to photograph core. An additional \$45,000 in temporary salaries would get us closer to being fully funding for the core and thin section photography project.

474 Mineral Resources

Agency 474

Are resources being redirected or are they new or additional (including FTE's)*: These are existing temporary positions, it is the funding mechanism that is going to continue to be redirected in the foreseeable future due to additional needs and costs in the NorthStar oil and gas tracking and reporting system.

Who is served and impact of not funding*: Oil and gas industry scientists and engineers as well as professors and graduate students at the University of North Dakota and other universities throughout the country (Colorado School of Mines, Colorado State University, St Lawrence University, University of Minnesota – Moorhead, etc) use these photographs in their studies of the rocks in the Williston Basin.

If we do not receive the additional funding for temporary employees in the core library, it will take approximately 20 years to complete photographing all of the core in the core library rather than 10 years.

Professional Development (Priority: 09)

	2023-25 Agency Request				2023-25 Executive Recommendation			
	Ongoing	One-Time	Total	FTE	Ongoing	One-Time	Total	FTE
Federal	-	-	-	0.00	-	-	-	0.00
General	57,000	-	57,000	0.00	-	-	-	0.00
Special	-	-	-	0.00	-	-	-	0.00
Total	57,000	-	57,000	0.00	-	-	-	0.00

State Initiative*: Employer of Choice

Is this a Large IT project? No

Is this request for a new program or service? No

Request explanation and justification (include any statutory authority)*: Oil & Gas Division:

The Interstate Oil and Gas Compact Commission (IOGCC) serves as the collective voice of member states on oil and gas issues and initiates innovative projects to advance our nation's energy future. The Ground Water Protection Council (GWPC) serves as the collective voice of member states on underground injection issues and promotes research and the use of best management practices and fair but effective laws regarding comprehensive ground water protection. It is critical that the State of North Dakota participates in these organizations, and the participants from the Oil and Gas Division are considered national experts, serving in leadership roles. It is necessary to cross-train Oil and Gas Division employees due to employee attrition, which requires attendance of additional conferences and therefore the payment of conference fees.

The Oil and Gas Division's Agency Policy Manual allows for reimbursement of up to 80% of tuition fees to regular employees who attend training or education courses that do not qualify as job-related training, although no monies are currently directly allocated for tuition fees in the budget.

Geological Survey:

We cut funds for meetings during budget cuts a couple of bienniums ago. Prior to that, Geological Survey geologists routinely presented the results of their work at regional and national meetings where they could learn from the presentations of other scientists, attend special training classes, core workshops, and fieldtrips.

474 Mineral Resources

Agency 474

Necessary resources for implementation (including FTE's)*: Oil & Gas Division:

This optional request would provide \$15,000 in additional operating expenses to allow additional employees to attend job-related conferences during the 2025-2027 biennium, and would provide \$15,000 in additional operating expenses to allow tuition reimbursement as allowed by the agency tuition reimbursement policy; requests would be evaluated to ensure equitable access and agency needs were prioritized. Total additional cost is \$30,000.

Geological Survey:

The \$27,000 increase in funding would enable the 14 Survey geologists to attend national or regional scientific meetings presenting on their work. These presentations can encourage other scientists to do an expanded study on a North Dakota topic which will often bring them to North Dakota to do fieldwork or visit our core and sample library.

Are resources being redirected or are they new or additional (including FTE's)*: Oil & Gas Division:

This optional request provides additional general funds of \$30,000 for professional development and for tuition fee reimbursement.

Geological Survey:

This optional request requires additional general funds of \$27,000. No other resources would be redirected, and this would require no additional FTE's.

Who is served and impact of not funding*: Oil & Gas Division:

Participation in the IOGCC and the GWPC benefits the Oil and Gas Division, general public, oil and gas industry, surface owners, and mineral owners. Potential impacts of not funding are additional costs to the State of North Dakota since the IOGCC and GWPC address emerging national trends and issues, allow for the interaction of state employees to understand the regulatory practices of states with similar issues, missing out or going it alone on programs like Class VI and the Infrastructure Investment and Jobs Act grants for plugging orphan wells, and lower employee morale and lower employee retention. Attendance of additional conferences and workshops will keep morale high and make employees more valuable for retention and possible promotion. Additional training/courses should help employees better serve those persons they are assisting, especially the general public, oil and gas industry, surface owners, and mineral owners.

Geological Survey:

These conferences provide a learning opportunity for Geological Survey scientists. Additionally, after giving a presentation, the feedback from the audience is typically very insightful. If we do not receive this funding, we will not be able to attend these types of meetings during the 2025 2027 biennium.

Reclamation Techs (Priority: 10)

	2023-25 Agency Request				2023-25 Executive Recommendation			
	Ongoing	One-Time	Total	FTE	Ongoing	One-Time	Total	FTE
Federal	-	-	-	0.00	-	-	-	0.00
General	748,430	51,495	799,925	3.00	263,549	17,165	280,714	1.00

	2023-25 Agency Request				2023-25 Executive Recommendation			
	Ongoing	One-Time	Total	FTE	Ongoing	One-Time	Total	FTE

Total	748,430	51,495	799,925	3.00	263,549	17,165	280,714	1.00

State Initiative:* Workforce

Is this a Large IT project? No

Is this request for a new program or service? No

Request explanation and justification (include any statutory authority)*: The reclamation program is critical to provide oversight to ensure the successful completion of restoring sites after properly plugging wells and decommissioning facilities. NDCC Ch 38-08; Ch 38-08.1; Ch 38-22. Regulations require land to be reclaimed as close as practicable to its original condition as it existed before the construction of the well site or other disturbance. One reclamation inspector currently inspects all reclaim projects throughout the entire state and there are currently approximately 2,800 sites in various stages of reclamation. Hiring three reclamation inspectors, one in each district, is necessary ensure reclamation projects are conducted successfully and timely.

There has been increased demand for reclamation oversight due to recent funding from federal grants and the Oil and Gas Division’s efforts to plug orphan wells. While the federal grant money covers the cost of the reclamation, Oil and Gas Division personnel must inspect the process as it is being performed, conduct a final inspection for bond release, as well as process Notices of Intent to Reclaim and Final Reclamation reports. The newly acquired Infrastructure Investment and Jobs Act Phase 1 Formula Grant covers five years and will allow for restoration of legacy brine ponds. During winter months, when reclamation work is put on hold, these positions will work as field inspectors conducting well and facility inspections.

Necessary resources for implementation (including FTE’s)*: This optional request is for three additional FTEs at a cost of \$554,660 in salaries plus \$245,265 in operating expenses. This change will allow the Oil and Gas Division to manage programs and personnel more effectively and efficiently. The reclamation specialists are needed to manage the current reclamation workload and the future work on the legacy brine ponds.

Are resources being redirected or are they new or additional (including FTE’s)*: This optional request requires additional general funds for three new FTEs.

Who is served and impact of not funding*: Surface owners, general public, and the oil and gas industry. Potential impacts of not funding are inadequate oversight of reclamation projects and untimely inspection of projects resulting in delays in bond release. Delays in bond release can directly impact the oil and gas industry requiring the furnishing of an additional blanket bond in order to receive additional drilling permits if their current bond has more than six non-compliant wells.

Drilling Project Phase II (Priority: 11)

	2023-25 Agency Request				2023-25 Executive Recommendation			
	Ongoing	One-Time	Total	FTE	Ongoing	One-Time	Total	FTE
Federal	-	-	-	0.00	-	-	-	0.00
General	150,000	350,000	500,000	0.00	-	100,000	100,000	0.00

474 Mineral Resources

Agency 474

	2023-25 Agency Request				2023-25 Executive Recommendation			
	Ongoing	One-Time	Total	FTE	Ongoing	One-Time	Total	FTE

Total	150,000	350,000	500,000	0.00	-	100,000	100,000	0.00

State Initiative:* Economic Development/Diversification

Is this a Large IT project? No

Is this request for a new program or service? No

Request explanation and justification (include any statutory authority)*: For the past nine years we have been collecting coal and rocks associated with coal-bearing formations in order to determine the critical mineral concentrations of these rocks. We had an abundance of outcrops in the Little Missouri River Badlands, but outside of this area there are fewer outcrops. For that reason, we designed a drilling program that was comprised of 75 Trust Land tracts across 10 counties in western North Dakota. With an average of two potential drill sites per 160-acre tract, it is possible to drill 150 test holes in these tracts. We were awarded \$500,000 during the 68th ND Legislative Session to drill and core 50 test holes to obtain rock cores that could be analyzed for critical mineral concentrations.

NDCC 54-17.4-02 Survey Responsibilities. 3. Conduct investigations designed to promote the public understanding of the state’s natural setting and natural resources.

Necessary resources for implementation (including FTE’s)*: An additional \$500,000 in operating funds would enable the Geological Survey to complete a Phase II drilling program by utilizing the tracts that were not drilled on during the Phase I drilling program. A second phase drilling program would likely only be justifiable if we were able to find coal beds within the stratigraphic range that we had targeted and that these coals contained elevated levels of rare earth elements along with other critical minerals. We will know the positions of the coals during the drilling program, but will not see any of the analytical data until November 2024. No FTE’s are requested for this project expansion.

Are resources being redirected or are they new or additional (including FTE’s)*: Four of the five geologists who would be working on the drilling project will be pulled off of other Geological Survey projects. The project costs are sufficiently high that the work can only be done with one-time funding. No FTE’s are requested for this project expansion.

Who is served and impact of not funding*: The critical minerals industry, coal companies, the Nation because these elements are crucial to national defense and the U.S. economy, ND Trust Lands, and the citizens of North Dakota.

Without the additional funding, no further critical mineral drilling will take place by the Geological Survey.

Excavation of a Woolly Mammoth (Priority: 12)

	2023-25 Agency Request				2023-25 Executive Recommendation			
	Ongoing	One-Time	Total	FTE	Ongoing	One-Time	Total	FTE
Federal	-	-	-	0.00	-	-	-	0.00

	2023-25 Agency Request				2023-25 Executive Recommendation			
	Ongoing	One-Time	Total	FTE	Ongoing	One-Time	Total	FTE
General	-	300,000	300,000	0.00	-	300,000	300,000	0.00
Special	-	-	-	0.00	-	-	-	0.00
Total	-	300,000	300,000	0.00	-	300,000	300,000	0.00

State Initiative:* Economic Development/Diversification

Is this a Large IT project? No

Is this request for a new program or service? No

Request explanation and justification (include any statutory authority)*: In 1988, the Geological Survey was called to northwestern North Dakota to investigate the report of woolly mammoth bones being encountered while digging the foundation for a garage on a farmstead in Burke County. Unfortunately, the slab had already been poured and the garage was completed. The homeowner gave permission for us to cut out the slab, remove the bones, and replace the slab if it could be done within a four-week timespan. Unfortunately, we were unable to find the funding or the personnel to work on it on such short notice. Last winter, we reached out to the current homeowner and obtained permission for the Geological Survey and the State Historical Society of North Dakota to perform ground penetrating radar and resistivity across the site as well as to make a small excavation. The May 2024 surveys indicated an area of interest on the north side of the garage and the small excavation confirmed the presence of three intact bones as well as the chips of mammoth bones and tusks in the foundation backfill. We are returning to the site in late September to excavate the area on the north side of the garage and to determine if bones continue under the garage.

NDCC 54-17.4-09 State geologist – Specimens collected – Exhibited – Exchanged. The state geologist shall cause proper specimens, skillfully prepared, secured, and labeled, of ...fossils, and other earth materials discovered or examined in the course of the geological surveys to be preserved for public inspection free of cost.

Necessary resources for implementation (including FTE's)*: We have the necessary workforce to accomplish the paleontological portion of the excavation, but will need the \$300,000 to hire a construction company to remove a portion of the garage slab (collecting the concrete dust), backfill and compact the area that is disturbed beneath the slab, put down new rebar and tie it into the existing slab, compensate the homeowner for the major inconvenience. After the fossils are collected, stabilizing chemicals will need to be purchased to soak the fossils and prevent them from crumbling from exposure to the air.

Are resources being redirected or are they new or additional (including FTE's)*: We would be directing all four of our paleontological staff and redirecting at least one geologist to assist with the excavation.

Who is served and impact of not funding*: Individual woolly mammoth bones have been found in North Dakota, but a skeleton never has. The scientific value of a complete or partial skeleton would be immeasurable, especially since it would be coming at a time when the Commerce Dept. awarded \$3,000,000 in loan and venture funds to Colossal Biosciences Inc. to further their research into cloning a woolly mammoth. This specimen could be sampled to help further that project. The citizens of North Dakota would be the ultimate group that would be served by such a discovery.

If we are unable to obtain the funding, we will be unable to move forward with the excavation.

474 Mineral Resources

Agency 474

Enhanced Oil Recovery Project (Priority: 13)

	2023-25 Agency Request				2023-25 Executive Recommendation			
	Ongoing	One-Time	Total	FTE	Ongoing	One-Time	Total	FTE
Federal	-	-	-	0.00	-	-	-	0.00

State Initiative:* Economic Development/Diversification

Is this a Large IT project? No

Is this request for a new program or service? No

Request explanation and justification (include any statutory authority)*: This optional request is for well data evaluation, database modification, presentations, conference attendance, ongoing software costs, and publications to promote the feasibility of enhanced oil recovery. In addition to the Bakken play, North Dakota has many conventional reservoirs that are suitable for enhanced oil recovery but the operators that would be candidates to implement such projects are often small and may not have the resources to perform evaluations.

Necessary resources for implementation (including FTE's)*: Total estimated costs for implementation would be \$15,000 in operating expenses. This includes Software licenses at \$3,000 and other operating costs at \$12,000.

Are resources being redirected or are they new or additional (including FTE's)*: This optional request requires additional general funds.

Who is served and impact of not funding*: General public, surface owners, mineral owners, and the oil and gas industry. Potential impacts of not funding are missed opportunities to reinvigorate old oil fields where the primary production has been recovered and loss of revenue from additional reserves that could be produced if an enhanced oil recovery project is implemented or improved, thereby impacting state revenues.

Paleontology Lab (Priority: 14)

474 Mineral Resources

Agency 474

Is this a Large IT project? No

Is this request for a new program or service? No

Request explanation and justification (include any statutory authority)*: The Geologic Time Gallery in the Heritage Center opened to the public in 2014. In the years since, we have received numerous requests to place a laboratory in the gallery where visitors could watch paleontologists prepare fossil specimens. These viewing laboratories are present in paleontological museum galleries around the World and are always very popular attractions.

NDCC 54-17.4-09 State geologist – Specimens collected – Exhibited – Exchanged. The state geologist shall cause proper specimens, skillfully prepared, secured, and labeled, of ...fossils, and other earth materials discovered or examined in the course of the geological surveys to be preserved for public inspection free of cost.

Necessary resources for implementation (including FTE's)*: Existing Geological Survey staff can do the first phase of planning by identifying the area available in the existing gallery for a laboratory as well as a list of the needed items, and a mockup of the space. However, \$250,000 will be needed to hire an architect to draw up the plans, bids will be let, and a contractor and construction firms will have to be contracted to complete the work. New lab equipment will also be purchased to outfit the lab.

Are resources being redirected or are they new or additional (including FTE's)*: No other resources are required (no additional FTE's) beyond the \$250,000 to pay for the architects plans and the construction costs. Current staff will be rotated between our existing fossil preparation lab and this new viewable lab to ensure both are staffed at all times.

Who is served and impact of not funding*: The 200,000 visitors that come annually to the Heritage Center including school-aged children and young adults.

We will not be able to add the laboratory without the additional funding.

Portable XRF (Priority: 15)

	2023-25 Agency Request				2023-25 Executive Recommendation			
	Ongoing	One-Time	Total	FTE	Ongoing	One-Time	Total	FTE
Federal	-	-	-	0.00	-	-	-	0.00

State Initiative:* Technology Investment

Is this a Large IT project? No

Is this request for a new program or service? No

Request explanation and justification (include any statutory authority)*: A portable X-ray fluorescence machine (XRF) was purchased in 2022 so that Survey personnel and industry scientists could use it to analyze for elements in rock core in the Wilson M. Laird Core and Sample Library. The XRF was purchased using donations from the

474 Mineral Resources

Agency 474

ND Petroleum Council. Geological Survey geologists in the surface and paleontology sections have since demonstrated the analyzer is very useful in their work on critical minerals and dinosaur skin evaluation. This piece of equipment would be used to supplement the analytical work that could be generated by the analytical fund.

NDCC 54-17.4-02 Survey Responsibilities. 2. Investigate, describe, and interpret the geological setting of the state with special reference to economic products.

Necessary resources for implementation (including FTE's)*: The \$45,000 for the purchase of a portable X-ray fluorescence machine (XRF) is the only resource required. Many of the Survey geologists have already been trained into the use of this piece of analytical equipment.

Are resources being redirected or are they new or additional (including FTE's)*: Currently, we don't have the available funding or the authorization to purchase this capital asset.

Who is served and impact of not funding*: Various mineral industries, including the coal, critical mineral, and ceramic brick industries, geotechnical and engineering firms, state and federal agencies, and the farmers and ranchers on whose land these rocks are often sampled from.

Not purchasing the portable XRF will reduce the scope of our studies and it is possible we might miss a chemical or mineralogical trend because we did not have sufficient data points.

Litigation (Priority: 16)

	2023-25 Agency Request				2023-25 Executive Recommendation			
	Ongoing	One-Time	Total	FTE	Ongoing	One-Time	Total	FTE
Federal	-	-	-	0.00	-	-	-	0.00
General	-	3,000,000	3,000,000	0.00	-	3,000,000	3,000,000	0.00
Special	-	-	-	0.00	-	-	-	0.00
Total	-	3,000,000	3,000,000	0.00	-	3,000,000	3,000,000	0.00

State Initiative:* Other

Is this a Large IT project? No

Is this request for a new program or service? No

Request explanation and justification (include any statutory authority)*: North Dakota must remain prepared to lead efforts in the courts to protect its jurisdiction to regulate the oil and gas industry and litigate when necessary to prevent the negative impact onerous federal rules would have on the industry. There is an onslaught of federal rules being promulgated by the United States Environmental Protection Agency, the Bureau of Land Management, and other federal agencies meant to hinder the oil and gas industry and the coal industry, and the Department of Mineral Resources is currently involved in several litigation and rule comment efforts, as well as challenges from within the state. Regulation is best from those closest to the regulated.

The Sixty-Eighth Legislative Assembly appropriated \$3,000,000 from the general fund to the Department of Mineral Resources for the purpose of defraying oil and gas litigation expenses associated with current/possible litigation and other administrative proceedings involving the United States Environmental Protection Agency,

474 Mineral Resources

Agency 474

the Department of Interior, and other federal government efforts to prevent or limit oil and gas production. Many additional litigation concerns are being considered. Over \$850,000 has been expended during the current biennium with ten months remaining.

Necessary resources for implementation (including FTE's)*: The Sixty-Ninth Legislative Assembly should consider a one-time appropriation of \$3,000,000 in operating expenses, or so much of the sum as may be necessary, to the Department of Mineral Resources for the purpose of defraying expenses associated with current/possible litigation and other administrative proceedings involving any effort to prevent or limit oil and gas production, or any other activity currently under the jurisdiction of the Department of Mineral Resources.

Are resources being redirected or are they new or additional (including FTE's)*: This optional request requires additional general funds.

Who is served and impact of not funding*: General public, surface owners, mineral owners, and the oil and gas industry. A potential impact of not funding is if just one of these harmful federal regulations are implemented it could have devastating effects on industry and thus on state revenues.

NDIC Assessment (Priority: 17)

	2023-25 Agency Request				2023-25 Executive Recommendation			
	Ongoing	One-Time	Total	FTE	Ongoing	One-Time	Total	FTE
Federal	-	-	-	0.00	-	-	-	0.00
General	115,000	-	115,000	0.00	115,000	-	115,000	0.00
Special	-	-	-	0.00	-	-	-	0.00
Total	115,000	-	115,000	0.00	115,000	-	115,000	0.00

State Initiative:* Other

Is this a Large IT project? No

Is this request for a new program or service? No

Request explanation and justification (include any statutory authority)*: Entities within the control of the Industrial Commission are directed to make transfer payments to the Industrial Commission fund for administrative services rendered by the Commission. Before July 1, 2023, the Department of Mineral Resources and the Industrial Commission were considered one agency, and the Department of Mineral Resources provided all of the IT and financial services to the Industrial Commission. For this reason, the Department of Mineral Resources was not directed to make transfer payments to the Industrial Commission. Since the split of the two agencies, the Department of Mineral Resources no longer provides the services and will now be expected to make transfer payments. Transfers must be made during the biennium beginning July 1, 2025, and ending June 30, 2027, upon order of the Commission.

Necessary resources for implementation (including FTE's)*: The exact amount of transfer is unknown at this time, but based on the Sixty Eighth Legislative Assembly HB 1014, Section 8, the Department of Mineral Resources must pay an estimated 6.3% of the Industrial Commission's estimated \$1,818,114 appropriated budget, amounting to \$115,000. Once the final appropriation amount for agency 405 is determined, the correct amount needed for the transfer can be determined.

Are resources being redirected or are they new or additional (including FTE's)*: This optional request requires additional general funds.

474 Mineral Resources

Agency 474

Who is served and impact of not funding*: The Industrial Commission would have to increase transfer amounts from the other commission agencies.

IIJA Formula Grant Admin Contract (Infrastructure, Investment & Jobs Act) (Priority: 18)

	2023-25 Agency Request				2023-25 Executive Recommendation			
	Ongoing	One-Time	Total	FTE	Ongoing	One-Time	Total	FTE
Federal	-	2,400,000	2,400,000	0.00	-	1,444,377	1,444,377	0.00
General	-	-	-	0.00	-	-	-	0.00
Special	-	-	-	0.00	-	-	-	0.00
Total	-	2,400,000	2,400,000	0.00	-	1,444,377	1,444,377	0.00

State Initiative*: Economic Development/Diversification

Is this a Large IT project? No

Is this request for a new program or service? No

Request explanation and justification (include any statutory authority)*: Section 40601 of the Bipartisan Infrastructure Law (BIL; Public Law 117-58) creates a plugging, remediation, and reclamation program within the Department of the Interior (DOI) to address orphaned wells. Subsection (c)(4) provides formula grants for states, the funding of which will be used to plug, remediate, and reclaim orphaned wells located on State-owned or privately-owned land, provide information on the use of funds to the public, and administer the program of work identified in the grant agreement. The Formula Grant funds in the amount of \$25,000,000 will cover administrative costs in the amount of \$2,406,989 and plugging and reclamation contract costs in the amount of \$22,593,011.

N.D.C.C. §38-08-04 and N.D.A.C. §43-02-03

The Oil and Gas Division manages orphaned well plugging and reclamation. One of the Oil and Gas Division's goals is to prevent environmental impacts of aging infrastructure by decreasing the number of inactive and abandoned wells in North Dakota while strategically managing North Dakota's Abandoned Oil and Gas Well Plugging and Site Reclamation Fund (AWPSRF).

The Oil and Gas Division strives to monitor and prevent possible liabilities where the State of North Dakota would need to cover the costs of plugging, decommissioning, remediation, or reclamation of abandoned wells and sites. Tactically applying these grant funds will meet the goals of reducing the environmental and financial impact of abandoned oil and gas assets on North Dakota taxpayers. Seventy percent of these Formula Grant funds will be used to remediate pre 1983 brine spill and brine pond sites in North Central North Dakota.

Necessary resources for implementation (including FTE's)*: There is no additional general fund cost as no match, cost-share, or maintenance of effort is required for this grant. Because the previous biennium appropriation was through the Emergency Commission and Budget Section, the Department of Mineral Resources is requesting approval for a federal fund appropriation of \$2,400,000. (Note: the \$22,593,011 will be deposited into AWPSRF as allowed in NDCC 38-08-04.5(c).)

Are resources being redirected or are they new or additional (including FTE's)*: No resources are needed, just appropriation authority.

474 Mineral Resources

Agency 474

Who is served and impact of not funding*: General public, surface owners, mineral owners, and the oil and gas industry. Not allowing the appropriation authority would prevent the Department of Mineral Resources from utilizing the grant.

Ordinary High Water Mark (Priority: 19)

State Initiative:* Other

Is this a Large IT project? No

Is this request for a new program or service? No

Request explanation and justification (include any statutory authority)*: The 65th Legislative Session SB 2134 Ordinary High Water Mark case is still ongoing and continue to require expert witness testimony. For this reason, a carryover of unexpended funds to the 2025-27 biennium is requested. It is anticipated that the cases will be finalized during the upcoming biennium and any remaining funds will be turned back to the Strategic Investment and Improvements Fund. As of August 30, 2024, the current balance is \$341,295.

Necessary resources for implementation (including FTE's)*: No additional resources are needed.

Are resources being redirected or are they new or additional (including FTE's)*: Requesting carryover authorization for the sum of \$800,000 appropriated from the Strategic Investment and Improvements Fund to the Department of Mineral Resources for a survey review in section 2 of chapter 426 of the 2017 Session Laws and continued into the 2019-21 biennium pursuant to section 27 of chapter 14 of the 2019 Session Laws and into the 2021-23 biennium pursuant to section 33 of chapter 42 of the 2021 Session Laws and into the 2023-25 biennium pursuant to section 27 of chapter 14 of the 2023 Session Laws.

Who is served and impact of not funding*: General public, surface owners, mineral owners, and the oil & gas industry. Not allowing the carryover would prevent the Department of Mineral Resources from procuring necessary expert witness testimony.

State Initiative:* Technology Investment

Justification: A portable X-ray fluorescence machine (XRF) was purchased in 2022 so that Survey personnel and industry scientists could use it to analyze for elements in rock core in the Wilson M. Laird Core and Sample Library. The XRF was purchased using donations from the ND Petroleum Council. Geological Survey geologists in the surface and paleontology sections have since demonstrated the analyzer is very useful in their work on critical minerals and dinosaur skin evaluation. This piece of equipment would be used to supplement the analytical work that could be generated by the analytical fund.

Statutory Authority

North Dakota Century Code Chapter 54-18.

Agency Description

The North Dakota State Mill & Elevator Association started operations in 1922 and serves as a foundation for value-added economic development in the state, promotes the export for North Dakota wheat, and returns a percentage of its annual profits to the state general fund. The Mill is located in Grand Forks.

Agency Mission Statement

The Mission of the North Dakota Mill is to:

Promote and provide support to the North Dakota agriculture, commerce and industry.

Provide superior quality, consistency and service to our customers.

Grow the business and provide a profit to our owners - the citizens of North Dakota.

Conduct our business with the highest integrity so that our employees, customers, suppliers and owners are proud to be associated with the North Dakota Mill.

Major Accomplishments

1 Achieved sales of 17.5 million hundredweights of flour in FY 2024.

2 Purchased over 37.2 million bushels of spring wheat and durum in FY 2024.

3 Achieved record profits of \$20.7 million in FY 2024.

Critical Issues

1 Volatile grain markets impact on the cost of raw materials.

2 Inflationary conditions impact our plant operations and costs. Energy, insurance and freight costs remain volatile. Interest rates continue to be elevated.

3 Rules and on-going regulatory changes regarding Food Safety and Security.

Performance Measures

The North Dakota Mill:

1.) seeks to be the leader in quality and service for the milling industry

2.) manufactures flour to bakery specifications from hard red spring wheat

3.) manufactures durum flour and semolina to pasta manufacturer's specifications from hard amber durum

475 State Mill and Elevator

Agency 475

4.) seeks to develop new, value added products to enhance the growth and profitability of the North Dakota Mill

Program Statistical Data

The North Dakota Mill:

- 1.) purchases and mills 42,000,000 bushels of spring and durum wheat annually
- 2.) produces and sells 19,500,000 hundred weights of finished product of which approximately 80% is bulk and 20% is bagged
- 3.) will provide employment for approximately 170 people

Explanation of Program Costs

A major part of the budget is wages and benefits for the 170 employees to mill over 42,000,000 bushels of grain into 19,500,000 hundred weights of flour and semolina. Utilities and repairs are the next largest expense categories. Electrical usage is high as several motors of various sizes are used in running the terminal and mill. Costs of repairs and operating supplies are those required to keep the terminal and mill running at peak efficiency. Other expenses includes advertising and promotional expense, data processing expense, insurance, communications, employee expense, and postage. Agriculture promotion is money spent on general promotion that is not tied specifically to mill products. All funds are generated through operations, and when necessary bank loans for the Bank of North Dakota are used. No General Funds are required.

Program Goals and Objectives

North Dakota Mill will:

- 1.) Purchase and mill 40,000,000 bushels per year of North Dakota grown spring and durum wheat.
- 2.) Realize profits in order to maintain the facilities in top operating condition.
- 3.) Return a portion of the profits to the General Fund.

State Initiative:* Other

Is this a Large IT project? No

Is this request for a new program or service? No

Request explanation and justification (include any statutory authority)*: The North Dakota Mill & Elevator Association is requesting additional funding in order to continue to grow our business. Additional funds are needed to increase our production to full capacity. In fiscal year 2024 we produced 17.5 million hundredweights of flour. With our 10 current milling units we have approximately 20.0 million hundredweights of capacity. In order to increase the units produced each year we will have increased manufacturing and operating costs.

We are also requesting two additional FTEs. Both positions are for car checkers. These positions move, clean, and load railcars and trucks with flour to ship to customers. With the additional capacity we need more employees to complete the cleaning of vessels and the loading of the flour. These two positions would bring the 2nd shift load out, and third shift load out to five person crews to maximize efficiencies.

Necessary resources for implementation (including FTE's)*: There are no additional resources necessary.

Are resources being redirected or are they new or additional (including FTE's)*: No

Who is served and impact of not funding*: Customers of the North Dakota Mill & Elevator Association. Without an increase in funding we will be unable to continue to grow our business.

Statutory Authority

North Dakota Century Code Title 65.

Agency Description

Workforce Safety & Insurance (WSI) was established in 1919 as an exclusive state fund for workers compensation insurance. Today, North Dakota is one of four remaining monopolistic workers compensation systems in the United States. The others are Ohio, Washington, and Wyoming.

WSI, a state entity, functions as the sole provider of workers compensation insurance in the state of North Dakota. WSI receives no general fund dollars and is funded entirely by employer premiums. There are no provisions for self-insurance or private insurance for purposes of workers compensation. If a business has significant contacts in North Dakota, they must insure with WSI.

WSI has 260 authorized full-time employees (FTE's). Claims for occupational injury and disease are filed with WSI and adjudicated by in-house agency claims analysts. WSI processes approximately 20,000 new claims per year. WSI services over 25,400 employers with a covered workforce of approximately 391,500 workers. Annual earned premiums were approximately \$182 million in Fiscal Year 2024.

Agency Mission Statement

We believe exceptional people, exceptional service and financial stability allow us to live out our values of being loyal, caring and forthright as we work to create a safe, secure and healthy North Dakota workforce. Our business of workers' compensation and safety services enables us to fulfill our purpose of caring for injured workers.

Major Accomplishments

-
- 1 Exceptional employees and positive work environment.

 - 2 North Dakota's benefit structure is set by statute and compares very favorably to other jurisdictions.

 - 3 Premium rates continue to be the lowest in the nation and were reduced for the 9th consecutive year.

 - 4 WSI offers fair payment for medical and hospital services and ensures injured employees have access to quality healthcare.

 - 5 WSI is financially stable. Investment returns averaged 4.23% over the past ten years and total dividends issued 19 out of the last 20 years have amounted to \$1.8 billion.

 - 6 WSI continues to provide and enhance policyholder safety and loss control programs, helping both employers and employees recognize and correct safety hazards. WSI recently launched the Get Home Safe campaign. Injury rates have fallen by 29% over the last decade, bringing them to historic lows.

 - 7 WSI continues to maintain a low administrative expense ratio of approximately 22%. Workers' compensation industry expense ratios are approximately 25%.

 - 8 There are few disputes and WSI has low litigation. Less than 1% of decisions issued proceed to an administrative court hearing.

 - 9 Medical cost containment is maintained through medical and hospital fee schedules, utilization review, medical bill review, and pharmacy formularies.

 - 10 WSI has a great return to work program. Time-loss claims account for approximately 13% of total claims in North Dakota compared to 20% in other jurisdictions.

Critical Issues

-
- 0 Continued Development of Claims & Policy System (CAPS) – The goal of CAPS is to replace WSI’s core business system software with web-based technology in order to improve customer service, enhance system maintainability and provide enhanced reporting and accessibility to information.
 - 0 Continued Development of myWSI – The goal of myWSI is to create a secure, self-service portal for external customers and stakeholders to view, update, submit and retrieve information relating to interactions with WSI.
-

Performance Measures

100 Employer Services

Some of the key performance measures employed by Employer Services include:

Average annual premium rate adjustment

Number of employer accounts

WSI covered workforce

200 Administrative Services

Some of the key performance measures maintained and monitored by Administrative Services functions include:

Net Earned Premium (millions)

Net Position / Fund surplus

Premium Dividends (millions)

FTE Authority

Available Fund Surplus Ratio

300 Injury Services

The work performed in WSI’s Injury Services unit can be measured in various ways. Some of the key performance measures include:

Wage-loss claims filed

Total claims filed

Total claims filed per 100 Covered Workers

485 Workforce Safety and Insurance

Agency 485

Wage-loss claims filed per 100 Covered Workers

Total paid claim costs (millions)

400 Executive

The following statistics are measured and monitored by WSI's management and/ or Board of Directors:

Net Position / Fund surplus

Litigation Rate

Investment returns

General and Administrative Expenses

Explanation of Program Costs

100 Employer Services

The Employer Services division is charged with billing and collecting the appropriate amount of premium to pay for medical and disability expenses, and overall administrative expenses. Each employer pays a premium based on the payroll of the number of people they employ and the type of work those employees do.

Key activities of the employer services area are underwriting new applications for coverage, processing policies upon renewal, and collecting unpaid premium.

The Employer Services division has a Safety and Loss prevention department which helps prevent injuries and assists employers in providing the safest workplace possible. Employer Services includes policyholder services and loss control activities. The requested budget will support the current staffing level for Employer Services. The appropriation will provide funding for salaries and wages, and operating expenses.

200 Administrative Services

The Administrative Services division provides services to the organization that keep the core functions operating efficiently and effectively. Departments include Facility Management, Finance, Information Services, and Human Resources.

300 Injury Services

The Injury Services division area provides services to injured workers and works with medical providers. This division is a key part of WSI's Core Purpose of "caring for injured workers." This is done through the timely handling of claims, providing "return to work" services including vocational rehabilitation, nurse case management, and the review and payment of medical bills. This area also includes Pharmacy Services, Customer Service and Office Services.

485 Workforce Safety and Insurance

Agency 485

400 Executive

The Executive division's programs include the WSI board of directors, Executive management, Communications, Quality Assurance, Legal Services, Special Investigations, Internal Audit and the Decision Review Office. The requested budget will support the current staffing level for the Executive division. The appropriation will provide funding for salaries and wages and operating expenses.

Program Goals and Objectives

100 Employer Services

Some of the major functions of the Employer Services division are underwriting applications for coverage, processing policies upon renewal, and collecting unpaid premium. Employer Services has a Safety and Loss prevention department which helps prevent injuries and assists employers in providing the safest workplace possible.

Primary goals and objectives include ensuring employers are paying accurate premiums for their employed workforce, educating employers and employees on safety issues, and providing policyholder service and education to employers.

200 Administrative Services

Each of the Administrative Services departments directly manage specific activities to help the agency accomplish its core purpose.

The Finance Department manages the financial condition of the agency through control of general and administrative expenses, and monitors and reports on the fund surplus and invested assets. Finance is responsible for the annual financial audit, employee payroll and benefit administration, contract administration, budget and internal control monitoring, and financial statement preparation.

The purpose of the Information Technology (IT) department is to provide high quality, reliable and cost-effective information management products and services that support the core purpose of WSI.

Facility Management maintains a good work environment and building maintenance.

300 Injury Services

The main focus of the Injury Services division is to fulfill WSI's Core Purpose of "caring for injured workers." This is accomplished through the timely handling of claims and payment of medical and indemnity bills and includes Return to Work services such as vocational rehabilitation and medical case management.

This division also includes Pharmacy Management, Customer Service, and Office Services.

400 Executive

The Executive division provides overall management and strategic guidance to the organization. Key activities in this area include the direction of the agency, management of personnel, finances, equipment and facilities. In addition, legislation and legal matters are monitored; as are relationships and partnerships with key stakeholders and the public.

485 Workforce Safety and Insurance

Agency 485

The Executive Division monitors the overall financial condition of the organization including the net position / fund surplus, invested assets, general and administrative expenses, as well as employee management including turnover.

Quality Assurance provides WSI and external customers with statistical reports and data. This department coordinates process improvement throughout the agency as needed.

The Communications department projects the image of the organization internally and externally.

The Decision Review Office provides an alternative dispute resolution process for injured workers that may be aggrieved with a decision.

The Internal Audit department assists in assuring WSI is providing quality service to our customers and following our laws, policies and procedures.

The Legal department keeps various parts of the organization functioning by providing legal advice and fulfilling legal procedures required by North Dakota law. The Special Investigations department reviews cases that may involve employer, injured worker, or medical provider fraud and/or abuse.

State Initiative:* Reinventing Government

Is this a Large IT project? No

Is this request for a new program or service? No

Request explanation and justification (include any statutory authority)*: • WSI is a one line item, special fund agency that is funded through employer premiums (no general fund dollars).

- WSI operates efficiently with the majority of the appropriated dollars going to salaries and benefits. WSI’s administrative expense ratio is about half of what you would see in the industry.
- As a special fund agency, any unused money at the end of the biennium goes back into the WSI fund. WSI has historically been frugal with budget resources with the balance at the end of each biennium returning to the WSI fund. Based on current forecast, WSI is projecting a savings of \$1.2 million for the current 23-25 biennium.
- The Governor recommended agencies reduce their budgets by 3%. WSI identified additional budget reductions in the amount of \$1.4 million. With these reductions, we are still short of the 2025-27 base budget limit set by OMB by \$3,056,907. We are asking for the \$3 plus million to be restored through this decision package request.

485 Workforce Safety and Insurance

Agency 485

- WSI operates like a business and staff levels fluctuate as business needs change. The number of employer accounts is at an all-time high. As our customer base increases, it is vital that we have sufficient funding to staff and perform our operations to meet our purpose of caring for injured workers as well as serving the businesses of this state.
- WSI was given a budget adjustment of \$315,976 for the significant NDIT rate increases. Based on WSI's calculation, the NDIT rate increases amount to an increase of \$613,955 for the 25-27 biennium, a shortage of \$297,979.
- WSI is financially strong, has returned approximately \$100 million/year to ND business in the form of dividends (nearly \$2 billion over the last 20 years); maintains the lowest premium rates in the country; has high customer satisfaction; and has been a high performing organization. It has been a significant economic development engine for the state.
- For the reasons outlined, WSI respectfully requests budget dollars be restored to ensure its operations continue to function at a high level.

Necessary resources for implementation (including FTE's)*: Special funds – WSI is a special fund agency.

Are resources being redirected or are they new or additional (including FTE's)*: No

Who is served and impact of not funding*: Policyholders

Injured Employees

Stakeholders

Building Improvements (Priority: 04)

	2023-25 Agency Request				2023-25 Executive Recommendation			
	Ongoing	One-Time	Total	FTE	Ongoing	One-Time	Total	FTE
Federal	-	-	-	0.00	-	-	-	0.00
General	-	-	-	0.00	-	-	-	0.00

Total	-	2,000,000	2,000,000	0.00	-	2,000,000	2,000,000	0.00

State Initiative*: State Facility Investment

Is this a Large IT project? No

Is this request for a new program or service? No

Request explanation and justification (include any statutory authority)*: The 1999 Legislative Assembly authorized the purchase or construction of an office building. The office building was substantially complete in June 2003. The 2001 Legislative Assembly amended the authorization to include office space for tenants. The building is at capacity with WSI staff and tenants.

485 Workforce Safety and Insurance

Agency 485

In 2020 the Century Center was part of a statewide real estate study and assessment of state-owned buildings initiated by OMB and conducted by Sitemlogiq. The purpose of the study was to develop a Long-Term Facility Maintenance plan by identifying and prioritizing Facility Improvement Measures. During the 21-23 legislative session, WSI requested and received funding to complete 3 areas of concern noted on this study. For the 25-27 biennium, WSI is requesting funding to complete a couple more of the items noted and to address other building updates that are needed.

Flooring is original to the building which was installed in 2003. The flooring is showing its age throughout the building with noticeable wear in high traffic areas.

The building's roof is original to the building which was constructed in 2003. The warranty ended in 2018.

A refresh of the restrooms throughout the building as the bathrooms are original to the building and the counters are showing signs of wear.

Necessary resources for implementation (including FTE's)*: Special fund one time funding request.

Are resources being redirected or are they new or additional (including FTE's)*: No

Who is served and impact of not funding*: WSI staff and tenants are impacted by the state of the building.

State Initiative:* Technology Investment

485 Workforce Safety and Insurance

Agency 485

Is this a Large IT project? Yes

Is this request for a new program or service? No

Request explanation and justification (include any statutory authority)*: The justification for our conversion: CAPS will be a migration of our legacy PowerBuilder, client-based applications to a .NET framework which is an open-source platform which accepts multiple coding languages and features that make it easy to build applications for mobile devices, desktop, the web and Internet. We were unable to do that with PowerBuilder. With this migration we will:

- 1) Improve internal and external communication.
- 2) Increase online interactivity for WSI's stakeholders and partners.
- 3) Streamline processes related to information from/to external audiences.

Necessary resources for implementation (including FTE's)*: The necessary resources come from several departments:

- 1) Injury Services (SME, Testers, Trainers)
- 2) Administrative Services (SME, Testers, IT staff)
- 3) Employer Services (SME, Testers, Trainers)
- 4) NDIT (IT staff)
- 5) Contracted Services (Service Logic)

We are targeting completion of the last release of CAPS in mid-2031. This is only a target; each release/project is baselined (a firm schedule set) as it draws near. This is the iterative approach endorsed by large project oversight. The date could shift if we encounter unforeseen complexities or additional resource constraints during releases in the 25-27 biennium.

Program Start Date Jul-2015

Current Estimated End Date* May-2031

Program Total Spent to-date \$19,380,599.13

Total Est'd Expenditures for Duration \$18,314,701.23

Total Program Cost Estimate at Completion \$37,695,300.36

Total Spent to-date 2023-25 Biennium \$2,190,686

485 Workforce Safety and Insurance

Agency 485

Est'd Expenditures for 2023-25 Biennium \$5,025,031

Est'd Funding Need for 2025-27 Biennium \$5,156,751

WSI Budget Contingency \$51,572

Are resources being redirected or are they new or additional (including FTE's)*: Resources, in addition to their current job duties, have also had to pick up the additional workload required to make the project a success.

Who is served and impact of not funding*: The citizens of North Dakota, Employers, Providers, WSI stakeholders and partners.

Start Date (MM/DD/YYYY): 07/01/2015

End Date (MM/DD/YYYY): 05/31/2031

Replace existing application? No

Upgrade existing application? No

Development of new application? Yes

Anticipated Benefits:* This system replacement will provide efficiency gains through improved integration between the claims and policy systems, supporting business operations continuity at current or enhanced levels of efficiency/functionality without adding staff, providing internal WSI staff access to core business systems from anywhere there is an internet connection, providing internal WSI staff a single user interface for accessing claims and policy data/functionality where there is a common look and feel in navigating the applications, and providing internal WSI staff with quick easy ways to view summary and detail information related to policies and claims.

A phased, evolution implementation approach is being used to replace current enterprise application systems to:

- Improve customer service
- Minimize disruption to staff and business operations
- Mitigate risk of failure
- Minimize cost of system replacement
- Meet WSI's anticipated demand for growth
- Enable WSI to remain current with technology and take advantage of technology enhancements as they occur while conforming to industry standard best practices.

485 Workforce Safety and Insurance

Agency 485

The specific primary business needs to be met by the CAPS Program are:

1. Provide current industry web-based technology for core business systems supporting Injury Services and Employer Services and replace existing client-server-based systems.
2. Provide a system with enhanced reporting and accessibility to information.

Project Risk:* WSI will face a variety of risks during the execution of the various initiatives in its long-range IT plan. The following risks have been identified for the entire CAPS Program with the possibility of additional risks being identified for each Release of the Program:

- Overall WSI staff availability is limited; the release schedule and cost could be impacted.
- If the approach for limited legacy development is not followed, the team, schedule and cost will be impacted; other staffing may need to be added.
- With the long duration of this program there are unforeseen changes and impacts that could impact many areas of each release, in particular staff retirements and turnover.
- Potential lingering impacts from COVID-19 pandemic. A Risk Management Plan has been developed to mitigate risks within the Program.

Issue/Solution:* The basic issue with our existing legacy applications is the platform they were created on, PowerBuilder and the inability of this platform to provide the integration between our claims and policy systems and support business operations at a level of enhanced efficiency and functionality without having to add additional staff.

The solution chosen was to migrate or existing applications to a .NET solution which would allow for staff and citizens of North Dakota(Injured Workers, Employers, Providers, etc.) to access core business systems from anywhere there is an internet connection, providing internal WSI staff a single user interface for accessing claims and policy data/functionality where there is a common look and feel in navigating the applications and also providing much easier ways to view summary/detail information related to policy and claims.

myWSI Enhancement (Priority: 03)

	2023-25 Agency Request				2023-25 Executive Recommendation			
	Ongoing	One-Time	Total	FTE	Ongoing	One-Time	Total	FTE
Federal	-	-	-	0.00	-	-	-	0.00
General	-	-	-	0.00	-	-	-	0.00
Special	-	1,366,050	1,366,050	0.00	-	1,366,050	1,366,050	0.00
Total	-	1,366,050	1,366,050	0.00	-	1,366,050	1,366,050	0.00

State Initiative:* Technology Investment

Is this a Large IT project? Yes

485 Workforce Safety and Insurance

Agency 485

Is this request for a new program or service? No

Request explanation and justification (include any statutory authority)*: The justification for our conversion; MyWSI will be a migration of an outdated legacy application to a more secure online portal. This secure online portal will provide efficiency gains by providing employers, providers, and injured employees online access to data specific to them, provide a secure method to submit and receive forms, reports, and other pertinent documents/information, and provide for self-service capabilities. Other efficiencies include mechanisms for routing information collected from forms into the WSI internal environment/systems, dashboards for specific audiences, and a reduction in the amount of time and effort required by WSI internal staff in providing reports and other information to external stakeholders.

With this migration we will:

1. Improve internal and external communication
2. Increase online interactivity for WSI' stakeholders and partners
3. Streamline processes related to information from/to external audiences

The myWSI Program consists of the following 9 Releases:

- Planning – Extranet Infrastructure – completed June 2017
- Releases 1-2 – myWSI Enhancements – completed September 2019
- Release 3 – Safety / Ergo –completed July 2020
- Release 4 – Online Payroll Reporting – completed July 2021
- Release 5 – Site Reorg / Employer Dashboard / Enterprise Identity Management Integration – completed July 2022
- Release 6 – Employer Online Application / Safety & Ergo Refacing / Chatbot
- Release 7 – Providers Dashboard / Forms Replacement / Enhanced Chatbot / Admin Tools
- Release 8 – Injured Employee Dashboard / File Access / Forms Submittal / SMS/Text / Online FROI
- Release 9 – General Vendor Access / General Enhancements
- Program Closeout & Transition

Necessary resources for implementation (including FTE's)*: The necessary resources come from several departments:

- 1) Injury Services (SME, Testers, Trainers)

485 Workforce Safety and Insurance

Agency 485

- 2) Administrative Services (SME, Testers, IT staff)
- 3) Employer Services (SME, Testers, Trainers)
- 4) NDIT (IT staff)
- 5) Contracted Services (Service Logic)

A phased, evolution implementation approach is being used, consisting of multiple releases. Each release is baselined as a major project delivering functionality in a production environment, ready to be used.

Program Start Date Nov-2016

Current Estimated End Date* Sep-2026

Program Total Spent to-date \$5,117,176.96

Total Est'd Expenditures for Duration \$2,020,934.65

Total Program Cost Estimate at Completion \$7,138,111.61

Total Spent to-date 2023-25 Biennium \$698,578

Est'd Expenditures for 2023-25 Biennium \$1,823,393

Est'd Funding Need for 2025-27 Biennium \$1,352,630

WSI Budget Contingency \$13,432

Are resources being redirected or are they new or additional (including FTE's)*: Resources, in addition to their current job duties, have also had to pick up additional workload required to make the project a success.

Who is served and impact of not funding*: The citizens of North Dakota, Employers, Providers, WSI stakeholders and partners.

Start Date (MM/DD/YYYY): 11/01/2016

End Date (MM/DD/YYYY): 09/30/2026

Replace existing application? Yes

Upgrade existing application? Yes

Development of new application? No

Anticipated Benefits:* This secure online portal will provide efficiency gains by providing employers, providers, and injured employees online access to data specific to them, provide a secure method to submit and receive forms, reports, and other pertinent documents/information, and provide for self-service capabilities. Other efficiencies include mechanisms for routing information collected from forms into the WSI internal environment/systems, dashboards for specific audiences, and a reduction in the amount of time and effort required by WSI internal staff in providing reports and other information to external stakeholders.

A phased, evolution implementation approach is being used to fully implement the myWSI online portal:

- Improve service to external stakeholders by increasing online access to data relevant to the stakeholder
- Improve service to external stakeholders by increasing self-service capabilities for stakeholders
- Provide efficiencies for internal WSI staff by reducing the amount of time and effort needed in producing reports and providing other information to external stakeholders

The specific primary business needs to be met by the myWSI Program are:

1. Improve internal and external communication.
2. Increase online interactivity for WSI's stakeholders and partners.
3. Streamline processes related to information from/to external audiences.

Project Risk:* WSI will face a variety of risks during the execution of the various initiatives in its long-range IT plan. The following risks have been identified for the entire myWSI Program with the possibility of additional risks being identified for each Release of the Program:

- Overall WSI staff availability is limited, especially IT and with CAPS and myWSI releases running in parallel; the release schedule and cost could be impacted.
- Potential lingering impacts from COVID-19 pandemic could impact schedule and cost.

A Risk Management Plan has been developed to mitigate risks within the Program.

Issue/Solution:* The basic issue has been multiple on-line applications for the users to log into and the inefficiencies that come with that, also our WSI IT staff having to maintain multiple applications and security associated with those applications.

The solution is a secure online portal, one stop shop, single login that will provide efficiencies to employers, providers and injured workers to access data specific to them. A secure method to submit and receive forms, reports and other pertinent information/documentation and providing for selfservice capabilities for those using the portal. The portal through capabilities and mechanisms for routing of information collected into the internal system, dashboards etc. will also reduce the amount of time and effort required by WSI internal staff in providing reports and other information to our external stakeholders.

Statutory Authority

North Dakota Century Code title 39; sections 2-05-14, 11-19.1-06, 20.1-01-04, 20.1-13-14, 27-04-09, 29-06-02, and 44-08-20; and chapter 28-32.

Agency Description

The primary duty of the North Dakota Highway Patrol (NDHP) is to keep the motoring public safe as they travel the state’s 106,670 miles of roadway, the highest number of road miles per capita in the nation. This is accomplished through law enforcement and traffic safety services including implementation of public education programs to reduce crashes and encourage safe driving practices; enforcement of laws to protect the highway system including size and weight regulations; and inspection of vehicles for safety equipment including school buses. The NDHP is the primary authority for enforcing laws and regulations relating to the commercial motor vehicle industry. The NDHP provides security and protection for the Governor, the Governor’s immediate family, and the state Capitol, including the Supreme Court, the Legislative Assembly, and other elected government officials. The NDHP assists local agencies with responses to calls for service when situations arise which exceed the limits of local resources. The NDHP oversees the operation, maintenance, and administration of the Law Enforcement Training Academy (LETA). The LETA provides basic and advanced training to peace officers and public safety officials in North Dakota.

Agency Mission Statement

The mission of the highway patrol is to make a difference every day by providing high quality law enforcement services to keep North Dakota safe and secure. It is supported by our values:

Professionalism

Integrity

Loyalty

Accountability

Respect

Commitment

Major Accomplishments

-
- 1 Completion of the Law Enforcement Training Academy Remodel Project. Funding was provided in 2021-23 and carried into 2023-25.

 - 2 Completed Commercial Vehicle Exchange Window (CVIEW) Project. Funding was provided in 2021-23 and carried into 2023-25

 - 3 SIRN Radio Project - Completed the NDHP purchasing of SIRN compatible radio equipment with funding provided through ARPA funding

 - 4 Achieved Full Staffing in August 2024. It is believed to be the first time in 25 years to be a full staffing. 38 new sworn officers were hired from July 1, 2023 to present.

Major Accomplishments

-
- 5 In a partnership with the Department of Health and Human Services, we have expanded a network of culturally appropriate clinical mental health clinicians from 5 to 12 to serve the first responder community, expanding from the NDHP in the pilot year to state law enforcement agencies, and now recently available to law enforcement and first responders statewide.

 - 6 Implementation of Blackboard on-line learning management software into the Law Enforcement Training Academy operations which will allow more efficient delivery of training and tracking of records.

 - 7 Expansion of criminal interdiction team to 9 members from 5 members.

Critical Issues

-
- 1 Ongoing need for law enforcement services related to fentanyl and other drug related poisonings and traffic safety/impaired driving related issues due to drug and alcohol impairment

 - 2 Traffic Safety - we continue to have fatal crashes even with evolving technology. We are seeing recent increases in crashes related to motorcycles and distracted driving. These evolving issues will require a multi-faceted approach between education, effective legislation, and enforcement.

 - 3 Workforce - Although we are experiencing a time of excitement at full-staffing, we will need to continue to remain vigilant in recruitment, hiring, and retention of high quality, public service minded individuals to meet the mission of the NDHP

 - 4 Technology - We will need to continue to advance our agency forward in the use of technology, including AI, to remain relevant and efficient. On the other side, as technology advances, we will need to remain vigilant as a law enforcement agency to help to protect individuals from technology related crime as well as be the experts in vehicle technology to understand how and why advanced vehicle crashes occur.

 - 5 Employee Physical and Mental Health and Continued Wellness will be a issue we will want to stay ahead of as an agency.

Performance Measures

Public safety through quality service.

Program Statistical Data

The Highway Patrol consists of 193 full-time employees located in communities throughout the state. Of these employees, 159 are sworn officers.

The remaining 34 personnel are non-sworn employees in the areas of support staff, capitol security, LETA staff, permits staff, and civilian motor carrier staff.

Explanation of Program Costs

Major operating expenses for Field Operations: State fleet mileage - 47.7%, Data processing - 11.5%, Building, equipment, clothing and miscellaneous supplies - 6.0%, Vehicle installation fees - 4.2%, Lease/rent, buildings/land - 3.7%, Professional Development - 3.2%, Telecommunications - 2.7%.

Major operating expenses for Administration: Data processing - 41.4%, Rent of building space - 20.2%, Building, equipment, clothing and miscellaneous supplies - 14.1%, Telephone to ITD - 4.0%.

504 Highway Patrol

Agency 504

Major operating expenses for the LETA: Professional development - 33.7%, Repairs - 18.2%, Utilities - 14.7%, Food supplies - 14.2%, Building, equipment, clothing and miscellaneous supplies - 5.2%. Up to \$225,000 is appropriated to the North Dakota Peace Officer Standards and Training Board for training costs under SB 2031 passed in 2005.

Program Goals and Objectives

Strategic Plan Goals

The strategic plan for the immediate future is comprised of four goals that complement the daily operational objectives. The long-term strategic goals and the short-term operational objectives to achieve those goals have been identified.

These long-term strategic goals will be evaluated and discussed annually:

1. Provide a secure environment
2. Provide public safety
3. Enhance relationships
4. Enhance employee welfare

State Initiative:* Emergency Response Support

Is this a Large IT project? No

Is this request for a new program or service? No

Request explanation and justification (include any statutory authority)*: We are requesting funding to restore the 1,798,106 in General (86%) and Special (14% Highway Tax) funding that was reduced from the NDHP budget submission to achieve the 3% reduction from General 1,547,059 and Special Highway Tax Funds, 251,047. This funding is equivalent to the amount needed to fund 5 troopers' salary, motor pool, operating, and on-call pay expenses. This request also restores the funding reductions made to bring the BU General Fund and BU Special Fund balances down to \$0.00. Those funding reductions were made in Overtime and Motor Pool costs and amounted to \$2,594,000 in general funds and \$115,000 in special fund 400.

504 Highway Patrol

Agency 504

*The remainder of the special funds reduction, 141,780 from Fund 276, is identified elsewhere in BDTS.

Necessary resources for implementation (including FTE's)*: 1,798,106 in total funding, which includes 1,547,059 in general and 251,047 in highway tax distribution special funding. Also \$2,594,000 in general funds and \$115,000 in Highway Tax Distribution Fund 400 to restore reductions made in the Overtime and Motor Pool appropriations.

Are resources being redirected or are they new or additional (including FTE's)*: This is a restoration of funding identified in the 3% budget reduction and also to restore Overtime and Motor Pool funding reductions made to bring the GF and SF balances down to \$0.00.

Who is served and impact of not funding*: This funding would fund 5 state troopers, ultimately impacting public safety by bringing levels back to the currently funded levels if a 3% reduction were to occur. This funding would also restore Overtime and Motor Pool funding.

Cost to Continue - Remaining 12 months of 4% Legislative Salary Increases (Priority: 02)

	2023-25 Agency Request				2023-25 Executive Recommendation

State Initiative:* Emergency Response Support

Is this a Large IT project? No

504 Highway Patrol

Is this request for a new program or service? No

Request explanation and justification (include any statutory authority)*: We received 520,000 in one-time inflationary funding in 2023-25 for increased equipment, uniforms, and ammo costs. We are requesting 370,000 of the 520,000 be reinstated as on-going funding for 2025-27. Projections of the estimated unexpended funding levels for NDHP operations show a need for continued funding levels going into the 2025-27 biennium to maintain current levels of operation. We are seeking 370,000 of the 520,000 be reinstated as ongoing funding.

Necessary resources for implementation (including FTE's)*: Funding

Are resources being redirected or are they new or additional (including FTE's)*: New - but continuation of last biennium one-time

Who is served and impact of not funding*: NDHP field operations will have a negative impact without the continued funding.

State Fleet Increases (Priority: 05)

	2023-25 Agency Request				2023-25 Executive Recommendation			
	Ongoing	One-Time	Total	FTE	Ongoing	One-Time	Total	FTE
Federal	474,000	-	474,000	0.00	474,000	-	474,000	0.00

Special	848,000	208,000	1,056,000	0.00	848,000	208,000	1,056,000	0.00
Total	6,526,000	1,483,000	8,009,000	0.00	1,526,000	6,483,000	8,009,000	0.00

State Initiative*: Emergency Response Support

Is this a Large IT project? No

Is this request for a new program or service? No

Request explanation and justification (include any statutory authority)*: The 2023-25 base amount for motor pool was 6,496,000 plus 2,042,000 in one-time funding. The total amount needed based on NDDOT 2025-27 guidelines for assigned vehicles with 1.13/mile rate and 448.00/month depreciation is 13,021,248 which is an increase of 6,525,248 over the base amount provided in 2023-25 or in increase of 4,483,248.00 over the total funding provided for motor pool in 2023-25. These numbers are based on a projected number 9,734,400 miles to be driven in 2025-27. This results in an average rate of 1.34/mile. The NDDOT 2025-27 guideline for motor pool fleet vehicles for Highway Patrol was 1.49/mile. Based on the same number of projected miles, 9,734,400. The estimated funding for motor pool is 14,504,256 or an 8,008,256 increase over last biennium. We are requesting 6,525,248, based on 1.34/mile as on-going funding and and additional 1,483,008 in one-time funding should the rate reach 1.49/mile.

Necessary resources for implementation (including FTE's)*:

Are resources being redirected or are they new or additional (including FTE's)*:

Who is served and impact of not funding*:

504 Highway Patrol

Agency 504

Body Armor Funding (Priority: 06)

	2023-25 Agency Request				2023-25 Executive Recommendation			
	Ongoing	One-Time	Total	FTE	Ongoing	One-Time	Total	FTE
Federal	-	-	-	0.00	-	-	-	0.00
General	158,000	-	158,000	0.00	158,000	-	158,000	0.00
Special	26,000	-	26,000	0.00	26,000	-	26,000	0.00
Total	184,000	-	184,000	0.00	184,000	-	184,000	0.00

State Initiative:* Emergency Response Support

Is this a Large IT project? No

Is this request for a new program or service? No

Request explanation and justification (include any statutory authority)*: We are requesting specific funding for body armor. Currently, there is funding for body armor appropriated in the permit fund 276 for 123,395 per biennium in on-going funding which was authorized by the 66th legislative assembly. We are requesting to remove that funding from fund 276 to help achieve our 3% reduction in special funds from that fund, free up those funds to cover a reduction in federal VOCA funding (identified in decision package priority #5), and move equipment purchases out of the permit fund because over time costs have increased and it has become difficult to manage smaller purchases across multiple funds. Since the funding was put into fund 276, the average biennial cost for body armor has increased. We project a need for 184,000 in funding for body armor replacements for the 2025-27 biennium. We are requesting this as on-going, because our replacements are staggered and the whole department is not replaced at once, replacement is based on a 5 year life cycle of the vest. The current cost is 2,412 for year one of the biennium and projected to be 2537/officer for year two of the biennium.

Necessary resources for implementation (including FTE's)*: Funding

Are resources being redirected or are they new or additional (including FTE's)*: New

Who is served and impact of not funding*: Body armor is a necessary piece of equipment for a law enforcement officer to safely conduct their duties, both officers and the public could be put at risk by not funding body armor.

Forward Looking Infrared (FLIR) Maintenance Agreement (Priority: 07)

	2023-25 Agency Request				2023-25 Executive Recommendation			
	Ongoing	One-Time	Total	FTE	Ongoing	One-Time	Total	FTE
Federal	-	-	-	0.00	-	-	-	0.00
General	76,000	-	76,000	0.00	76,000	-	76,000	0.00
Special	12,000	-	12,000	0.00	12,000	-	12,000	0.00
Total	88,000	-	88,000	0.00	88,000	-	88,000	0.00

504 Highway Patrol

State Initiative:* Emergency Response Support

Is this a Large IT project? No

Is this request for a new program or service? No

Request explanation and justification (include any statutory authority)*: Ongoing funding for extended maintenance agreement for current FLIR device on NDHP department aircraft. The subscription is \$44,000/year or 88,000 for the biennium. The original manufacturers and current extended warranties will be expired in August 2025.

Necessary resources for implementation (including FTE's)*: Funding

Are resources being redirected or are they new or additional (including FTE's)*: New

Who is served and impact of not funding*: The FLIR is primarily used for search and rescue and locating wanted individuals. Is it crucial to keep the equipment operational. The service agreement will ensure that routine maintenance is completed and there won't be any unexpected large expenses.

Crash Assistance Program Funding - VOCA Funds Reduction (Priority: 08)

	2023-25 Agency Request				2023-25 Executive Recommendation			
	Ongoing	One-Time	Total	FTE	Ongoing	One-Time	Total	FTE
Federal	-	-	-	0.00	-	-	-	0.00
General	-	-	-	0.00	-	-	-	0.00
Special	194,000	-	194,000	0.00	-	194,000	194,000	0.00
Total	194,000	-	194,000	0.00	-	194,000	194,000	0.00

State Initiative:* Emergency Response Support

Is this a Large IT project? No

Is this request for a new program or service? No

Request explanation and justification (include any statutory authority)*: We are requesting additional funding from the permit fund 276 to cover a reduction in VOCA funding in the FY2025 grant award. The award was reduced from 100,000 to 68,500. It is expected that FY2026 and FY2026 will be at the same or lower levels. The (2) Crash Assistance Program programs were originally provided 100% appropriation out of fund 276 in the 2021-23 biennium, but the funding was offset with VOCA funding in FY2023 by 75,000, and FY2024 by 100,000. The agency reduced the appropriation needed from fund 276 in the 2023-25 budget. We are requesting 37,000 in additional funding for FY 2025 and 50,000 in additional funding for FY2026 with the assumption that the funding may be cut even further. The total request is for 82,500 in additional authority from fund 276 to be used for the 2 Crash Assistance Program positions.

Necessary resources for implementation (including FTE's)*:

504 Highway Patrol

Agency 504

Are resources being redirected or are they new or additional (including FTE's)*:

Who is served and impact of not funding*: The crash assistance program specialists serve those who are impacted following serious incidents such as traffic fatalities. Services to those individuals would be jeopardized by not providing the funding.

Vehicle Installation Increases (Priority: 09)

	2023-25 Agency Request				2023-25 Executive Recommendation			
	Ongoing	One-Time	Total	FTE	Ongoing	One-Time	Total	FTE
Federal	-	-	-	0.00	-	-	-	0.00
General	103,000	-	103,000	0.00	-	-	-	0.00
Special	17,000	-	17,000	0.00	-	-	-	0.00
Total	120,000	-	120,000	0.00	-	-	-	0.00

State Initiative:* Emergency Response Support

Is this a Large IT project? No

Is this request for a new program or service? No

Request explanation and justification (include any statutory authority)*: We are requesting an increase in vehicle installation costs. The 2023-25 biennium pricing of vehicle installations and the associated equipment for the vehicles has increased. The overage for the biennium was approximately 120,000. Due to the frequent changes in vehicle design, it is becoming more common that all of the equipment within the vehicle needs to be replaced because it will no longer be able to transfer to a new vehicle

Necessary resources for implementation (including FTE's)*: Funding

Are resources being redirected or are they new or additional (including FTE's)*: New, plus carry over of one-time funding from last biennium

Who is served and impact of not funding*: The officers, who ultimately service the public would not have properly outfitted vehicles for patrol work.

NDIT Rate Increases/Software Packages/Additional M&O Agreement Funding (Priority: 10)

	2023-25 Agency Request				2023-25 Executive Recommendation			
	Ongoing	One-Time	Total	FTE	Ongoing	One-Time	Total	FTE
Federal	-	-	-	0.00	-	-	-	0.00

Special	20,000	-	20,000	0.00	20,000	-	20,000	0.00
Total	150,000	-	150,000	0.00	150,000	-	150,000	0.00

504 Highway Patrol

State Initiative:* Technology Investment

Is this a Large IT project? No

Is this request for a new program or service? No

Request explanation and justification (include any statutory authority)*: We are requesting 150,000 on-going for NDIT rate increases, we continue to to have approximately 6,200/month on average deficiency in actual data processing billings for the 2023-25 biennium YTD. This deficiency comes after calculating in the NDIT increases that were added into our base budget for 2023-25 as well as other ongoing funding for IT projects. There was jump from 68,527 to 87,164/month beginning July 1, 2023. Additionally, we are seeking funding for Yuja or similar software which can be used for video editing at the Law Enforcement Training Academy to create and edit videos for law enforcement training purposes. The approximate licensing fees are 22,000/year. We are requesting and additional funding to cover NDIT fees for the LETA’s Blackboard program, which is hosted by the vendor. With an average of 6 hours of support/month at 136.00/hr. as quoted by NDIT, the additional funding need would be approximately 20,000 in ongoing funding.

Necessary resources for implementation (including FTE’s)*: Funding

Are resources being redirected or are they new or additional (including FTE’s)*: New

Who is served and impact of not funding*: NDHP Officers, ND Basic Students, and other ND Law enforcement officers will benefit from the enhanced video capabilities and the blackboard support offered through the M&O agreements. The additional funding request directly impacts current NDHP operations for information technology systems for NDHP officers to perform their duties.

Funding for Field Training Officer Program (Priority: 11)

	2023-25 Agency Request				2023-25 Executive Recommendation			
	Ongoing	One-Time	Total	FTE	Ongoing	One-Time	Total	FTE
Federal	-	-	-	0.00	-	-	-	0.00

Special	7,000	-	7,000	0.00	-	-	-	0.00
Total	48,000	-	48,000	0.00	-	-	-	0.00

State Initiative:* Employer of Choice

Is this a Large IT project? No

Is this request for a new program or service? No

Request explanation and justification (include any statutory authority)*: We are requesting funding to provide temporary pay increases to field training officers during the period of field training. Field training typically lasts a period of 8 weeks per new recruit. They are assigned to be trained by an officer who has been identified as an officer who the agency believes would be to mentor and train new officers. We would like to enhance the program to include a more defined selection process and more training. We would like to offer additional pay of 2.00/hour for officers who devote time to field training while they are training recruits. Additionally, we are

504 Highway Patrol

Agency 504

looking for additional funding to reclassify 2-3 of our current non-sworn capitol security officers into similar roles, that will handle enhanced training, certification, and higher responsibility duties within the capitol security team. The estimated cost of the program is 48,000/biennium.

Necessary resources for implementation (including FTE's)*: Funding

Are resources being redirected or are they new or additional (including FTE's)*: New

Who is served and impact of not funding*: Our new officers are impacted by being better training through a program that has established officers who are able to provide clear and consistent training in accordance with department policy. Current officers will be impacted because it provides incentive to become mentors and trainers to new officers, ultimately preparing them for more formal supervisory roles in the future.

Preliminary Alcohol Breath Screening Device (PBT) Replacement (Priority: 12)

	2023-25 Agency Request				2023-25 Executive Recommendation			
	Ongoing	One-Time	Total	FTE	Ongoing	One-Time	Total	FTE
Federal	-	-	-	0.00	-	-	-	0.00

Special	-	7,000	7,000	0.00	-	7,000	7,000	0.00
Total	-	50,000	50,000	0.00	-	50,000	50,000	0.00

State Initiative:* Other

Is this a Large IT project? No

Is this request for a new program or service? No

Request explanation and justification (include any statutory authority)*: The current Intoximeter brand preliminary testing (PBT) devices are at their end of life. The current cost per unit is \$315.00. Each trooper is assigned a PBT, which is a necessary, regularly used tool to assist the officer in determining impairment of drivers on the roadway. We recently replaced 25 in 2024. This request is for 155 to replace out the dated units. The total cost is approximately \$50,000

Necessary resources for implementation (including FTE's)*: Funding

Are resources being redirected or are they new or additional (including FTE's)*: New

Who is served and impact of not funding*: The NDHP uses PBT devices to perform a primary function of removing impaired drivers from the roadway and keeping North Dakota's highways safe for the public.

504 Highway Patrol

Agency 504

Conductive Electric Weapon (Taser) Replacements (Priority: 13)

	2023-25 Agency Request				2023-25 Executive Recommendation			
	Ongoing	One-Time	Total	FTE	Ongoing	One-Time	Total	FTE
Federal	-	-	-	0.00	-	-	-	0.00
General	-	748,000	748,000	0.00	-	-	-	0.00
Special	-	122,000	122,000	0.00	-	870,000	870,000	0.00
Total	-	870,000	870,000	0.00	-	870,000	870,000	0.00

State Initiative:* Technology Investment

Is this a Large IT project? No

Is this request for a new program or service? No

Request explanation and justification (include any statutory authority)*: Conductive Electric Weapons (CEW's), more commonly known as a taser are a critical item in a law enforcement officer's offerings of available tools to safely and effectively perform their duties. CEW's are a tool that can be used at times when hands on physical control or other means of less lethal control may not be the safest or most prudent solution, or may be unavailable to the officer. They are a tool that is often used to protect law enforcement officers or the public instead of only having the option to used deadly force. Our current tasers are the model X26 taser by Axon. The X26 has a life-cycle of 5 years. Ours were purchased in 2013, approximately 11 years ago, and are being phased out where they will no longer be serviced and it will likely become difficult to obtain supplies such as batteries and cartridges. Unfortunately, the CEW market is not very competitive and the costs reflect that. The estimated cost to replace the agency's fleet of tasers is 870,000 or roughly \$5,370/taser/ officer for 162 units.

Necessary resources for implementation (including FTE's)*: Funding

Are resources being redirected or are they new or additional (including FTE's)*: New

Who is served and impact of not funding*: The CEW is a necessary tool for a law enforcement officer to ensure their safety and the safety of the public.

Lease Rate Increases (Priority: 14)

	2023-25 Agency Request				2023-25 Executive Recommendation			
	Ongoing	One-Time	Total	FTE	Ongoing	One-Time	Total	FTE
Federal	-	-	-	0.00	-	-	-	0.00
General	191,000	-	191,000	0.00	191,000	-	191,000	0.00
Special	31,000	-	31,000	0.00	31,000	-	31,000	0.00
Total	222,000	-	222,000	0.00	222,000	-	222,000	0.00

State Initiative:* Emergency Response Support

504 Highway Patrol

Is this a Large IT project? No

Is this request for a new program or service? No

Request explanation and justification (include any statutory authority)*: Known and projected increases for leased space

Hangar - Bismarck - 2,500 increase

Warehouse - Bismarck - 4,000 increase

Regional Office - Grand Forks - 8600 projected increase

The office space in Minot is currently for sale. We have struggled with the landlord on assuring the building is maintained in appropriate condition. Available alternative properties in Minot have been limited. There are current discussions occurring about the possibility of a building being constructed that may suit our needs. We'd seek to request 2500.00 ft @ 18.00/square feet, which is an increase of 18,000 for the biennium.

The office in Devils Lake has become very dated and doesn't really fit the needs of the agency for the Devils Lake area today. There is the potential of a new Law Enforcement Center being built in Devils Lake, we'd like to consider the possibility of leasing space should the building become a reality. Currently, we have planned for 2,300 feet at 16.00/ft. Which is a 25,000 increase for the biennium over our current facility.

Necessary resources for implementation (including FTE's)*: Funding

Are resources being redirected or are they new or additional (including FTE's)*: Current lease funding would roll into the cost of the new leases. The requested amounts are for the increases.

Who is served and impact of not funding*: The public and our staff will be better served by updating our current office spaces in Minot and Devils Lake.

AED Pads and Batteries (Priority: 15)

	2023-25 Agency Request				2023-25 Executive Recommendation			
	Ongoing	One-Time	Total	FTE	Ongoing	One-Time	Total	FTE
Federal	-	-	-	0.00	-	-	-	0.00
General	34,000	-	34,000	0.00	-	-	-	0.00
Special	6,000	-	6,000	0.00	-	-	-	0.00
Total	40,000	-	40,000	0.00	-	-	-	0.00

State Initiative*: Emergency Response Support

Is this a Large IT project? No

Is this request for a new program or service? No

504 Highway Patrol

Agency 504

Request explanation and justification (include any statutory authority)*: The NDHP has received AED's through the ND Department of Health and Human Services under the Helmsley Grant at no cost for the AED's. The units were received by the NDHP in October of 2021. The agency, however, is responsible for the replacement of AED pads and batteries, which have a 4 year life cycle (exp 10/2025). The cost of the pads and batteries are 87.00 and 150.00 respectively. The total request to replace pads and batteries is 40,000 in ongoing funding.

The request for funding is through 86/14 general and HTDF. The agency currently has 27,593 of ongoing appropriation available to use from fund 276 (permit fund) for AED pad replacement. We are that 27,593 from fund 276 as part of the required 3% reduction of special in our executive budget submission. The random miscellaneous equipment items that have been put into fund 276 over time have made for accounting challenges and tracking, especially when prices change and you are making equipment purchases out of multiple funds.

Necessary resources for implementation (including FTE's)*: 40,000 in on-going funding

Are resources being redirected or are they new or additional (including FTE's)*: If the 3% reduction doesn't actually occur in Fund 276. The funds available in fund 276 would be able to fund this project if adjusted from 27,593/biennium to 40,000 every other biennium.

Who is served and impact of not funding*: The citizens of North Dakota benefit by ND State Troopers carrying AED's in their squad cars. They are trained in their use and are able to respond as needed.

In-Car Router Program On-Going Costs (Priority: 16)

	2023-25 Agency Request				2023-25 Executive Recommendation			
	Ongoing	One-Time	Total	FTE	Ongoing	One-Time	Total	FTE
Federal	-	-	-	0.00	-	-	-	0.00
General	180,000	-	180,000	0.00	180,000	-	180,000	0.00
Special	30,000	-	30,000	0.00	30,000	-	30,000	0.00
Total	210,000	-	210,000	0.00	210,000	-	210,000	0.00

State Initiative*: Technology Investment

Is this a Large IT project? No

Is this request for a new program or service? No

Request explanation and justification (include any statutory authority)*: We are requesting ongoing costs for the monthly maintenance and licensing costs for in-car routers and the associated software. We have received grant funding to purchase the in-car routers through a Department of Justice Grant. These costs will be paid to NDIT for the maintenance and eventual replacement based on and estimated 4-5 year life-cycle of the routers. In-car router technology will improve operations in several aspects; enhanced coverage, security features, ability to create hot-spot in vehicle benefiting the mobile radio, provide bandwidth for live-streaming of body cams in emergency situations. The cost is estimated at 55/month/vehicle. We are estimating 158 of our vehicles would have the technology, bringing the cost to 210,000/biennium in on-going expenses.

Necessary resources for implementation (including FTE's)*: Funding

504 Highway Patrol

Agency 504

Are resources being redirected or are they new or additional (including FTE's)*: New

Who is served and impact of not funding*: Today's patrol vehicle is dependent upon wireless connectivity and can be the lifeline in emergency situations. The public is ultimately impacted when services are limited, in-car router technology is meant to improve overall connectivity in patrol vehicles.

EcoStruxure Security Expert Project Funding (Priority: 17)

	2023-25 Agency Request				2023-25 Executive Recommendation			
	Ongoing	One-Time	Total	FTE	Ongoing	One-Time	Total	FTE
Federal	-	-	-	0.00	-	-	-	0.00
General	218,000	-	218,000	0.00	218,000	-	218,000	0.00
Special	-	-	-	0.00	-	-	-	0.00
Total	218,000	-	218,000	0.00	218,000	-	218,000	0.00

State Initiative:* Technology Investment

Is this a Large IT project? No

Is this request for a new program or service? No

Request explanation and justification (include any statutory authority)*: Phase on of the Security Expert Project is in process and nearing completion by NDIT. This request is for the ongoing funding to maintain the system and fund the subscription fees. The NDHP, NDOMB, and NDIT have collaborated and believe since the NDHP essentially controls the access for the system at the ND State Capitol Building, Liberty Memorial Building, and the Governor's residence, that the best fit is the NDHP for the funding and ultimately the billing of the onto going fees. It would be simplified for the NDHP to handle the fees rather than NDIT or OMB billing back each individual agency fees based on number of users or lease/rent models, essentially cutting red tape. The cost provided by NDIT is 218,000/biennium or 8700/month for the complex. Although this is selected as a large IT project, it is funding for licensing of a project that was previously funded from a hardware perspective.

Necessary resources for implementation (including FTE's)*: 218,000 in on-going funding

Are resources being redirected or are they new or additional (including FTE's)*: Additional funding, this funding will offset any fees individual agencies would pay for user fees for the Security Expert System on Capitol Complex for the basic hardware that was installed from funding provided in the 2023-25 biennium.

Who is served and impact of not funding*: State agencies and the public through enhanced security procedures.

Capitol Security Needs (Priority: 18)

	2023-25 Agency Request				2023-25 Executive Recommendation			
	Ongoing	One-Time	Total	FTE	Ongoing	One-Time	Total	FTE
Federal	-	-	-	0.00	-	-	-	0.00
General	-	172,000	172,000	0.00	-	-	-	0.00

504 Highway Patrol

Agency 504

	2023-25 Agency Request				2023-25 Executive Recommendation			
	Ongoing	One-Time	Total	FTE	Ongoing	One-Time	Total	FTE
Special	-	28,000	28,000	0.00	-	-	-	0.00
Total	-	200,000	200,000	0.00	-	-	-	0.00

State Initiative:* Technology Investment

Is this a Large IT project? No

Is this request for a new program or service? No

Request explanation and justification (include any statutory authority)*: We are requesting 200,000 in funding for enhancements to capitol security equipment on the Capitol Complex, to include the State Capitol Building, Memorial Building, Governor’s Residence, and Capitol Grounds. Items include:

- Replace Failing Servers - increase video storage
- Add additional cameras in buildings/grounds to cover current spots with known "dead" spots
- Re-installation of cameras at the LETA
- Installation of cameras at LETA Range/Classroom
- Additional patchwork of current video system to include updated monitors, hardware and sound abatement needs in the command center.
- New fingerprint machine and computer in the command center.

Necessary resources for implementation (including FTE's)*: Funding

Are resources being redirected or are they new or additional (including FTE's)*: Additional

Who is served and impact of not funding*: Security at the Capitol complex will regress without some of these necessary maintenance projects being completed.

Agency Step Increases (Priority: 19)

	2023-25 Agency Request				2023-25 Executive Recommendation			
	Ongoing	One-Time	Total	FTE	Ongoing	One-Time	Total	FTE
Federal	38,000	-	38,000	0.00	-	-	-	0.00
General	362,000	-	362,000	0.00	-	-	-	0.00
Special	58,000	-	58,000	0.00	-	-	-	0.00
Total	458,000	-	458,000	0.00	-	-	-	0.00

504 Highway Patrol

State Initiative:* Employer of Choice

Is this a Large IT project? No

Is this request for a new program or service? No

Request explanation and justification (include any statutory authority)*: The NDHP maintains a step system to provide salary step increases for the first several years of an employees career. Step increases are provided upon an employee’s anniversary date. Steps have allowed the agency to hire individuals at a starting/training salary, but step up the individual’s pay over the years with a goal of reaching at or near MPP when reaching the last step. Over the past 10-15 years, the agency has been able to compress steps with available funding and achieve top pay sooner in an individual’s career. The step system has traditionally been funded by using "roll-up" or vacancy salary funding each biennium. 458,000 in total funding is needed to cover steps for the 2025-2027 biennium, this includes 42,490 for civilian personnel, and 412,141 for sworn personnel. Sworn officers have step increases each of their first 8 years of employment, topping pay at the beginning of their 9th year. Civilian personnel have 7 step increases. Individuals are often hired higher within the step system depending on experience, which decreases their total steps. The requested funding covers the salaries and associated benefits.

Necessary resources for implementation (including FTE's)*: Funding

Are resources being redirected or are they new or additional (including FTE's)*: Additional

Who is served and impact of not funding*: The citizens of North Dakota are served by the fine people of the North Dakota Highway Patrol who receive the salary funding as a result of step increases. The impact of not funding these steps either through specific funding as requested in a decision package, through traditional use of vacancy funding flexibility, or access to vacancy pool funding will result in a deficiency funding request to fund salaries for the whole biennium.

Emergency Vehicle Operations Course (EVOC) pad resurface (Priority: 20)

	2023-25 Agency Request				2023-25 Executive Recommendation			
	Ongoing	One-Time	Total	FTE	Ongoing	One-Time	Total	FTE
Federal	-	-	-	0.00	-	-	-	0.00
General	-	224,000	224,000	0.00	-	-	-	0.00
Special	-	36,000	36,000	0.00	-	260,000	260,000	0.00
Total	-	260,000	260,000	0.00	-	260,000	260,000	0.00

State Initiative:* State Facility Investment

Is this a Large IT project? No

Is this request for a new program or service? No

Request explanation and justification (include any statutory authority)*: The asphalt pad was last resurfaced in 2018 for \$115,600 for 40,000 sy. Current bid for resurfacing is \$229,000 from Astech. There is excessive cracking of current pad. NDDOT engineering did an inspection of track and recommended a resurface to prevent further deterioration.

504 Highway Patrol

Agency 504

Necessary resources for implementation (including FTE's)*: 260,000 in one-time funding.

Are resources being redirected or are they new or additional (including FTE's)*: New one time funding for a single project

Who is served and impact of not funding*: The citizens of ND are served by the NDHP troopers, ND Basic law enforcement students, and other law enforcement agencies who utilize the pad for emergency vehicle operations training. EVOC training is necessary to ensure officers are exposed to the limitations of their vehicles and how to respond safely to calls.

Ventilation for Outdoor Range (Priority: 21)

	2023-25 Agency Request				2023-25 Executive Recommendation			
	Ongoing	One-Time	Total	FTE	Ongoing	One-Time	Total	FTE
Federal	-	-	-	0.00	-	-	-	0.00
General	-	30,000	30,000	0.00	-	30,000	30,000	0.00
Special	-	5,000	5,000	0.00	-	5,000	5,000	0.00
Total	-	35,000	35,000	0.00	-	35,000	35,000	0.00

State Initiative*: State Facility Investment

Is this a Large IT project? No

Is this request for a new program or service? No

Request explanation and justification (include any statutory authority)*: Installation of sound abatement paneling at the outdoor range has created issues at times when there is a west wind at the outdoor range. The smoke from firearms training does not properly ventilate and hangs within the area of training, creating conditions which are unfavorable for training and potentially for health. The request is for the installation of fans to properly ventilate the shooting area and mitigate any smoke and lead concerns.

Necessary resources for implementation (including FTE's)*: 35,000 - One Time

Are resources being redirected or are they new or additional (including FTE's)*: New

Who is served and impact of not funding*: NDHP Officers, ND Law Enforcement Basic Students, and other law enforcement agencies who utilize the outdoor range.

Additional Lieutenant Regional Lieutanant (Priority: 22)

	2023-25 Agency Request				2023-25 Executive Recommendation			
	Ongoing	One-Time	Total	FTE	Ongoing	One-Time	Total	FTE
Federal	-	-	-	0.00	-	-	-	0.00

504 Highway Patrol

Agency 504

	2023-25 Agency Request				2023-25 Executive Recommendation			
	Ongoing	One-Time	Total	FTE	Ongoing	One-Time	Total	FTE
Special	106,840	6,000	112,840	0.14	-	-	-	0.00
Total	745,428	46,000	791,428	1.00	-	-	-	0.00

State Initiative:* Emergency Response Support

Is this a Large IT project? No

Is this request for a new program or service? No

Request explanation and justification (include any statutory authority)*: Agency growth and changes in demographics in the state have caused a need for additional leadership within the agency. The Fargo Metro area has grown considerably in population and activity requiring a reorganization of regional boundaries that would best be accomplished by adding a 5th regional commander. The request is for an additional sworn position with salary funding at the level of a lieutenant. The lieutenant position would be filled within the current ranks and a new trooper would be hired to backfill the resulting vacancy. The request includes one-time equipment funding to outfit the additional sworn FTE.

Necessary resources for implementation (including FTE's)*: One additional FTE

10,307 x 24 = 247,368 Salary

Salary X .2829 = 69,980 – Fringe

Health Care 1643.08/mo = 39,434

200 x 24 = 4800 Monthly Expense

22,000 = Operating Expense

84,000 = Motor Pool

Total : 467,582

Are resources being redirected or are they new or additional (including FTE's)*: New

Who is served and impact of not funding*: Addition of this position would allow for a better alignment of leadership to serve the growth in agency personnel and meet the needs of the state’s transforming population.

504 Highway Patrol

Agency 504

Agency IT Manager (Priority: 23)

	2023-25 Agency Request				2023-25 Executive Recommendation			
	Ongoing	One-Time	Total	FTE	Ongoing	One-Time	Total	FTE
Federal	-	-	-	0.00	-	-	-	0.00
General	423,978	-	423,978	0.86	-	-	-	0.00
Special	70,368	-	70,368	0.14	-	-	-	0.00
Total	494,346	-	494,346	1.00	-	-	-	0.00

State Initiative:* Emergency Response Support

Is this a Large IT project? No

Is this request for a new program or service? No

Request explanation and justification (include any statutory authority)*: Prior to unification with NDIT, the NDHP had 3 positions dedicated to Information Technology, plus an administrative assistant. During the unification process, which took place during a budget process requiring a budget reduction, it was suggested that the agency do not fill an IT position when a vacancy occurred. The position was then removed during the next session. Since NDIT unification we have seen some positive outcomes, but we have experienced a gap in our internal agency needs related to information technology functions. The agency seeks a position to assist with the in-house guidance when it comes to technology planning, purchasing, troubleshooting, process development, process improvement. These are all things our previous IT manager, who is now part of the NDIT public safety team does her best trying to accomplish, but for the betterment of the public safety team and the spirit of IT unification, her talents are no longer part of the tasks previously described. We are a technology heavy agency, our daily activities and often times well-being of our officers rely on high function IT processes. Additional internal IT staffing is crucial.

Necessary resources for implementation (including FTE's)*: One FTE and appropriate funding = 306,064 on-going

Are resources being redirected or are they new or additional (including FTE's)*: This is a new position, but the NDHP was reduced by 1 of 3 of its IT staffing in the 2017-19 biennium (65th Assembly) for a budget reduction and in preparation of NDIT unification.

Who is served and impact of not funding*: NDHP officers and the emergency services they provide to the public rely heavily on the technology they utilize. It is paramount that we have adequate staffing both internally and through NDIT to properly research, maintain, procure, and educate the end users at a high level for the technology required of today's law enforcement. Current resources are just stretched doing a great job, but just stretched too thin.

Enhanced Officer Physicals - Cardiac Focus (Priority: 24)

	2023-25 Agency Request				2023-25 Executive Recommendation			
	Ongoing	One-Time	Total	FTE	Ongoing	One-Time	Total	FTE
Federal	-	-	-	0.00	-	-	-	0.00
General	14,000	-	14,000	0.00	-	-	-	0.00

504 Highway Patrol

Agency 504

	2023-25 Agency Request				2023-25 Executive Recommendation			
	Ongoing	One-Time	Total	FTE	Ongoing	One-Time	Total	FTE
Special	2,000	-	2,000	0.00	-	-	-	0.00
Total	16,000	-	16,000	0.00	-	-	-	0.00

State Initiative:* Employer of Choice

Is this a Large IT project? No

Is this request for a new program or service? No

Request explanation and justification (include any statutory authority)*: Request for funding to increase the frequency and intervals of the agency’s medical physical program to better identify any cardiac issues which will in-turn hopefully identify any undetected cardiac or health conditions that may be exacerbated by the situations a trooper may encounter in their duties. The funding will provide additional EKG testing frequency based on age as well as adjustments due to cost increases for EKG testing.

Necessary resources for implementation (including FTE’s)*: 16,000 in on-going funding

Are resources being redirected or are they new or additional (including FTE’s)*: This is an enhancement to a current physical program

Who is served and impact of not funding*: NDHP sworn personnel. The current level and screening will remain the same and there will be limited funding to cover increased costs for current EKG’s

Handgun Replacements (Priority: 25)

	2023-25 Agency Request				2023-25 Executive Recommendation			
	Ongoing	One-Time	Total	FTE	Ongoing	One-Time	Total	FTE
Federal	-	-	-	0.00	-	-	-	0.00
General	-	172,000	172,000	0.00	-	-	-	0.00
Special	-	28,000	28,000	0.00	-	-	-	0.00
Total	-	200,000	200,000	0.00	-	-	-	0.00

State Initiative:* Emergency Response Support

Is this a Large IT project? No

Is this request for a new program or service? No

Request explanation and justification (include any statutory authority)*: Current handguns have a life cycle of 10 yrs. Pricing in 2024 was \$457.64. A new handgun similar to our current carry w/optics is \$852.87 per unit. (Cost per weapon w/optic is \$977.87, holster is \$200, minus \$325 for trade-in to SIG as of July 22, 2024) 199 needed,

504 Highway Patrol

Agency 504

Approximate total cost of 200,000 w/ holsters included. This includes the impact of trade in value. Pistol-mounted red dot sights are rapidly becoming a standard in the handgun world. To counter this, law enforcement needs to also stay on a level playing field with everyone else. The optic allows for the officer to focus on a single focal plane which is the target, vs. 3 focal planes which would be the target, the front sight, and the rear sight. A red dot optic can vastly outperform traditional iron sights at a distance. Red dot sights are easier to shoot with both eyes open so the entire field of view is visible out of both eyes. Red dot sights are easier to see for aging officers or officers with diminished eyesight vs. a traditional iron sight, as well as much easier to see in low light conditions. The current issued handguns were purchased in 2017.

Necessary resources for implementation (including FTE's)*: 200,000 in one time funding

Are resources being redirected or are they new or additional (including FTE's)*: New

Who is served and impact of not funding*: The citizens of North Dakota are served by the fine officers of the North Dakota Highway Patrol who receive the equipment as a result of this requested funding.

State Initiative*: Emergency Response Support

Is this a Large IT project? No

Is this request for a new program or service? No

Request explanation and justification (include any statutory authority)*: The NDHP requests funding to implement a pilot program to utilize the Grappler device and similar pursuit immobilization technology to safely and effectively stop fleeing motorists. The purchase of the Grappler device is a strategic investment in public safety and law enforcement efficiency. This device allows law enforcement to safely and quickly stop fleeing motorists without resorting to more dangerous methods like high-speed pursuits or the Pursuit Intervention Technique (PIT). By deploying the Grappler or other devices, we can minimize the likelihood of crashes, injuries, and property damage, while effectively apprehending suspects.

Necessary resources for implementation (including FTE's)*: 70,000 - 10 units @ 7,000/unit

Are resources being redirected or are they new or additional (including FTE's)*: New

Who is served and impact of not funding*: The citizens of ND are ultimately served through the earlier termination of pursuits in which the device can be used effectively. Not funding the project keeps things in the current state of attempting to find innovative ways to safely end pursuits while still apprehending the fleeing individual.

State Initiative:* Behavior Health and Addiction

Is this a Large IT project? No

Is this request for a new program or service? No

504 Highway Patrol

Agency 504

Request explanation and justification (include any statutory authority)*: In the 2023-25 biennium the agency was provide positions specific to criminal interdiction, 5 positions to backfill positions the agency had previously devoted specific to criminal interdiction and 3 new positions. Of the 5 backfill positions, one was funded at a sergeant level. Currently, the program consists of 8 troopers and 1 sergeant as we have converted 1 more sworn position to the team. We are requesting funding to add one sergeant FTE to bring a total of 2 supervisors to the program. The sergeant position would be filled within the current ranks and a new trooper would be hired to backfill the resulting vacancy. The request includes one-time equipment funding to outfit the additional sworn FTE.

Necessary resources for implementation (including FTE's)*: One additional FTE and 415,976 in ongoing, and 46,000 in one-time funding

Are resources being redirected or are they new or additional (including FTE's)*: This is new funding to enhance an existing program

Who is served and impact of not funding*: The position is will help eliminate a span of control disparity to ensure the criminal interdiction team has necessary oversight and guidance

Additional Position for Crash Reconstruction Team and UAV Coordination (Priority: 29)

	2023-25 Agency Request				2023-25 Executive Recommendation			
	Ongoing	One-Time	Total	FTE	Ongoing	One-Time	Total	FTE
Federal	-	-	-	0.00	-	-	-	0.00

Total	555,740	46,000	601,740	1.00	-	-	-	0.00

State Initiative*: Technology Investment

Is this a Large IT project? No

Is this request for a new program or service? No

Request explanation and justification (include any statutory authority)*: We are requesting funding for an FTE specific to crash reconstruction and UAV coordination duties. Currently, we have 2 positions devoted full-time to the completion of crash reconstructions for serious injury and fatality crashes. The current lead time for completion of reports is around 90 days. We would like to lessen this window. In addition to crash reconstruction duties, this position would also act as the coordinator of the agency's UAV program to ensure the inventory and those certified to operate UAV's are up to par. The majority of the UAV fleet is assigned to the current crash reconstruction techs in the field so this would be a natural fit for this position to take these duties. This position would be filled within the current ranks and backfilled with a new hire which costs approximately 46,000 in one-time and 350,080 in ongoing funding.

Necessary resources for implementation (including FTE's)*: One FTE and 350,080 in ongoing and 46,000 in one-time funding.

Are resources being redirected or are they new or additional (including FTE's)*: New funding

504 Highway Patrol

Agency 504

Who is served and impact of not funding*: The funding will impact the timelines of those citizens served through the work of the crash reconstruction program. Victims, prosecutors, insurance companies, and other interested parties will experience a shorter lead time on the completion of crash reconstruction investigations and reports.

Crash Reconstruction Equipment Enhancements (Priority: 30)

	2023-25 Agency Request				2023-25 Executive Recommendation			
	Ongoing	One-Time	Total	FTE	Ongoing	One-Time	Total	FTE
Federal	-	-	-	0.00	-	-	-	0.00
General	39,000	28,000	67,000	0.00	-	-	-	0.00
Special	6,000	4,000	10,000	0.00	-	-	-	0.00
Total	45,000	32,000	77,000	0.00	-	-	-	0.00

State Initiative*: Technology Investment

Is this a Large IT project? No

Is this request for a new program or service? No

Request explanation and justification (include any statutory authority)*: Request for crash reconstruction equipment to replace dated total stations which are approximately 15 years old. The new technology requested is a Trimble GNSS or similar GPS receiver station that can be used to map crash scenes with just one person rather than needing two people. Additionally, the request is for updated software to FaroZone 3D Expert or similar software. Last in this request is software and equipment to be able to more efficiently measure crush damage of crashed vehicles through the use of Recon 3D or similar software.

Necessary resources for implementation (including FTE's)*: Trimble GNSS/GPS system - Initial cost for equipment and training 31,400. Ongoing subscription for the State Plane Coordinate System 5,400/year, 10,800/biennium.

FaroZone 3D Expert 5 Subscriptions @5,200/biennium = 26,000

Recon 3D 8 Subscriptions @1,000/biennium = 8,000

Total:

31,400 One-Time

44,800 Ongoing

Are resources being redirected or are they new or additional (including FTE's)*: New resources to replace old equipment that will be sold through surplus property, funding will go to general fund.

504 Highway Patrol

Agency 504

Who is served and impact of not funding*: The public is served through higher quality, more timely investigations of crash scenes. The current equipment is becoming antiquated and is no longer the industry standard.

LETA Gym Floor Replacement (Priority: 31)

State Initiative:* State Facility Investment

Is this a Large IT project? No

Is this request for a new program or service? No

Request explanation and justification (include any statutory authority)*: The current floor is over 25 years old and was part of the 1997 addition to the LETA. It is very difficult to clean and has been attributed to slip/fall injuries. We are requesting to upgrade to a rubber flooring which costs approximately \$65,000. The floor is used daily for physical fitness training and use of force training for ND law enforcement basic students.

Necessary resources for implementation (including FTE's)*: 65,000 in one time funding

Are resources being redirected or are they new or additional (including FTE's)*: New

Who is served and impact of not funding*: ND law enforcement basic training students and NDHP personnel who train in physical fitness and use of force training to conduct their duties as law enforcement.

Impound Lot Funding (Priority: 32)

State Initiative:* State Facility Investment

504 Highway Patrol

Is this a Large IT project? No

Is this request for a new program or service? No

Request explanation and justification (include any statutory authority)*: Create a secure area for statewide impounds being held for long-term evidence. There is a trend for state’s attorneys to require crash vehicles to be kept through trial. Impound space for long-term storage is becoming limited. The overall estimated project cost is 140,000, which includes sitework, crushed asphalt, fencing, and electricity to the gates. The lot would be constructed on the land where the current outdoor driving pad/range and classrooms are east of Bismarck.

Necessary resources for implementation (including FTE’s)*: 140,000 in one-time funding

Are resources being redirected or are they new or additional (including FTE’s)*: New

Who is served and impact of not funding*: The secure space is needed to store vehicles long-term pending criminal case adjudication. The judicial process is served by preserving evidence as required by applicable state’s attorneys.

Addition Position for Full time Recruiter (Priority: 33)

	2023-25 Agency Request				2023-25 Executive Recommendation			
	Ongoing	One-Time	Total	FTE	Ongoing	One-Time	Total	FTE
Federal	-	-	-	0.00	-	-	-	0.00
General	476,936	40,000	516,936	0.86	-	-	-	0.00
Special	78,804	6,000	84,804	0.14	-	-	-	0.00
Total	555,740	46,000	601,740	1.00	-	-	-	0.00

State Initiative:* Workforce

Is this a Large IT project? No

Is this request for a new program or service? No

Request explanation and justification (include any statutory authority)*: We are requesting funding for an FTE specific to a recruiter position. Currently we are using a position to perform 50% cultural liaison duties and 50% recruitment duties. We have seen success by devoting partial time using a trooper specifically for recruiting and believe we can enhance recruitment of quality individuals by devoting one individual specific to recruiting. This will allow us to devote 100% of the time back to the cultural liaison program to continue to promote CLO duties which includes building upon the progress we have had with tribal nation mutual aid agreements. 46,000 one-time and 350,080 ongoing.

Necessary resources for implementation (including FTE’s)*: One FTE and 350,080 in ongoing funding and 46,000 in one-time funding.

Are resources being redirected or are they new or additional (including FTE’s)*: Currently we are using a position at 50/50 recruiter/Cultural liaison officer. The position was previously 100% CLO. We would devote 100% of the original position to CLO and 100% of the new position to recruitment efforts.

504 Highway Patrol

Agency 504

Who is served and impact of not funding*: We have seen a drop in our ability to maintain our CLO activities by using the position for recruiting duties, those duties would continue to be impacted.

Funding to cover miscellaneous salary items (Priority: 34)

	2023-25 Agency Request				2023-25 Executive Recommendation			
	Ongoing	One-Time	Total	FTE	Ongoing	One-Time	Total	FTE
Federal	-	-	-	0.00	-	-	-	0.00
General	215,000	-	215,000	0.00	-	-	-	0.00
Special	35,000	-	35,000	0.00	-	-	-	0.00
Total	250,000	-	250,000	0.00	-	-	-	0.00

State Initiative:* Employer of Choice

Is this a Large IT project? No

Is this request for a new program or service? No

Request explanation and justification (include any statutory authority)*: We are requesting funding to cover miscellaneous salary items that have previously been covered through the use of vacancy or roll-up funding. Specifically, we are seeking funding for the following programs we currently fund:

Performance Bonuses

Hiring/Recruitment Bonuses

Temporary Duty Pay

Physical Fitness Awards

Call-Out Activation Pay

Necessary resources for implementation (including FTE's)*: 250,000 in on-going funding

Are resources being redirected or are they new or additional (including FTE's)*: The agency is currently fully staffed, and with a goal of remaining fully staffed along with less flexibility in roll-up or vacancy funding, the agency is seeking specific funding for these items that have previously been funded using vacancy funds.

Who is served and impact of not funding*: Current personnel and ultimately the citizens of ND through a health, engaged workforce.

Statutory Authority

There is hereby created a department of corrections and rehabilitation that is responsible to the governor. 54-23.3-01

Agency Description

The department is responsible for the direction and general administrative supervision, guidance, and planning of adult and juvenile correctional facilities and programs within the state. The department includes a division of adult services, a division of juvenile services, and such other divisions as are determined necessary for the effective and efficient operation of the department. Programs and facilities included in the department are the North Dakota State Penitentiary or any of its affiliated facilities, parole and probation for adult offenders, North Dakota Youth Correctional Center, community programs and services for juvenile offenders under the division of juvenile services, and any other programs developed by the department. 54-23.3-01

Agency Mission Statement

The mission of the Department of Corrections and Rehabilitation is transforming lives, influencing change, and strengthening community.

Major Accomplishments

- 1 The Heart River Correctional Center construction project is progressing on schedule and an architect has been hired.
- 2 The JRCC Maintenance Shop construction project is progressing on schedule as construction has begun on the project.
- 3 A 20 bed Women’s Treatment and Recovery Unit opened in Sept 2023 at Bismarck Transition Center (Community Corrections and Counseling Services, Inc).
- 4 Pretrial Services were expanded to Grand Forks County, the DOCR is now providing services to the South Central and portions of the Northeast Judicial Districts.
- 5 The Southwest Multi-County Correction Center (SWMCC) Work Release Program was created in collaboration with the state and county to provide transitional opportunities for individuals who are released into the Dickinson area.
- 6 The DOCR created a partnership with McKenzie County as an overflow unit for the male residents. As of August 2024, there are 50+ residents housed there. The DOCR also partners with other county jails and transitional facilities to house the overflow residents.
- 7 HRCC opened in June 2021 and currently houses 50+ women. The DOCR has successfully launched gender responsive services for the women on the combined HRCC/YCC campus. HRCC has also signed a MOU (Memorandum of Understanding) with the City of Mandan and employs supervised residents to work in the community doing citywide clean up, cemetery clean up, and trimming/painting throughout Mandan.
- 8 Parole & Probation and Pretrial Services secured a \$2.54 million grant to enhance drug court services throughout ND with hiring additional support staff, adding technology, and providing performance evaluations through 2027.
- 9 P&P and Pretrial Services has a contract with MTC (Management Training Corporation) and SWMCCC to provide community-based treatment services to clients in the Dickinson, Williston, Minot, and Rolla Districts. These services are partially funded by a Federal Grant to expand Level 1 substance use treatment state-wide using telehealth services.
- 10 In March 2024, RRI employed its first former resident who had previously worked for RRI manufacturing for 24 years during his incarceration. He has proven to be a true asset for the DOCR and RRI.
- 11 The DOCR developed a Parole Dashboard which is located on the DOCR website providing transparency to stakeholders and the public on how DOCR residents serve their time. A PREA dashboard was also developed to ensure compliance with the Federal PREA laws.

Major Accomplishments

-
- 12 DOCR Education assisted 28 residents with an Integrated Education and Training program. 13 individuals earned their CDL, and the other 15 individuals earned their Crane and Rigging certification.
-
- 13 The DOCR and DHHS partnered to provide continuity of care for individuals releasing from custody who have serious mental illness diagnoses and functional impairments.
-
- 14 Victims Services has rebranded to become a one stop shop for all issues related to victims of crime and the State Compensation Program launched an outreach program to bring awareness to the services offered to victims of crime.
-
- 15 The DOCR completed the assessment for the Client Management System (CMS), and it was determined that a phased implementation approach would be most effective. There are currently 31 software systems used by DOCR team members, as the current CMS software used by the DOCR is 25+ years old.
-
- 16 The DOCR Fiscal Services Audit Report for the biennium ending 06-30-2023 had no errors, internal control weaknesses, or potential violations of the law identified, as there were no fiscal audit findings. Fiscal Services also implemented the Peoplesoft travel module in October 2023.
-
- 17 The Women's Risk Needs Assessment (WRNA) assessment tool was implemented to better assess the women's needs and classification of the incoming women population.
-
- 18 DOCR Medical Services has implemented Care Connect/Care Quality which now allows the DOCR to be part of a nationwide data sharing network that is HIPPA compliant and exchanges data across multiple settings of care. Medical Services also conducts web-based telehealth sessions with residents with hosted video-based sessions.
-
- 19 The DOCR implemented an electronic visitor application for the facilities, this application provides a means to download the data for visual reports. An electronic telephone application is also currently being worked on.
-
- 20 Marmot School at YCC has spent the last six years as part of the ND Personalized Learning Cohort along with three other school districts. The team at Marmot was recognized at the ND Education Summit for the System Transformation of focusing on the individual learner. Marmot School worked to create and utilize a learning profile for life-long learning which includes attributes for students to build on their success in school and in life.
-
- 21 The DOCR, working with the National Institute of Corrections, provided Mental Health First Aid and Crisis Intervention Team training to team members of all the facilities and P&P. A DOCR team member is now a certified trainer for CIT.
-

Critical Issues

-
- 1 The DOCR has exceeded operational prison capacity for the men and the women during this biennium. Over the past five years, sentence length to the DOCR has increased, resulting in less people releasing which is exasperating the prison capacity crisis. The men's population has surpassed 106% of capacity.
-
- 2 Due to the increased number of people in DOCR care and custody, the contract facility budget has already been depleted. It is expected that this will continue throughout the biennium creating an agency deficiency.
-
- 3 IT resources are lacking. Several projects were not able to be lifted/completed this biennium as the project was either underquoted or NDIT lacks resources to assist with lifting, whereby requiring the DOCR to pursue outside vendor support or discontinue moving forward with the project.
-
- 4 Recruitment and retention of facility correctional officers continue to be a major issue for the DOCR. During the last legislative session, county correctional officers were included in the public safety retirement plan. The DOCR continues to lag further behind in comparison to their county partners and this has created a larger pay and equity gap.
-
- 5 Victims Assistance federal funding has been reduced by 40% and victim assistance agencies that operate primarily with federal funds are struggling to offer the same level of services across the state. General Fund appropriation is needed to offset the lack in federal funding to continue the same level of service provided to victims of crime.
-

Critical Issues

-
- 6 The Elite client management system is at the end of life and does not meet the overall needs for the DOCR. The DOCR needs a case management system that includes both facility and community case supervision. A unified system would allow for improved case tracking and monitoring, risk assessment and management, data accuracy and analytics, efficient legal record processes, enhanced communication and overall resource efficiencies.
-
- 7 Currently, there are no facilities in Northwestern ND that provide transitional services and housing. There is a need to expand transitional opportunities in Western ND which will require partnerships with local stake holders and treatment providers.
-
- 8 The DOCR has a growing population of elderly/high needs residents that prove to be a significant challenge for reentry planning. The DOCR has a need for a long-term facility or contracted long-term care facility to care for the aging population both during and post incarceration. The stigma associated with justice involved individuals has resounding affects as these elderly residents are often denied placement in care facilities?post incarceration despite requiring skilled nursing care.
-
- 9 Access to supportive housing and intensive mental health care for individuals with serious mental illness upon release from incarceration is a significant challenge for successful re-entry planning. Locating appropriate levels of care and support for individuals with severe and persistent mental illness that is not well controlled has been difficult to obtain outside of the correctional environment.
-
- 10 The overall need for entry into the adult basic education program within the DOCR is 29%, over 200 students are served monthly. The learning loss of the young adult population from COVID is beginning to appear within the facilities.
-
- 11 The State Victims Compensation program needs a system enhancement to automate payments from the CVC system into Peoplesoft. The automation of this process would save countless hours of repetitive hand keying of duplicate data entry. Victims of crime would benefit from a faster turnaround of compensation as well and service providers for the crime victims.
-
- 12 Providers and victims need the ability to see the status of their claims using automation of the database posting to the victims' site within the DOCR website without compromising victim confidentiality. A new case management system for Victim's Services is needed. IT has shared that they cannot continue to support the current data base platform as it's very old and at end of life.
-
- 13 The Resident Case Planning Committee Database system is at the end of its life and is very inefficient with team members entering duplicate information. Multiple team members need access to enter data but are limited to one person being in the system at a time.
-
- 14 There is a need for more office space for Parole, Probation, and Pretrial Services staff in Fargo, and Devils Lake, should Pretrial Services continue to expand.
-
- 15 Decrease the non-violent, low level drug paraphernalia/possession prison population with legislative mandated diversion programs. Also include, presumptive probation for non-violent defendants upon successful completion of pretrial supervision.
-
- 16 The hiring and retaining licensed addiction counselors have been difficult. This has resulted in delayed treatment opportunities for substance use disorders both within and outside of the correctional system. Maintaining a competitive salary package with the private sector has been very difficult, as well as identifying ways to be more flexible with scheduling. Additionally, a lack of clarity surrounding both the limitations and the allowances of alternative licensed providers to provide substance use disorder treatment have created difficulties.
-
- 17 There is a need to increase discharges from transition facilities to sober living homes as a step-down strategy, this will require collaboration with DHHS to access sober living housing vouchers.
-

Performance Measures

Performance measurement data is reported at the agency level.

Program Statistical Data

Central Office – Adult /Juvenile: responsible for providing executive leadership to the DOCR and for the management of administration, human resources, training, fiscal services, information technology, research, plant services, medical services, and warehouse services.

Crime Victims Compensation Program Statistics for 7/1/2021-6/30/2023: Applications for Assistance Processed: 464 of these applications, 380 were approved, 84 were denied. Claims for Reimbursement Processed: 500 claims with 425 payments made totaling \$270,801.94. Victim Service Grant Program Statistics: 2022 - \$2,830,097 and 2021 - \$4,268,738.

Plant services maintain the physical plant operations for the buildings at all the institutions. Medical Services provides medical care for the entire offender population and provides indirect supervision to DWCR for female residents. Resident oversight for medical needs is provided for offenders housed at county jails, assessment centers, halfway houses and out of state transfers. The Training Department is responsible for training all Correctional Staff. This program completes inspection and certification of all adult/juvenile correctional facilities in the state. Business Analytics/IT research the processes and methods that are used to capture meaningful data for reporting purposes. The DOCR Warehouse work unit ensures that all procurement activity is conducted in compliance with all state laws, regulations and approved policies and procedures.

YCC – Youth Correctional Center: Provides services for the incarcerated youth. Food Services prepares/serves 27,185 meals/yearly. Security & Supervision oversees the daily campus operations which included 200 admissions per year. Marmot School provides educational services to the youth. Marmot school served students from 12 of the school districts in ND. Clinical interventions include services to 60 youth for supplemental suicide prevention programming, 50 substance abuse group participants, and 44 individual sessions, 25 individual therapy participants, and 30 youth who received anger management group intervention.

Juvenile Community Services: Provides services in eight regional offices across the state. This past year, an average one-day count includes 45% of the youth were placed back into their homes or with kin, 27% were placed at YCC and 28% were placed in foster, group, or psychiatric residential settings. Intensive in-home family therapy served 76 youth and 171 additional family members.

Parole and Probation: July 1, 2021, thru June 30, 2023 – 331 Presentence Investigations Completed: Men -Case Mgmt. & Supervision Services: 4973, and Women - Case Mgmt. & Supervision Services: 1868

Transitional Planning: July 1, 2022, thru June 30, 2023 – 1302 Cases prepared for Discharge, 1819 Parole Review Cases, 1603 Offenders transported/with 0 Offenders escapes, and 1095 Classification Hearings.

NDSP- North Dakota State Penitentiary, JRCC- James River Correctional Center, and Transitional Facilities: NDSP/maximum-security prison houses all custody levels residents within its seven housing units and serves as the reception/orientation unit for the approximately 1,150 new male arrivals yearly. Food Services prepares 60,500 meals monthly/employs 59 residents daily. JRCC/medium-security prison, share their Jamestown campus with the NDSH. JRCC has a 24 bed Special Assistance Unit (SAU) for residents with serious mental illness/special needs. Food Service Department provides 65,000 meals monthly for residents and NDSH patients. Two separate menus are prepared, one menu for NDSH patients/another menu for the JRCC residents. The MRCC/ minimum-security facility in south Bismarck houses, in 13 separate dorms, up to 191 residents. Food Services prepares 16,140 meals monthly/employ 7 residents daily. Residents are required to gain employment or participate in the education program while at MRCC. To manage the population, the DOCR identifies appropriate minimum custody cases to utilize contracted transitional facilities and county jails.

Behavior Health: Mental health status continues to be a key issue in targeting criminogenic risk in that it influences the effect of evidence-based interventions on an individual level. Note 89% of men and 95% of women entering prison were referred for substance abuse treatment.

Education: Last biennium, 37% of new arrivals didn't have a high school diploma or GED and the average reading level for incoming residents is at 4th grade level.

RRI: Provides monthly work for an average of 130-170 offenders. This represents approximately 12% of the population housed at the DOCR facilities, compared to the national average of 8%.

Women Services: The average daily population for women sentenced to DOCR for fiscal year 2022 was 200 and for fiscal year 2023 was 224. Admissions for fiscal year 2023 was 294.

Explanation of Program Costs

Central Office – Adult & Juvenile: Costs for administration, plant services, medical services, training, warehouse, and business and technology analysis. Plant services costs include the daily maintenance of buildings and grounds at each of the facilities, motor pool expenses based on Fleet Services rates, and materials used to repair/ maintain the facility and its equipment. Medical services include expenditures for Pharmacy, Medical, Dental, contract medical providers and facilities, and Electronic Medical Records System. Staff Development/training oversees the statewide training/inspections and administers staff training to all the DOCR facilities including Correctional Facilities and all county operated facilities in ND. The DOCR Warehouse procures the inventory commodities for the entire DOCR. The business and technology department works with NDIT to procure technology services.

Victim Services: Responsible for the administration of the Victim Assistance Grant Program and Crime Victims Compensation Program. Both programs are responsible for the distribution of federal funds to victims and victim service agencies throughout the state of ND.

YCC – Youth Correctional Center: Costs include administration and operation of the secure, 24-7 youth correctional facility. Security and supervision include all supplies needed for youth and staff at YCC. Food service includes the meals and all supplies for the kitchen. Education costs include teacher supplies and training and school/education supplies. Treatment costs include staff training, licensing, contracted professional services, equipment and supplies.

Juvenile Community Services: Costs include administration, behavior health, and operation expenses for the community in-home juvenile services. Operating fees and services include travel costs for interstate compact, detention inspection, transportation of juveniles, return of runaways and family mileage reimbursements. Adult Services Administration is responsible for the oversight of ND's Interstate Compact for Adult Offender Supervision and Case Plan development for new arrivals.

Parole and Probation: Costs include administration/operation expenses for the community-based parole, probation, and pretrial services. There are offices in 17 different cities and the division supervises people released on parole by the ND Parole Board, people sentenced through the district courts to supervised probation, people placed in a Community Placement Program, people transferred to ND from other states via the Interstate Compact for Adult Offender Supervision and people on a Community Civil Commitment Order from the courts, and people sentenced to pretrial supervision by the courts. Pretrial Services operates in five judicial districts. This program allows judges to set as a condition of pretrial release, supervision of the bond conditions by a parole and probation staff member.

Transitional Planning: Provides services to the Parole Board and Pardon Advisory Board, and other DOCR work units. Costs include the Intake Assessment/ Appraisal Services which are required for all people coming into the legal and physical custody of the DOCR and costs for the temporary transport officers, Parole Board, and Pardon Advisory Board.

NDSP- North Dakota State Penitentiary, JRCC- James River Correctional Center, and Transitional Facilities/MRCC: Costs include administration & operation of the secure, 24-7 male maximum, medium, and minimum-security facilities. Costs include food & other supplies in the kitchen for resident/staff meals. Security & supervision include supplies for the male residents/correctional officers. Costs for resident work program include resident wages needed for institutional jobs. Costs for the Security Supervision Contracts include housing residents in county jails, out of state facilities, and for residents that are housed with the Bureau of Prisons.

Behavior Health: Operation costs are primarily of staff salaries, training, and program costs. Staff must maintain professional licenses and training to ensure effective resident programming.

Education: Costs are comprised of salaries for instructors to deliver educational instruction (GED, literacy, parenting, financial literacy, career and technical education, college course coordination, workforce skills, and Career Readiness.)

RRI-Rough Rider Industries: Costs include raw material costs, staff salaries and operating overhead to operate the industries job skills training programs which are located at NDSP, JRCC, and MRCC. RRI manages the commissary operations and oversees/manages all DOCR land resources and corresponding leases.

Women Services: Include costs to house the women at DWCRC and HRCC. The costs to house women at the transitional facilities is budgeted in the Transitional Facilities budget.

Program Goals and Objectives

The goal is to provide executive leadership, structure and a coordinated delivery of correctional services. This includes providing direction and coordination to all departments and programs of the DOCR. Central Office assists local correctional programs through jail inspections and training programs. Emphasis is placed on assuring public safety by following sound security practices and providing programs and services that have proven to be effective with offenders. Plant Services goal is to provide a safe and secure environment for all staff and residents who work and live in the DOCR facilities. This is achieved through the operation, maintenance, and repair of equipment/buildings at all the DOCR facilities. Medical Services goal is to provide a community standard of health care to residents with nursing, medical, psychiatric, pharmaceutical, and dental care. Health Care Services are provided to residents while maintaining safety and security for staff, residents, and the public. The Training Department's goal is to ensure all training and PREA implementation is properly researched, developed, delivered, and evaluated in order to effectively deliver quality training while ensuring compliance with state and federal law. The DOCR's goal to work in partnership with NDIT to insure all DOCR information systems are operating effectively and efficiently. The Warehouse's goal is to insure all DOCR facilities have cost efficient commodities readily available to meet the needs of running day-to-day operations. Victim Services administers the federal victim assistance grants according to the federal guidelines.

Youth Correctional Center: The goal is to provide a safe and secure environment for the youth residing at YCC. This program plans, manages, and evaluates the facility based on the N.D.C.C., Cognia Transition and Performance-based Standards to assure that the facility fulfills the statutory care, custody, and rehabilitation obligation.

Juvenile Community Services: The goal is to provide comprehensive assessment, case plan development, risk reduction service referral and intensive case management for youth committed to its care, custody, and control by state district courts. Intensive in-home family therapy services address maladaptive family dynamics.

Adult Services Administration: The goal is to provide management for Adult Interstate Compact by managing the process for transferring supervision of offenders who wish to relocate to another state.

Parole and Probation: The goal is to provide efficient and evidence-based community correctional services to people on supervision. The primary objectives include reducing supervision revocation rates, increasing completion rates, minimizing active revocation, and targeting reduction in revocation rates for 18-24-year-olds, especially young women, and Native Americans.

Transitional Planning: The goal is to provide management and information support to the other work groups including the Initial Classification/Case Planning Committees, the ND Parole Board and the ND Pardon Advisory Board, Parole and Probation, Prison Facilities, contract service providers and Juvenile Services. NDSP/ North Dakota State Penitentiary, JRCC/James River Correctional Center, and Transitional Facilities: The goal of the facilities is to provide a safe and secure environment

530 Corrections and Rehabilitation

Agency 530

for all the staff and the residents who work and live at the maximum, medium, and minimum-security facilities. Security and supervision provide a safe and secure environment for the public, staff, and residents, as well as a system of effective case management, which helps guide residents toward proper rehabilitation programs and effective reintegration to society.

Behavior Health: The goal is to identify and target criminogenic needs to reduce risk and recidivism with effective programs and treatment, as well as to provide evidence-based interventions targeting mental health concerns. Free Through Recovery improves health-care outcomes/reduce recidivism by delivering community behavioral health services.

Education: The goal is to fulfill the statutory requirements for the state as the approved middle and secondary high school and adult education program to enable students to progress toward or complete their secondary level education.

RRI: The goal is to reduce recidivism through successful re-entry strategies. The program objectives are to provide job skills training to residents that increase their chances of obtaining meaningful employment upon release and to manage the DOCR land resources in the best interest of the state while ensuring good land stewardship.

Women Services: The goal is to provide a safe and secure environment for all the staff and the residents who work and live at the two women's facilities/DWCRC and HRCC. Security and supervision provide a safe and secure environment for the public, staff, and residents, as well as a system of effective case management and reintegration into society.

Budget Request Summary

Is this a Large IT project? No

Is this request for a new program or service? No

Request explanation and justification (include any statutory authority)*: The DOCR received one-time costs for inflation for the 2023-25 biennium. Due to increased populations and continued inflation, this request is to restore many of the one-time expenditures.

An explanation of services requested to be restore is attached.

The 2025-27 estimated population projections for males and females are also attached.

Necessary resources for implementation (including FTE's)*: Funding for day treatment, rehabilitative services in the community, housing costs in our transitional facilities, salaries, travel, plant repairs/supplies, medical and IT costs.

Are resources being redirected or are they new or additional (including FTE's)*: These are not new services.

Who is served and impact of not funding*: The residents are served. Rehabilitation and public safety is impacted by not funding these services.

530 Corrections and Rehabilitation

Agency 530

Is this a Large IT project? No

Is this request for a new program or service? Yes

Request explanation and justification (include any statutory authority)*: The Heart River Correctional Center is expected to open in the Fall of 2027. This request is for new FTE's and the associated operating expenses to staff the facility. DOCR needs time for staff onboarding several months prior to moving the women to the new facility in Mandan.

House Bill 1015 Section 5 states:

It is the intent of the sixty-eighth legislative assembly that the sixty-ninth legislative assembly appropriate \$30,000,000 to complete the construction of the new women's prison facility at the Heart River correctional center, for the biennium beginning July 1, 2025, and ending June 30, 2027.

Women within the ND Department of Corrections & Rehabilitation are currently housed in Mandan at the Heart River Correctional Center (HRCC) and in New England at the Dakota Women's Correctional and Rehabilitation Center (DWCRC). The department will move the women from New England to the new facility on the HRCC campus in Mandan so that women can be closer to a wider variety of community resources, and family support and in a facility that is not only sized appropriately but is respectful to the women in the care of the department. DOCR is committed to collaborate with DWCRC to assist in an appropriate use for their facility. It should also be noted that DOCR also has women on inmate status living in re-entry centers in Mandan, Bismarck, Fargo, and Devils Lake - all of which are important partners and are relationships that DOCR plans to maintain.

An additional \$5,635,000 is for mechanical vestibules, interior food coolers, expanded RRI building, overnight visitation and outdoor space costs that are necessary to add back into the project.

The market conditions in the state have been on an upward trajectory for some time. This is represented by more construction volume or under development in the State of North Dakota than the major population centers in Minnesota combined.

The local trade contractors and suppliers have indicated that their capacity for acquiring, or the pursuit of new work has been reduced as they do not have the personnel to adequately staff those projects. This can be dependent on the project type, size location, etc. Smaller projects (under \$5 to \$10 million) have not seen as dramatic an impact as there are smaller firms that can still perform, but this too has put strain on the craft workers in the state.

As a result, the industry is experiencing significant cost increases in the state. This is manifested in higher wages (to attract labor) or the utilization of traveling workers that demand a higher wage.

These items also raise the risk profile of the work and cause costs to rise to mitigate those risks. It is our understanding that this increase on average is 15% to 20%. This is over and above the escalation included in the alignment report. For the Heart River project, this equates to an approximate range of \$20.5-\$27 million. In order to maintain the original budget, the team has reduced project complexity and amenities, and slightly reducing project scope.

Necessary resources for implementation (including FTE's)*: Funding for completion of building the new HRCC. In addition, this request is for FTE's and the operating costs associated with the positions.

Are resources being redirected or are they new or additional (including FTE's)*: This request is for new resources and additional FTE's. (List attached)

530 Corrections and Rehabilitation

Agency 530

Who is served and impact of not funding*: Female residents are being served. Public Safety is impacted.

DOCR was able to reduce the footprint of the building and increase beds from 260 to 304 as we recognize our population trendline continuing to increase.

State Initiative:* State Facility Investment

Is this a Large IT project? No

Is this request for a new program or service? No

Request explanation and justification (include any statutory authority):* The DOCR is currently pursuing/exploring additional housing unit options at our Missouri River Correctional Center located in Bismarck, ND. Our current male capacity is 194. This past year the DOCR has explored numerous options to include County Jail/Out of State placement, converting existing MRCC space into housing units, and the purchase of separate housing & programming space. The additional housing units would increase the MRCC capacity by 88 and raise the population from 194 to 282.

Necessary resources for implementation (including FTE's):* We estimate needing 12.5 FTE for staffing another 88 residents with the expansion of the housing units. We will also need an additional 8 hrs/week for our nurse practitioner to come onsite to see residents. Operating costs will include supplies and equipment necessary to onboard new staff and also additional IT equipment needs. There will be additional food, clothing and medical costs associated with providing care for the residents.

Are resources being redirected or are they new or additional (including FTE's):* Costs to house offenders in our custody in county jails will be redirected to the costs associated with housing these offenders in the mancamps at MRCC.

530 Corrections and Rehabilitation

Agency 530

Who is served and impact of not funding*: This will free up some space in county jails. Many of the county jails do not have the necessary capacity for the influx of inmates. This is a public safety issue if jails do not have the capacity for county and city detention. More rehabilitative services are provided in a DOCR facility than in county jails, which helps with successful reentry.

Increased County Jail Population (Priority: 11)

	2023-25 Agency Request				2023-25 Executive Recommendation			
	Ongoing	One-Time	Total	FTE	Ongoing	One-Time	Total	FTE
Federal	-	-	-	0.00	-	-	-	0.00
General	648,719	17,918,502	18,567,221	2.50	-	17,500,000	17,500,000	0.00
Special	-	-	-	0.00	-	-	-	0.00

State Initiative*: Health, Vibrant Communities

Is this a Large IT project? No

Is this request for a new program or service? No

Request explanation and justification (include any statutory authority)*: Due to increased populations, the DOCR is in need of more bed space. Our estimated jail population will average 233 residents during this biennium. County jail is estimated to cost \$100/day/resident for the 1st year of the biennium and \$105/day/resident for the 2nd year of the biennium. This amount is in addition to the \$1,046,438 in Priority Decision Package #1. Attached is the calculation.

The contracted programming request aids in providing services to residents housed in county jails due to shortage of bed space in ND prisons. Movement to the same curriculum provides an opportunity for more efficient movements between prisons and jails for residents, as they would be able to receive treatment services at either location. Use of the InterLift model reduces the need for additional FTEs at the prison or jails in order for these treatment services to be provided in an evidence-supported manner and limits longer incarceration periods due to lack of access to treatment because of overcrowding in the prisons.

The case manager position request would fulfill essential case management work for those housed in county jails. Due to increased DOCR populations the NDDOCR has pushed inmates out to the county jails for housing. At the time of this narrative we have 70 DOCR residents in county jails and we predict this number to grow.

The request for pharmacy positions for the DOCR would include a part-time pharmacist position and fulltime pharmacy technician. The reason for this request is due to the increase in our residents housed at jails across the state and an increase in prescription volume. We continue to provide services to our residents housed in our five facilities but have now expanded to our residents at county jails. By providing services to the county jails, we save the state many dollars due to our contract pricing. We did a small comparison of patients housed at county jail in Minot. The retail cost of 16 prescriptions was \$2,438.74 and our cost would have been \$1,277.18. This is just a few prescriptions that are filled monthly. The savings for these 16 prescriptions for 8 patients would be \$1,161.56. We could have more than 200 residents housed in county jails that we could provide medication to at a substantial savings. Our prescription volume comparison of 8 months in 2023 compared to 8 months in 2024 found that we are averaging 940 more prescriptions per month. Expanding pharmacy services to county jails housing our residents is a benefit to the state but it does not come without the need for additional staff for the pharmacy.

530 Corrections and Rehabilitation

Agency 530

*The department shall develop a prison population management plan to prioritize admissions based on sentences and the availability of space in the penitentiary and its affiliated facilities. If the plan includes the use of a local jail or correctional facility, the department shall negotiate the terms of the agreement with each facility. An agreement under the section must include a minimum daily rate per inmate, including medical costs, to be paid by the department to the governing body of the jail or correctional facility beginning the day after the department receives notice from the district court of an order placing an individual in the care and custody of the department and ending on the admission date provided by the department.

Necessary resources for implementation (including FTE's)*: This request is for additional funding to pay county jails daily rates to house DOCR inmates and to implement contractual programming needs for DOCR residents housed in the jails.

1 FTE is for a Case Manager position, 1 FTE is for a pharmacy technician and 0.5 FTE is for a pharmacist. Operating expenses for these positions is included in this request.

Are resources being redirected or are they new or additional (including FTE's)*: Additional funding needed for housing DOCR residents in the county jails due to increased population. We are also asking for funding to offer programming to residents while housed in the county jail.

The case manager position is needed because this work is currently absorbed by case managers across the state increasing their caseload work beyond their assigned facility. As the county jail population grows, the FTE is needed to effectively manage the residents.

1.5 pharmacy staff are needed due to increased prescription volumes.

Who is served and impact of not funding*: Offenders in our custody are being served and impacted as well as adhering to public safety.

If we do not obtain this funding, we would still need to send residents to county jails due to the shortage of bed space within the prisons, but they would be unable to receive treatment while housed there. The DOCR would be unable to provide these services without obtaining FTEs to specifically work inside of the county jails, and the residents would be sitting without any rehabilitative treatment service provision.

Competitive Market Salary Package (Priority: 12)

	2023-25 Agency Request				2023-25 Executive Recommendation			
	Ongoing	One-Time	Total	FTE	Ongoing	One-Time	Total	FTE

State Initiative*: Employer of Choice

Is this a Large IT project? No

Is this request for a new program or service? No

530 Corrections and Rehabilitation

Agency 530

Request explanation and justification (include any statutory authority)*: This request helps put the DOCR in a competitive position compared to local ND law enforcement and corrections. 2023 target market equity was very helpful, but the DOCR is still 10%-20% behind local ND law enforcement and corrections starting pay for correctional officers and parole and probation officers. This request increases starting pay for approximately 300-400 DOCR front line security positions to competitive market rates. These jobs continue to experience the highest turnover for the DOCR at over 30%.

600 FTE's were reviewed for pay inequities as compared to local correctional officer starting pays. It was determined that Burleigh county pay is 8 to 15% higher than the DOCR's current pay structure. The DOCR is asking for the funds to bring up the existing FTE's to the competitive rate to be able to retain and attract new employees.

Necessary resources for implementation (including FTE's)*: The funding is a necessary resource for implementation.

Are resources being redirected or are they new or additional (including FTE's)*: Additional funding is needed.

Who is served and impact of not funding*: The DOCR staff and resident safety is impacted.

The DOCR will continue to struggle to find qualified applicants to fill front line security positions. We will resort to relying on significant overtime worked by current team members, This leads to burnout and decreases retention. Our front-line security team members will be less experienced which increases the likelihood of bad outcomes within our prisons and in the community.

New Heating Plant at YCC (Priority: 13)

	2023-25 Agency Request				2023-25 Executive Recommendation			
	Ongoing	One-Time	Total	FTE	Ongoing	One-Time	Total	FTE
Federal	-	-	-	0.00	-	-	-	0.00

Total	-	6,556,609	6,556,609	0.00	-	6,556,609	6,556,609	0.00

State Initiative*: State Facility Investment

Is this a Large IT project? No

Is this request for a new program or service? No

Request explanation and justification (include any statutory authority)*: The current building dates to around 1912 and is the oldest occupied building on campus. The building houses 3 firetube low pressure steam boilers that supply the facility with steam heat. The building also includes a System Mechanic office, workshop, several storage areas, ¾ bathroom, Plumber office, workshop, and storage areas. We have had structural engineers out to YCC on several occasions to look at the building foundation, brick work, and cracking in the walls. The walls are leaning inward, and the foundation is sinking on the south side of the building. Extensive cracking in the walls and water damage in several areas of the roof/ceiling. Wooden vertical support beams in the plumbing shop have ¼" cracks that travel the length of the beam. This building is vital to the mission of both HRCC and NDYCC. Without this building, the current HRCC and NDYCC cannot function.

530 Corrections and Rehabilitation

Agency 530

A structural and replacement report from ICON Engineering is available per request.

Necessary resources for implementation (including FTE's)*: The funding to replace the entire heating plant on the Youth Correctional Center grounds.

Are resources being redirected or are they new or additional (including FTE's)*: New resources to hire a contractor for this project.

Who is served and impact of not funding*: The residents and employees at YCC and current HRCC. Without funding, there will be a critical failure with the heating system putting the employees and residents at risk.

Pretrial Officer - South Central District (Priority: 14)

	2023-25 Agency Request				2023-25 Executive Recommendation			
	Ongoing	One-Time	Total	FTE	Ongoing	One-Time	Total	FTE
Federal	-	-	-	0.00	-	-	-	0.00

Total	230,925	12,210	243,135	1.00	246,220	12,210	258,430	1.00

State Initiative*: Health, Vibrant Communities

Is this a Large IT project? No

Is this request for a new program or service? No

Request explanation and justification (include any statutory authority)*: Pretrial Parole/Probation Officer. This would allow us to provide full time pretrial services to the South Central Judicial District. Currently, the pretrial staff serve Burleigh/Morton Counties only, As of today's date, their caseloads average 67 clients. We would be adding McLean, Sheridan, Mercer, Oliver, Grant and Sioux Counties.

Necessary resources for implementation (including FTE's)*: The FTE and additional associated onboarding cost.

Are resources being redirected or are they new or additional (including FTE's)*: Additional FTE.

Who is served and impact of not funding*: We would be adding McLean, Sheridan, Mercer, Oliver, Grant and Sioux Counties. Without funding, the current case load and the addition of the counties would limit the amount and quality of services offered.

Pretrial Officer - Minot (Priority: 15)

State Initiative:* Smart, Efficient Infrastructure

Is this a Large IT project? No

Is this request for a new program or service? No

Request explanation and justification (include any statutory authority)*: Pretrial Parole/Probation Officer. This would allow us to provide full time pretrial services to the North Central Judicial District; where we are currently serving three days per week in three counties (Ward, Mountrail, and Burke). There are two pretrial staff located out of Minot. As of today's date, their caseloads average 47 clients.

Necessary resources for implementation (including FTE's)*: New FTE and associated onboarding cost.

Are resources being redirected or are they new or additional (including FTE's)*: We would be increasing the services offered in limited counties with the new FTE.

Who is served and impact of not funding*: We would be serving Ward, Mountrail, and Burke counties on a more frequent basis. Without funding, we cannot offer the needed case management for pretrial clients and not be able to increase frequency in the listed counties.

James River Correctional Center Facility Study (Priority: 16)

	2023-25 Agency Request				2023-25 Executive Recommendation			
	Ongoing	One-Time	Total	FTE	Ongoing	One-Time	Total	FTE

State Initiative:* Smart, Efficient Infrastructure

Is this a Large IT project? No

Is this request for a new program or service? No

Request explanation and justification (include any statutory authority)*: The current core buildings utilized by our staff and inmates have an average age of 75 years of age. These buildings comprise of the following: Administration Building, ET Housing Building, Amusement Hall, Inmate Dining Room, Kitchen, Laundry, SAU Building, and

530 Corrections and Rehabilitation

Agency 530

JRMU Buildings. It can also be noted that the current ET Building houses 85% of our inmate population at this facility and is 88 years of age. The current support buildings comprise of the following: Inside Maintenance Shop, RRI Building, Outside Maintenance Shop, General Store, Front Gate Building, Education Building, and Central Receiving Buildings. The current average age of these support buildings is 39 years of age. The infrastructure that supports these buildings is in critical condition with the majority of it needing replacement (See attached report). The JRCC also is at critical staffing levels highlighting the need for more efficient buildings. The DOCR & state is requesting funding architectural services to study the viability, feasibility, and needs of existing buildings to determine a plan moving forward for the James River Correctional Center.

Necessary resources for implementation (including FTE's)*: Funding to hire an architect

Are resources being redirected or are they new or additional (including FTE's)*: Additional

Who is served and impact of not funding*: Residents and team members are impacted and served.

Target Equity Salaries - Compression (Priority: 17)

	2023-25 Agency Request				2023-25 Executive Recommendation			
	Ongoing	One-Time	Total	FTE	Ongoing	One-Time	Total	FTE
Federal	-	-	-	0.00	-	-	-	0.00
General	5,688,320	-	5,688,320	0.00	-	-	-	0.00
Special	-	-	-	0.00	-	-	-	0.00

State Initiative:* Workforce

Is this a Large IT project? No

Is this request for a new program or service? No

Request explanation and justification (include any statutory authority)*: The DOCR adjusted salary starting rates in 2022. Despite the fact this was a positive move in the right direction, this caused a pay compression situation that needs to be corrected to be able to retain staff and attract new staff. There are approximately 600 employees that were reviewed and the requested amount will resolve the compression issue within the DOCR.

Necessary resources for implementation (including FTE's)*: The funding is key here. All other processes have already been worked out.

Are resources being redirected or are they new or additional (including FTE's)*: Not applicable for this request.

Who is served and impact of not funding*: DOCR employees and the agency are impacted. If not funded the DOCR will remain far behind, as far as employee engagement and employee retention.

530 Corrections and Rehabilitation

Agency 530

New Missouri River Correctional Center 600 bed Male Facility (Priority: 18)

	2023-25 Agency Request				2023-25 Executive Recommendation			
	Ongoing	One-Time	Total	FTE	Ongoing	One-Time	Total	FTE
Federal	-	-	-	0.00	-	-	-	0.00
General	-	704,000,000	704,000,000	0.00	-	-	-	0.00
Special	-	-	-	0.00	-	127,300,000	127,300,000	0.00
Total	-	704,000,000	704,000,000	0.00	-	127,300,000	127,300,000	0.00

State Initiative:* State Facility Investment

Is this a Large IT project? No

Is this request for a new program or service? No

Request explanation and justification (include any statutory authority)*: We have exceeded our operational capacity for male residents within the ND Department of Corrections and Rehabilitation. The Moss Report and Facility study report completed by BWBR identified MRCC to be replaced with a 350 bed facility. The pace of growth in the male population exceeded estimations requiring us to recommend a larger facility to accommodate the new estimations. The custody level of DOCR residents does not require a high custody facility such as maximum or medium custody construction which is more expensive. Due to our estimated increased population needs with males, the male population is in need of a 600 bed minimum security facility. This facility will have 344 beds within a fenced perimeter while 256 beds will remain outside a fence allowing for a normal environment as residents earn additional privileges prior to release.

Necessary resources for implementation (including FTE's)*: Funding to build a new facility is needed.

Are resources being redirected or are they new or additional (including FTE's)*: Additional funding is needed to build this facility.

Who is served and impact of not funding*: Without funding we will continue to struggle finding space to house those offenders in our care and custody. Currently, we are utilizing county jails. However, county jails are at capacity also.

Project Manager (Priority: 21)

Special	-	-	-	0.00	-	-	-	0.00
Total	-	175,000	175,000	0.00	-	-	-	0.00

State Initiative*: Employer of Choice

Is this a Large IT project? No

Is this request for a new program or service? No

Request explanation and justification (include any statutory authority)*: Professional development programs are short-duration, skill-based programs that cover an array of activities. DOCR is in pursuit of expanding professional development for team members as part of staff wellness and as a benefit to the agency.

Professional development can focus on technical skills or knowledge specific to corrections. There is value to the softer skills acquired, such as: leadership capabilities, networking opportunities and improved communication.

Necessary resources for implementation (including FTE's)*: The request is to cover conference/training registrations and related travel costs or online registrations, if available.

Are resources being redirected or are they new or additional (including FTE's)*: This request is to expand professional development needs.

Who is served and impact of not funding*: Both employees and employers benefit from professional development.

Employees:

1) Professional development can help employees learn new skills and stay up-to-date on industry trends.

530 Corrections and Rehabilitation

Agency 530

- 2) Professional development can help employees increase their confidence and credibility in their work.
- 3) Professional development can help employees grow their networks and learn from industry experts and peers.
- 4) Professional development can help employees stand out from other candidates when applying for a new role within the agency.

Employers:

- 1) Professional development can help an agency improve efficiency.
- 2) Professional development can help an agency increase employee retention rates.
- 3) Professional development can help employers attract better talent.

Talent Acquisition Manager (Priority: 25)

	2023-25 Agency Request				2023-25 Executive Recommendation			
	Ongoing	One-Time	Total	FTE	Ongoing	One-Time	Total	FTE
Federal	-	-	-	0.00	-	-	-	0.00

Special	-	-	-	0.00	-	-	-	0.00
Total	251,660	2,050	253,710	1.00	-	-	-	0.00

State Initiative:* Workforce

Is this a Large IT project? No

Is this request for a new program or service? No

Request explanation and justification (include any statutory authority)*: Hiring at DOCR has increased 67% while separations increased by 23% from 2017. Human resource managers need assistance in recruitment. This position would ensure DOCR stays current of all recruitment and hiring trends and ensure time to fill timeframe less than 45 days. The position will ensure DOCR is maximizing use of social media and other technology tools; ensuring hiring processes are best practice, and assisting with evaluating current workforce in terms of size, skills, and diversity to help guide hiring practices. In addition, as the DOCR opens a new facility in 2027, more resources are needed to fill those new positions.

Necessary resources for implementation (including FTE's)*: Funding is needed for an FTE.

Are resources being redirected or are they new or additional (including FTE's)*: Everyone was filling in when time and workload permitted and recruiting fell behind. Recruiting is a vital need in the corrections world given the industry turnover.

530 Corrections and Rehabilitation

Agency 530

Who is served and impact of not funding*: Not funding the position will hinder us from moving forward with our staffing goals. With a new women's facility opening Fall 2027, DOCR will need this position more now than ever, or run the risk of delaying the opening of the facility.

Temp to Authorized - Community Corrections Agents (Priority: 31)

	2023-25 Agency Request				2023-25 Executive Recommendation			
	Ongoing	One-Time	Total	FTE	Ongoing	One-Time	Total	FTE
Federal	-	-	-	0.00	-	-	-	0.00

Special	-	-	-	0.00	-	-	-	0.00
Total	69,598	-	69,598	2.00	95,888	-	95,888	2.00

State Initiative:* Workforce

Is this a Large IT project? No

Is this request for a new program or service? No

Request explanation and justification (include any statutory authority)*: Moving staff from full-time temporary community corrections agent to an authorized position in Bismarck and Williston areas.

Necessary resources for implementation (including FTE's)*: FTE with additional funding

Are resources being redirected or are they new or additional (including FTE's)*: Redirect temporary salaries to permanent salaries.

Who is served and impact of not funding*: Retention is easier when hiring permanent positions versus temporary positions.

IT Data Processing (Priority: 32)

	2023-25 Agency Request				2023-25 Executive Recommendation			
	Ongoing	One-Time	Total	FTE	Ongoing	One-Time	Total	FTE
Federal	-	-	-	0.00	-	-	-	0.00
General	2,834,884	-	2,834,884	0.00	2,834,884	-	2,834,884	0.00
Special	-	-	-	0.00	-	-	-	0.00
Total	2,834,884	-	2,834,884	0.00	2,834,884	-	2,834,884	0.00

State Initiative:* Technology Investment

Is this a Large IT project? No

530 Corrections and Rehabilitation

Agency 530

Is this request for a new program or service? No

Request explanation and justification (include any statutory authority)*: Initial estimations added as adjustments for base budget request limits were low for data processing maintenance & operations costs, server costs and Connect ND Hosting costs.

Necessary resources for implementation (including FTE's)*: Additional funding.

Are resources being redirected or are they new or additional (including FTE's)*: This request is for the NDIT inflation costs for services.

Who is served and impact of not funding*: Employees and the communities are impacted. DOCR would not have enough funding to pay NDIT to host our agency's applications on their Intel based dedicated server. We also would not have the appropriate level of application support and maintenance for the agency's applications. When applications go unsupported it creates security and data quality concerns and ineffective workflow practices. DOCR would not have enough funding to pay for the hosting of ND's PeopleSoft Enterprise Resource Planning system implementation.

Community Behavioral Health Program (Priority: 35)

	2023-25 Agency Request				2023-25 Executive Recommendation			
	Ongoing	One-Time	Total	FTE	Ongoing	One-Time	Total	FTE
Federal	-	200,000	200,000	0.00	-	-	-	0.00
General	880,760	-	880,760	0.00	-	-	-	0.00
Special	-	-	-	0.00	-	-	-	0.00
Total	880,760	200,000	1,080,760	0.00	-	-	-	0.00

State Initiative*: Behavior Health and Addiction

Is this a Large IT project? No

Is this request for a new program or service? No

Request explanation and justification (include any statutory authority)*: The DOCR received \$1,750,000 for our community behavioral health program in 2023-25 biennium. This request is to continue community telehealth services to offenders in rural and underserved areas of the state. Clients on correctional supervision are often met with barriers to being admitted to community services for a variety of reasons. This would allow the DOCR to remove barriers by creating resources that clients could access timely and without "red tape"

Necessary resources for implementation (including FTE's)*: No additional resources are needed other than the funding..

Are resources being redirected or are they new or additional (including FTE's)*: Additional funding is needed.

Who is served and impact of not funding*: Not providing these services will impact public safety and increase pressure on jail and prison beds as untreated mental health will often times result in criminal behaviors.

530 Corrections and Rehabilitation

Agency 530

Justice & Mental Health Collaboration Grant (Priority: 36)

	2023-25 Agency Request				2023-25 Executive Recommendation			
	Ongoing	One-Time	Total	FTE	Ongoing	One-Time	Total	FTE
Federal	-	550,000	550,000	0.00	-	550,000	550,000	0.00
General	-	-	-	0.00	-	-	-	0.00
Special	-	-	-	0.00	-	-	-	0.00
Total	-	550,000	550,000	0.00	-	550,000	550,000	0.00

State Initiative:* Behavior Health and Addiction

Is this a Large IT project? No

Is this request for a new program or service? Yes

Request explanation and justification (include any statutory authority)*: ND Parole, Probation, and Pretrial Services intent, if awarded this grant, would be to target clients newly arrested that have mental health disorders. We would do this by targeting this population and introducing services within days of being taken into custody. Our intent would be to begin this process through our pretrial services program who would identify this group of clients. We would begin to get these clients assessed for mental illness, once assessed those that are identified would immediately start receiving services from a mental health provider, along with medication if deemed appropriate. Pretrial services staff would have specialized caseloads, just for those who are identified in this group.

Necessary resources for implementation (including FTE's)*: If awarded, a federal grant would pay for a portion of the request. This is would be a 3rd party contract so additional FTE's are not needed.

Are resources being redirected or are they new or additional (including FTE's)*: This service is currently not being offered.

Who is served and impact of not funding*: The offenders and the communities are impacted. If we can intercept the disorder during pretrial, we could potentially mitigate future incarceration.

Programming and Research (Priority: 37)

State Initiative:* Behavior Health and Addiction

530 Corrections and Rehabilitation

Agency 530

Is this a Large IT project? No

Is this request for a new program or service? No

Request explanation and justification (include any statutory authority)*: Improving the culture of the prison is safer for team members and residents. By making culturally diverse gathering spaces in the facilities, this encourages a sense of belonging and improving the rehabilitation time for residents.

Necessary resources for implementation (including FTE's)*: Funding for these programs are needed.

Are resources being redirected or are they new or additional (including FTE's)*: No new responsibilities are being created by this request.

Who is served and impact of not funding*: Improving the culture of the prison is safer for team members and residents. Funding the program would improve the safety threat and the recidivism rate.

Parole & Probation Officer - Fargo (Priority: 38)

	2023-25 Agency Request				2023-25 Executive Recommendation			
	Ongoing	One-Time	Total	FTE	Ongoing	One-Time	Total	FTE
Federal	-	-	-	0.00	-	-	-	0.00

Special	-	-	-	0.00	-	-	-	0.00
Total	230,287	12,210	242,497	1.00	-	-	-	0.00

State Initiative:* Workforce

Is this a Large IT project? No

Is this request for a new program or service? No

Request explanation and justification (include any statutory authority)*: Caseloads have risen by 114 cases in the past year. The addition of the FTE will bring the case loads down, thus allowing better services to clients and employee engagement.

Necessary resources for implementation (including FTE's)*: The funding for the FTE and associated onboarding cost.

Are resources being redirected or are they new or additional (including FTE's)*: Currently, the P&P team have a high case load which makes them less effective. With the addition of the FTE, the total caseloads would be manageable and no new responsibilities would be needed.

Who is served and impact of not funding*: Clients and P&P staff would see the benefit of this request. The client population continues to increase and the case load is now too heavy to be effective. If caseload is not reduced and the population continues to increase, there would have to be a reduction in services and time spent with each client.

530 Corrections and Rehabilitation

Agency 530

Acquire DHHS Old State Lab Building (Priority: 39)

	2023-25 Agency Request				2023-25 Executive Recommendation			
	Ongoing	One-Time	Total	FTE	Ongoing	One-Time	Total	FTE

Special	-	-	-	0.00	-	-	-	0.00
Total	-	4,950,000	4,950,000	0.00	-	-	-	0.00

State Initiative:* State Facility Investment

Is this a Large IT project? No

Is this request for a new program or service? No

Request explanation and justification (include any statutory authority)*: The current State Laboratory operated by the Department of Health & Human Services was built in 1974 with a newer South side addition completed in 2005. This building is 33,000 square feet and will be vacated approximately May 2026. In addition to the lab building itself, there is also a temperature-controlled storage garage that is approximately 3,200sq ft located on the west side of the westernmost parking lot of the complex. Acquisition of this building would be beneficial to the NDDOCR due to proximity to DOCR Central Office & NDSP, building layout, existing building security systems, and reduced DOCR operating costs (the DOCR currently spends \$208,000 per biennium on rental space for Parole & Probation Offices).

If acquired, utilization ideas for this building could include but are not limited to: Parole & Probation Offices, Rough Rider Industries Activities, and a department wide Staff Development Center.

The DOCR has reached out to the Office of Management and Budget and received guidance to use \$150 per square foot as a building remodel guideline. This would amount to \$4,950,000. This number is an estimate only and would depend on actual building usage.

Necessary resources for implementation (including FTE's)*: Funding for updating and remodeling needs.

Are resources being redirected or are they new or additional (including FTE's)*: These resources would be redirected from DHHS to DOCR. Building lease costs for a parole and probation office will be redirected.

Who is served and impact of not funding*: Staff and residents are serviced and impacted.

YCC Night Security Officers - Rovers (Priority: 40)

Total	364,716	3,450	368,166	2.00	195,837	1,725	197,562	1.00

State Initiative:* Workforce

Is this a Large IT project? No

Is this request for a new program or service? No

Request explanation and justification (include any statutory authority)*: We are left with no overnight rovers. Overnight rovers do campus security checks including campus perimeter checks and outside campus door checks, building walk throughs and provide a second person when a door in either Brown or Pine Cottage needs to be unlocked. Overnight rovers will unlock gates to provide law enforcement entrance and exit when the fence is completed. Overnight rovers provide coverage while JIRS staff complete detention intake processing. Overnight rovers accompany youth on/off campus medical runs, and provide overnight coverage when youth are hospitalized. They also provide coverage when youth is placed on constant observation under suicide prevention protocols.

When there are call outs or a shortage of staff available to operate weekend shifts, security staff fill in posts in the building. This requires cancellation of family visitation. Currently, there are no perimeter checks between the hours of 10 pm and 6 am. There is one overnight person in Brown Cottage, and usually 2 in Pine Cottage when the count is higher than 16 (as per PREA requirements). Currently, when a detention intake is necessary, or when a medical run happens during the late evening or overnight, managers and administrators are called in to cover. This results in significant delays while a person from off campus is rallied to come in and assist.

The current staffing pattern allows for two security positions during daytime hours, seven days per week. One staff reports for a 7 a.m to 5 p.m shift, and the other works from 11 a.m. to 9 p.m. These staff work 4 ten-hour shifts, with one day per week having overlapping coverage. On the overlap days, one person fills in the building JIRS schedules.

YCC requests 2 security officer positions to allow for overnight rover staffing, which will allow adequate overnight security, 7 days per week.

Necessary resources for implementation (including FTE's)*: Funding is needed for the FTE and associated onboarding cost.

Are resources being redirected or are they new or additional (including FTE's)*: Currently these task are being covered by other juvenile correctional officers. However, the officers are stretched to do both positions. One position suffers when the officer is working the other position.

Who is served and impact of not funding*: Residents and staff are impacted. By not funding the request, this puts the campus at a safety risk, as well as the loss of employee morale and engagement from being stretched too thin.

530 Corrections and Rehabilitation

Agency 530

Rough Rider Industries supply increase (Priority: 42)

	2023-25 Agency Request				2023-25 Executive Recommendation

State Initiative:* Other

Is this a Large IT project? No

Is this request for a new program or service? No

Request explanation and justification (include any statutory authority)*: Rough Rider Industries has experienced increased supply expenses due to price increases and volumes needed.

These increases are for raw material costs such as lumber, chair kits, steel, aluminum, license plate sheeting, etc. There are also going to be higher revenue generating expenses for larger customer projects in the foreseeable future such as the opening of Heart River Correctional Center (HRCC) prison in which RRI is responsible for providing all the cabinetry, furniture, and seating products for this facility. With an increase in sales comes an increase in raw material costs.

Necessary resources for implementation (including FTE's)*: Additional special fund spending authority is needed for Rough Rider Industries to purchase supplies. RRI generates revenue that they use to run the program.

Are resources being redirected or are they new or additional (including FTE's)*: Additional special fund appropriation is needed.

Who is served and impact of not funding*: Resident workers are being impacted by lack of funding. RRI business and all businesses that purchase from RRI are impacted. Our vision is to provide quality employment opportunities for incarcerated individuals to successfully reintegrate into society.

Special	-	-	-	0.00	-	-	-	0.00
Total	-	400,000	400,000	0.00	-	400,000	400,000	0.00

State Initiative*: Transforming Education

Is this a Large IT project? No

Is this request for a new program or service? No

Request explanation and justification (include any statutory authority)*: ND DOCR is proposing a Commercial Driver's License (CDL) program and Crane and Rigging program, which falls under the Transportation, Distribution, and Logistics career cluster. The rationale for the selection of this occupation is the need for over the road truck drivers and crane operators in North Dakota; the opportunities for employment for criminally justice involved individuals; and the wage.

According to Job Service North Dakota, heavy and tractor trailer truck driver is deemed an in-demand occupation and has been for the last five years. North Dakota Job Service Labor Market Information shows heavy and tractor trailer truck drivers are the seventh most in-demand occupation in North Dakota.

A felony is a barrier to employment in many fields. Most criminally justice involved individuals the ND DOCR serves have at least one felony. However, most felonies will not prevent them from being hired as a heavy tractor trailer truck driver or crane operator after they have their certification. A felony will prevent individuals from getting the hazmat endorsement. However, there are plenty of jobs in this field that do not require that endorsement.

530 Corrections and Rehabilitation

Agency 530

The proposed program plan will have workforce preparation, workforce training activities, and adult education and literacy activities. Workforce preparation will consist of career readiness, which includes resume building, job interviewing skills, North Dakota Job Service resources, and digital literacy. ND DOCR will be launching evidence based cognitive behavioral programming for those who have historically had difficulty maintaining employment for at least six months. This curriculum will help participants identify and practice the thought processes and skills needed to maintain employment. The workforce training activities, which are provided by a combination of contracted crane and CDL instructors as well as ND DOCR instructors, include basic training on driving a stick shift truck in a simulator, CDL written test preparation, driving instruction and practice, and the CDL driving test. The training activities will result in a credential—the Commercial Driver License. The same for operating a crane boom truck.

Necessary resources for implementation (including FTE's)*: The DOCR will need this funding to pay compensation for curriculum fees to partners depending on the structure of partnerships.

Are resources being redirected or are they new or additional (including FTE's)*: Resources are needed to deliver educational programming and vocational certifications.

Who is served and impact of not funding*: The educational and vocational certifications will help residents transition to the community more effectively. Vocational educational certifications have also been shown in research to have the long-term benefit of reducing rates of recidivism, which benefits tax payers. Employers benefit from adults in custody entering the workforce more prepared to fill needed shortages. Citizens benefit from having healthy and productive neighbors, a stronger work force, and safer communities.

Temp to Authorized - Maintenance Supervisor (Priority: 49)

	2023-25 Agency Request				2023-25 Executive Recommendation			
	Ongoing	One-Time	Total	FTE	Ongoing	One-Time	Total	FTE
Federal	-	-	-	0.00	-	-	-	0.00
General	61,019	-	61,019	1.00	75,032	-	75,032	1.00

Total	181,220	1,675	182,895	1.00	-	-	-	0.00

State Initiative*: Workforce

Is this a Large IT project? No

Is this request for a new program or service? No

Request explanation and justification (include any statutory authority)*: In June 2021, NDSP underwent some changes with the loss of our safety officer position and the duties from this position were spread between multiple departments and people. The departments included Security, Maintenance, Administrative Services, and Central Office. Additional changes have been made since that time, due to promotions or duty reassignments. The amount of staff, the number of department involved, and no person in charge of managing the safety duties has created lapses in communication, inability to determine of all of the safety duties are being completed correctly or in a timely manner, and a lack of accountability if duties are missed.

Necessary resources for implementation (including FTE's)*: FTE requested to be approved.

Are resources being redirected or are they new or additional (including FTE's)*: This is a new Job description, where as the previous duties were shared with another position or some of the duties were not being completed.

Who is served and impact of not funding*: Security, Maintenance, Administrative Services, and Central Office employees are impacted. At times, various safety initiatives have not been communicated and followed up on due to staffing level. The funding will mitigate potential safety risk.

Dentist - JRCC (Priority: 51)

State Initiative:* Other

Is this a Large IT project? No

Is this request for a new program or service? No

Request explanation and justification (include any statutory authority)*: Resident wages increased due to population increases. Total increase in resident wages is \$293,945 however, \$143,053 is included in Priority #1. This request is for the increase from base if Priority #1 is approved. Priority #1 amount will need to be added to this request if it is not approved.

Resident Peer Support Specialists at JRCC increased number of participants \$46,053.

Akiskni Warrior Lodge will start with 14 residents at \$6.30/day \$64,474.

Necessary resources for implementation (including FTE's)*: Funding needed for resident payroll.

Are resources being redirected or are they new or additional (including FTE's)*: This is additional funding needed.

Who is served and impact of not funding*: DOCR promotes residents to learn job skills to help them reintegrate back into our communities.

530 Corrections and Rehabilitation

Agency 530

Eliminate Supervision Fees (Priority: 54)

	2023-25 Agency Request				2023-25 Executive Recommendation			
	Ongoing	One-Time	Total	FTE	Ongoing	One-Time	Total	FTE
Federal	-	-	-	0.00	-	-	-	0.00
General	1,500,000	-	1,500,000	0.00	1,500,000	-	1,500,000	0.00
Special	(1,500,000)	-	(1,500,000)	0.00	(1,500,000)	-	(1,500,000)	0.00
Total	-	-	-	0.00	-	-	-	0.00

State Initiative:* Other

Is this a Large IT project? No

Is this request for a new program or service? No

Request explanation and justification (include any statutory authority)*: NDCC 54-23.3-04 (15) for supervision fees only.

Adults under supervision face many financial obligations due to their offense, including fines, court fees and costs, and restitution. The client/PO relationship could be improved if the parole officer and other office staff didn't have to remind the clients of their supervision fees each meeting. Having to discuss this financial obligation takes time away from addressing more pertinent issues such as substance use recovery, improving family relationships, employment, and skill building. As well, clients on parole and probation face huge obstacles finding and keeping stable employment that meets their financial needs.

Supervision fees may be added to the violation allegations at a revocation hearing, but they do not play a part in the reason officers are filing for revocation. Per policy 7A-12, the department will not pursue court intervention if the only allegation is failure to pay supervision fees and other program costs. These balances are referred to collections.

Our collection rate is around 25% for supervision fees.

Necessary resources for implementation (including FTE's)*: DOCR will need general funds for the loss of special fund collections to continue to pay for transport officer salaries.

Are resources being redirected or are they new or additional (including FTE's)*: Funding would be redirected from special funds to general fund use.

Who is served and impact of not funding*: Offenders are served and impacted.

This would free up time for parole officers to turn more focus on pertinent issues such as substance use recovery, improving family relationships, employment, and skill building.

This will free up some business office staff time but they will still be required to process other fees collected. With the influx of additional residents and the number of projects implemented, we will utilize this staff time for inmate account business tasks and processing accounts payable.

530 Corrections and Rehabilitation

Agency 530

Supervision fees may be added to the violation allegations at a revocation hearing, but they do not play a part in the reason officers are filing for revocation.

Change Manager (Priority: 55)

	2023-25 Agency Request				2023-25 Executive Recommendation			
	Ongoing	One-Time	Total	FTE	Ongoing	One-Time	Total	FTE
Federal	-	-	-	0.00	-	-	-	0.00

	Ongoing	One-Time	Total	FTE	Ongoing	One-Time	Total	FTE
Special	-	-	-	0.00	-	-	-	0.00
Total	-	385,943	385,943	0.00	-	385,943	385,943	0.00

State Initiative:* Emergency Response Support

Is this a Large IT project? No

Is this request for a new program or service? No

Request explanation and justification (include any statutory authority)*: This grant request seeks funding for 157 ballistic vests that are essential for the protection of our officers. These vests are a critical component of our safety equipment designed to safeguard our personnel from potential threats in both field and facility settings. We will be required to seek funding for a match if this grant is awarded.

Necessary resources for implementation (including FTE's)*: Funding for the general fund match is needed.

Are resources being redirected or are they new or additional (including FTE's)*: Request for federal fund appropriation and general fund matching funds are needed.

Who is served and impact of not funding*: Correction and Probation Officers are impacted. By not taking the expired vest out of service, the safety of the officers could be in jeopardy. The vest material degrades overtime, thus causing the vest to become less effective as each month past the expiration date continues.

Training Officers (Priority: 59)

State Initiative:* Workforce

Is this a Large IT project? No

Is this request for a new program or service? No

Request explanation and justification (include any statutory authority)*: These six (6) positions impact retention of team members. By improving competency earlier in a team members career will have a positive impact on retention. Currently there is a 60-70% decrease in tenure.

530 Corrections and Rehabilitation

Agency 530

Two (2) Field Training Officer Lieutenants at the North Dakota State Penitentiary (NDSP). These positions will supervise sergeants in the units and manage the Field Training Officer (FTO) program. The lieutenant positions will train all new staff in the on-the-job functions of their position. They will ensure the security functions within their assigned units are completed properly and will mentor the existing staff they supervise within the unit. The lieutenant positions will also assist with New Employee classroom trainings to ensure the material they learn in class transitions to their daily work on the floor.

One (1) Staff Development Coordinator at the Missouri River Correctional Center (MRCC). This position will schedule trainings within the facility to offer more opportunities for staff to receive professional development. This position will instruct New Employee classes and manage the FTO program at MRCC. They will be on the floor instructing and mentoring new staff to ensure all staff are trained and adequately prepared for their position.

One (1) Staff Development Officer at the James River Correctional Center (JRCC) will train staff in the classroom and on the floor. They will help manage the success of the FTO program by ensuring new employees are paired with the proper individuals during shadowing.

Two (2) Behavior Modification Program Managers. The benefits of the additional positions within the department of Core Correctional Practices are assisting with statewide implementation and quality assurance of behavior modification programs for all ND DOCR staff. These specialized positions will work collaboratively with adult facilities and community supervision to implement case management with the use of Effective Practices in Community Supervision, Core Correctional Practices, Motivational Interviewing, and Trauma-informed care to positively influence behavior change. They will provide quality assurance of behavior modification techniques utilized by Parole, Probation, and Pretrial Service officers and all facility correctional staff, including correctional officers, supervisors, unit management, and on-the-job coaching for these staff. These positions will also provide quality assurance of treatment programs, including contracted facility programs and ongoing support for increasing fidelity. One (1) position will cover the eastern half of the state based in the JRCC facility, and the other will cover the western half based out of NDSP.

Necessary resources for implementation (including FTE's)*: Funding for the FTE and associated onboarding cost, which are also included in the request.

Are resources being redirected or are they new or additional (including FTE's)*: New FTE's to reduce overtime and better employee engagement and improve retention outcomes.

Who is served and impact of not funding*: Correctional officers safety is impacted. Without this funding all of the newly hired employees do not get the proper one on one training that a new employee needs to keep them engaged and not create turnover in the position.

Total	-	2,144,375	2,144,375	0.00	1,600,000	-	1,600,000	0.00

State Initiative:* Health, Vibrant Communities

Is this a Large IT project? No

Is this request for a new program or service? Yes

Request explanation and justification (include any statutory authority)*: Currently the residents that get released do not have a reentry center in the Minot and Williston area for the residents to return home. The closet one is in the Bismarck and Mandan area. This causes the resident to gain employment and begin a life in Mandan or Bismarck and then have to leave a job and life after their transitional period has ended. This has placed a extra hardship on residents who are trying to rebuild and start their lives over. The city of Minot and the County Courts have been asking the DOCR to provide a location in either Minot or the Williston area. We are requesting funding to contract with a 3rd party provider for 25 beds, to place residents who will transition back in the Minot and Williston area. This is a cost of \$117 per day for the biennium.

Necessary resources for implementation (including FTE's)*: Funding and locating a provider in the NW area of the state.

Are resources being redirected or are they new or additional (including FTE's)*: There will be no new job responsibilities as a result of this request.

Who is served and impact of not funding*: The residents, the city of Minot and Ward County. If funding is not approved, the chance for recidivism is increased and places more burden on the city and county.

530 Corrections and Rehabilitation

Agency 530

Special Assistance Unit NDSP Sensory Furniture (Priority: 63)

	2023-25 Agency Request				2023-25 Executive Recommendation			
	Ongoing	One-Time	Total	FTE	Ongoing	One-Time	Total	FTE

State Initiative:* Behavior Health and Addiction

Is this a Large IT project? No

Is this request for a new program or service? No

Request explanation and justification (include any statutory authority)*: Research supports the use of sensory rooms (e.g. specific spaces that can be utilized to aid with self-regulation, self-organization, mental clarity, de-escalation, etc. through the use of a person's senses, often by using special lighting, music, movement, objects, etc.) within carceral systems. The Special Assistance Unit is working to add a sensory room into their housing unit to aid with the already present efforts for mental and behavioral health for residents with serious mental illnesses and behavioral dysregulation, who are unable to live within the general population housing units elsewhere in the ND DOCR. The sensory furniture being requested is specifically designed to enhance the sensory experience of the individual utilizing it through methods of rocking, soft fabrics, firm padding, etc. This furniture has the added benefits of being difficult to damage or be utilized in a harmful manner. Given the nature of sensory rooms, specifically the goals of improving mental health symptoms and de-escalating individuals who are in significant distress, and the use of this furniture in a housing unit designed for individuals with long-standing histories of harm to others and to themselves, it is important to have items developed for both a positive sensory experience and safety in mind.

Necessary resources for implementation (including FTE's)*: Funding for furniture needs.

Are resources being redirected or are they new or additional (including FTE's)*: This is a request for new one-time funding for sensory furniture.

Who is served and impact of not funding*: Residents are served and public safety is impacted if not funded.

State Initiative:* Smart, Efficient Infrastructure

Is this a Large IT project? No

Is this request for a new program or service? No

Request explanation and justification (include any statutory authority):* Funding was provided in the 2023-25 biennium for the resurrection of a new maintenance building at JRCC in Jamestown. This funding is needed to demolish the old existing maintenance building. It is fiscally responsible to demolish this building due to the rapid rate of decay and asbestos. Prolonging the demolish will cost the state more in the end.

Necessary resources for implementation (including FTE's):* We will need funding to hire a contractor to demolish the building.

Are resources being redirected or are they new or additional (including FTE's):* This is additional funding needed. We were provided authority to demolish this building in 2023-25 biennium however the funding estimated was not sufficient to erect a new building and demolish the old building.

530 Corrections and Rehabilitation

Agency 530

Who is served and impact of not funding*: It is not fiscally responsible to push this demolish to another biennium. It will end up costing more. The public, staff and residents are impacted.

530 Corrections and Rehabilitation

Agency 530

Is this a Large IT project? No

Is this request for a new program or service? No

Request explanation and justification (include any statutory authority)*: We currently have 3 full-time temp teacher positions. We have had these positions for years.

All teachers are doing the same work with the same licensing requirements.

Education is being asked to take on or add additional programming with the amount of students that is growing in many areas. In hoping to give residents the best shot on the streets, education is one of the high ROI departments.

Necessary resources for implementation (including FTE's)*: Three (3) temp to authorized FTE's.

Are resources being redirected or are they new or additional (including FTE's)*: Resources are redirected from temp salaries to authorized salaries.

Who is served and impact of not funding*: Residents are served and impacted.

Nurse - NDSP (Priority: 69)

	2023-25 Agency Request				2023-25 Executive Recommendation			
	Ongoing	One-Time	Total	FTE	Ongoing	One-Time	Total	FTE
Federal	-	-	-	0.00	-	-	-	0.00
General	200,066	1,360	201,426	1.00	-	-	-	0.00
Special	-	-	-	0.00	-	-	-	0.00
Total	200,066	1,360	201,426	1.00	-	-	-	0.00

State Initiative*: Behavior Health and Addiction

Is this a Large IT project? No

Is this request for a new program or service? No

Request explanation and justification (include any statutory authority)*: An additional FTE will minimize the need for expensive travel nurse coverage, ensure appropriate staffing for PM and night shifts and allow for expanded evening coverage at HRCC, which in turn will decrease the number of off site emergency runs in the evening.

Necessary resources for implementation (including FTE's)*: Funding for the FTE and the associated onboarding cost.

Are resources being redirected or are they new or additional (including FTE's)*: Currently, consistent evening an overnight nurse coverage is not happening at all of the facilities all the time.

530 Corrections and Rehabilitation

Agency 530

Who is served and impact of not funding*: Not funding the request will continue to exacerbate the high travel cost and lack of medical service availability for evenings and overnights. The residents and the staff would see a great benefit by adding an additional nurse. There would be a cost savings for the DOCR with the addition of this FTE over time.

Staff Uniforms (Priority: 70)

	2023-25 Agency Request				2023-25 Executive Recommendation			
	Ongoing	One-Time	Total	FTE	Ongoing	One-Time	Total	FTE

State Initiative:* Workforce

Is this a Large IT project? No

Is this request for a new program or service? No

Request explanation and justification (include any statutory authority)*: PO III Fargo (1) and PO III Grand Forks (1) to support the Veteran’s Treatment Court and Mental Health Court already established in Grand Forks and Fargo. Again, we believe that the community will be best served with an assigned officer specializing in these areas.

Necessary resources for implementation (including FTE’s)*: Funding for the FTE’s and the associated onboarding cost.

Are resources being redirected or are they new or additional (including FTE’s)*: This is a request for two (2) new FTE’s.

Who is served and impact of not funding*: Veterans would not receive the specialized care they need without this position.

Dental Hygienist (Priority: 72)

	2023-25 Agency Request				2023-25 Executive Recommendation			
	Ongoing	One-Time	Total	FTE	Ongoing	One-Time	Total	FTE
Federal	-	-	-	0.00	-	-	-	0.00
General	200,066	1,360	201,426	1.00	-	-	-	0.00
Special	-	-	-	0.00	-	-	-	0.00
Total	200,066	1,360	201,426	1.00	-	-	-	0.00

State Initiative:* Smart, Efficient Infrastructure

Is this a Large IT project? No

Is this request for a new program or service? No

Request explanation and justification (include any statutory authority)*: The DOCR does not currently employ a dental hygienist. According to case law a 1-2000 ratio of dental hygienists to residents is recommended. At this time, all periodontal care is being done by our dentists which is not the best use of the Dentist time. This greatly takes away from the time they need to be spending providing other necessary treatment. We envision this as a shared position between NDSP, MRCC, and

530 Corrections and Rehabilitation

Agency 530

JRCC. This person would be able to provide care to NDSP and MRCC from our clinic in NDSP and then provide treatment at JRCC. This would help facilitate shortened wait times across all of our facilities.

Necessary resources for implementation (including FTE's)*: A new FTE is being requested.

Are resources being redirected or are they new or additional (including FTE's)*: A new FTE would be needed. This position does not currently exist and has been completed by the dentist in the past.

Who is served and impact of not funding*: Residents have a 9 month wait period currently for basic dental health care. As the population increases the wait time will get even longer without adding the hygienists.

Behavioral Health Researcher (Priority: 81)

	2023-25 Agency Request				2023-25 Executive Recommendation			
	Ongoing	One-Time	Total	FTE	Ongoing	One-Time	Total	FTE

530 Corrections and Rehabilitation

Agency 530

Is this a Large IT project? No

Is this request for a new program or service? Yes

Request explanation and justification (include any statutory authority)*: This request allows us to better utilize tablets for the Youth Correctional Center juveniles. Juveniles would have the ability to download games, songs, or movies as an incentive when their behavior suggests. This is a reward tool for good behavior.

Necessary resources for implementation (including FTE's)*: NDIT and Securus will need to help us implement this service.

Are resources being redirected or are they new or additional (including FTE's)*: This is a new request for resources.

Who is served and impact of not funding*: Staff and juvenile residents are impacted.

Teacher - Math (YCC/HRCC) (Priority: 84)

	2023-25 Agency Request				2023-25 Executive Recommendation			
	Ongoing	One-Time	Total	FTE	Ongoing	One-Time	Total	FTE
Federal	-	-	-	0.00	-	-	-	0.00
General	195,216	2,050	197,266	1.00	-	-	-	0.00
Special	-	-	-	0.00	-	-	-	0.00
Total	195,216	2,050	197,266	1.00	-	-	-	0.00

State Initiative*: Transforming Education

Is this a Large IT project? No

Is this request for a new program or service? No

Request explanation and justification (include any statutory authority)*: YCC currently has 4 full time teachers instructing content in Science, English, Social Studies/Physical Education, and Family and Consumer Sciences. Math is also a required graduation content area that we have been very slimly covering for the last 3 years. It is in the best interest of students to have a full time math teacher at NDYCC. Math is often a subject area in which students struggle. Small class sizes in pre-algebra, algebra one, and geometry are needed to meet students where they are at in their learning. YCC currently employs a part-time temporary position to teach two class hours of math. The whole population at NDYCC needs to take a math course and with only being able to enroll a maximum of 8 students in an hour, we can only serve 16 of the 25 students. Having a full day to spread out students would be optimal, especially due to the population of students we serve.

Necessary resources for implementation (including FTE's)*: Funding for the FTE and the associated cost with onboarding.

Are resources being redirected or are they new or additional (including FTE's)*: This would be a request for a new FTE.

Who is served and impact of not funding*: Any youth that come to the North Dakota Youth Correctional Center would be served by this teacher. The impact of not funding this position is that youth are on a waiting list to get into math class and that some youth will never make it into class during their time at NDYCC.

530 Corrections and Rehabilitation

Agency 530

Physical Therapist (Priority: 85)

	2023-25 Agency Request				2023-25 Executive Recommendation			
	Ongoing	One-Time	Total	FTE	Ongoing	One-Time	Total	FTE
Federal	-	-	-	0.00	-	-	-	0.00

State Initiative:* Transforming Education

Is this a Large IT project? No

530 Corrections and Rehabilitation

Agency 530

Is this request for a new program or service? No

Request explanation and justification (include any statutory authority)*: Reporting to the Education Director, this position will function as the Prison Education Program Liaison for DOCR. The person selected will develop, implement, and provide oversight of post-secondary educational program(s) for individuals in the custody of the DOCR. They will also be working with other state agencies, accredited colleges, universities, career and technical schools, seminaries, institutes of technology, facilities that offer a degree or a certificate or other entities offering professional craft certifications to establish post-secondary education opportunities for the ND DOCR population. In addition, the liaison will identify, assist in application for, and administer all educational grant processes. They will also ensure compliance with the district, state, federal and other funder guidelines. This position will work personally with leaders in the business and government world, cultivating long-term strategic partnerships and grantor relationships to increase ND DOCR's effectiveness in serving unmet needs.

Necessary resources for implementation (including FTE's)*: Funding the FTE and the associated on-boarding costs..

Are resources being redirected or are they new or additional (including FTE's)*: This is a request for a new position that will be vital in the success of enrollment and graduation of on-line college degrees.

Who is served and impact of not funding*: All DOCR residents that choose to attend college courses through the established PEP (Prison Education Programs) would be served by this staff member. The impact of not funding would be that those enrolled may not have timely contact with the college they are attending.

Community Resource Coordinator (Priority: 87)

	2023-25 Agency Request				2023-25 Executive Recommendation			
	Ongoing	One-Time	Total	FTE	Ongoing	One-Time	Total	FTE
Federal	-	-	-	0.00	-	-	-	0.00

Total	238,508	1,675	240,183	1.00	-	-	-	0.00

State Initiative*: Workforce

Is this a Large IT project? No

Is this request for a new program or service? No

Request explanation and justification (include any statutory authority)*: This position would be used to bring residents into the community to utilize community option to enhance reentry opportunities. The Community Program and Services Coordinator would ensure effective and comprehensive services are provided for the residents within Transitional Facilities to include reentry opportunities focusing on treatment, work, and enrichment. The program coordinator would collaborate with DOCR team members, MRCC residents and community partners.

Necessary resources for implementation (including FTE's)*: Funding needed for this FTE request.

Are resources being redirected or are they new or additional (including FTE's)*: This is for a new FTE request.

530 Corrections and Rehabilitation

Agency 530

Who is served and impact of not funding*: Offenders and the general public are impacted if not funded.

Pretrial Officers - Fargo (Priority: 88)

	2023-25 Agency Request				2023-25 Executive Recommendation			
	Ongoing	One-Time	Total	FTE	Ongoing	One-Time	Total	FTE
Federal	-	-	-	0.00	-	-	-	0.00
General	461,856	24,420	486,276	2.00	-	-	-	0.00
Special	-	-	-	0.00	-	-	-	0.00
Total	461,856	24,420	486,276	2.00	-	-	-	0.00

State Initiative*: Workforce

Is this a Large IT project? No

Is this request for a new program or service? No

Request explanation and justification (include any statutory authority)*: These two (2) Pretrial Officers positions requested would allow us to provide full-time pretrial services to Cass County. According to data from the ND Courts, Cass County has an average (2022 and 2023) of 3,697 felony arraignments per year. Each of those arraignments would need attention from pretrial staff if we were full time. In comparison, Burleigh and Morton Counties average 1,386 per year and we have six pretrial staff serving Burleigh/Morton. This would bring the total number of Cass pretrial staff to 12. I would ask for all PO positions, and if we decide to hire case managers we could experience cost savings. On July 16, 2024, Cass County reported that approximately 85% of the defendants in jail were pre-conviction and expansion of pretrial services in Cass County would help reduce their growing jail population.

Necessary resources for implementation (including FTE's)*: Funding is necessary for two positions.

Are resources being redirected or are they new or additional (including FTE's)*: This is a request for 2 new FTE's.

Who is served and impact of not funding*: Offenders and general public are impacted if this request is not funded.

Investigation Officer (Priority: 89)

	2023-25 Agency Request				2023-25 Executive Recommendation			
	Ongoing	One-Time	Total	FTE	Ongoing	One-Time	Total	FTE
Federal	-	-	-	0.00	-	-	-	0.00

Total	268,264	2,050	270,314	1.00	-	-	-	0.00

530 Corrections and Rehabilitation

Agency 530

State Initiative:* Workforce

Is this a Large IT project? No

Is this request for a new program or service? No

Request explanation and justification (include any statutory authority)*: An additional person to work a combination of criminal and human resource related investigations within the facilities and state offices is needed to adequately address criminal behavior by employees and residents.

The investigations assigned are more comprehensive requiring collection of evidence, interviews of victims, suspects and witnesses, review of video evidence, listening to audio conversations, reviewing written correspondence of residents, writing comprehensive reports, filing affidavits for criminal charges, court appearances and testimony.

Many professional standards or internal investigations cross over to the realm of criminal investigations requiring knowledge of both human resource and employment law along with criminal law. Much discretion is used by the investigator to determine the course of action based on limited knowledge originally provided regarding the complaint or suspicion. Preference will be given to individuals currently licensed as a peace officer in the state of North Dakota along with certification as a Professional in Human Resources (SPHR or PHR) or a minimum of three years of human resource experience. Emphasis would go to the law enforcement certification due to the complexity of criminal cases and CJIS access requirements.

Necessary resources for implementation (including FTE's)*: Funding is needed for the FTE and the associated onboarding operating costs.

Are resources being redirected or are they new or additional (including FTE's)*: This is a request for one additional FTE to assist with investigations. Quality investigations are key to the successful outcomes for both the employee and/or the resident.

Who is served and impact of not funding*: Both residents and staff members safety is impacted if not funded. It is necessary to have a comprehensive investigative team to curb criminal behavior. Without adequate resources, we will continue to have exponentially greater instances of criminal behavior within the facilities.

Conference Room IT updates (Training) (Priority: 90)

Is this a Large IT project? Yes

Is this request for a new program or service? Yes

530 Corrections and Rehabilitation

Agency 530

Request explanation and justification (include any statutory authority)*: Implementation of phase 1 for a new case management system that will bring our needs and requirements into one single system of record. Utilization of one system allows capturing information from entry to exit and provides us a comprehensive case management system for both our facilities and community supervision.

Necessary resources for implementation (including FTE's)*: Funding to purchase new system to save cost in future biennium's.

Are resources being redirected or are they new or additional (including FTE's)*: This would be a 3rd party contract.

Who is served and impact of not funding*: All DOCR staff, to include institutions, the field and Central Office are served and impacted. We will continue to operate and maintain two separate case management systems, creating less transparency and duplication of data entry. Interfacing has become a challenge which makes it difficult maintaining efficient workflows and pulling data for reporting. Our current facility management system is also limited in functionality, costly and reaching end of life.

Start Date (MM/DD/YYYY): 7/1/2025

End Date (MM/DD/YYYY): 6/30/2027

Replace existing application? Yes

Upgrade existing application? No

Development of new application? No

Anticipated Benefits*: Implementation of phase 1 for a new case management system that will bring our needs and requirements into one single system of record. Utilization of one system allows capturing information from entry to exit and provides us a comprehensive case management system for both our facilities and community supervision.

1 unified system and cut down cost and employee time.

Project Risk*: multi-phase and multi biennial project and technology changes along the way.

Issue/Solution*: Funding will mitigate the risk.

Elite System Upgrade (Priority: 20)

530 Corrections and Rehabilitation

Agency 530

State Initiative:* Technology Investment

Is this a Large IT project? Yes

Is this request for a new program or service? No

Request explanation and justification (include any statutory authority): Within the next 3 years our facility case management system, Elite, will reach an unsupported version of Oracle. An update will be crucial to sustain business for the facility operations and case management. The upgraded version will: be supported, improve functionality and allow staff continued access to a supported version.

This update is will not be needed if the new Client Management System request is approved.

Necessary resources for implementation (including FTE's): Funding is needed for the Elite system upgrade.

Are resources being redirected or are they new or additional (including FTE's): This is new one-time funding needed if the new Client Management System is not approved this biennium.

Who is served and impact of not funding: All of DOCR is served.

There will be security and functionality issues due to the current Oracle database version approaching end of life. We'll have no functioning system of record for our institutional case management system, which will have a tremendous impact on our ability to operate.

Start Date (MM/DD/YYYY): 07/01/2025

End Date (MM/DD/YYYY): 06/30/2027

Replace existing application? No

Upgrade existing application? Yes

Development of new application? No

Anticipated Benefits:* Database continuity and longevity of life of the data base

Project Risk:* Will continue to support and support two case management systems.

Issue/Solution:* Funding will mitigate the risk

State Initiative:* Technology Investment

Is this a Large IT project? Yes

Is this request for a new program or service? No

Request explanation and justification (include any statutory authority)*: The DOCR is a 24 hour, 7 days a week operation. The current PeopleSoft Time and Labor module does not meet our needs and is overall inefficient in function. The reporting functions in PeopleSoft have difficulty producing meaningful labor analysis for DOCR's requirements.

Necessary resources for implementation (including FTE's)*: NDIT staff are needed for implementation which is included in the requested amount.

Are resources being redirected or are they new or additional (including FTE's)*: A request was approved for \$100,000 last biennium, however, the estimate we received was a very low amount so we were unable to implement this software project.

Who is served and impact of not funding*: Human Resource, payroll, and all DOCR staff are served with this software for entering time and creating schedules.

Time recordkeeping is cumbersome. We are not able to pull data to support critical decision making for staffing needs.

Start Date (MM/DD/YYYY): 7/1/25

End Date (MM/DD/YYYY): 6/30/27

Replace existing application? Yes

Upgrade existing application? No

Development of new application? No

Anticipated Benefits:* Time recordkeeping is cumbersome and takes an enormous amount of staff time. We are not able to pull data to support critical decision making for staffing needs.

530 Corrections and Rehabilitation

Agency 530

Project Risk:* We will need NDIT staff resources to lift this project

Issue/Solution:* The DOCR is a 24 hour, 7 days a week operation. The current PeopleSoft Time and Labor model does not meet our needs and is overall inefficient in function. The reporting functions in PeopleSoft have difficulty producing meaningful labor analysis for DOCR's requirements.

IT Public Safety - Technology Upgrades (Priority: 33)

Is this a Large IT project? Yes

Is this request for a new program or service? No

Request explanation and justification (include any statutory authority): \$1,549,550 Recidiviz is a non-profit technology partner who works with state correctional agencies across the country to help to improve and drive measurable corrections outcomes through building data dashboards and visualizations. Recidiviz deploys tools that help track opportunities for reclassification, or early release; identify officer outliers for a given metric (e.g., officers who revoke clients more than average) to enable coaching/retraining needs and celebrate successes. They build tools to help line staff quickly understand crucial case management tasks and to better prioritize their time and reduce staff burn-out.

\$1,091,550 TOTAL BELOW:

RPA - \$130,850

DOCSTARS/FTR Enhancements - \$230,850

Elite Fiscal Enhancements - \$110,000

Facility Management Software - \$250,000

Data Strategy - \$200,000

BI Dashboard - \$130,850

Copilot -\$39,000

530 Corrections and Rehabilitation

Agency 530

Necessary resources for implementation (including FTE's)*: Funding is needed.

Are resources being redirected or are they new or additional (including FTE's)*: This request is for new resources needed.

Who is served and impact of not funding*: Resources will be negatively impacted as alternate solutions will have to be found which often results in more manpower, less data accuracy and negatively impacts efficient business practices and case management processes.

Facility staff, field staff, FTR staff, and DOCR contractors are served and impacted.

Start Date (MM/DD/YYYY): 07/01/2025

End Date (MM/DD/YYYY): 06/30/2027

Replace existing application? No

Upgrade existing application? No

Development of new application? No

Anticipated Benefits*: This will enhance DOCR decision making tools and data analysis to help with client release management.

Project Risk*: DOCR will no longer have the intuitive decision-making output and would resort back to manual case management.

Issue/Solution*: Funding will mitigate the risk.

Medical Software (Priority: 43)

530 Corrections and Rehabilitation

Agency 530

Request explanation and justification (include any statutory authority)*: • NX upgrade: upgrading to the current version of Avatar will provide a number of agency benefits, they include: the Pharmacy bi-directional interface which provides a solution to issues with REDX and KOP. The classic version of Avatar will be phased out as future development will be based on NX. NX is also a Java independent application, therefore, once we move to NX we would no longer need to coordinate Java versions with Elite or worry about Java based security patches. DHHS is our partner agency with Avatar, they move to NX in October, continued collaboration can only occur if we both are on the same version of Avatar.

• Pilot Fish Interface: there are numerous issues with how the current interface pulls data from Elite and moves are not being tracked in real time. As a result, NDIT Application Support Staff have to make manual entries, which can get missed, entries that are missed can't be corrected.

• Custom Avatar development to add order codes for new lab locations: currently when we add a new location, we cannot order labs for those residents without performing a manual a work around. For each new location this means manual entry of 11,000 records. Project dollars are for development costs so when new locations are set up no manual entry for lab codes is needed.

Necessary resources for implementation (including FTE's)*: Funding for this request is needed as is NDIT help to implement.

Are resources being redirected or are they new or additional (including FTE's)*: This is a request for new funding.

Who is served and impact of not funding*: The classic version of Avatar will be phased out making future development and support difficult. Staff will have to continue making manual lab entries, which can get missed and creates a strain on staff resources. Insufficiency will remain with entering lab codes when new locations are brought on. Resource intense practices will remain.

Start Date (MM/DD/YYYY): 07/30/2025

End Date (MM/DD/YYYY): 06/30/2027

Replace existing application? No

Upgrade existing application? Yes

Development of new application? No

Anticipated Benefits*: The benefit is sharing systems with DHHS to allow for better services and freeing up employee time.

Project Risk*: End of life on current system. Can no longer update or be supported.

Issue/Solution*: Funding will mitigate the risk.

Medical IT Modules (Priority: 45)

	2023-25 Agency Request				2023-25 Executive Recommendation			
	Ongoing	One-Time	Total	FTE	Ongoing	One-Time	Total	FTE

Special	-	-	-	0.00	-	-	-	0.00
Total	433,000	-	433,000	0.00	433,000	-	433,000	0.00

State Initiative:* Technology Investment

Is this a Large IT project? Yes

Is this request for a new program or service? No

Request explanation and justification (include any statutory authority)*: • Telehealth- DOCR would have to revert back to using a 3rd party platform for telehealth visits, tracking of telehealth appointments would be limited and require medical staff to log into a separate platform to conduct the telehealth visit rather than launching it from the MyAvatar record. DOCR currently utilizes locum psychiatric providers at 4 of the 5 adult facilities who utilize telehealth to provide patient visits. 75% of our psychiatric care is via telehealth. Having a secure and dedicated platform to conduct our telehealth and majority of our patient psychiatry visits is imperative.

- State Lab interface- medical staff would go back to inefficient practices of tracking these lab results manually and monitoring fax machines for lab results. This has the potential to affect health outcomes of our patient population as manual processes put the DOCR residents health at risk if a lab result is missed or filed incorrectly in the wrong patient chart.

- KPI dashboards- medical staff would need to implement manual statistical data collection and reporting in order to track data on patients seen, diagnosis and missed appointment data. This would be time consuming and likely put additional strain on IT and BA resources to create crystal reports to capture pertinent data fields.

- Bells AI: Medical and treatment staff would spend additional hours to document what was created in Bells AI. Currently, Bells AI allows for medical and treatment staff to create unique and custom note templates that can be shared with other DOOCR medical and treatment staff. This allows for custom treatment notes, primary care provider and nursing notes to be created in our EHR record with a simple keystroke. If not funded staff would need to spend hours individually to create custom widgets in the EHR to recreate these templates.

- Care connect/ Care Quality: medical staff would need to resort back to an outdated process of faxing or calling for patient information from area hospitals post hospitalization and outside medical runs. Urgent and emergent changes to a patients medication regimen run the risk of being delayed with this outdated process and medical staff would need to manually compare changes and update any changes manually post hospitalization in diagnosis, allergies and medications. Medical record reconciliation is crucial for patient safety and a manual process is inefficient and time consuming.

- Hart Archival Solution - DOOCR medical staff could potentially lose access to medical records contained in legacy EMR system. This would be a violation of federal medical record keeping law and would adversely affect long-term patient care for those with records in legacy system.

Necessary resources for implementation (including FTE's)*: Continued maintenance and support funding for newly implemented Avatar modules: Telehealth, State Lab Interface, KPI dashboards, Bells AI, HART Archival Solution.

530 Corrections and Rehabilitation

Agency 530

Are resources being redirected or are they new or additional (including FTE's)*: These are additional costs.

Who is served and impact of not funding*: DOCR staff, clients and contractors are served and impacted if this is not funded.

Start Date (MM/DD/YYYY): 7/1/25

End Date (MM/DD/YYYY): 6/30/25

Replace existing application? No

Upgrade existing application? Yes

Development of new application? No

Anticipated Benefits*: Needed upgrades and vulnerabilities would be renumerated.

Project Risk*: Medical platforms are needed to maintain quality care and interaction with other state and federal agencies.

Issue/Solution*: Funding will mitigate the risk.

College Technology Solution (Priority: 47)

	2023-25 Agency Request				2023-25 Executive Recommendation			
	Ongoing	One-Time	Total	FTE	Ongoing	One-Time	Total	FTE

Special	-	-	-	0.00	-	-	-	0.00
Total	-	627,500	627,500	0.00	-	627,500	627,500	0.00

State Initiative*: Transforming Education

Is this a Large IT project? Yes

Is this request for a new program or service? No

Request explanation and justification (include any statutory authority)*: This will allow residents access to online college coursework. All college courses have an element of online learning required.

Necessary resources for implementation (including FTE's)*: This is federal funding due to a grant application.

Are resources being redirected or are they new or additional (including FTE's)*: These are new resources.

530 Corrections and Rehabilitation

Agency 530

Who is served and impact of not funding*: Incarcerated populations in ND state facilities are served.

The amount of students able to take part in college courses will be severely limited. Some in person classes can happen but the wider scope of programs offered will not happen due to enrollment requirements of hosting in person classes.

Start Date (MM/DD/YYYY): 07/01/2025

End Date (MM/DD/YYYY): 06/30/2027

Replace existing application? No

Upgrade existing application? No

Development of new application? Yes

Anticipated Benefits*: This will give residents access to online college coursework. This assists with reentry back into the community that reduces recidivism.

This is a grant funded request, and no general funds are being requested.

Project Risk*: This is a grant funded request, and no general funds are being requested. If the grant is not awarded, we will not be able to hold this project up.

Issue/Solution*: This is a grant funded request, and no general funds are being requested.

Body Cameras & Tasers (Priority: 48)

	2023-25 Agency Request				2023-25 Executive Recommendation			
	Ongoing	One-Time	Total	FTE	Ongoing	One-Time	Total	FTE

State Initiative*: Technology Investment

Is this a Large IT project? Yes

Is this request for a new program or service? Yes

Request explanation and justification (include any statutory authority)*: The North Dakota State Penitentiary (NDSP) faces critical challenges regarding the safety, accountability, and operational efficiency within its maximum-security prison environment. Currently, NDSP is in urgent need of 100 body-worn cameras (BWCs)

530 Corrections and Rehabilitation

Agency 530

along with an efficient system for camera checkout. Security staff operate on specific rotations, necessitating a solution that allows shared access to BWCs across shifts, fostering teamwork and operational continuity.

Necessary resources for implementation (including FTE's)*: We are hoping to receive federal grant funding.

Are resources being redirected or are they new or additional (including FTE's)*: Implementation of body cameras would require an FTE (Intelligence Clerk).

Who is served and impact of not funding*: The corrections and probation officers as well as residents and clients on parole are impacted. By not funding this request, the officers safety is jeopardized and morale is deflated. So much is learned from body camera footage.

Start Date (MM/DD/YYYY): 07/01/2025

End Date (MM/DD/YYYY): 06/30/2027

Replace existing application? No

Upgrade existing application? No

Development of new application? Yes

Anticipated Benefits*: Maximized efficiency for security across the DOCR facilities.

Project Risk*: PREA noncompliance and no advancement for enhancing security of our staff

Issue/Solution*: Funding will mitigate the risk.

IT Infrastructure Review (Priority: 56)

	2023-25 Agency Request				2023-25 Executive Recommendation			
	Ongoing	One-Time	Total	FTE	Ongoing	One-Time	Total	FTE
Federal	-	-	-	0.00	-	-	-	0.00

Special	-	-	-	0.00	-	-	-	0.00
Total	-	1,700,000	1,700,000	0.00	-	-	-	0.00

State Initiative*: Technology Investment

Is this a Large IT project? Yes

Is this request for a new program or service? No

530 Corrections and Rehabilitation

Agency 530

Request explanation and justification (include any statutory authority)*: This request is for completion of an IT infrastructure review facilitated by NDIIT for JRCC to identify any needed vulnerabilities or enhancements in hardware, security and services.

This includes remediation for NDSP infrastructure findings such as important physical plant upgrades, installation of new fiber lines to maintain connectivity and avoid any service interruptions.

Necessary resources for implementation (including FTE's)*: Funding needed.

Are resources being redirected or are they new or additional (including FTE's)*: New funding needed.

Who is served and impact of not funding*: JRCC and NDSP staff and residents are served.

Disregarding needed IT upgrades can lead to increased maintenance costs, inefficiency, and losses due to downtime. Outdated systems can also negatively impact facility and community safety and security, hinder innovation and create increased cybersecurity risks.

Start Date (MM/DD/YYYY): 7/1/25

End Date (MM/DD/YYYY): 06/30/27

Replace existing application? No

Upgrade existing application? Yes

Development of new application? No

Anticipated Benefits*: Needed upgrades and vulnerabilities would be remediated.

Project Risk*: We would continue to operate under old technology posing substantiate risk for data breach.

Issue/Solution*: Funding will mitigate the risk.

Public Safety - IT Equipment (Priority: 57)

	2023-25 Agency Request				2023-25 Executive Recommendation			
	Ongoing	One-Time	Total	FTE	Ongoing	One-Time	Total	FTE

530 Corrections and Rehabilitation

Agency 530

Is this a Large IT project? Yes

Is this request for a new program or service? No

- Request explanation and justification (include any statutory authority)*:**
1. JRCC Control Room Remodel - The current master control room at JRCC was a retro-fitted room
 2. Small UPS Battery Replacements - We have many singular computer batteries on critical computers that are not protected by a facility wide UPS system.
 3. YCC Keywatch Board Replacements - Need to upgrade boards in the current YCC Keywatch system to keep it operational and add additional expansion for more devices and keys.
 4. MRCC Keywatch - Need another cabinet for more keys and devices. Their current system is at capacity.
 5. MRCC UPS replacement - The current UPS cabinet is near end of life and has had all available extended life work done possible. It is time to replace it with a new system.
 6. NDSP Keywatch - NDSP would like another Keywatch cabinet for additional storage capacity.
 7. NDSP Motion Detection - Roofline - There is currently no motion detectors on the infirmary roofline. We currently have no way of knowing a resident is up there.
 8. NDSP Motion Detection - Tunnels - There is currently no motion detectors in the tunnels at NDSP. We currently have no way of knowing if a resident was in the tunnel.
 9. YCC Door Card Readers - Add badge door card readers to extra doors to avoid having to carry keys.
 10. NDSP Intercom and Speaker for Recreation Areas - Current system is hard to understand and at times does not work on some speakers.
 11. NDSP West Unit Intercom/Sick Call System - The older server for this has died and went away, but the core comms of the system still partially work. Parts are hard to find and some areas at stopping to work without the ability to repair.

Necessary resources for implementation (including FTE's)*: Funding

Are resources being redirected or are they new or additional (including FTE's)*: Additional funding needed

Who is served and impact of not funding*: Resident and staff security is impacted and ultimately the general public.

Start Date (MM/DD/YYYY): 07/01/2025

End Date (MM/DD/YYYY): 06/30/2027

Replace existing application? Yes

530 Corrections and Rehabilitation

Agency 530

Upgrade existing application? Yes

Development of new application? No

Anticipated Benefits:* Enhancement with our security technology and infrastructure which in returns supports the safety of our clients and staff.

Project Risk:* Operating with outdated technology comes with assumed risk to safety.

Issue/Solution:* Funding will mitigate the risk.

State Initiative:* State Facility Investment

Start Date (MM/DD/YYYY): 7/1/2025

End Date (MM/DD/YYYY): 6/30/27

Description: House Bill 1015 Section 5 states:

530 Corrections and Rehabilitation

Agency 530

It is the intent of the sixty-eighth legislative assembly that the sixty-ninth legislative assembly appropriate \$30,000,000 to complete the construction of the new women's prison facility at the Heart River correctional center, for the biennium beginning July 1, 2025, and ending June 30, 2027.

Women within the ND Department of Corrections & Rehabilitation are currently housed in Mandan at the Heart River Correctional Center (HRCC) and in New England at the Dakota Women's Correctional and Rehabilitation Center (DWCRC). The department will move the women from New England to the new facility on the HRCC campus in Mandan so that women can be closer to a wider variety of community resources, and family support -

and in a facility that is not only sized appropriately but is respectful to the women in the care of the department. DOCR is committed to collaborate with DWCRC to assist in an appropriate use for the facility. It should also be noted that DOCR also has women on inmate status living in re-entry centers in Mandan, Bismarck, Fargo, and Devils Lake - all of which are important partners and are relationships that DOCR plans to maintain.

An additional \$5,635,000 is for mechanical vestibules, interior food coolers, expanded RRI building, overnight visitation and outdoor space costs that are necessary to add back into the project.

The market conditions in the state have been on an upward trajectory for some time. This is represented by more construction volume or under development in the State of North Dakota than the major population centers in Minnesota combined.

The local trade contractors and suppliers have indicated that their capacity for acquiring, or the pursuit of new work has been reduced as they do not have the personnel to adequately staff those projects. This can be dependent on the project type, size location, etc. Smaller projects (under \$5 to \$10 million) have not seen as dramatic an impact as there are smaller firms that can still perform, but this too has put strain on the craft workers in the state.

As a result, the industry is experiencing significant cost increases in the state. This is manifested in higher wages (to attract labor) or the utilization of traveling workers that demand a higher wage.

These items also raise the risk profile of the work and cause costs to rise to mitigate those risks. It is our experience that this increase on average is 15% to 20%. This is over and above the escalation included in the alignment report. For the Heart River project, this equates to an approximate range of \$20.5-\$27 million. In order to maintain the original budget, the team has reduced project complexity and amenities, and slightly reducing project scope.

End Date (MM/DD/YYYY): 6/30/27

Description: The DOCR is currently pursuing/exploring additional housing unit options at our Missouri River Correctional Center located in Bismarck, ND. Our current male capacity is 194. This past year the DOCR has explored numerous options to include County Jail/Out of State placement, converting existing MRCC space into housing units, and the purchase of separate housing & programming space. The additional housing units would increase the MRCC capacity by 88 and raise the population from 194 to 282. This space would require 2 additional housing units and 3 additional programming buildings.

Description: The current building dates to around 1912 and is the oldest occupied building on campus. The building houses 3 firetube low pressure steam boilers that supply the facility with steam heat. The building also includes a System Mechanic office, workshop, several storage areas, ¾ bathroom, Plumber office, workshop, and storage areas. We have had structural engineers out to YCC on several occasions to look at the building foundation, brick work, and cracking in the walls. The walls are leaning inward, and the foundation is sinking on the south side of the building. Extensive cracking in the walls and water damage in several areas of the roof/ceiling. Wooden vertical support beams in the plumbing shop have ¼" cracks that travel the length of the beam. This building is vital to the mission of both HRCC and NDYCC. Without this building, HRCC and NDYCC cannot function.

A structural and replacement report from ICON Engineering is available per request.

530 Corrections and Rehabilitation

Agency 530

Justification: The intended purpose of the Millimeter Wave Body Scanner at NDSP is to increase controls over contraband being brought into the facility. The body scanner would allow us to perform less intrusive, but, more thorough searches on visitors, contractors, and staff entering the facility. This technology will allow us to implement a more in-depth staff search process with a non-intrusive full body scan to search for contraband.

Total					-	-	-	-	90,926	-	90,926	-	90,926

State Initiative:* Other

Justification: JRCC, NDSP and YCC are in need of some end of life kitchen equipment.

JRCC is in need of 4 ovens. The current ovens are several decades old and replacement parts are becoming unavailable.

YCC is in need of mixers, oven and pots/pans. These current items are old and need replacing.

NDSP is in need a burger patty maker. This saves time.

NDSP Mail Scanner (Priority: 65)

Description	Fund	BU-Dept	Fin Class	Account	Est. Useful Life (Years)	2023-25 # of Items	2023-25 Unit Cost	2023-25 Optional Request		2023-25 Total Budget Request		2023-25 Executive Recommendation	
								Ongoing	One-Time	Ongoing	One-Time	Ongoing	One-Time
	001	530-0330	53077	691000	10	1	145,427	-	145,427	-	145,427	-	-
Total					-	-	-	-	145,427	-	145,427	-	-

State Initiative:* Technology Investment

Justification: The mail scanner has the ability to screen incoming mail for contraband such as drugs or other items that pose a threat to the safety and security of the insinuation, the staff, and residents. The scanner has the ability to detect treated paper or paper that has been soaked in substances like synthetic marijuana. The mail scanner can identify the treated paper without having to open the item and potentially expose staff to a harmful substance and stop contraband from coming into the facility. Currently, at NDSP, the shift Lieutenant's are spending approximately 2 hours per shift processing legal mail for residents. The screening process includes opening the letter, searching for contraband, copying the contents, and then shredding or mailing out the original letter. The mail scanner could eliminate the legal mail scanning process, increase the safety for staff and residents, and save staff time.

Total					-	-	-	-	56,000	-	56,000	-	-

State Initiative:* Other

Justification: These vehicles would be utilized by Maintenance & Security Staff for the purposes of property checks & maintenance activities. The property area of the MRCC is currently all river bottom land and heavily wooded area. Staff currently have to utilize state fleet vehicles to check this property resulting in damage to said vehicles as they are not properly equipped for this task. These UTV's would also replace two state fleet vehicles resulting in long term savings to the state.

530 Corrections and Rehabilitation

Agency 530

Kobota Tractor Accessories (Priority: 75)

Description	Fund	BU-Dept	Fin Class	Account	Est. Useful Life (Years)	2023-25 # of Items	2023-25 Unit Cost	2023-25 Optional Request		2023-25 Total Budget Request		2023-25 Executive Recommendation	
								Ongoing	One-Time	Ongoing	One-Time	Ongoing	One-Time
	001	530-2410	53077	691000	10	2	-	-	13,000	-	13,000	-	-
Total					-	-	-	-	13,000	-	13,000	-	-

State Initiative:* Other

Justification: Front End Loader for existing Kobota Tractor (NDSP) (\$10,000) - The NDSP currently only has one front end loader for the purposes of snow removal. A loader on our existing Kobota Tractor would save operation hours on our larger Case loader resulting in savings to the state while also providing redundancy with regards to snow removal and other tasks at this facility.

Replacement Deck Mowers for small Kobota Tractors at NDSP (\$3,000)- The mower decks on the two small Kubota lawn tractors need replacement.

Skids Steer (Priority: 76)

Description	Fund	BU-Dept	Fin Class	Account	Est. Useful Life (Years)	2023-25 # of Items	2023-25 Unit Cost	2023-25 Optional Request		2023-25 Total Budget Request		2023-25 Executive Recommendation

Total				-	-	7,000,000	-	7,000,000	-	7,000,000

State Initiative:* Other

Explanation / Justification: The allocation of state budget appropriations is critical for maintaining essential services for victims of crime, particularly in light of the recent reductions in VOCA (Victims of Crime Act) Federal grants. Over the past two years, the North Dakota Department of Corrections and Rehabilitation (ND DOCR) has experienced a startling 40 percent decrease in federal funding. This substantial reduction has placed an immense strain on the 44 subrecipients that rely on these funds to deliver vital services to victims across our communities.

The VOCA funds are instrumental in supporting a diverse range of services, including crisis intervention, counseling, legal assistance, and advocacy. These services not only help victims recover from their traumatic experiences but also play a crucial role in fostering community safety and resilience. As the federal funding diminishes, the ability of these organizations to provide effective support is severely compromised, risking a gap in services that could leave vulnerable populations without necessary resources.

To mitigate the impact of reduced federal funding, it is essential to secure state budget appropriations that can bridge this financial gap. By investing in these services at the state level, we can ensure continuity and stability in support for crime victims, uphold our commitment to justice, and promote healing within our communities. This funding will empower subrecipients to maintain and potentially enhance their services, ensuring that no victim is left without the help they need during their time of crisis.

530 Corrections and Rehabilitation

Agency 530

In conclusion, the reduction in VOCA federal grants necessitates a proactive response through state budget appropriations. By prioritizing funding for victim services, we can uphold our moral and civic responsibility to support those affected by crime and strengthen our collective effort towards a safer, more just society.
